# A PROSPECT FOR FUN.

Natural Gas Lighting to be Probed in the United States Court.

A RUSH OF LICENSE APPLICANTS.

The Wylie Avenue Gas Explosion Leads to Legal Contention.

The suit of R. H. Smith against the makers of artificial gas, for alleged use of his process for making an illuminant out of natural gas, now pending in the United work. Superintendent Hamilton, of the parks, States Court, and which will be tried in a | will have charge of the floral matters, and an few days, will be of widespread interest, as is comprehends as defendants about all the companies making, or supposed to be making, illuminating gas in the natural gas

Some time ago reference was made to the profits accruing to some gas makers, and then Mr. Smith stated that it wasn't any wonder they could make good dividends, and that their stock was 25 to 50 per cent above par, as they were elling their product on a profit of some 900 per cent. It is intimated that some gas works are cent, or intimated that some gas works are only operated in a sort of a way in order to cover their roal dealings in matural gas. This was in answer to a question as to why these companies, notwithstanding the competition of electric light companies, still thrive like willows by the water side. illows by the water side. Should Mr. Smith make his suit good there vill be a rattling among dry bones, and proba-ly the outcome will be the manufacture of gas or heating purposes, as some say it can be made at a profit at the price the natural made at a profit at the price the natural article now costs, and induce healthy competition. There is one question, however, that has not been satisfactorily answered, viz.: Where do all the candles solu go. They still rate as an article of prime necessity among wholesale grocers, and statistics showed that list year's output was greater than that of any previous year, and yet but a few seem to use them. They are said to be a staple article of diet among the Esquimaux, when they can get them, but that fact does not explain candle consumption, as our trade in that direction is

# A RUSH FOR LICENSES.

The Number of Applicants Will be Larger Than Last Year.

There was a rush to the Clerk of Courts' office yesterday by applicants to file their license petitions. Over 200 applications were filed yesterday. The cause of this rush was due to the fact that the statement had been given out that to-day would be the last one for filing applications. This, however, is not true, as Saturday is the last day, and Herk McGunnegle states that his office will be kept open until 6 o'clock on that day. be kept open until 6 o'clock on that day, in order to give everybody a chance. So far something over 1,000 updications have been filled, and the outlook is that last year's list, which numbered 1,300, wholesale and retail, will be beaten. Clerk McGunnegle states that the list will not be published before two weeks, as it will take that length of time to prepare it.

### AGAINST THE E PARTIES.

A Lawsuit is the Outcome of That Wylle Avenue Explosion.

Attorney John A. Wilson yesterday filed a McCoy and her husband, Robert McCoy: Bella Shallenberger and her husband, Frank Shallenberger, and Frances E., Blanche and licanor Glass and Mrs. Mary A. Glass against the Philadelphia Company the Central Trac-tion Company and th. city of Pittsburg. The damages claimed are for an explosion of natural gas that occurred some time ago, shattering the front of the house of the Glass family at the corner of Wylis avenue and Tunnel street. The gas had accumulated in the base-ment of the house and in the vault under the pavement, and exploded when the servant gril went to light the fires in the morning. The girl was badly injured and the house severely wrecked, the front being nearly blown out.

### A SUIT FOR DAMAGES.

Real Estate Agent Orr.

Another Step in the Proceedings Against W. D. Porter, Esq., yesterday entered suit on behalf of James Kelly and his daughter, Mary Kelly, against James L. Orr, the real estate agent, for damages, The damages are claimed for injuries to Mary Kelly, which she claims were committed by Orr. The girl is but 16 years of age. A capias was issued for Orr's arrest, the ball required being fixed at \$1,000. Orr was convicted of the offense and sentenced to the penitentiary. He is now out on ball on a special allocatur issued by the Supreme Court, and his case is awaiting argu-

# SPRINGS RHINED.

Damages Wanted From the Chartlers Valley Gas Company.

The cases of Nancy R. Collins and Mary J. suits are for damages for the alleged destruction of the purity of the water from the springs of the plaintiffs' farms. The gas company, it or the plaintins tarms. The gas company, it is stated, bored for gas on land adjoining their farms. The gas wells were not lined, and the salt water from them permeated the ground, and getting into the springs of the plaintiffs, rendered the water unfit for use. Eight other suits for damages for the same thing are await

### COULDN'T MAKE TERMS.

The Schooley Park Lessees Are Not Will-

ing to Give Up Their Farms. The Committee on Parks met in the City At-torney's office yesterday afternoon to arrange with the present tenants for the vacation of the farms included in Schenley Park. The tenants were present, and their leaseholds are as follows: John Smitt, lease runs 13 years; as follows: John Smitt, lease runs 13 years; Andrew Zender, one year; J. Snyder, one year: Louis Bier, six years.

The proceedings of the committee were conducted secretiv, but it is understood an attempt was made to make terms with tenants to secure the vacation of their leases by April I. The arrangement was not made, however, and an offer was made by the city which the tenants will have time to consider between this

ants will have time to consider between this and Saturday afternoon, when the committee will meet again.

Some of the Upper Locks Overflowed With Water.

The Monongahela river rose considerably vesorday and was still on the rise. There was very little done in the way of shipments, and if there had been anything to ship it is doubtful whether it could have been sent out. Several of the stations down the river were compelled to cease work, as the height of the water made to cease work, as the height of the water made it impossible to load the barges. Locks Nos. 1, 2, 3, 4 and 5 are overflowed. The river was 16 feet at Morganza, W. Va., Rice's Landing had 20½ feet and Brownsville 21 feet.

The coal men feet very blue over the continued culiness of the trade, and there seems to be no hope for any improvement in the near future.

### HIS RAPID RIDE.

William Weiksell Sails Through the Air

Hanging to a Trolley Wire. William Welksell, the motor man on the electric road on the Southside, had a strange ride the other day. He was trying to fix his trolley, near the top of the hill, when he slipped and fell off the roof of the car. He clung to the gum hose connecting the trolley with the car. t broke loose at the car end and started down ing to it flew down the hill at a terribly rapid rate for a quarter of a mile. He clung fast until the level was reached, when he dropped off, terribly pale, but uninjured.

### CROUP.

Some Reading That Will Prove Interesting to Young Mothers.

HOW TO GUARD AGAINST THE DISEASE, Croup is the terror of young mothers, especially during the winter months, as it is then most prevalent. To post them con-cerning the cause, first symptoms, treatment and how to prevent it, is the object of this

children that are subject to it take cold very easily, and croup is almost sure to follow. The first symptom of croup is hoarseness; it is a peculiar boarseness, easily recognized and once heard always remembered. Usually a day or two before the attack the child becomes hoarse and gradually shows symptoms of having taken cold, and this is where the mistake is usually made, the mother thinking her child has just taken cold gives it no especial attention until awakened in the night by the violent coughing of the child, finds it has the croup, and remembers it has had a cold or been hoarse for a day or two. Such circumstances often occur, and in many cases the mother has nothing in the house that will relieve it, and may be several miles from a physician Osborn against the Chartiers Valley Gas Com-pany are on trial before Judge Ewing. and They Will Buy. The managers of the Bethesda Home met yesterday in the Hamilton building. The report of the Committee on Site was received. the members of the Home would elect the President and Secretary. The annual meeting was fixed for the Tuesday following the first Monday of Jacuary and 20 members will constitute a quorum.

The report of the Committee on Site was then taken up. They have decided on a place that is in every way desirable for the purpose of their institution, and asked for instructions to purchase it at a given figure. They fear the price would be put up on them if the locality would be made known.

During a discussion as to raising the money to buy the place, Mrs. Moreland stated that the impression had gone abroad that the Home impression had gone abroad that the Home was only for fallen women. This she said was a mistake, as it is intended to shelter women who come here for employment and have no means to pay for a temporary home. The Committee on Site were then instructed to buy the property they had in view.

### AMATEUR COOKING.

The Grant School Papils Will Graduate on Saturday.

On Saturday afternoon the cooking class of the Grant School will have graduating exercises, and the pupils will show specimens of their skill in the culinary art. Prizes will be their skill in the culinary art. Prizes will be presented to the best bread makers and others proficient in the production of food from the raw material. Major Moreland, the City Attorney, will present the prizes and give one of his characteristically eloquent addresses.

The bread question is one which will claim the principal attention, and the Biblical idea of when a man asks for bread and receives a stone will be fully exemplified. The bread, of course, will not be judged by weight. An Italian Protest.

Alderman O'Donnell is withholding his decision in a case brought before him which possesses at least a novel feature in the method f collecting rents. An Italian woman claims to have been, with her children, locked out of to have been, with her children, locked out of the house which she had rented, and that in her absence \$59 was taken from her trunk. Mr. Taylor, the landlor d, claims that there was \$18 due him for rent, and that he took this way of getting it. A large crowd of Italians gathered around the premises when this became known, and vigorously protested against the treatment of their countrywoman. The Office Paid Well.

The receipts of the Mayor's office for the fiscal year ending January 31, 1890, as shown by the Mayor's books yesterday were \$49,072 25. The office did much better than was anticipated by the framers of the appropriation ordinances last year, as they only expected it to yield \$55,000, or \$14,072 25 less than it really did yield. Hope Nearly Abundoned.
