n the Boulevard Square project and other similar enterprises, that the stock vards are neither companionable nor conducive to esthetic taste. It is likely there will not be far out of the city as they would be now at Wall's station. Some argue that they should be on Turile creek or the Monongahela river, so that the effluvia would be carried away, but people of the Southside, who take water from the Monongahela Water Company may perhaps think their beverage rich enough already.

All this doesn't go to show that the Ar-mours may not be coming here to occupy some other place. It is generally considered that such an institution might be mutually bencheial to this city and the Armours.

spoonful salt; mix thoroughly and siit; then rub in one tablespoonful cold shortening, and mix in with a spoon a pint of cold sweet milk or water (milk is the best); this makes a dough too soft to be rolled; turn it out on your tray lid, well floured, press with your hand to the desired thickness, cut in shapes, and bake at once in a very quick oven. When mixed with milk you may leave out the shortening, if you prefer not to use it. It your oven is at the proper heat, ten minutes will suffice to bake them.
