The cast of characters embodied 17 persons-16 male and two female. Miss Mildred Ker, as the wife of the supposed murderer, carried the play chiefly on her shoulders, and the talent displayed showed her elecutionary ability as well as careful study of her parts, which was fully appreciated by the audience. Mani-ger Aronson, in his usual liberal manner, has taken every advantage of the opportunities, and as military spectacles are notably the most brilliant of all stage displays, we may prepare to see something that is, if it were possible, more gorgeous than any previous peoduction given by the management. The presentation will in every way be exactly the same as it was given at the New York Casino for 100 perform-ances. The stage effects including the grand military scene of the entrance of the French troops into the city of Milan, will be carefully duplicated in this city. This scene is said to be one of the most imposing military pictures ever seen in this country. The performers were more or less encum-bered by the small stage, as the limited space required the scenery to be made in sections. This, with other minor embarrassing circum-stances, somewhat marred the progress of the performances.
