Hogs in Large Supply, but Demand Good and Prices Higher.

SITUATION AT THE LIBERTY TARDS

OFFICE OF PITTSBURG DISPATCH.)

MONDAY, January 27, 1890. Sheep and lambs were in fair demand at last week's prices. Hogs were stronger at higher rates. Cattle were scarcely up to the average in quality, and prices were a shade lower than last week, excepting for choice grades of light butcher stock, which fairly held their own.

According to some reports these best grades of cattle were 10@15c higher than a week ago, a fact attributable to their scarcity.

Receip s of cattle were light, and demand

There were no strictly prime cattle in the offerings. What the Best Sold For.

The best grade of western beeves offered were sold at a range of \$4 85@5 00; fair to good heavy steers, \$4 65@4 75; prime lightweights, \$425@5 50; fair to good 60, \$3 75@4 00; common to fair thin and rough steers, \$2 50@ 3 50. Fresh cows were dull at the range of last week. Sellers asked \$35 00g45 00, but buyers could not be brought up nearer than \$5 less than these figures. Sales were reported at \$52 00g38 00. Calves were slow at a range of

586% per lb.

The deceased lived with his wife at No. 1 Ann street, and was slightly demented. Sunday night he wandered away from his home and went out into the yards, where he was killed. The case is one band's disappearance. She did not sleep a wink on Sunday night, but spent the entire night in trying to find him.

### MARKETS BY WIRE.

Wheat Touches the Lowest Point on the Present Decline-Corn and Ours Ensy -Hog Products Quiet, With Few Changes.

CHICAGO—After a temporary feeling of firm-ness at the opening the wheat market again became weak and prices ruled lower, touching the lowest point reached on the recent decline. The opening was about the same as Saturday's closing and advanced 5/c, but foreign market advices were again of an unfavorable tenor to holders, the visible supply did not show as large a decrease as had been expected, and there was a rumor that the Government erop report was out and showed an increase of 2 per cent in the acreage of winter wheat and condition 102 against 96 the corresponding time last year. There were some doubts of the reliability of this report, but nevertheless it had its effect. Prices for May declined 160%c, but recovered, and the closing was about the same as

Saturday. Corn-A moderate trade was reported, and the feeling was somewhat easier. Transactions \$100,000, but as he bad acquired them for were in the main local, and fluctuations confined within 1/21/10 range. Receipts were considerably in excess of expectations. The mar-ket opened at Saturday's closing, was steady for a time, sold off 1/61/2c, and ruled quiet, closing quotations being a shade below Satur-

day.

Oats were quiet and easy with a lighter volume of business in all deliveries. Most of the business was in May, but price changes were small. Japuary and February, although not offered with any degree of freedom, met with less demand. A weaker feeling developed and prices received \$654.

A quiet feeling prevailed in the market for hog products, and the changes in prices were slight. Offerings on speculative account were light both from local and outside sources, and

Straws show which way the wind blows in real estate as in other things. A prominent local capitalist of conservative tendencies, remarked yesterday that he could sell the properties which he had purchased within the last 12 months at an advance of his children, they were not in the market. This shows very clearly that he is not

afraid of a reaction. Another observation of interest in this connection was made by a McKeesport gentleman. He said suburban residence properties there, up to a certain point, say \$10,000, were higher than in the outlying districts of Pittsburg, and were being bought

up at a rapid rate. The most important item corraled on Fourth avenue vesterday was to the effect that Captain J. J. Vandergrift was negotiating for the lot light, both from local and outside sources, and the demand was confined to selling a few a frontage of 90 feet. One gentleman said he was confident the deal would be made, and that the price would be something over \$2,000 a

STILL GAINING.

The Upward Movement in Shares Gaining Headway-Chestauts Drawn Out-London Phinks Well of American Securi-Ities-Trusts Active.

NEW YORK, January 27,-In the stock market to-day additional evidence that a complete change has occurred in the temper of the speculation was shown, and the broadening tendency of the market, which was so marked last week, made further progress to-day, the dealings extending to a much larger number of stocks than at any time within the past year, while the interest was again monopolized by the low priced shares, and the business done exceedthat of any day for the past two months. A feature of the dealings was the activity among some stocks which have not been traded in to any extent in months, and the fact that the increase in the business was entirely among a new set of stocks, which with but few excep-tions, are low priced securities, was the subject of universal remark.

\*Ex-dividend.

At the first call 200 shares of La Noria brought ½, 183 Switch and Signal 16½, and 200 (Ceutral Traction 82½. After call 50 shares Chartiers Gas realized 40. At the last call 50 shares of La Noria sold at ½, and 5 Pleasant Valley at 23.

Andrew Caster sold \$1,000 Switch and Signal 65 at par and interest, 10 Chartiers Gas at 40½, and 10 Panhandle at 25.

The total sales of stocks at New York yester, day were 486,655 shares, including Atchison 18,

There was undoubtedly heavy realizing during the fact that the taking of profits on Saturday was of such magnitude, but the market continued to rise never theless, and new stock pressed forward to join in the upward movement and the undertone of the dealings was of the most pronounced strong character. The foreigners were sellers of the features of this insurance are very attractive, and these sales with the difference in rates for nothing during the fact that the taking of profits on Saturday was of such magnitude, but the market continued to rise never the same and defending you against accidents to your Employes and defending you in case of suit in Court for same cause. The features of this insurance are very attractive, and were 486,655 shares, including Atchison 18,-There was undoubtedly heavy realizing dur-

money at the two centers had the effect of stiff-ning up the rates for sterling sxchange to-day, which was also an element which worked against the natural tendency of the market. The foreigners, however, were buyers of their stocks later in the day, and especially of Louisville and Nashville. American stocks are the only securities which at present show any strength in the London market, and the disposition to buy them shows considerable increase since the rise started here.

Among the specialties Maphattan was the first feature, and it advanced nearly 2 per cent, but later drifted back, but the improvement was taken up by the bituminous coal stock,

first feature, and it advanced nearly 2 per ceut, but later drifted back, but the improvement was taken up by the bituminous coal stock, the East Tennessee, Hocking Valley, Louisville, New Albany and Chicago, Ubicago and East Illinois and others. In the generally active list, the coal stocks were inclined to weakness, and Lackawanna first led off with a fractional decline, followed by Delaware and Hudson, Jersey Central and Reading. The grangers were also rather sluggish in the carly dealings, but later there was a decided improvement, which was led by Burlington and Quincy, and Rock Island and St. Paul joined in. In the last named there was believed to be considerable covering. The Gould stocks were less prominent than last week, and the supply of stock was about equal to the demand.

The great feature of the day, however, was the renewal of activity and strength in Sugar Refineries and Lead Trust, the forenoon being specially prominent both for activity and strength. The dealings in the stock were accompanied by a renewal of the rumors of an arrangement with the outside refineries and also of the story of the resignation of the Havemeyers, which was again denied. The rise in Sugar was very rapid in the early trading, and it was thought in the crowd some of the seller 60 options put out at about 53 sometime ago were being covered, and from 59% at the opening it advanced to 62%, around which figure it was held during most of the remainder of the day, but in the last half hour it was pashed up further to 64 closing at the latter price.

Lead was not so active and made only a fractional advance for the day. The general list was more active throughout and fluctuated within narrow limits, but exhibited a strong undertone. The bears made a demonstration in the last hour, which with the realizations undertone. The bears made a demonstration in the last hour, which with the realizations caused a set-back all along the line, and the close, while active, was rather heavy. The great majority of the list are fractionally higher to-night.

The bond transactions extended to an unpresedented number of lawners. The market are

cedented number of issues. The market ex-hibited a uniform tone, and while there were a few losses at the end of the day, they were un-important and without effect upon the remainder of the list. The improvement reached all parts of the list. Peoria, Decatur and Evansville seconds rose 2 to 72 and Alton and Terre Haute dividends 3% to 53%.

Poultry and Eggs Are in Better Demand, but Unchanged.

GENERAL PRODUCE TRADE QUIET.

Light Receipts of Cereals, and Tone of Trade Improving.

HAY AND FLOUR ARE QUIETER

OFFICE OF PITTSBURG DISPATCH, MONDAY, January 27, 1890.

Country Produce-Jobbing Prices. The egg market is firmer than it has been for the past week, but prices are unchanged. Poultry is also in better demand. There is a great scarcity of fancy apples in our market, and prices are firm at an advance. Potatoes are steady. Choice stock, which is scarce, is firm at outside quotations. Onlons are in good de-mand. Cabbage are quiet, owing to large receipts of poor stock. Dairy products are little changed from last week. The tone of cheese markets is strong. Choice grades of creamery butter also give signs of improvement. Fancy Florida oranges are in good demand. Lemons are easier. Bananas are in good supply and drift of markets is toward a lower level. There is large room for improvement in all produce lines. All produce commission men report quiet markets,

The Reading Railroad reports that its coal shipment (estimated) for the week ending January 25 was 118,000 tons, of which 24,000 tons were sent to Port Richmond, and 15,000 tons were sent to Port Richmond, and 15,000 tons were sent to Port Liberty.

The annual statement of the Armenia Insurance Company shows a very satisfactory margin between earnings and expenditures, including not only a dividend carned, but a comfortable sum to be added to the surplus.

The annual statement of the Philadelphia Natural Gas Company was the topic of discussion on Fourth avenne yesterday. The great bulk of opinion was that the figures were by all odds the best the company had ever published, and show that it is in excellent condition.

The Pennsylvania Railroad reports that the quantity of coal and coke originating on and carried over its lines east of Pittsburg and Erie for the week ending January 18 was 356,311 tons, of which 245,833 tons were coal and 108,178 tons coke.

The report that the sale of Nos. 411 and 413 Smithfield street for \$50,000 would result in a lawsit, seems to be without foundation. A gentleman who knows all about the deal said yesterday: "Mr. Clark may claim that his purchase for \$70,000 is binding, but I think he will be bought off, and the Cleveland heir, who is in the city, brought over. It looks to me as if the \$10,000 advanced was conceded to bridge over this very difficulty."

—A new religious sect has been formed in the vicinity of Kansas City. The members are human vampires, the well members permitting themselves to be bled by those who are sick. -London is to have an Eiffel tower that will out Eiffel Eiffel. It is to be 1,200 feet high, overtopping the wonder of Paris by 200 feet. The company has formed, the stock subscribed and the contracts are being let.

—The Union Bridge Company, the largest concern of the kind in the world, is about to abandon its shops in Buffalo and concentrate its plant at Athens, Pa. About 350 Buffalo workmen will lose employment, and the works at Athens will be increased to employ about 800 men.

—Yesterday was the anniversary of the birth of Emperor William of Germany. It was ob-served in a very quiet manner. The Emperor received a number of Princes, Generals, and other high officials who came to congratulate His Majesty. He also gave a reception to 2,000 army officers.

army officers.

—The supposed discovery of the bacillus of influenza by Drs. Maximilian and Adolphe Jolles, of the Bacterian Laboratory of the General Hospital at Vienna, is not by any means a new one. In 1782 the influenza, as in the case of the present epidemic, traveled from East to West. Then the disease was supposed to have entered Russia from China, and no less a person than Kant professed to find its origin in an "insect (nowadays the word would be microbe) imported into Russia in a bale of goods from China.

-Near Downieville, Cal. during the recent storm an avalanche buried a house, and two of the inmates were killed. Many families at Sierra City, fearing another snowslide, have left their homes and taken refuge in the lower tunnel of the Butte mine. Two houses of the town are already reported to have been destroyed by slides. A Chinaman started from Starts City to his cable about a mile distance. Sterra City to his cabin, about a mile distant, but lost his way and perished in the snow, which lies seven feet deep on a level.
