FOGARTY'S NOTIONS.

He Offers to Fight Dempsey or George La Blanche.

TO-DAY'S BIG FOOT RACE.

Slosson and Daly Win Two Games in the Billiard Tournament.

THE SPORTING NEWS OF THE DAY

Jack Fogarty, the pugilist, talks about the leading fighters of the day. Kilrain placed very high. Priddy and McClelland will run at Recreation Park. Great interest in the race. There were two interesting billiard contests.

There is sometimes a happy relief in the monotony of baseball stories. Jack Fogarty arrived in town yesterday, and his opinions regarding pugilists in general may be worth while recounting. Fogarty, as a pugilist, is well known in this city, but it is more than two years since he left this city for the East. Since he left he has guided many men to victory, but he is still on the warpath toward

Fogarty last evening talked as follows to the writer: "Now, I want to fight Dempsey or any. body else my weight. I am now in Pittsburg where I can get backing, and honestly we are prepared at an hour's notice to make a match. I don't expect that Dempsey will be willing to meet me but neither he nor anybody else who claims the middleweight championship can refuse to meet me.

A WISE THOUGHT.

"I think that THE DISPATCH of Pittsburg is read by all who patronize sports, and I say that I am now ready to fight any man living who claims the middleweight championship of America. This is no bluff because I will be in Pittsburg a few days, and if anybody with back ing behind them will answer my challenge, I

Fogarty talked considerably about the prominent pugilists now before the public. He said: "I disagree with 'Pringle,' of THE DISPATCH, and others regarding Kilrain. Of course, I know that there are very weighty arguments against me. But I really think that, barring Sullivan, Jake Kılrain is the best pugilist living. Now, I have my ideas and notions for this. I have seen all of them fight, and I say that, barring J. L. Sullivan, Jake Kilrain is the best man in America. Kilrain can beat Slavin or Jackson, and that means that, in my opinion, Sullivan can beat both of them."

ABOUT CORBETT. man Corbett. Why, Mike Cleary told me that he is merely a 'tapper,' that is, a man who will touch you and run away. Corbett is probably a good boxer when he has a good thing of it; that is, when he has a man who is too fat or too dead to move around. Corbett is not a chamdead to move around. Corbett is not a champion, and it he is, there are two or three heavy-weights who will meet him as soon as he wants to af conditions mean to a fini-h. At present my ambition is to fight either Dempsey or La Pfanche. This is no bluft, because I can produce \$1,000 on Saturday night at THE DISPATCH office to make a match. I caunot get a match somehow or other, but the world will know that I have money behind me when THE DISPATCH makes public this challenge. I will fight either Dempsey or La Blanche, or fight them both within four weeks."

Jack Fogarty just arrived in the city yesterday. He is much beyond weight, but thinks that he can get down all right within a few weeks.

WILL RUN TO-DAY. The Priddy and McCielland Race to Take

Pince at Recreation Park. Peter Priddy and E. C. McClelland will rur to-day. The proprietors of Recreation Park, that is, Messre. Nimick & Co., have come to the rescue. The old-time ball park is at the al of the runners and a track

since this big match was made. Baseball pros pects interfered.

Last evening the Priddy and the McClelland parties met at this office
and agreed that the runners should
run at Recreation Park, granted by the local
National League Baseball Club. A track will
be marked out there to-day and the race will
the parties out up the final start at 4:45 P. M. The parties put up the final deposit of \$500 each at this office yesterday, and without doubt a race for "blood" will take

place to-day.

This track is of turf, and, according to accounts, ought to favor McClelland. Yet the counts, ought to favor McClelland. Yet the Priddy people are confident of their man winning. Both runners were seen by the writer yesterday, and they write in excellent condition, and the beaten man cannot blame his trainer. That there will be housands of dollars bet on the race there is no doubt. Both parties are confident, and a great race may be expected.

Last evening the partles mutually agreed on Fred Goodwayn as referee. He is a well known business and sporting man and if his judgment is called into question no doubt he will give every satisfaction. The race will start at 4:45 p. M. and the park gates will be open at 3 p. M. The latest betting was 5 to 4 for choice.

BRESLIN WAS THERE.

Moore Falled to Meet Him to Arrange i Battle.

PECIAL TELEGRAM TO THE DISPATCHAL NEW YORK, February 28 .- Mike Breslin was at the New York Illustrated News office on Thursday, the day set by Frank Moore to meet him, for the purpose of signing articles, but Moore failed to show up. Breslin says the reason he did not keep his appointment with Moore last Friday was because he was suffering

from a severe attack of la grippe, from which he has not yet fully recovered.

"I am disgusted," he says, "with the amount of newspaper talk Moore has been indulging in of late. I will light him to a finish with skin cloves, under cityer, Oneorsphere, ar Levider. gloves, under either Queensberry or London rules, six weeks from signing articles, for \$250 a side, providing he can guarantee a \$400 purse and will fight at 124 pounds, give or take one, and weigh in at ring side. Slosson led off with a run of ten. Catton opened with a run of il. A series of uninteresting plays followed up to the ninth inning, when Slosson made a run of 44. Then Catton made a run of 27 points. The game proceeded in very dull fashion. Slosson piled up a number of big runs toward the end of the game that helped to atone for the poor play of the early innings.

The score is: Slosson, 500: Catton, 267. Highest runs: Slosson, 34, 82; Catton, 90, 67. Average: Slosson, 19 6-26; Catton, 10 17-25.

A LITTLE GAME BROKEN UP.

The Police Interrupt a Newsboy's Nickel-a-Corner Entertainment.

One of the most successful raids ever made by the Police Bureau was executed yesterday by Officers Grimes and Crosson in the alley in rear of the Cathedral. Heedless of the sacred nature of their surroundings Daniel Fee, Chinee Jack, Jimpsey Fitzpatrick and Tommy Griffin, newsboys ranging from 15 to 18 years of age, were gambling for "a nickel a corner." It appears they are in the habit of persuading the younger boys to play for pennies with them, and after skinning the youngsters of all their earnings proceed to fleece one another. This is not the only reason the police had for the raid as the boys have been doing a banking business with Officer Charley Grimes, who has had anything but a bank of dearly the his reconstruction the toler. of deposit, as his accounts, kept on the tele-graph pole in front of which he stands, tes-tily. Such entries as "Slabs 19e," "Dago Jim 32c," are numerous, but no credits appear on the well-decorated poster on which the officer keeps his accounts. He natur-ally kicks against lending the boys pennies to set them up in business, out of which to be swindled by the bigger boys, hence the breaking up of the game.

of Labor. The sudden disappearance of George E Liscomb, of Beaver Falls, has thrown that place into a fever of excitement. A child's death, supposed to be from eating canned goods, arouses a doctor's suspicions and he refuses to sign a certificate. The Knights of Labor will start co-operative stores. The match factory at Phillipsburg is cremated.

BEAVER FALLS, February 28 .- This place was thrown into a furor of excitement this morning when it became known that George E. Liscomb, a prominent young married man and clerk of the City Council. had been mysteriously missing since Wednesday evening. On that evening young Liscomb attrended a banquet at Rochester. About midnight it was noticed that he had been drinking a little, and he was taken to the front yard of the hotel by a friend. He sat down on the doorstep and his friend left him, but returned in a minute or two. Lishim, but returned in a minute or two. Liscomb was gone, and from that hour to this, he has not been seen. Every effort has been made to find him, and a delegation visited Pittsburg last night and searched everywhere, but no trace of him could be found.

He carried a superb gold watch, which he displayed very recklessly, and it is feared a bad gang noticed loading around the hotel that night saw the watch, and when they caught him outside knocked him in the head, robbed him and then threw the body in the Onio river, which flows but a few hundred yards distant from the hotel. Detectives are at work to-day on the case.

DEFICIENCY CERTAIN TO RESULT

f the Government Goes Into the Telegraph Business as Proposed.

Dr. Norvin Green, President of the Western Union, appeared before the Congressional Committee. He argued against Mr. Wanamaker's postal telegraph plan, using statistics freely. He was certain tha the scheme would result in monetary loss.

WASHINGTON, February 28 .- Postmas Ella Boland, a girl of about 20 years of age, attempted twice to commit suicide. She took a strip of muslin and tied it tightly about her ter General Wanamaker, Judge Tyner, the Assistant Attorney General for the Postneck, then, while hunting for a convenient place on which she could tie the other end, was office Department, and a number of prominent telegraph men, were present at the meeting of the House Committee on Postaptured, and the improvised rone was cut From her neck.

She then produced a two-ounce bottle of audanum, and before she could be prevented, swallowed every drop of it. A physician, however, succeeded in caving her life. Unrequited offices and Post Roads to-day to hear Dr. Norvin Green, the President of the Western Union Telegraph Company, address the committee in opposition to the proposition of the Postmaster General to establish limited telegraph system in this country.

Dr. Green said he had no set speech to make. He premised that everybody knew that the European governments owned and PHILLIPSBURG, February 28 .- The Grant operated telegraph lines, but none of them Parlor Match Factory, of this place, an in-dustry that gave employment to about 50 perhad operated them so cheaply and satisfactorily as a corporation could. The governsons, was totally destroyed by fire at an early hour this morning, incurring a loss of about \$18.000, on which there is no insurance.

The factory was built two years ago by local capitalists and was just beginning to be a paying investment to the stockholders. It is hardly likely that it will be rebuilt. The origin of the ments had assumed control of the European lines to protect the Government; in this country the people needed to be protected from the Government.

PLENTY OF STATISTICS

Dr. Green produced a table containing statistics concerning every telegraph company in the world. The table showed that While the Ardent Lover Returns to Get in this country 57,000,000 messages were sent, against 173,000,000 for all the rest o the world. This country had 185,000 miles Youngstown, February 28 .- Jacob Uhlinger and Miss Grace Sheeler, a young couple re-siding in Beaver Falls, came here this of lines, against 373,000 for the rest of the world, and 67,300 miles of wire, agains afternoon and made application for a marriage license. The bride-elect being under 18, a license was refused until the consent of her parents was obtained. Unlinger departed on the next train for Beaver Falls to secure the consent, leaving the bride-elect here to await his return. 1,111,968 for the rest of the world. The Western Union controlled ten-elevenths of the wire in this country. The Postal Tele-graph owned most of the remainder. His position was that the Government of the United States had no business with the telegraph. It certainly could not do the service better than the Western Union. The people certainly were not asking for the change. Not more than 1,000,000 people out of the total population of the country used the telegraph in any one year. Forty-WHEELING, February 28.—The strike of the six per cent of the amount of the telegraph business was purely speculative. The pool-rooms and horse races in New York City paid the company \$750,000 last year. Very carpenters and masons extended to-day to all the building trades and about 1,000 men are idle, including plumbers, tinners, bricklayers, roofers, painters, laborers, plasterers, etc. The Builders Exchange to-night, after a three hours' session, appointed a committee to confer with the strikers.

much better would the Government take the coal mines and the railroads, because the people have more need of them. In North Carolina the Western Union had telegraph offices that did not pay 25 cents a day in gross receipts. At the 447 places named in the Postmaster General's plan as C. Frick, reached out the match that put the blast in one of the greatest blast furnaces in this country. It was the new Furnace "H" at the Edgar Thomson Steel Works, and her stacks are ten feet higher than those of "C." to telegraph offices, the Government owned but 104 postoffice buildings. It was becom-ing a grave question as to whether it now profited the Western Union to continue its contracts with the railroad companies. Originally, they were sources of great revto such an extent that it was doubtful if the telegraph company (which handled their business free) did not lose by the agreement.

frequently failed in delivery. SURE TO BE A DEFICIENCY. To the broad question as to how the Postmaster General's plan appeared to him, as a business proposition, Dr. Green said that of course it could be carried out, but the usiness could not be done by the Government or a corporation at a profit; and some-Mr. Anderson, referring to the Postmaster General's bill, said that it did not contem-

plate the payment of large salaries to light or dark shades, just as your fancy dic-tates; \$10 also secures one of them. To-day Dr. Green dryly responded that if he wanted to do telegraph business he would have to pay somebody to look after it, and pay them well, too. After all, what mattered it; a salary of \$50,000 per annum amounted to a charge of about one-tenth of a cent per message on the Western Union's business. If the Postmister General's rates were adopted by the Western Union, its receipts would fall just \$3,000,000 below the get those lovely gray scaa's at 50 cents. 47

MEETING WITH FAVOR.

Alleabenians Who Would Like to See Haymarket square Transformed. There is very general commendation in Allegheny of the resolution offering Haymarket Square to the Government as a site for a Federal building, which was introduced in Councils last Thursday night by Mr. Arthur Kennedy. The citizens appear

almost unanimous in the belief that it would be a powerful factor in the task of securing Several gentlemen at City Hall last evening were chatting about the history of efforts to secure a Federal building, and one of them instanced the last time the Treasury Department sent agents to Allegheny to look up a site for the building, when property-holders who were approached jumped their prices 100 per cent because Uncle Sam

NEW YORK, February 23.—Stormy weather again interrupted trade in drygoods to some extent, but there was a good business with jobers and a fair demand was realized at first bers and a fair demand was realized at first hands, with some activity in bleached shirrings. Fruit of the loom 44, and 78 bleached shirtings were sold ahead, and orders are now taken "At value only." Wide sheatings were also in good request and are very firm. Deliveries take off the production of cotton goods pretty evenly and stocks do not increase materially.
