HOGS JOIN IN THE UPWARD MOVEMENT

OFFICE OF PITTSBURG DISPATCH, MONDAY, March 10, 1890. The stock on sale to-day at Herr's Island was a good average in quality, and, in some lines, a shade better. But supplies were light as compared with recent receipts, and, as a result, markets were very active at an advance ou rates

of last week. The supply of cattle was, as usual, principally from Chicago. Quality was good and demand good at 25c per cwt above the best rates ob-tained last Monday. Some extra prime heavy beaves were sold as high as \$5.75, a price much beyond anything sold for a month or two past. Following was the range of markets: Prime heavy Chicago beeves, weighing 1,500 to 1,600 hs, \$5.25@575, with the majority of sales ranging from \$5.25 to \$5.50; medium weights, 1,850 to 1,450 hs, \$5 25 to \$5 50; medium weights 1,350 to 1,450 hs, \$5365 10; do, 1,200 to 1,300 hs, \$475694 90; prime light weights, 900 to 1,100 hs, \$475694 50; common to fair thin and rough steers, \$8,2563 75. Fresh cows and springers were held at \$25645, with sales reported at \$25640. Calves were in fair supply, the total offerings being 71 head, and all found ready sale at \$66540 per h. A few bulls and dry cows brought 254610 per h. Receipts: From Chicago—I. Zeigler, 108 head; L. Gerson, 108; E. Wolf, 18; A. Fromm, 52; I. Rothschil, d 54. From Pennsylvania—G. Fluner, 10; E. D. Sergeant, 5; total, 355; last week, 349; previous week, 348.

Sheep, Lambs and Swine.

There was practically no market, only 23 head being offered, and these, which came from Butler county, were all taken by a Diamond market butcher at 5%c per B. A 2-year-old sheep weighing 265 hs was in the flock, and is the heaviest on record. It will be found on Jacob Richter's stall, Diamond market, the last skin of this 265 h wether has been

Total, 783; last week, 759; previous week, 839.

East Liberty Yards. The offerings of cattle this morning were 68 loads, against 82 loads last Monday. Supplies consisted mostly of fair to good butcher stock. There were very few heavy cattle on the market, and no strictly prime stock. The supplies

were in the main from Cnicago. Markets were active at an advance of 10c per cwt over last Monday's prices for all grades.
There were a few loads of 1,430 to 1,500 h cattle offered which commanded prices ranging from \$4 65 to \$4 75. Prime cattle would have brought \$5 or more per cwt if they had been offered. Fresh cows of high quality are not quotable, as there were none offered. The best on the market sold at \$30 a head. There was a fair market sold at \$30 a head. There was a fair supply of calves, and prices ranged from \$460 64c per h. according to quality. Buttermink caives, or grassers, sold at \$263 c per h.

Sheep and lambs were very firm and prices a shade higher than last Monday.

Best native wethers brought 6c per h. and Western wethers 5c per h. The range for lambs was \$6 40 to \$6 75. The latter figure was easily had for a loa 1 of Ohio lambs.

The receipts of hors at East Liberty, this morning, aggregated 26 loads, and the top price was \$4 31. On Saturday, owing to scarcity, Philadelphias were sold at \$4 45. Markets opened strong all along the line at East Liberty this morning, and drovers are correspondingly happy, being assured that the winter of their discontent is over and that the tide has turned

Corn Scores a Point. CHICAGO-Wheat-Trading was light and the narket quiet and dull. It was a waiting marmarket quiet and duil. It was a waiting market, operators not feeling inclined to enlarge upon their outstanding trades until they ascertained the nature of the Government report, and the volume of business was below the average. The market opened ½c higher than Saturday, eased off ½c, then railied ½@½c, tiel back again to inside figures ruled steady, and then suddenly filled up ½@½c, ruled firm, and closed at about ½@½c higher than Saturday. Cable advices did not show much of any change in prices.

Cable advices did not show much of any change in prices.

Corn—A fair amount of business was reported during the first half of the session, and the feeling prevailing was quite firm. As the day advanced values ruled quiet, but the early advance was very well maintained. First sales were a shade above the closing price of Saturday, were firm and gradually advanced 16%c, ruled very steady and closed 16%c higher than Saturday.

Oats were moderately active for May and advanced 16%c, but outside figures were not maintained until the close. Other futures were quiet and firmer, but without new features.

Mess pork—There was only a fair trading. Prices averaged slightly higher and the market closed at outside figures.

Lard—A moderate business was transacted and the feeling was stronger. Prices ruled about 2366c higher and the market closed steady.

Short rib sides—A moderately active trade

about 25/60c higher and the steady.

T. D. Messler Succeeds in Securing a Foothold on Smithfield Street.

ANOTHER BIG DEAL CLOSED UP. The Old Story of Scarcity of Business

Property Going the Rounds. CANARD OUT OF WHOLE CLOTH

Another real estate mystery was unraveled yesterday by Black & Baird. A month or so ago it was reported they had sold Nos. 411 and 413 Smithfield street, two threestory brick buildings and lot 40x60 to Thomas D. Messler, of the Pennsylvania Railroad, for \$80,000. This was an error both as to purchaser and price. But the coupling of his name with the transaction induced Mr. Messler to examine the property, and being convinced that it was a good investment he concluded to make the purchase, paying \$72,500, or \$1,812 50 a foot front. The deal was closed up and the deed passed yesterday. He will make extensive im-provements after the expiration of the present

eases, which have three years to run. Scarcely had the above facts been secured when the report was encountered to the effect that Samuel W. Black & Co. had closed the sale of a down-town business property for \$60,000. The firm admitted having made the deal, but refused to give particulars at present.

"I see from the reports of the clearing houses of the country that Haltimore put us in the hole again last week," remarked a Fourth avenue bank officer yesterday. He added: "Baltimore has been doing an immense grain trade for some time, but I think the bulk of it is over. and that from this time on Pittsburg will out-rank her. When it comes to regular business there is no question of our superiority. We have distanced Cincinnati, will soon lead Baltiare alive and kicking."

more, and will then give St. Louis a race. We are alive and kicking."

The Sheffield district may redeem itself from the imputation of being prolific of dusters. Another good well has been brought in there. It is Horton, Crary & Co.'s No. 4, on lot 196, which started off at 25 barrels an hour and is keeping up at that rate.

adapted to railway and other travel, and would undoubtedly be torn down. The gentleman thought the fate of the venerable structure would be practically decided at the meeting

next week. Judge Blodgett, sitting in the United States Circuit Court at Chicago, has decided in a case brought by The Consolidated Roller Mill Company versus The Barnard & Leas Manufactur ing Company, that the roller process patents mainly relied upon by the Consolidated Company, being those of Gray, Odell and Bierk-holz, could only be sustained for such special Friedry, oglest Edgin, 25%. PHILADELPHIA—Flour firm with a moderate entered the field at so late a date that they equivalents enforced in their behalf. The decision will relieve a large number of millers from the fear of suits for infringment.

The Philadelphia Stock Exchange has elected the following officers: President, Bushrod W. Adams; Secretary, J. G. Johnson; Chairman, Thomas G. Knight; Vice Chairman, William J. Morris; Governors (to serve three years), H. F. Bachman, Abraham Barker, George S. Fox, George A. Huhn, R. M. Janney, W. J. Peale, H. L. Townsend, H. H. Lee.

SIGNS OF IMPROVEMENT.

Stocks Move Slowly, But a Good Feeling Among the Brokers. Stock trading yesterday was of the usual Monday proportions, sales being 330 shares, but

the feeling was strong, which was an encouraging feature. The market developed no aging feature. The market developed no changes in conditions to make or unmake values. There is a good demand for nearly everything, and nothing is pressed for sale. Improvement should follow.

Philadelphia gas made quite a bulge, but, lost a part of the advance. The other natural gas stocks were steady and unchanged. Pittsburg Traction was the strong feature in its class, 40 being offered and refused. The others were inclined to heaviness. Electric and Luster were weaker. Switch and Signal was stronger. Five shares of Pittsburg, Allegbeny and Manchester Railway were marketed at 290, the first movement in it for several months. movement in it for several months.

SINEWS OF WAR.

Local Pinances in Good Shape and Trade Conditions Encouraging.

There was a good demand for money yeste day, incident to the early outcroppings of the spring trade, but the banks were well supplied with funds, and all applicants having the requisite capital were accommodated. The rate was 6@7 per cent, with the bulk of business at the inside figure. Currency was scarce with some of the banks and plenty with others. As a general thing it traded even with exchange. Bank clearings indicated continued activity in the leading lines of trade, the ex-

OIL STOCKS INCREASING.

The Most Bearlah Pipe Line Report in Three Yenra.

The pipe line report for February, posted yesterday, was rather bearish, showing a net reduction of stocks of only 174,000 harrels, the smallest of any month since June, 1887, when it was 142,000. The reduction of certificates was The market was dull from opening to finish,

There is no scarcity of business sites in Pittsburg, nor will there be for years to come, and all statements to the contrary are false, misleading and injurious to the city. This class of property is abundant in every ward and on almost every street. It abounds in the very heart of the city, while the suburbs are full of it. Penn and Fifth avenue extension are lined with choice business sites. They abound in the First ward, and range in price from £1,000 to foot front. West of Wood to Ferry they are rated about the same. On Water street from Sixth to Wood they are held at the first ward. Association has re-

As these are all choice locations, the prices named are very reasonable. The lots fronting on Water street are very deep.

Directors of the Sixth Street Suspension Bridge will hold a meeting next week to consider propositions of the Fittsburg, Allegheny and Manchester Railway Company. One of the directors said yesterday that it had been about settled that the present structure could not be adapted to railway and other travel, and would

The Ferree Well Sets Some Cornepolitans Crazy - Town Lots Being Leased for Boring - Other South-

side Oil-Well Work. As stated on Saturday, the well on the George Ferree farm in Coraopolis borough is likely to make things crack in that village. The capacivomited oil at intervals on the floor of the derrick, and its manifestations were such as to make Mr. Ferres several thousand dollars richer, if he had chosen to put his ground in the market. People were divided in opinion as to the probable output. The well has not been drilled in yet, and while some said she was good for 25 barrels, others thought she would make 40 just as easily, while the irrepressible talked of 300 or 400 barrels a day.

While no one could sit down and figure it out, there were people trying to lease town lots SOx150 feet which would barely give room for a rig and tank. Some citizens were measuring their back yards and trying to cut them so as to make room for rigs.

Since the Depp No. 2 was struck excitement had abated in that section, but the Ferree well has put everything into a ferment.

their back yards and trying to cut them so as to make room for rigs.

Since the Depp No. 2 was struck excitement had abated in that section, but the Ferree well has put everything into a ferment again. Dorrington & Ewing are still trying to exhaust the salt water in Knopf No. 1. They have pumped with a persistence worthy of success, getting enough oil, perhaps, to ray expenses. They shot the Schmid well, near the Knopf, on Thursday, but the hole has not yet been cleared of the debris. The owner of the farm, Mr. Schmid, doesn't seem to have much hope of the well being a payer. Operations on the Depp No. 3 were frozen up on Wednesday at a depth of 1,520 feet.

frozen up on Wednesday at a depth of 1,520 feet.

In a few days, or weeks at furthest, Chartiers station, P. & L. E. R. R., may be in the center of an oil district. A well is going down on each side of it. One is on River avenue, not far from the city line. It is being put down by Hulmes, Criley & Smiths. The other is the Bryan well, a few rods above the town, up Chartiers creek. It is down 1,000 feet.

It is said those two corporations furnish the bulk of the county's paupers. The matter will likely be definitely settled at the next meeting of the board.

Mr. Guy has received an offer from a party which is highly advantageous to the poor farm management. The party offers to drill a well and if gas is gotten to sell the well to the Home for the actual cost of boring. Should oil be gotten the contractor reserves it to himself, all except the royalty usually given. In case gas be found the fuel will be largely consumed by the Home, and any surplus can be readily disposed of.

ANOTHER ADVANCE IN LIMA OIL. Result of a War Between the Standard and Independent Refiners.

PRECIAL TELEGRAM TO THE DISPATCIL! FINDLAY, O., March 10.-There was much excitement here this morning among oil oper-ators and the producers caused by the advance in the price to 21 cents per barrel by the Standard Oil Company when its agents found that the independent buyers were offer-ing 20½ cents for the product. The advance by the Standard last week to advance by the Standard last week to 20 cents per barrel, after having kept the price down to 15 cents for three years, was brought about by the desire to shut out the independent buyers in the field, but these gentlemen were game and this morning raised the price on the Standard half a cent per barrel. The Standard then put the price to 21 cents, but the war is on, and it is freely predicted that Ohio oil will command 30 cents by Saturday night, thus doubling the price within a week.

There is much feeling here and the oil boom is on in all its intensity.

Scramble for Oll Leases. There was quite a scramble yesterday for leases for oil territory in the vicinity of the new Guffy well at Montour. James W. Drape has leased about 56 acres of his farm, which adjoins the new venture, and secured a cash bonus of \$4,000, with a graded royalty from one-eighth to one-fourth of the oil.

Sale of Washington Oil Lands. WASHINGTON, PA., March 10.—Some very heavy sales in realty have just been closed here, two of them being specially worthy of mention. The Shirl's grove, containing 20 acrea has been sold to a land company for \$18,000.

SHORTS IN READING.

They Boom the Big Conler to Get Out of a Tight Pince-Heaviest Transactions Since the Oregon Trans-

continental Dral. NEW YORK March 10.-There was little of he stock market to-day outside of dealings in

New York, March 10.—There was little of the stock market to-day outside of dealings in Reading, though a few stocks in sympathy with that stock showed marked strength at times. The fear of the consequences of the completion of the deal, however, kept the general list in a feverish and generally unsettled condition throughout the day, and a raid by the bears in the last hour upon the easing off of the pressure upon the shorts in Reading resulted in wiping out most of the early gains in the rest of the list.

The shorts in Reading this morning found themselves in a tight place, and not since the Orgon Transcontinental deal have there been such heavy transactions in any one stock, nor wide an interest taken in any deal. During the forenoon, at least, the corner in Reading absorbed the entire attention of the street, and out of a total of 171,000 shares listed stocks traded in over 127,000 were in Reading, and for the first hour over 50,000 shares of that stock were dealt in. For the day it furnished 250,446 shares out of 379,598, or about two-thirds of the entire business in listed stocks. The record for one stock is certainly eclipsed by this.

A large crowd gathered in the stock before the opening, and everyone was bidding with no stock apparently for sale. The price rose from 33½ to 40, when the bidding for cash lots began, and, while sales regular way were made as high as 41½, cash sales were run to 42½ and the difference at times was even larger than that. The bidding for cash lots continued very urgent up to noon, after which there was less demand for it until 2 P. M., but in the last hour very little of the stock was sold that way.

Beyond the movements mentioned there was little in to-day's market, and dullness and stagnation wore a feverish tone. Sugar was an exception, however, and while it ran off at first, a material advance followed, most of which was retained at the close. Louisville, New Atbany and Chicago was conspicuous for one of its sharp advances, and Union Pacific and Tennessee Coal were weak. nd Chicago was conspicuous for one of its harp advances, and Union Pacific and Tennes-Coal were weak.

sharp advances, and Union Pacific and Tennessee Coal were weak.

Railroad bonds were slightly more active, but outside of Reading 4s, which, after opening up, lost all of the improvement, there was little feature to the trading. The sales reached 1,324.000. The tone of the market was steady, but there were a few losses, and Louisville, New Albany and Chicago firsts declined 2 to 117, and Peoria, Decatur and Evansville seconds 33/4 to 66.

The Post says: Of course this heavy manipulation of Reading has no reference whatever to the value or prospects of the property, or to the prospects of the general stock market. It is merely the endeavor of parties, who have got loaded up with Reading, to get rid of it without loss. To do this they must first put up the price, and then try to sell out on each other for the public will not buy it. The proof of the artificial character of the price to-day was that while the stock, of which there is \$33,500,000, was selling at 40%, the third preference incomes. was selling at 40%, the third preference incomes, of which there are \$18,500,000, that come ahead of the stock were selling at the same instant

But aside from the Reading manipulation, there was a stronger feeling developed in the general market to-day. As mentioned on Saturday, Lackawanna is also quite largely oversold, and the supply of stock in the street is small because it has been absorbed for investment. The granger stocks are all still oversold to some extent and now that the latest and most trustworthy information is that the Chiost trustworthy information is that the Chi-

Grain, Plour and Feed. Sales on call at the Grain Exchange, 1 car mixed hay, \$8 00, 5 days; 1 car No. 2 yellow shell corn, 10 days, 35c: 1 car sack bran, spot, \$14 00. Receipts as builetined, 35 cars. By Pittsburg Ft. Wayne and Chicago, 1 car of wheat, 5 of hay, 9 of flour, 1 of rye, 2 of oats, 1 of corn. By Pittsburg, Cincinnati and St. Louis, 4 cars of corn. By Baltimore and Ohio, 4 cars of hay, 1 of flour. By Pattiburg and Western, 1 car of straw, 1 of hay, 1 of corn, 1 of oats. By Pitts-burg and Lake Erie, 2 cars of flour, 1 of rye. There are no new developments in the cereal situation since our last reports. Wheat and shell corn show tendencies toward an upward movement. In the Northwest values of wheat and flour have advanced within a few days and and flour have advanced within a few days and holders have grown much firmer in their views. There has been of late a scare as to prospects of winter wheat for which the weather is responsible, and speculators are making the most of it in pushing a buil movement. It is many years since prices of wheat and flour have remained stationary so long as this season, and buils, whose occupation has been gone for some time, are disposed to make the most of their present opportunity.

Baltensperger & Williams, 154 Fourth avenue, sold to Mrs. Christina G, Otto, for Loyal C. Greves, two frame dwellings of six rooms and hall each, lot 35x130, situate on Edmond street, Twentieth ward, city, for \$2,750 cash.

Drygoods.

NEW YORK, March 10. - The jobbing trade pened encouraging to-day and the week prom-ses to be an active one. At first hands, demand was on about previous scale, replenishing orders being conservative. The condition orders being conservative. The condition of the market was unchanged, goods continuing to be shipped out as fast as received, and the tone being well sustained both on account of the quantity of goods sold and because of the still increasing cost of cotton. Print cloths and some colored cottons are dull and weak but the general market is not affected thereby.
