THE SPEAK-EASY WAR. County Detective Langhorst After Two Hundred of Them.

Politics Playing No Part. District Attorney Johnston Says No Distinction Will be Made.

Cassidy Keeping Both Eyes Open. It is apparent that the information made before Alderman Reilly Saturday afternoon against the 14 "speak-easy" proprietors are only the beginning of a general crusade against a class of citizens of which about 200 are liable to be arrested for illegal liquor selling within the next few days.

It is the duty of those citizens to proceed against all violators of the law. The department seems to think it is not their duty, and since Agent McCall's term of office has expired, there is no one left to do the work.

It seems a little strange that this move should be made just at this time—so close to the election," was suggested. "I don't know that it has any political significance," said Mr. Johnston.

SHIPPING OF CORPSES. Incineration the Only Plausible Cause for Oakland Fires.

Natural Gas Couldn't Do It. Citizens of That Section Demand Investigation and Protection.

A Mania For Arson to be Checked. The number of conflagrations with which Oakland has of late been afflicted has confirmed the theory that incendiaries were at work in that section.

With the idea of fixing definitely and reasonably on some cause or other, a DISPATCH representative has thoroughly canvassed the district. The Oakland patrol stated, in answer to the inquiry, that it is a little information of value could be elicited there. Whether or no those in charge there present the same impatience that they are in only one or two of the ten or more cases investigated natural gas was in use in the buildings burned, the sarcastic assertions of the police officials will hardly hold good.

BRIGHT LIGHTS IN TOWN. Delegates to the Electrical Convention Will Inspect Our Installations—The Results of the Convention of Great Public Benefit.

A number of delegates to the National Convention of Electricians, at Kansas City, arrived in Pittsburgh last night and were entertained by Morris Mead, Superintendent of the Bureau of Electric Light of this city. The following gentlemen, who are among the shining lights in electrical circles, will to-day inspect the police and fire alarm apparatus of this city and the Westinghouse electric light plants: P. H. Alexander and F. A. Wyman, of the Sawyer-Mann Company, New York City; Captain William Droy, Inspector of Electric Lighting of the New England States; D. H. Hillcutt, Inspector of Electric Lines, Boston; D. H. Planders, Superintendent of Fire Alarm Telegraph of Boston. These gentlemen will remain in the city until to-morrow morning and will be shown around the city by the Westinghouse Electric Light Company.

As to commercial union with America, I think it would be a good thing for Canada, and even annexation is possible. I am not the only one who is afraid to talk much about either, but now they discuss both questions freely. Sir John McDonald is the strongest man the Tories have on the Government Bench, and after he really doesn't know what they will do for a leader. The trouble with Canada is that the country is large, and they haven't the people. What are 5,000,000 inhabitants, more or less, when you have side assistance and immigration. The Canadians, however, are of good stock, and make excellent citizens.

ENGLISH MONEY A BLESSING. It Comes in at Critical Moments to Aid American Manufacturers. "Do you know," said Mr. A. T. Dou-thett, of the Porter Foundry and Machine Company, "that not less than \$1,000,000 of English money has been coming into America for the last two years, and the time is coming when that figure will be increased to \$1,000,000 per day. This English capital is a grand, good thing. The Americans are a progressive but new people. They have increased the capacity of their plants beyond their means, and they are hampered somewhat for reserve capital. This English money, however, is a grand asset and keeps business at a steady pace."

Called Lincoln a Horse and the Soldiers Will Remember It. Colonel Samuel Kligore Withdraws From the Mayoralty Fight and Scores Freely. FEBRUARY 15, 1930. To the Public: In response to the request of many of our friends I became a candidate for Mayor. When the Democratic Convention nominated John H. Bailey, who during the war, in public speeches, denounced the martyred Lincoln as a horse, characterized the war as a failure, and called the Union soldiers "bums," I felt it my duty to do everything in my power to encompass his defeat. I therefore withdrew as a candidate, and will, in common with the other Union soldiers, stand by my duty to support Henry I. Gourley and against John H. Bailey, the villain of the martyred Lincoln and the soldiers who risked their lives for our glorious Union. Respectfully, SAMUEL KLIGORE.

THE PRESBYTER OF GOD. A Scientific Reasoning of the Subject by an Universalist.

Rev. W. S. Williams, pastor of Christ Church, Universalist, last night changed his topic from "Tick, Tick," to an address on the presence of God, by request of the members of his congregation. As he speaks extempore he had no difficulty in giving an address upon the subject desired. He defined the presence of God from the standpoint of scientists, of the various religious denominations and his own. From the one he placed the Creator outside the world as an independent Being and a constructor of the universe; from another he placed Him as pervading all space and consequently the work He had performed, both as regards the human race and the globe itself. Another theological definition of the presence of God was that it dwelt in the human race alone and the better instincts and principles therein shown. Mr. Williams gave his idea that the omnipresence of the godhead pervaded all creation and was felt throughout. At the conclusion of the service, Rev. Mr. Williams gave certainly a lesson to many of the other denominations in hurrying to the door of the U. V. L. Hall, where sermon was given, and shaking hands with each member of the congregation as he or she left the Hall. This was really appreciated by those present.

MUSIC IN THE SPHERES. Where Criminals Find Their Only Inducement to Go to Jail. Religious services at the jail yesterday presented more attractive musical features than those in many of the city churches. The vocalists were Mrs. Frank Hagler, the Misses George and Flowers and Masera. Harry Brockert, George and W. H. Brown, Harry Lettman and Charles Hemminger. The services were conducted by Rev. J. Donehue, and Sheriff McCandless filled the position of organist.

As a conclusion to the services Mrs. Hagler and the vocalists sang "With such paths that many of the prisoners were visibly affected.
