Full List of the Chicago Players' League Club.

ANSON'S PROMISING TEAM.

John L. Sullivan Declares Himself to the California Club.

THE SPORTING NEWS OF THE DAY

BFA full list of the probable makeup of the Chicago Players' and the National League clubs is given. The former looks exceedingly strong, Comiskey having signed with it. John L. Sullivan sends his ultimatum to President Fulda. Manager Hanlon talks about Carroll's contract.

CHICAGO, January 17.-The following is the official recapitulation of the present status of the Players' League and League Baseball Clubs:

The White Stocking team of the Players' League, was completed this afternoon by the signing of Comiskey. The lease for the new grounds has also been signed. In personnel the team is an exceedingly strong one, and that it will present, when the season opens, talent sufficiently well-known and appreciated to draw crowds to the games may be seen from the following hitherto unpublished list of players who signed in the order named:

THE PLAYERS' LIST, James Ryan, center field, Fred Pfeffer, se ond base; Ed Williamson, shortstop; Charles Bastian, substitute for second or third base; Walter Latham, third base: Mark Baldwin, Charles King, John Tener, Frank Dwyer and Charles Bartson, pitchers; Del Darling, Charles Farrell and J. Boyle, catchers; Hugh Duffy, right field; George Van Haltren, left field and pitcher; Tip O'Neill, left field; Charles Comis-

key, first base. Comiskey will captain the team. Tener's contract is conditional upon his concluding to play. It is thought he will do so, but he has not yet decided. Should he do so, the White Stockings will have him. Bartson is a young man, 22 years old, and from Peoria. When the players went through the country Bartson was in the pitcher's box in Peoria, and retired every one of the big hitters, and so captivated their admiration that he was secured as soon after as

WILL HELP WEAK TEAMS. "Tip" O'Neill is from the St. Louis Browns, and is a very heavy hitter. This list gives the ciub 17 men. Should any desirable talent be found lying around loose it will be brought into the fold, and should any other of the Players' League clubs be found weak, assistance from the White Stockings will be given it, provided the player chosen should be willing to make a

If he should object, he will remain where he is. The grounds are well located. They belonged to the old Wentworth estate at Thirty-fifth eet and Wentworth avenue. They are 450 feet wide. The main entrance will be on Thirty-fifth street. The grounds are clear and have been put in charge of William Houston,

the old ground keeper for Spalding. EXCELLENT GROUNDS. Very little filling in will be required, and when sodded the field will be in excellent shape. According to the plans which are drawn the grandstand will face north, and will have a seating capacity of not less than 5,000. There will be no bleaching boards, it having been decided to put all the seats under cover. The total seating capacity will be 8,000. The modes of transportation will be numerous, and there

in 20 minutes, and special trains on the Lake Shore and Michigan Southern, Chicago, Rock Island and Pacific on one side of the grounds, and the Pittsburg. Fort Wayne and Chicago on the other in ten minutes. ANSON'S PROMISING VOINGSTERS The Chicago National League team consists at present of the following 12 men: Anson, first base and captain; Hutchinson, pitcher; Burns, third base; Nagle (from Omaha), catcher; Kittredge (from Quincy), catcher; Sullivan (from ton), pitcher; Conghlin (from San Fran-Boston), pitcher; Coughlin (from San Francisco), pitcher; Earl (from Milwaukee), second base; Cooney (from Omaha), shortstop; Wilmot (from Washington), left field: Lauer (from Pattsburg), catcher and fielder; Garvin (from New Castle, Pa.), shortstop and second base. "Beside these," said President Spalding, "we will engage a couple of fielders, another infielder and possibly another pitcher. I shall, the latter part of February, send the team to Hot-prings for a month or six weeks, and perhaps after that send it on a short trip through the South. As to the latter, however, I have not fully decided."

THE OTHER CLUBS.

The other clubs in the Players' league are about as fortunately situated. The Buffalo club will occupy the old grounds used by White and Rowe; Pittsburg has the Exposition Park; New York has the lease signed and plans per-fected for grounds on St. Nicholas avenue and One Hundred and Fifth street; Boston will have perfectly equipped grounds on Congress street, eight minutes' walk from the city's center; Philadelphia, Forepaugh's Park, which will be fitted up at a cost of \$7,000 subscribed by seven railroads running to it; Brooklyn has been given grounds by the Brooklyn Elevated Railroad, and Cleveland has the park on the railroad.

outcome of the Ward litigation will, confidently bolieved, be in favor of Should it not be, Ward will confine if to managing the Brooklyn team, the rest of the players continuing at their work and fighting individually whatever suits may be prought against them. It is claimed that the National League hopes for a decision against Ward, not alone for the disadvantage it will be to him, but the probability of its so scaring the other players of the Players League as to cause them to break for cover in the National League. This, however, the players' directors laugh at. They have not had a desertion yet, due, they claim, to the manily manner in which

CARROLL'S SALARY. Manager Hanlon Gives a Pointer Regarding

the Catcher's Terms. king of Carroll's new League contract yesterday Manager Hanlon said:
"Carroll and I had no talk about salary at all.

He simply signed in accordance with the Brotherhood agreement that each player gets the same amount of salary this year that he received last year. The contract does not provide for anything more than that, and Carroll is per-fectly satisfied."

It is understood that Carroll's salary last sea-son was \$2,800.

Non-was 22,000.
Yesterday afternoon Managor Hanion stated that it has been definitely arranged to have three entrances to the new ball grounds. One will be near the end of Union Bridge and the others will be somewhere near the present en trances to the park.

Fred Carroll is now aspiring to prominence as an exponent of the "manly art." During his stay at 'Frisco he has become an enthusiast in that line of spot. Last evening he was in that the of spot. Last evening he was "tried" by a local colored boxer, and Carroll used right and left so effectively as to knock his opponent clean through the partition of the room. Carroll's style is entirely Australian, and he is thought well of by the California Ciub members.

Gerting Rendy or Princeton

PRINCETON, January 17 .- Charles Reilly, who played third base on the Columbus nine last season, is coaching the Princeton men in usually large number of good men working for positions on the nine. Five are trying for the position of catcher, four for that of pitcher and 25 for various positions in the field.

Boston, January 17 .- Harry Stovey, of last season's Athletics, who recently signed with the Boston Players' League club, writes Di-rector Hart that he has no intention of break-ing his contract. He says he has no particular fault to find with the Athletics, but when he signed with the Brotherhood he did it "for keeps."

Telling What May Happen. PRPECIAL TELEGRAM TO THE DISPATCE. St. Louis, January 16.—Aaron Stern, President of the Cincinnati National League Club, arrived in the city this morning. His mission is understood to be to induce Latham to jump his contract with the Chicago Brotherhood team and sign with Cincinnati. It is stated that Stern has offered him a fabulous salary and there is no telling where Arlie may play next season. He has already received \$600 or \$700 advance money from the Chicago Brotherhood Club, and telegraphed from Portland, Ore, for more. They were slow in sending it, and Latham had left Portland before a telegraphed money order reached there, so that he is probably in a good frame of mind and pocket to make the jump.

Latham has squandered all the money sent him, and will probably get through several hundred dollars before the season opens. He is expected to arrive here to-morrow.

COMISKEY COMES HIGH. A Salary of \$5,000 and a Slice of Club

Stock About His Figures. CHICAGO, January 17 .- Charles Comiskey. formerly of the St. Louis Browns, set at rest to-day all doubt as to his position in regard to the Brotherhood by signing a contract to cap-tain, manage and play first base for the Chicago Players' team. The terms of the contract are private but it is understood that he is to reive \$5,000 a year salary and a slice of club stock.

Comiskey will attend a meeting of the directors Monday, when the future policy of the club will be outlined and something definite decided upon regarding the projected trip through the South.

He Won't Meet Juckson for Less Than a \$25,000 Purse. SAN FRANCISCO, January 17 .- The prospects

for the Sullivan-Jackson fight in this city are not so bright as they were. The California Athletic Club offered a purse of \$15,000 for the fight and cabled Jackson to that effect on Monday night. This, it was believed, would be satisfactory, as Director McLaughlin had seen both Sullivan and Jackson, and arrived from the East but a few days ago, believing that the matter was all arranged. Sullivan has knocked over all plans by sending the following dispatch to President Fulda:

Will make no arrangements until through with the Mississippl authorities. Final and last-terms are \$25,000 to meet Peter Jackson. JOHN L. SULLIVAN.

President Fulda says be is disgusted with the behavior of the big champion. More than a dozen telegrams have been forwarded to him, and only two have been answered by himself. The first said that he would fight for \$20,00, and the second was received to-day. All other answers were received from alleged backers and editors of Eastern sporting journals. Sullivau gave his word to Major McLaughlin that he would come to California for \$15,000, but he has undoubtedly been influenced by outside parties since the Major's departure.

He was at the Duquesne Club last evening prior to his departure to Philadelphia, and when he left with a messenger boy carrying his valise, he in-reduntarily exchanged umbrellas with a club member. He discovered the mistake at the depot, and hustled the leaden-heeled Mercury depot, and hustled the leaden-heeled Mercury of the messenger service back to the Duquesne Club with the wrong umbrella, in quest of the right. The minutes wore on, and Mr. Berry grew nervous. The Eastern express finally got the gong signal, when something small and blue dashed up to the fence, and stuck the umbrella through an aperture. Mr. Berry threw the contents of his pocket at the phenomenon, grabbed his prized umbrella, and made the train.

The verdict the jury returned was for unlawful cutting; and the people of this county, owing to the atrociousness of the assault, fully expected that Judge McClean would impose the full penalty allowed in such cases. open judgment and let him into a defense. The petitioner, it appears, gave his note for the above amount to W. T. Lantz, cashier of the now defunct bank.

Mr. Lantz wanted the money for his own personal use, and, as he said at the time, he needed it badly. The note was discounted by the Farmers and Drovers' Bank, and the stockholders have brought suit to recover. It appears that Mr. Lantz, who was one of the principal stockholders of the Laramie Plans Land and Cattle Company, of Wyoming Territory, gave, as security to Mr. Adamson, two notes on that company—one for \$2.000 and another for \$3.000. Since that time the cattle company has failed, and the notes are worthless, and Mr. Adamson is out that amount. The petitioner alleges that Mr. Lantz secured the money by false representation; that the said money was drawn with the full knowledge of the other officers of the bank, and therefore he alleges conspiracy, and prays the court to restrain officers of the bank, and therefore he alleges conspiracy, and prays the court to restrain said bank from collecting said money. He also alleges that the officers of the bank knew at the time Lantz drew the money he was insolvent, and that Adamson could not recover his money. Petitioner also believes that his associates on the note at the time they signed it, were largely involved in the Laramie Plains Land and Cattle Company, and other Western enterprises with W. T. Lautz et al., and were indebted to said plaintiff bank personally and as bail in a very large sum of money, partly in excess of all the means of each and all of them, so much so that they were all practically insolvent. As the party neared the Morreliville crossing the approach of a freight train compelled them to take the west-bound track. They had been on this track but a few moments when the New York and Chicago limited, West, running at the rate of 40 miles an hour, dashed upon them. The two boys were hurled from the track and instantly killed. Mrs. Stackhouse was thrown in the air and fell on the track in front of the train, and was horribly;mangled. VA., January 17 .- The property of Mrs. Drucilla McWha, who, with her daughter, was murdered by her sen-in-law, Dan Baker, nearly three years ago, was dis posed of at executors' sale yesterday. Quite a large crowd was present, many of them out of curiosity. The goods sold at pretty fair prices, notwithstanding the terrible fate of the former

owner.

Quite a number of strangers were present, and the bidding at times was rather spirited. The piano sold for only \$80, but the bedclothing, etc., brought good prices, some of the quilts selling at \$3.50. The total of sale of chattels was over \$400. The house and lot will be sold at private sale.

On this point many of the most prominent attorneys all agree that within their knowledge the sentence is without warrant of law. The excitement has been running high here all day. District Attorney Penuell arrived home this evening and said that he insisted on the Court passing sentence on the prisoner, giving him the limit of the law allowed in such cases.

WILL BUILD A CLUBHOUSE.

Future Plans of the West Park Members of Allegheny. Neat little notes were received some few days ago by the members of the West Park Club in Allegheny which ran as follows: "A special meeting of the members of the West Park Club will be held on Wednesday, January 15, 1890, at 8 o'clock P. M., to consider purchasing property for a clubhouse." Issued by order of Beard of Directors. A full attendance of the club was the result, and the proposed new club house was forthwith immediately built in imagination, and the Board of Directors

were instructed to make arrangements to have it built in reality. The club, which is now composed of about 100 members, residents of Allegheny, in the vicinity of Irwin and Western aven its present quarters at the corner of the two named avenues. It is a strictly social club, no restaurant or bar, but members meet for playing cards, billiards, pool, etc., etc. A handsome little club house is a feature of the not distant future.

The City of Washington Gaining Some Converts Among Rastern Men.

Chicago yesterday lost the points she had gained in Congress on the World's Fair question. The original resolution, for the Speaker to appoint a committee of nine, to whom shall be referred the entire question, was carried. Washington is gaining some converts, one of them Congressman Belden of New York.

PROM A STAFF CORRESPONDENT. 1

WASHINGTON, January 17. - Very quietly to-day the House retraced its steps of vesterday in the matter of the World's Fair Committee, and adopted the originaresolution for the appointment of a commit tee of nine, which shall take charge of the problem and even decide, if it so chooses, where the fair shall be held, if held at all. While the prevailing opinion is that the committee will not be willing to assume the responsibility of selecting a site, many think it will be forced to do so, if the exhibition is to be heid at all. If the committee merely reports a bill providing for the Gov-ernment exhibit, and leaves the choice of a site to the House, the wrangle will be endless. Those who are outside the scramble, therefore, believe that this committee will finally be forced to report a bill appropriat-ing money and providing a management for ported favorably by the committee, the measure would doubtless receive the seal of the House's approval.

EASY TO FIX IT. This being the fact, the constitution of the select committee on the World's Fair is a matter of the utmost importance to those interested in the project. Scores of mem-bers have not expressed a preference, and from those whose opinions are unknown, Speaker Reed may easily pack the commit-tee in favor of any one of the cities which have been struggling for the honor of possessing the tair. All that would be necessary to enable him to do so without laying himself liable to a charge of pre-judgment would be to have some friend sound the whole of the list of members from which he proposed to select the committee o

Naturally, the Speaker would favor eithe New York or Washington as the cities mos convenient for the masses of New England with which he is in sympathy by reason of taste and locality. It is said by some of his most intimate friends that his own preference is for Washington, because it is the capital of the country, the center of political and diplomatic America, the residence of all the high officials of the country, and UNIONTOWN. January 17.—The reports and unpressed and unpre publics, upon whom it is important the best

NOT AT ALL NEW. If this be the feeling of the Speaker, he will probably exercise the same judgment as he does in constructing other commit-tees, for the accomplishment of a certain purpose, and create a body whose report will favor the site of the National Capital. The one great obstacle in the way of fixing upon Washington is the fact that Con-gress from the outset would have to look in the face a provision covering the entire cost of the exhibition. A great sum, \$15,000,000 or \$20,000,000, would have to be appropriated, out of which the vast preliminary expenses would be paid. Timid Congres men fear that to vote such an outlay would not tend to enhance their re-election this year. It would be used in convention to prevent their nomination, and on the stump to insure their defeat. They fear the people

would take a narrow view of the matter and fail to indorse them.

Of course they all know that with the present population and the tremendous influx of visitors from foreign countries, the exposition would repay every cent of outlay, which would be covered into the Treasury, but the expenditure would begin at once, while the reimbursements would not come for two years, and in close districts this would probably be sufficient to defeat the enominated Congressman who should vote

the gigantic appropriation. CONVERTS TO WASHINGTON. Notwithstanding this timidity, a number of Congressmen have recently been con verted to the Washington view of things Most prominent of these is Representative Belden, of the Syracuse district in New York, and the "boss" of the New York del egation. He not only believes that Washington is the proper place for the exhibition but that the selection of Washington is the only solution of the tangle between the other cities. But Mr. Belden, with his millions and a big Republican majority, could easily accomplish his renomination and election where many other less fortunately situated would join Mr. McGinty. It is estimated that there are 100 Members of the House who would

refuse to vote any appropriation larger than the small one necessary to conduct the Gov-erament part in the affair respectably. It is said there are 50 members who are wholly opposed to the entire project. This, and the bitter struggle between the four cities, incline nearly every member who is not an excited champion of one or the other of the cities to a belief that there will not be a fair at all unless some one of the cities goes into the scheme on its own

THE FAIR PLAN. It will be urged upon Speaker Reed that he appoint on the special committee two members to represent each one of the cities contesting, and one who has no opinion, or whose opinion is unknown. If this be done, a selection of a site by the committee will probably be found impossible, and the impossibility will be tenfold intensified if the question is remanded to the House. From any point of view the chances of having a '92 fair anywhere in the United States are diminishing rather than increas-LIGHTNER.
