A shortage of natural gas is reported from the Edgar Thomson Works for a day or two past, and there has been a necessity to go back to coal to keep the fires burning under some of the boilers. Yesterday 20 of the boilers

some of the boilers. Yesterday 20 of the boilers which have been fired with gas for months past, were fired with coal. The new furnace H, at the Edgar Thomson, has been in blast for some days, and furnace I is being pushed toward completion as fast as money and muscle will permit. It is expected that the latter will be in blast by the Fourth of July, and when it is in operation the output will be increased not less than 25 per cent over that of the year past. The increased capacity will bring the yield of steel rails up to 1,500 tons per day. Though orders have not been coming in so freely of late as during the latter part of 1859, there is still dewand for all products for some months ahead, and a year of activity is assured. ctivity is assured.
