NEW YORK, February 27 .- The Iron Age review of the market contains the following: American pig, with the exception of an occasional small lot from second hands offered at figures below our quotations, the market continues steady, but very quiet. some sales agents report that inquiries are coming in more freely, but as they do not seem to have led to any transac tions of magnitude in this immediate vicinity. me of the marchants still have iron to dis-se of purchased during the rise. This iron is now coming due and in some cases is not yet daced. We continue to quote \$19 50@20 60 for No. 1;\$18 50@19 00 for No. 2, and \$17 50@18 00

No. 1; \$18 30@19 00 for No. 2, and \$17 50@18 00 for grav forge, tidewater delivery. The Spiegeleisen and Ferro-Manganese mar-ket has been very dull and easy, no transac-tions of any consequence being reported. We quote 20 per cent Spiegeleisen £55 50@56 00, with the market in buyers' favor. In Ferro-Mangrabes business has been light, with 80 per cent at \$90 for April and May delivery and \$56\$\$55 for second half of the year. We are in-debted to S. G. Brock, Chief of the Burcau of Statistics, for the following statement, which secates for the calendar year 1858, the quan-tities of Spiegeleisen from the other kinds of pig iron imported and entered for consump-tion:

tically impossible. In billets the market is very dull. It is re-orted that a small lot of foreign material for special purpose has been offered at a price lower than that asked by domestic mills. Re-ports from Wheeling and Pittsburg indicate a slightly better feeling.

THE WIRE MARKET.

In wire rods there is some inquiry. The market is distinctly easier, and it is reported. that \$53 to \$53 50 could be done for tidewater delivery. It is stated that options have been secured on both the continuous mill and garrett mill patents. The initiation in the move-ment has been taken by a Pittsburg concern. If successful, the consolidation would head off the projects for the building of rod mills by e parties.

In steel rails the aggregate sales of Eastern in score raiss the aggregate sales of Eastern mills foot up to 20,000 tons, of which 10,000 tons was for a Southern road. Rumors of addi-tional sales have not been verified. The feel-ing is easier, the market being \$34 530,850 00 at Eastern mills, while Pittsburg quotes \$35, with reports afloat that lower prices have been made

THE STORAGE QUESTION. Transient Facilities Abundant-Wholesale

Men the Parties Who Need Warehouses-A State of Things Caused by the City's Rapid Growth.

An interview with one of our leading men chants published in this column of Wednesday's DISPATCH, as to the need of storage houses in the central part of the city, is liable to misinterpretation. The facilities for transient storage are fully up to demand. The advertising columns of THE DISPATCH are sufficient

proof on this point. The Pennsylvania Storage Company, 39, 40 and 41 Water street, furnishes every facility in this line. All classes of mer-chandise and household goods are afforded

The joboer who was gooded in the former in-terview reports that there is no lack in the fa-cilities now furnished for storage purposes. The point he aimed to make—and if it was not made in the article referred to, the fault is not with the merchant—was that our wholesale merchants, as a rule, are greatly cramped for room, that their warehouses are not as a great An Unnecountable Break in Local Securitles-All the Booms Nipped. The few mains included Louisville, New Albany and Chicago firsts, 2 to 119. The Post says: The early prices in London were ½ to I per cent higher for all stocks than they closed here last night, and it was mainly to this fact that the higher prices here this forenoon were due. There is no reason to doubt that with the easier money market there. Loudon has become a buyer of stocks, and that one of the causes of the decline in foreign ex-change this week has been the sales of bankers' bills drawn in payment for stocks and bonds. The closer money market here this week has probably been the most effectual obstacle to an advance in the stock market, which would naturally follow London buying, and though this may be relieved to some extent by the payments of interest on United States bonds on Saturday, March 1, the continued absorption of the circulating medium of the country by the treasury is likely to keep the money market working close until in Arch Commission merchants report a very quiet trade. Markets are not materially different from former reports. There is an improved de-mand for fruits both domestic and tropical, and outside quotations are easily obtained for choice stock. Dairy products of high grade are steady. Cheese is moving very freely, and an advance cannot be far away. Demand for choice eggs is fully up to supply, and markets are firm at quotations. Poultry is quiet, owing to liberal supplies. Potatoes are steady, and good stock is very firm. Onlons and cabbage and turnips are quiet. Wheat Bulled by Reports of Damage to the Growing Crop-Floods in the C Ohio Valley Give Corn a Boost.

CHICAGO-There was a good business in C wheat again to-day, and the feeling was stronger, with prices averaging higher than yesterday. The opening was 1/2 lower than yesterday, but soon a better feeling began to WHOLESALE -- HOUSE, develop, and prices were advanced 3/c, then eased off %c, sgain ruled firmer, and the clos-

ing was %e higher than yesterday. One of the principal reasons for the advance to-day was the record of a tolegram from Al-bion, Mich., cancelling an order to sell wheat, and which reported the growing wheat in that vicinity badly damaged. From Randolph county all crops were reported in fair condi-tion. The early speculative offerings were quite large, but were steadily absorbed by a prominent trader, who was credited as being a seller in yesterday's market. Later it was found there was but little wheat for sale, which, together with the bull news, started shorts to covering, the advance holding until the close. to-day was the record of a telegram from Al-
