The League Magnates Adopt a 10-Club Schedule

IT LOOKS A LITTLE FUNNY.

Alleged Brotherhood Tampering With Beckley and Conway.

THE SPORTING NEWS OF THE DAY

At last the National League magnates have agreed on a 10-club League and have adopted a schedule. Cleveland opens the season here on April 26. It is alleged that local Brotherhood members are trying to induce Beckley and Conway to desert the National League. Billy Meyer agrees to fight Jack Hopper.

"SPECIAL TELEGRAM TO THE DISPATCH." CLEVELAND, March 6 .- The "eight by ten" puzzle will go down into baseball history as the most intricate the League ever tried to solve. The only man who could furnish the key remained away half the day. The magnates were not called to-gether until afternoon, and even then there were little or no evidences of progress. They cooled their heated brows by sundry descents to the lobby of the Weddell. John T. Brush was the giant who blocked the way to a satisfactory clearing off of baseball clouds. Not once has he been inclined to yield to the persuasive eloquence of those who are pleading for an eight club circuit. The sparse President of the Hoosiers was master of the situation, and he knew it. When the rumor came from Indianapolis that he had resolved to quit the field, he said with vigor: BRUSH WAS EMPHATIC.

"There is absolutely no foundation for that report. I have never proposed to sell out, and I don't intend to. I understand just what the trouble is here. A ten club circuit is found to be unwieldy, and some of the League people want to reduce to eight clubs. They ought to have thought of this trouble before they got mselves into it. I objected to the admiss of Cincinnati and Brooklyn in the first place, and told the rest of the League people that they would have difficulty in fixing up a ule. But they said, 'Oh, no, that could be arranged very easily; that there would be not the slightest difficulty on that score.' Now they find that they were mistaken, and I am asked to help them out of their trouble by resigning. I don't see any justice in that. They understood very well at the time the ten club circuit was formed that I intended to stay, and I am going to. If there's a League in the field this season Indianapolis will belong to it."

In reply to the pointed inquiry: "Have you been asked to set a price upon your franchise?

"Not in so many words, but it has been openly hinted to me that in doing so I would be conferring a great favor upon the rest of them. I fully understand that they want Indianapolis to to Indianapolis,"

THAT WONDERFUL SCHEDULE.

To-night they adjourned after presenting the schedule, which is fearfully and wonderfully made. Each series will consist of 14 games Every club in the circuit is sure of 14 off days in addition to the nine that will be spent in traveling. The Washington and Indianapolis representatives said little, but thought a heap representatives said little, but thought a heap over the holiday plums they drew. No one fell milove with the array of figures which represented much labor on the part of President Young and James Hart. It was accepted with assurance that it was the best that remained in the shop. Jim Hart was busily engaged all the forencon in fixing up a new schedule. That he had a bard job on hand was evident from the way he wore his silk hat. It rested upon the back of his neck and displayed many large drops of perspiration upon the laboring James' ferebead. The delegates nearly all left for their homes to-night, tired out, and all left for their homes to-night, tired out, and not as happy as they might have been had two clubs been dropped. There is a whisper that there may be startling developments before the season commences, but that may be merely a
wish that is certainly fathered by the only
thought the League has had all winter. C. H.
Byrne left for Fierida to join the Brooklyns.
This is the schedule that bothered them;

Secretary Senndrett and President Nimick

President Nimick and Secretary Scandrett returned from Cleveland yesterday morning. They were enthusiastic about the National League meeting. Speaking of the gathering,

but as long as they evinced a desire to remain with the League the spirit of fair-dealing prompted the other clubs to keep them. The reports from the various League cities were extremely encouraging and the general opinion was to the effect that the new League would be a great failure. Not a thing has been done to the grounds of the Chicago Players' grounds

Speaking of the reports that suits would be entered against Pittsburg players Mr. Nimick said he did not believe in going to court, and he did not think that any suits would be en-

he did not think that any suits would be entered.

Secretary Scandrett talked somewhat differently. He said: "The question of suits or no suits is in my hands. Attorney Scott Ferguson is considering the matter and he has to report to me. If he advises suits then I suppose they will be entered, and certainly Carroll will be one of the first to be sued."

Referring to the League meeting Mr. Scandrett said: "There was no truth in the reports circulated to the effect that President Brush wanted \$75,000 for his team. The truth is no figure at all was mentioned and everything was conducted in the most harmonious way. The general desire was to have eight

THE PLAYERS CONFIDENT That They Will Win the Suit Brought Against Buck Ewing.

SPECIAL TELEGRAM TO THE DISPATCHA NEW YORK, March 6 - A conference of Players' League magnates was held at Judge Bacon's yesterday regarding the suit against Buck Ewing, which will be brought before the United States Court Friday. There were present at the conference Colonel McAlpin, President of the League; Vice President Tal-cott, of the New York Club; Secretary Robinson, of the New York, and players Ewing, Arthur Irwin, of Boston, and Hanlon, of Pitts-

Arthur Irwin, of Soston, and Hanlon, of Pitts-burg. Judge Bacon will have entire charge of the case.

Arthur Irwin was asked by a DISPATCH re-porter what he thought of the outlook. "Why there will be but one organization in it, that will be the Players' League. I've gone over the grounds very carefully, and I tell you that when the gong sounds we will put up such an exhibition that people can't help patronizing us."

us."

Speaking of contract-jumpers and the possibility of the Players' League taking them back, Irwin said that he had no respect for any such kind of players.

"What about Pickett, who has gone South with the Philadelphia Playera' Club?"

"If it is true that Pickett was a regularly signed player of the Kansas City club, and recei-ed advance money, he should never be allowed to play with a Players' League Club."

Conway and Beckley. The officials of the local National League Club have been informed that the local fully understand that they want Indianapolis to die in order that they may live. This might b-a Beckley and Conway. Manager Hecker was spoken to concerning the matter, last evening, and somewhat reluctantly admitted that he had received a letter from an Allegheny gentleman on the question. Manager Hecker

> "I don't want to say anything definite on the subject just now, but the writer of the letter makes a very clear statement." It was learned that Manager Hecker has written Conway and Beckley three times without receiving an answer. Secretary Scandrett, however, has no lear of losing either of the players named. He said: "I had a letter from Beckley not long ago, and he told me he was going to Hot Springs to stay two or three weeks prior to his reporting here. He has signed a contract with us, and has received a very big slice of our money. He is all right and so is

The local Brotherhood authorities emphatically deny that they are tampering with the players in question, and state that if either of them are talking of returning to the Brother. hood they are doing so at their own voli would, therefore, seem that Manager Hecker' informant is mistaken,

President Nimick had a conference with Manager Hecker on the matter last evening, and it may be that Manager Hecker will leave on a visit to Beckley to-day. Secretary Scandrett's opinion on the necessity of a trip will develor it is not the property of the prop

MANAGER HANLON'S RETURN. He Talks About the National Lengue's Latest Law Cases.

Manager Hanlon, of the local Players' League club, returned from New York yesterday morning. Speaking of his short trip, he said: "The principal object of my trip was to make an affidavit for the Ewing case. Several of us met in Judge Bacon's office and Ewing's side of the case is now all ready. Our affidavits cover

the case is now all ready. Our affidavits cover more ground this time than they did in the Ward case. Business people in New York, however, look upon these suits as being the result of stupidity. The old League cannot win and at any rate it is likely that none of the cases will be heard before next fall, so that if the League magnates do win their cases it will avail them nothing."

Mr. Hanlon spoke very hopefully of the proposed new League meeting next week. "We have some important business to do," he said, "and we will get through it all right. Every club in our circuit is in line and popular feeling is getting more in our favor every day."

DURYEA WANTS TO RETURN. The Red's Old Pitcher Desires a Few Inter-

esting Conditions. ISPECIAL TELEGRAM TO THE DISPATCH. St. Louis, March 6.-President Stern, of Cincinnati, received a letter from a friend in Cincinnati this morning which sets forth that it is true that Duryea desires to return to the Cincinnati club. Four conditions are stipulated, one is the liquidation of certain obligations that Duryea has assumed, another the return of the Brotherhood advance money and the third that he shall be protected in any litithe third that he shall be protected in any int-gation and given a three years' contract.

Mr. Stern is not disposed to receive Duryea with open arms. "I will not release a man to make room for him," said he. "The Brother-hood took him from me and I took Foreman from the Brotherhood, therefore I think we are even. I will turn the case over to Loftus and he can do as he pleases. Chicago, Boston and he can do as he pleases. Chicago, Bo and New York want Duryea badly."

The Cambria Iron and Steel Company Starting Up New Mills.

A MINERS' STRIKE THREATENED. Gold and Silver Discovered on a Westmoreland County Farm.

AWFUL DEATH OF AN OIL OPERATOR. Morbid Chrissity Attracts Thousands to the Scene of

the Kampf Execution.

The Cambria Iron Company is reaching out for additional mills to help it meet the demand for its manufactures. There is considerable discontent among the coal miners, and more or less talk of a strike. Lima oil has advanced to 20 cents a barrel. "SPECIAL TELEGRAM TO THE DISPATCH.]

JOHNSTOWN, March 6.-The Cambria ron Company has just concluded negotiations with the Baltimore and Ohio Railroad Company, owners of the Cumberland, Md., rolling mill, for a lease of that establishment. The purpose of this lease is to increase the capacity of the Gautier steel department. At present these works are urning out about 150 tons per day, whereas the company has orders that require a product of about 300 tons. It is therefore intended to supply the deficiency at the Cumberland mill. Machinery steel, spring steel, plow steel, finger bars, rake teeth and several other lines of special shapes will be turned out. The length of time for which the Cumberland mill has been secured is not definitely known, but it is presumed that the ompany will not have use for it after the new Gautier Steel Works are completed, which it is expected they will be about one year from next

The Cumberland mills have not been running full for some time. They used to make iron rails for the Baltimore and Obio Railroad, but ince steel rails have come in use they have been making merchant iron and steel. They are in fair condition, as several Cambria men discovered at a recent personal investigation. It is not known just how soon the Gautier people will put the Cumberland mill in operation, but it will likely be very soon, as Mr. George W. Thompson, superintendent of the rolls at the Gautier, and Mr. Joseph Edwards, day foreman are now at Cumberland, having day foreman, are now at Cumberland having necessary repairs made. It is probable that a number of experienced men will be taken from

number of experienced men will be taken from this place to man the mill.

Work on the foundation for the new Gautier department buildings here is underway. Nine stone piers have already been erected. They are eight feet square and set into the ground to a depth of about six feet. Two engines are in use pumping out water from the excavations for the pier.

GOLD IN WESTMORELAND.

Precious Metals in Paying Quantities Discovered Near Mt. Vernon. ISPECIAL TELEGRAM TO THE DISPATCH.I SCOTTDALE, March 6 .- So far as can be ascertained from the testimony of a gentleman who has been over the ground and is competent to judge, silver and other precious metals have been discovered on the farm of Jeremiah Stauffer, near Mt. Vernon. Mr. Stauffer was to-day visited by many persons full of anxiety for correct information. Geologist Stanton was seen by THE DISPATCH correspondent to day, and said he had been working on the examination for a couple of weeks and has found the rock to contain \$278 in silver and \$500 to \$1.000 in gold to the rock ton. He has discovered also the pyrites and sulphites of other minerals. Work will actually be commenced next week to develop it. Mr. Stauffer has not as yet received any direct offers for the field, as it is known he would promptly decline them.

them.

The geologist said it was hard to determine if it was in the same vein which extends through the Joyce farm near Connellsville, but in all probability it was, as he thought it extended south, and if some of the farms adjoining Stauffer's were to be tested the same strata could be found. Stauffer's farm contains several hundred acres and is near the Mt. Vernon ore mines, which are owned by the Charlotte Furnace Company, of this place.

MILITIA COMPANY DEMORALIZED By Jeniousies Between Officers and a Lack of Discipline.

PEPECIAL TELEGRAM TO THE DISPATCH. NEWARK, March 6.-The general demorali zation in the ranks of the militia of Newark. known as Company G, Seventeenth Regiment, O. N. G., which has existed for some time owing to jealousies between the commissioned and non-commissioned officers, and a lack of discipline, finally became so apparent that an investigation and inspection by the military dignituries of the State resulted Wednesday dignitaries of the State resulted Wednesday night, the intention being to put the company on a solid basis as soon as possible.

In compliance with instructions, Captain Burns, U.S.A. Inspecting Officer: Adjutant General Martin L. Hawkins, Assistant Adjutant General Thomas F. Dill. Captain John F. Clem, U.S. A.: Colonel E. J. Pocock and Major Carey Montgomery ordered a public inspection of the company, and 40 men of the 54 turned out. They were found well drilled in the manual of arms and military movements. Their out. They were round well drilled in the manual of arms and military movements. Their Captain, Mr. Walter Irwin, has been absent for some time attending school, and could not give the matter his personal attention. He will probably be asked to resign, and the company will be reorganized. The visiting officers were banqueted at the Hotel Warden.

PRICE OF LIMA OIL ADVANCED.

ts True Value Said to Have Become More Apparent. PEPECIAL TELEGRAM TO THE DISPATCH. LIMA, March 6.-The Buckeye Pipe Line company created a great stir in oil circles this norning by posting announcements that hereafter the price of Lima oil would be 20 cents per barrel, which would be an advance of 5 cents per barrel. It is the general opinion tha this is but a forerunner of what is to come, and that Lima oil will be gradually advanced to 50 cents per barrel, which is about its true value as a commodity. The advance is of great importance to this city and community, as it means an influx of new blood and an increase in the money spent by the producers. There will now be an immense amount of hustling done to obtain territory which here ne to obtain territory which has not yet been leased or developed. The reason for the advance seems to be generally understood to be that the Standard Oil Company have finally discovered a perfect method of refining the oil, and that hereafter none of it will be sold for fuel oil. It is thought this move means the equalization of prices with the Eastern production, and the making of the Lima product, a certificate oil.

MINERS' STRIKE EXPECTED.

Coal Operators Object to Pay an Advance Previously Agreed to.

PEPECIAL TELEGRAM TO THE DISPATCH. SCOTTDALE, March 6 .- The miners at the Monastery works, near Latrobe, were given a proportionate advance with the men of this region after the signing of the last scale, and the men at Loyalhanna, Bradenville and Ridge the men at Loyalhanna, Bradenville and Ridge-way were also promised an advance of 12½ per cent, dating from March 1. It now appears that the operators are unwilling to pay the ad-vance, and they may return to the old wages. Master Workman Kerfoot has returned from that district where he organized local assem-biles at Loyalhanna and Bradenville. The locals number about 300 men. The operators have been asked to keep their promise, which, if they refuse, a strike of that district will un-doubtedly follow.

An Oll Operator Drugged Into a Shaft and His Neck Broken.

(SPECIAL TELEGRAM TO THE DISPATCH.) LIMA, March 6.-William Weeter, an oil operator, contractor and driller of this place, was instantly killed at Ottawa to-day, where he had a contract for drilling several wells for citizens and an oil company. At the time of the accident he was fixing the rope (with another driller) known as the bell rope, which caught him and drew him into the shaft, breaking his neckland crushing his back and one arm. The machinery was stopped, and his lifearm. The machinery was stopped, and his life-less body was taken out.

His remains were brought here this evening and taken to the residence of R. E. Mooney, who is a business partner. Later they were taken to Bradford for burial. He was 47 years

of age and well known among oil operators. He leaves six orphan children, his wife having died IN THE JURY'S HANDS.
