n grade ternes..... MORE NOISE THAN WOOL.

Local Oil Scalpers Try Hard to Make

Oil opened dull and rather weak yesterday, A Philadelphia dispatch to the same jour-

with the scalpers trying to bid it up to make a selling market, but nothing was done for a long time. After considerable chinning in the after-noon the market sold down to the lowest point, then rallied a fraction and closed weak at near the lowest point. There was a good deal of noise at the windup, but very little wool. All

noise at the windup, but very little wool. All in all, it was a very dull day. About all the strength came from Oil City. Wednesdays clearances were 252,000 barrels. The range was opened, \$1,04%; highest, \$1,05%; lowest, \$1,06%; closed, \$1,04%. The Brush Creek district comes to the front again with 150-barrel well. It is on the Swift farm and is owned by the McCalmont Oil Com-pany. The South Penn Oil Company's No. 4 on the Salem Finck farm in the Washington field, is now down to 150 barrels a day. The Washington Oil Company's No. 5 on the Snod-grass farm is through the Gordon, and making 50 barrels a day. It is being drilled to the fifth sand. Mackey, Finn & Co.'s Ruple well, which is being drilled to the fifth sand, is producing 50 barrels a day from the fourth. Guckert & Co.'s No. 1, on the Mabel farm, near Amberson, is pumping 150 harrels a day. Lockwood & Co.'s well on the Eicholtz farm in the Butter field, is producing about 720 barrels a day. fer thereof, influence needed reforms affecting the same, cheapen and simplify its public sale, establish proper customs of brokerage, and col-late information regarding changes of ownership and values, assessments, legislation, and whatever else may be of interest to brokers and others. The exchange will be operated on much the same plan as the New York exchange, in whose auction rooms \$64,000,000 worth of real estate was sold last year.

Selling Market."

Doing 75 Barrels Per Hour. MPACIAL TELEGRAM TO THE DISPATCH.1 BUTLER, February 20 .- The total production

in 24 hours of the Gilbert Oil Company's gusher on lot No. 169, was 1,665 barrels. It is now making 75 barrels per hour.

Good Well Near Callensburg.

INPECIAL TELEGRAM TO THE DISPATCE.1 CLARION, February 20 .- It is reported that a

G. Keisel, a fine brick house on Wylie avenue, near Junilla street; lot 40r100 to an alley. Mr. Keisel bought as an investment. Black & Baird, 85 Fourth avenue, sold for William Grey to J. W. Bradshaw, a new eight room brick dwelling, with lot 22k100 feet to an alley, situate on the east side of Bates street, near Ward street. Oakland, for \$5,800. Baxter, Thompson & Co., 162 Fourth avenue, sold to J. R. Jackson lot No. 561, Villa park plan, Brushton station, frontage of 46 feet on Beechwood street by 137 feet to Wood street, for \$300. Kelly & Rogers, No. 6315 Station street, East be no sale. Here's the expense of a week's ad-vertising for nothing. I will have the matter He then hurried over to the County Commissioner's office and informed them of his discov-ery. They were as much surprised as he had been. Not one of them had thought about to-morrow being a legal holiday. "Of course," said one of the officials, "there will be no sale. We must do legal business in a legal way. I am glad you called our attention to the oversight in time to have it corrected."

fixed at once."

Reconwood street by 13 feet to wood street, for \$30. Kelly & Rogers, No. 6315 Station street, East End, report; having sold a six-room house and lot on Meadow street for J. C. Knipp to W. H. Zimmerman for \$5,500 cash; also sold on same street a six-room house and lot, 32100, to Mary Kaufman for I. O. McMinn; also for Minnie A. Ramsbottom, to Mrs.J.F. Krauth, a six-room house and lot, 30120, on Euclid arenue, for \$4,600 cash, and lot 25x175, on Inwood street, for C. W. Woolsiain to J. Watt for \$750; also placed a mortgage on East End property for \$1,000 for three years, at 6 per cent. The upshot of the matter was that Major Pentecost was authorized to have the time of sale changed to Saturday week. A lawyer, on being asked if a sale on a legal holiday would stand, replied: "It might, but it is best to observe legal forms. Legal business

A BEAR ATTACK.

Continued Hammering of Railroad Shares Rock Island a Victim-Tenneasco Coal Makes a Sensational Drop - Trusts Less Prominent.

large number of influential citizens. Henry M. Whitney was elected President. In the course of his address he stated the objects of the ex-NEW YORK, February 20 .- There were no change to be to popularize investment in real new developments in the Western rate war to-day, and while the hammering by the bears estate, promote celerity in the sale and transwent on as usual, it was - confined to a few stocks only, and had comparatively little effect. The Bank of England at last reduced its rate of discount from 6 to 5 per cent, but as this action has been so long expected it failed to stimulate speculation either in London or here. It did, however, give a rather better tone to the market in the early trading, but the impetus was insufficient to stem the force of the bear attack, which was commenced soon after

bear stack, which was commenced soon after the opening of business. Bock laland, as usual, bore the brunt of the the pressure, but there was evidently consider-able covering of shorts upon the decline, and the influence of the morement in Bock Island was decidedly less than it has been for the past few days. The drive at Rock Island was over by noon after which time that stock became There is much in the above worthy the careful consideration of real estate brokers in Pittsburg, where business has become so large that it cannot be satisfactorily handled under the The question of the durability of wood is of tew days. Ins drive at Rock Island was over by noon, after which time that stock became quiet, with the remainder of the list and fluctu-ations within narrow limits like the others. For a time the pressure was directed against Louis-ville and Nashville, and while that stock yielded it was a fractional break only and was soon given un. great interest to all who use it, and especially to builders. On this subject an experienced lumberman says: "Wood rots rapidly when moist and exposed to the atmosphere. Decay

is contagious, and when decomposition begins in the albumin us sap the woody fiber slowly is contagious, and when decomposition begins in the albumin us sap the woody fiber slowing follows, becoming a tender, friable mass. A little thought will show how this explains why green or molatilember rots so much sconer than seasoned or dry lumber, and also how painting preserves the wood by excluding air and monsture. Other substances also affect the lasting qualities of a wood. Thus, woods containing some substances which, like tannie, which prevents the entrance of moisture into their interior, or those woods which are of a close, compact texture will all be found quite durable.
 "Lumber from a cold climate is generally preferable to that from warmer regions. Norwegian pine is noted for its durability. The senson in which the trees were cut down is thought to affect the qualities of the lumber. The forestry laws of many countries enjoin the fieling of trees except between November 15 and February 15."
 A BOOM IN STOCKS.
 Brekers Show What They Can Do When They Hustle. soon given up. Some of the specialties also came in for at-

and are sceanly adding to be the wheat. The cold weather was probably one of the principal influences on the market. The grow-ing wheat is far advanced in growth of other seasons, and considerable apprehension is felt on this account. There has been but little man over the winter wheat belt, and the wheat

snow over the winter wheat belt, and the wheat therefore has but little protection. Corn was traded in moderately within narrow Corn was traded in moderately within narrow limits and the undertone was steady, no special change being recorded in values. There were no new outside features presented. The mar-ket opened at ½c; influenced some by the cold weather, reled firmer, closed a shade lower than wastrader.

18c W B.

The orders already placed by the Edgar Thomson approach 3,000,000 fire brick, and, from the present outlook as many more will be

needed by the time the present orders are filled. It is but a few years since 60,000 tons of

Bessemer iron was considered a good yield for a furnace before a new lining was required. SEEDS-Clover, choice, 62 hs to bushel, \$4 206

This yield has been more than doubled by fur-naces of the Edgar Thomson in late years. With the present high price and strong demand

With the present high price and strong demand for steel rails it seems to be the policy to crowd the furnaces for all that is in them, even at the sacrifice of fire brick and the necessity of fre-quent relinings. The average life of the fur-nace is little above two years. But the monay made in pushing them to their utmost capacity far more than compensates for the burning out of the lining. The present price of the better graces of fine brick is \$31 per 1,000, an advance of about \$1 in the past three months. From present outlook a still further advance is probable ere long. Said Mr. Addenbrock: "Our present force in the wricklaying department at the Edgar Thom-son is close to 350 mea. This is above our aver-age number, because we have been building two new furnaces, one of which is just com-pleted. But, if no further additions are made it will require from 250 to 300 bricklayers to keep the nine furnaces in necessary repair. In fact we will be compelled to build a new fur-nace or two every year, as the way matters are pushed puts an old furnace on our hands for relining fully that often." n me grasses, 32 50 % Dushel of 14 Bs. A Wisconsin Produce Merchants Views.

A member of the firm of Scanlon Brothers, produce dealers of Lyndon, Wis., 80 miles west f Milwaukee, was in the city to-day negotiating for the sale of eight carloads of potatoes Said he: "I have seldom known a better yield of potatoes in our section, both as to quantity and quality. The price paid to farmers is about 25c per bushel, and the freight to Pittsburg is 18c per bushel. Our stuff is generally burg is 150 per outside. Our sum is generally sold in Chicago, but the markets there are over-stocked. This is my second trip to Pitts-burg for the purpose of selling potatoes. Through the Northwest at a distance from rail-roads potatoes have been selling of late as low as 12% per bushel, and slow at that price. In Central Wisconsin the oats group was very heavy last season low as 12%c per bushel, and show at that price. In Central Wisconsin the oats crop was very heavy last season, and price there now is 16c per bushel. Corn is selling at 25c. The crops in all lines were un-usually large, and prices are very low for almost anything farmers raise. As to wheat there was only an average croplast season, but ours is not much of a wheat country. This has not been a good year for profits to farmers, owing to the abundance of everything. It has, however, been a good year for the millions who consume."

Consumers, however, display no anxiety: hav-Consumers, however, unputy in they expect greater inducements. Indications of a revival in industrial branches dependent upon iron, however, impart a feeling of confidence to buy-In industrial branches dependent upon iron, however, impart a feeling of confidence to buy-ers and sellers of pig alike. The Strong Engrne Company have taken office room in the Cham-ber of Commerce building, and the plant will be located soon. The increased mercantile and industrial activity, present and prospective, has made a decided impression upon the money market; interest rates are higher and still hard-entime. Small anisa of ald wheels have been ening. Small sales of old wheels have been made at \$19 and Southern rails at \$26, cash

BUTERS HOLDING OFF.

Sars Quiet in Chicago, but Prices Remain

Practically Unchanged.

PFECIAL TELEGRAM TO THE DISPATCE. CHICAGO, February 20 .- The most remarkable feature of this market is the increasing demand for old steel rails, offers of \$22 50 now beings received for lengths over three feet, Supply limited, as compared with new uses opening for them. Old iron rails are weak, in opening for them. Old iron rails are weak, in marked contrast. Buyers are holding off, be-living prices will be lower. Sales of a few speculative lots of pig iron at cut rates have caused some little disturbance, but more among sellers of Southern than Northern iron. Northern makers are faitly firm, and take a confident view of the situation, reporting good business in medium grade foundry iron, with large schemes in prospect which will consume great deal of iron. Hars are quiet, orders in sight failing to materialize, but prices are un-changed. changed.

BRITISH IRON MARKETS.

An Improvement in Fig. While Steel Remains at Last Week's Prices.

INPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, February 20.-The Iron Age today prints the following special cable from

The pig iron warrant market has improved somewhat. Early in the week there was some selling on the part of disappointed holders, and that, together with anxiety as to whether settlements would be duly met and one failure had a bad effect. Prospects of easier money rates have a tendency to encourage purchases and give the market better tone. There is also some improvement in the trade demand. Makers' prices for Scotch brands, Middlesborborough and Hematites are nearly the same as they were a week ago. Copper has been in more active demand the

past few days for speculation and consumption. Stocks are steadily decreasing. Only 560 tons were received from America during the first half of the month, and furnace material is be-coming scarce. Montana ordinary Matte is selling at 10s per unit. The French holders of Matte have about 22,600 tons on hand, and sur-preference to selling bars. During the past formight there have been sales of 1,075 tons Anaconda Argentiferous on private terms; 415 tons Montana at 10s per unit and 100 tons Mon-name at 10s 3d, all at Liverpool. A large portion of the warrants placed upon the market by French bankers ten days go is now being ab-sorbed by consumers, but in view of the sharp fall caused by the large quantity offered asbort time age, they act with caution in purchasing or future delivery. The demand for prig tin has been stronger and prices are showing more firmness. The constituence to some extent, but fit is believed the prospective supplies have been over estiif of the month, and furnace material is be-

hat prospective supplies have been over esti-

Actual business in tin plate has been moder ate, but inquiries are more numerons and the tone of the market is better. The movement in the direction of a general shortening of work at the mills has made no progress and the at the minis man made no progress and the scheme to reduce production seems to be dead. Steel of nearly all descriptions is held at last week's figures, with the demand fairly activo for billets and slabs but slower for rails. Wire rods are offered at 5s under the prices asked a

American Manufacturer's Cable Quotations. South Pig-There has been a turn for the better in warrants, with sales at nearly 3s, ad-vance during the week, and the buying freer, Maker's iron hus had better sale also and the market is quite steady at the revised prices.

OIL CITY, February 20.—Petroleum opened at \$1 04%; highest \$1 05%; lowest \$1 04%; closed at \$1 04%; Sales, 214,000 bbls; no clearances reported; charters, 9,562 bbls; shipments, 63,638 bbls; runs, 72,788 bbls.

Petroleum opened steady at \$1 04%, and after a slight advance in the early trading became weaker and declined to t1 04%. The markst then rallied and closed steady at \$1 04%. BRADFORD, February 20.-Petroleum opened at \$1 04%; closed, \$1 04%; bighest, \$1 05%; lowest, \$1 04%. Clearances, 334,000 bbls.

SOUTHSIDE OIL WORK.

The Beck Well Promising Fairly-The Riddie Good for 30 Barrels.

The well on the Michael Beck property was shot yesterday and made a flow. The debris has not been cleaned out, and the capacity is

consequently not known. Mr. Fetzer states that he has leased his prop-

air. Feizer states that he has leased his prop-erty back of Stoops' Ferry, near Sharon. J. M. Beardsley, sof Titusville, has leased several hundred acres along Narrows' run, and will begin operations as soon as the roads are in fit condition to move material. The mud is still the chief impediment to work. For instance, it costs Mr. Beardsley 5000 to get a rig removed from Butler county to Sharon in this counts from Butler courty to Sharoa, in this courty. The Riddle farm well, on the Stenbearille pike, mention of which was made on Tuesday, is said to be good for 30 barrels a day, and con-sequently a payer.

Business Notes.

the mere raiding of prices in a general bear the mere raiding of prices in a general bear campaign, or whether they may not be con-nected with some purpose of keeping up the rates, or to reduce the other granger roads, the Burlington and Quincy and the Burlington and Northern, into some agreement to main-tain rates. It is quite certain that some large amounts of long stock have come upon the market since the dividends were reduced to 1 per cent quarterly, as was paid on February 1. It is also not improbable that some of those on the inside can see that unless there is some-thing stronger to take the place of the inter-Stock trading yesterday was the liveliest and heaviest for a long time. At the morning ses-sion, lasting 87 minutes, the transactions aggregated 875 shares. Business in the afternoon was good, but not so heavy. Whather the spurt was to show the President of the United States what Pittsburg brokers can do when they try. or merely to get the market out of the rut, is open to debate; but whether that or this be true, the activity displayed was as surprising as it was welcome. Total sales were 1,391 shares. Realizing was the order of the day, in which Pleasant Valley was most conspicuous. The

1. It is also not improvable that some of those on the inside can see that unless there is some-thing stronger to take the place of the inter-State Association, which is now no longer a controlling power, rates will be so reduced by excessive competition west of Chicago next summer that the Rock Island, with no such aliance as the Northwestern and Union Pacific, would be at a great disadvantage and not able to earn its dividends. There has undoubtedly been an increase of interest in the current year to March 31, 1890, but how much is not known to anybody but the managers. If it should be as much as it was in either of the two preceding years it will be seen that it would require an increase of about \$200,000 in the surplus earnings over those of the year to March 31, 1889, to be equal to 4 per cent on the stock. It is probable that there will be such an increase for the current year, and that the Rock Island will earn ita 4 per cent in the year to March 31, 1880. But it is pretty certain that it could not do as well after-tions for the proceed on the stock and a should be as well after-Pleasant Valley was most conspicuous. The first sale was at 25; it moved up by easy stages to 26, eased off and closed at 25% bid. Sellers realized large profits, about \$7 a share, which was their only reason for letting it go. Buyers, of course, expect it to go still higher. Alle-gheny Heating Company advanced to 106 bid, without bringing any of it out. Philadelphia Gas was firm, with very little offered. Central Traction was hammered down to 25% but Pitts-burg was fractionally stronger. Pipeage, Man-uiacturers' Gas and Luster were fractionally weaker, and Chartiers Gas a trifle stronger. MOMNING, ATTENDOX.

MINNEAPOLIS-Receipts of wheat were 140 cars, with 32 cars shipped. There was a fair demand for sample wheat of all classes, and the poor lots were picked up closer than usual, Prices ranged about ½6 higher. A few millers were in person from the outside and took a few small lots to be shipped to their millia, and some low grades were bought to ship out, but most of the milling wheat was taken for use at the local mills. The movement of wheat in the interior was said to be rather smaller, thought to be due to the severe weather. Closing quota-tions: No. 1 hard, February and March, 770; May, 79e: on track, 775% on track, 770; No. 2 Northern, February, 746; March, 74%; Cars, 76%; on track, 74%; May, 75%; on track, 74%c; May, 75%c; on track, 78@74c.
ST. LOUIS - Flour unchanged, but firm.
Wheat higher; the market was unsettled, though with frequent fluctuations, closing %@ 2/c higher for May, %c for June, and %@%c for July and August: No. 2 red, cash, 76c; May closed at 77c bid; June, 77c bid; July, 74%074%c bid; August, 74c asked.
