DEATH AT ECONOMY

Jonathan Lenz, One of the Pioneer Organizers of the Society.

DIES AFTER A BRIEF SICKNESS.

He Had Attained the Patriarchal Age of

Eighty-Two Years.

The death of Jonathan Lenz co-trustee with Jacob Henrici of the Economite Society, leaves but one pioneer of the organization alive. The illness of Mr. Lenz the disease developing into acute pneumonia. Though the junior trustee, Mr. Lenz had passed the ordinary life boundary by 12 years, being in his 83d year. With

society known for many years past as the Though gentle in demeanor and very tolerant toward the world at large, Mr. Lenz was a firm adherent to the principles of the unnatural state of society which has reached its full development at Economy. The writer had a conversation with him last summer, in which the venerable ascetic strongly condemned the views of the author when based on the faith taught by Jesus Christ. He said a true Economite only lived and labored to prepare the world for the second advent of Christ. He was a man of generally broad views and liberal educa-tion, but he could not be persuaded that felicity could be founded on any substructure of human contrivance.

A NEUTRAL DIGNITY. He was born in Germany. Notwithstand-ing his antiquated style of apparel, Mr. Lenz was clothed with a natural dignity no signs of snow. A storm center is form-united with benevolence, apparent at a glance, that enforced respect wherever he went. He had charge of the agricultural and general home interests of the society, while Mr. Henrici looked after its concerns where they came in contact with the great outside world. The habits of the Econoites are not calculated to make them genests of \$15,000,000 to \$20,000,000 worth of representatives, it is unnecessary to speak,

A NEW LEADER NEEDED. Miss Gertrude Rapp was a valuable connselor, and the past year has been memorable for the demise of pioneers in the institu-tion. The venerable triumvirate, some months ago, feeling that the sands of life had run quite low, decided that some one of vigor should be chosen to fill the gap which death was certain soon to make, and going about the work as did "the Eleven," the lot fell on George Kirschham, and he was numbered with the three pioneers. He was soon after killed by a gas explosion, and Mr. Ernest Woelfel was chosen to take

It is related by Mr. Lenz that he once, nearly 40 years ago, fell in love with a young lady in the upper oil country and his young lady and his young l ove was reciprocated, but that after many expostulations and spiritual wrestlings, Mr. Henrici brought him back to the fold, and that the experience so affected Mr. Lenz that his triends had him confined in Dixmont for several months until the fervor of ary 30, at the low rate of \$9 for the round

Persons who have a cold are much more

likely to take the influenza or so called, la It is much more severe when accompanied by a cold.

The most critical time is when recovering from the disease, as slight exposure will often cause a relapse and that is almost certain to end in lung fever or pneumonia. The feet should be kept dry and warm, the body well clothed and care used to avoid The bowels should be kept regular and

persons physically weak should take qui-nine to keep up the vitality. With these precautions and a free use of Chamberlain's Cough Remedy a prompt re-covery is reasonably certain. That remedy is unequaled for a severe cold and this esse requires precisely the same treat-

A fact came to our knowledge a few days ago. A man had been keeping in his home nearly \$1,000 in gold. He was more tortunate than many who do such a foolish thing. such people, who do not have faith enough in banks to deposit their money in them, or who do not make use of the protection offered by The Saie Deposit Company Of Pittsburg in its burglar-proof vaults, are very likely \$1 25, at Rosenbaum & Co. to have their valuables taken by robbers, who are ever on the alert. There is always a recognized necessity in every thickly set-tled neighborhood for a place where valuables of all kinds can be stored away with saftety. To meet this want in our community The Safe Deposit Company Of Pitts-burg was incorporated in 1867. This company, thus established in our city more than 20 years ago, offers to the public a sure protection in its burglar-proof vaults for the safe keeping of bonds, stock certificates, ords of all kinds, silverware, jewelry and all kinds of valuables. In view of the fact that a great risk is run by everyone keeping valuable articles in offices, and especial in dwellings, it does seem to be the wise and prudent thing to do to secure a safe or have valuables stored away in the vaults of The Safe Deposit Company Of Pittsburg. ty is thus secured, and at a small expense in comparison with the risk of having valuables stolen by robbers or destroyed by fire. Think of these considerations and act accordingly.

Natural Gas Supply Almost as Low as the Mercury-School Children Nearly Frozen Out-Probability of the Continuance of the Chilliness.

About 7 o'clock yesterday morning the mercury in the thermometer in the Signal Service Office touched the 110 mark, and at 7 and 8 o'clock, when the stores were opened, the clerks shivered and shook while ing their lords and masters that the gas had SPECIAL SOUTHSIDE ISSUE PUBLISHED CHARACTERISTICS OF THE DEAD MAN gone out and the babies were freezing. About 10 o'clock the gas in the Third

ward school, on Grant street, suddenly disappeared. The rooms soon became too cold for the pupils to remain in their seats, and the principal ordered the teachers to allow them to put on their wraps and walk about was of short duration, he having been pros-trated by influenza less than ten days ago, o'clock, just after the principal had decided to dismiss the scholars, and the studies were resumed. A number of lamilies in the neighborhood of the school were without gas at the same time.

The assistant general superintendent of the exception of President Henrici, Mr. the Philadelphia Company, R. G. Gillespie, Lenz is the last of the original Harmonites when asked if an unusual number of com-who, with George Rapp, organized the plaints had been received, replied:

"There is always a scarcity of gas when the weather suddenly becomes cold, but the the weather suddenly becomes cold, but the number of complaints we have received is JACOB SPOHN, No. 2 Carson street. comparatively small. I expect, of course, the people in the suburbs and some of the mills may be somewhat inconvenienced for a short time, but it is nothing more than we expect at such a time as this. Very often the scarcity of gas is due to some local trouble like the freezing of "Looking Backward," as he, Lenz, held that unsullied socialism could only exist of gas, but it always contracts in very cold weather. We will not know just how many were without it entirely until the daily reports are handed in to-morrow morning."
The Equitable Gas Company, which sup-

plies a large number of mills along the Allegheny river, had plenty of gas yesterday, and had received no complaints up unil 4 o'clock in the afternoon. The Signal Service officers stated that the indications pointed to a continuation of the present cold weather for several days at least. The barometer is high, and there are
