erty. He was one of the best known sporting men, not only in this city, but all over the State. He was in good health and was on the streets a few days ago. For some time he had been suf-fering from a muscular disease which caused his death. Mr. Priddy was born in the district of Merthyr Tydvil, Wales, in 1832. At the age of 20 years he went to Lancashire, where he worked in the mines. He took to boxing as an amusement, and his skill soon attracted the attention of professionals. He was engaged in a number of encounters with noted men of that day and came off victorious in all of them. called then in the old country, in the town of Wigan. His wife was a woman of energetic ability, and they soon owned one of the old-fashioned public houses. In 1861 they came to this county and located at Coal Bluff on the Monongahela river near Monongahela City. Ho worked in the mines at that place until he earned considerable money and came to this city in 1867. He opened a public house in the Diamond square, where he irred until within the past few years. He was a great admirer of Joe Goss and sup-ported him in his contest with Paddy Ryan. He also backed Tom Walling in his encounter with Campbell at Fayrette City in 1882 when Mr. Priddy lost considerable money. He was also a great lover of aquatic sports, and always backed the English champions. His son Pete took to the water, but Mr. Priddy lost corsid-erable money on him. He leaves six sons, Peter, Joseph, John, William, Thomas and Harry. He had also one daughter, Mattie,

The fact is fully established in the mind, of the public that our bargain sales are genuine, that our offerings are tempting, and that every representation made is carried out to the letter. Hence the success which has followed our efforts to please the people.

Besides the bargains which we have already published both in high and medium grades of Shoes, there are others which we can quote every day in the week if so disposed. With an immense stock to rely upon our means to gratify all tastes is inexhaustible, and we take pleasure in leading the mind into new channels of thought on the all-important subject of Footwear.

Naturally one will buy where the greatest real value is given and we desire you to think this over. We mean where the best goods for the money are sold. Prices are somewhat confusing unless you know the value of the goods. After you see them, handle them and give them every turn that close scrutiny would suggest, we have no fear for the result. When we say that a bargain exists in a certain line of goods, remember we have digested the subject well; it would be folly to throw out some worthless things, calling them by misleading names and putting on a price which seems cheap-that is, way down in figures, but not cheap in reality. Understanding the value of goods, we never issue a bargain that has not been fully considered in our judgment to mean that the buyer can gain a decided advantage in purchasing it. Shoes at regular prices vary but little, except when the market affects changes by rapid fluctuations. When these regular prices, then, are cut for some specific purpose, as for example our enlargement sale, this means that we are happy to give the public a chance at that particular time rather than move our goods that the contractor's work may not be impeded. This explains why, at a juncture like the present, we are willing and able to make bargains all along the line and move our goods at a liberal discount right where they are needed.

As an illustration we quote two only of the many bargains offered, which, mind you, is a continuation of our bargain sale talk:

A GENTLEMAN'S FINE CALF WELT SHOE, either in Bal., Button or Congress, all styles of lasts, finished in good taste, a shoe which we warrant, at \$2.90. This is a regular \$4 Shoe, upon which you save \$1.10.

A LADIES' FINE FRENCH DONGOLA, hand-turned or handsewed, Common Sense and Opera lasts, all widths, warranted in every particular, at the ridiculously low price of \$2.90. This is a regular \$4 Shoe, upon which you make a clean saving of \$1.10.

A saving can be effected on all other goods in every department in this great enlargement sale.
