PIG IRON MARKET UNSETTLED.

Sur hern Furnaces Seeking Eagerly for Business.

MERCHANT STEEL A TRIFLE WEAKER

SEPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, March 27 .- The Iron Age

report of the market is as follows: American Pig-The market has been in an presentled condition, and it is only within the last day or two that encouragement has come through an increase in the number of inquiries. Buyers are beginning to watch closely, but as vet do not show any disposition to buy. Occasional small lots are thrown on the market for what they will fetch, a lot of about 200 tons of o. I foundry having been sold in this way at \$17. An element of uncertainty in the ocal market is the disposition which is to be made of a block of upward of 100,000 tons of pig iron, Northern and Southern, held on speculation by a leading firm in the copper trade. It is being offered, but so far as we can learn is not being pressed, Southern furnaces are eagerly seeking for business, and prices have settled down further, so that No. 1 is now quotable at \$17 75 and \$18 delivered. Northern iron is also quotably lower, No. 1 foundry being \$18 50@19, while there are rumors of sales at \$18. We quote No. 2 Northern \$17.50@18, and gray forge \$16.75@\$17

Scotch Pig—We quote Dalmellington at \$21 50 @22, and Summerlee \$25, small lots being sold. DOCKERS' STRIKE AFFECTS PRICES. Spiegeleisen and Ferro-Manganese-Spiegel-

eisen is being offered at \$34 for 20 per cent, but there has been no business. Importers decline to entertain offers by steel works of 3,000 to 5,000 ton blocks at \$33. Ferro-manganese is quiet at \$90@35 for early delivery and \$85@87 for later shipment. Private cables report that the Livermont duck strike is not yet over.

pool dock strike is not yet over.

Billets—A considerable volume of business is reported to have been done in a very quiet way, among the purchases for Eastern wire mills being one block of 6,000 tons. The market is regular east and west, with \$31 50632 00 a fair quotation at Eastern mills Billets are now unduly low, considering the price of pig iron and the price of steel rails.

Wire Rods—We quote \$40,050 at sellers' works, nominally. The accident at the Beaver Falls mill does not materially affect the situa-Falis mill does not materially affect the situaion, since the works were to close down anyw in order to make extensive repairs and provements, in anticipation of which the magement had accumulated stock since Jan-

Steel Rails—The feature of the market has been the relatively great activity in Pittsburg. It is resorted that the Pennsylvania Railroad has placed an order for a considerable quantity of steel rails with the two Pittsburg mills. Beside its share in it, one of them has down about 15,000 tons, chiefly for the Southwest and West. Eastern mills report no sales of consequence, but nearly all of the works East and quence, but nearly all of the works East and West state that they are in receipt of a considerable number of inquiries. Some of the Eastern mills decline to mark the low quota-tions occasionally made. We quote \$55,225 to. Structural Material—Bridge builders are reported to be very eager for work, and prices for is class of iron and steel continue very low. For architectural work only a moderate current business is being done. Architects are beginning to send out specifications, and the promise for the future is good. We quote angles 2.15@2.25c; tees, 2.65@2.75c, and beams els, ale on dock,

WEAKNESS IN MERCHANT STEEL. Plates-We quote steel shell 2.762.9c; flange, 2.8563.14c, and tank 2.45@2.5c delivered. Merchant Steel-The first indications of weakness in this line have come from the West,

weakness in this line have come from the West. We quote: Machinery, 2.35@2.4c; tire, 2.25@2.4c; and toe calk, 2.4@2.5c.

Fastenings—The market is very quiet and in buyers' favor. We quote: Spikes, \$2.10@2.20; bolts and square nuts, 2.10@3.c; and bolts and hexagen nuts, 3.10@3.15c delivered.

Old Rails—There is absolutely nothing doing, the market remaining nominally \$24.50@25.00 for iron rails, and £1.00@21.50 nominally for our state pairs. Old wheels are nominally \$17.00.

ACROSS THE WATER.

Settlement of the Coul Strike Affects Markets Favorably-Slightly Increased Demand for Scotch Pig Iron-Block Tin Quiet.

PRINCIAL TELEGRAM TO THE DISPATCH.

NEW YORK, March 27.—The Iron Age to-day publishes the following special cable from

The settlement of the coal strikes has promoted a better feeling in all markets, but business is momentarily slow. Special brands of Scotch pig have met with somewhat increased demand, and speculative interest, for a time, showed some activity. At present, however, speculation is flat. At the close of business, Tuesday, Scotch warrants sold at 51s 5d, Mid-dlesborough at 53s, and hematites at 6is 4d. To-day there was business at 51s 3d for Scotch, 52s 9d for Middlesborough, and 65s for hematites. Makers' prices are somewhat higher for Muddleshorough pig, irregular on Scotch and steady for hematites. Steel raits, hillets and slabs are quoted at a further decline, with busi-

ness low.
In block tin there has been little doing. In block tin there has been little doing. Speculation is quiet and the demand for consumption has been reduced by the lessened output of tin plates. Copper has also been quiet. A fair business in merchant bars was done at about £48 75 6d, but owing to the fact that warrants have become rather scarce, prices have since hardened and the market is now firm but less active. More business has been done in tin plates. Inquiries for larger quantities are made and prices are steadler.

Bessemer coke sold this week at 14s. 6d., which price is below the figures generally quoted by makers; 15s. 6d.@15s. 9d. is generally quoted.

quoted.

The annual meeting of the Canadian Copper Company was held at Glasgow on the 25th inst., at which it was agreed to wind up the affairs of the concern. At the meeting of the Montana Company a dividend of 5 per cent was declared and reports of officials were to the effect that matters looked favorable for an improved result in the future. Latest reports from the sult in the future. Latest reports from the mines were stated to be very favorable.

American Manufacturer's Cable Quotations, 7

active at intervals, but is tame at present, wit prices steady at about 51s. 4d.@51s. 6d. Maker prices are still irregular and the demand rathe slow.

COKE TRADE GOOD.

Unasually Large Shipments and a Constant Demand-Many Operators Enlarging Their Works-Several Will

Ran Fall Time. SCOTTDALE, March 27,-The coke trade for the past week has been brisk, with emphasis on brisk. The activity is traced to the car supply and the disappearance of blockades on rail-roads. Consumptive requirements are not in the least moderate, judging from the amount

of coke sent out last week. The depression in the iron trade may yet have its effect, and it would not be safe to class this as a permanent advancement. Time will tell, however, and production and shipments may increase steadily. Nearly all of the operators seen by THE DISPATCH correspondent are in better spirits now than two or three weeks aco, when shipments and orders had a downward real est

tendency.

To sum it up, there is a general movement upward. The Southwest Coal and Coke Company will have several of their works make full time this week—that is, six days.

Increase of Ovens. An operator seen by your correspondent last night, said: "Yes, trade is brisk, and the reason many of the operators do not make six days is that they fear the market would be overcrowded, and in that event trade would beccrowded, and in that event trade would become unsettled and depressed. I cannot account for so much coke oven building, as in my opinion there is plenty of ovens for the market."

It is understood several other companies besides the Southwest will make six days, but the majority will make five days, and that seems to be the rule.

There are more announcements of coke oven building. The Dunbar Furnace Company is grading for 30 additional ovens at the works near Dunbar. This will make a plant of 150 ovens. If ovens under contemplation are

ovens. If ovens under contemplation are erected, at least 1,000 new ones will go up this

Unusually Large Shipments. Shipments gave a total of 7,135 cars, the largest weekly shipments this month, an average of 1,190 cars against 1,130 cars of the week before. The shipment for last week was disbefore. The shipment for last week was distributed as follows: To points west of Pittsburg, 4,075 cars; to Pittsburg and river points, 1,560 cars; to points east of Pittsburg, 1,560 cars; to points east of Pittsburg, 1,560 cars; to points week aggregated 4,850 cars and were distributed as follows; To points west of Pittsburg, 3,825 cars; to Pittsburg and river points, 1,625 cars; to points east of Pittsburg, 1,100 cars.

From the above summary it will be seen that western shipments increased 250 cars; Pittsburg shipments increased 450 cars.

Prices remained firm at \$1.75, \$2.45 and \$2.65.
Freight rates from coke ovens to the principal points of consumption are as follows:

ANOTHER ICE PLANT.

Eastern Men Select a Site and Will Begin Operations at Once.

in the city for several days looking for a Samuel W. Black & Co., through whom the negotistions are being conducted, stated yesterday evening that a location had been decided upon and that material for the buildings and the machinery would be ordered at once. The total outlay will be about \$125,000. The firm refused to give names or particulars, but said the gentlemen meant business, and that the enterprise would be put through as rapidly as possible. The site is believed to be not far from the Fifth avenue market

More money is being made in real estate, and that, too, without anything in the shape of a boom or other extraneous influence, than in almost any other commodity dealt in. Here are a few cases in point: A short time ago Messrs. Herron & Sons sold a property on Wilkins ave nue for about \$9,000. The purchaser intended to build, but changed his mind and instructed the same firm to sell it. This they succeeded in doing yesterday, and the price realized was

A few months ago Kelly & Rogers, East End real estate dealers, sold the Young property on Penn avenue to John R. Rush for \$50,000. Yesterday they resold, through Schwan & Kirker, the same property to a well known business man of the East End for \$62,000—an advance of 25 per cent. The purchaser pro-

poses to erect a number of handsome dwellings and otherwise improve his holding. Of course these are special instances of the enhancement of real estate in and around Pitts burg, but the same influences that brought about these sharp advances in so short a time are at work all along the line and affect, more or less, every parcel of property on the market. Chief among these influences are growth of population and expansion of business. They are at the base of all presperity, and so long as hey are in full vigor there will be no trouble to find a market for real estate at a fair value. f owners refrain from extravagant demands, what is well now will end well.

A SURPRISE.

Central Traction Takes a Turn for the Better-Other Fentures.

Local securities sold fairly well yesterday transactions aggregating 450 shares, furnished by Central Traction, Pleasant Valley, Philadel-phia Gas and Westinghouse Electric. Buyers and sellers were generally wider apart than usual, making it difficult to fill orders. Central Traction was the only stock that scored a decided advance. This was unlooked for, and was quite a surprise. It was bid up to 28 in the forenoon, but weakened off later and closed at 27%, with none offered. The support came from Whitney & Stephenson.

Other features were fractional advances in Pieasant Valley, Wheelmr and Chartiers Gas, and weakness in Philadelphia Gas, Switch and Signal and Pipeage. The rest of the list showed no special change.

COMFORTABLE ALL ROUND.

Banks Liberal Lenders, but Idle Capital Accumulating-Currency Easy. There were few new features in the local money market yesterday. Railroads did considerable checking and paying, which were re-

flected in the exchanges. Several of the banks were liberal lenders, but there was no rush for accommodations. Acceptable paper was taken at 6 and 7 per cent, generally at the inside figure. The volume of idle money was increased by large deposits, Currency was easy. There was a comfortable feeling all round.

Exchanges were \$2,708,639 13 and balances \$392,236 42.

Money on call at New York yesterday was easy, ranging from 2½ to 5 per cent; last loan, 3: closed offered at 8. Prime mercantile paper, 5½ 67½, Sterling exchange quiet but firm at \$4.84 for 60-day bills and \$4.87 for demand.

A BAD FINISH.

Oil Steady at the Opening but Weakens Toward the Close.
Petroleum opened steady yesterday, advanced and reached the highest point about noon, receded and closed weak at the lowest point of the day. Trading was brisk at times, and one or two good-sized blocks changed and one or two good-sized blocks changed hands. The range was: Opening, 85%; highest, 85%; lowest and closing, 84%.
Although no one spoken to on the subject would admit that the Standard gobble of the Lima Oil Company property had any effect on the market, it was gathered from remarks here and there that it had caused considerable uneasiness, and would probably have the effect of holding the market down for some time, In-

deed, some admitted that 75-cent oil was a

ossibility.
Action will be taken by the Board of Directors of the Exchange to-morrow on the proposition to return to the old system of trading.
Guffy & Co,'s well, at Gibson, came in a duster. Griffith & Co.'s Wildwood well is also a failure.

A BIG PILE OF MONEY INVOLVED.

Instances Showing How Fortunes May be Realized in Real Estate.

INVESTMENTS THAT TURNED OUT WELL It was learned yesterday that a party of Eastern capitalists have had a representative in the city for several days looking for a site are nearly eastern. BIG THINGS CLOSED UP.

Important Transactions in City and Suburban Realty-A Fat Mortgage.

W. A. Herron & Sons sold a piece of land on the west side of Roup street, corner Wilkins avenue, in size 448x160 feet, consisting of eight lots, for \$13,000 cash. Black & Baird, 95 Fourth avenue, sold for Robert Agnew to H. T. Davis the property known as No. 160 Fayette street, Allegheny, being a three-story brick dwelling, with lot 24x 124 feet to Hamlin street for \$5.610 cash. Reed B. Coyle & Co., 131 Fourth avenue, placed a mortgage for \$3.000 on a Craig street property for three years at 5-310 per cent.

Samuel W. Black & Co., 99 Fourth avenue, placed a morigage for \$10,000 for five years at 4½ per cent, free of State tax, on property on Third avenue, near Smithfield street.

Baltensperger & Williams, 151 Fourth avenue, sold for W. H. Wilson to Albert Bonell, a lot 22x100 on Arch street, Twenty-first ward, for \$400. The purchaser will build at once.

Ewing & Bvers, 38 Federal street, sold for Samuel T. Fulton to William Fletcher, the property No. 6 Alpine avenue, Second ward, Allegheny, being a two-story frame house of five rooms, with lot 1234x00 feet, for \$1,600. Reed B. Covie & Co., 131 Fourth avenue.

ALMOST LIFELESS. Railrond Shares Conspicuously in the Soup

-Slight Gains Early But Lost Later-Money Working a Little Closer.

There was some buying of Missouri Pacific early in the day upon rumors that the dividend would be increased, and a script dividend of 11/4 per cent was talked of, but upon the declaration of the usual 1 per cent the dis-appointed speculators sold out again and the appointed speculators sold out again and the stock retired. Even the specialties which have furnished all the important movements of late were stagmant, the only one of note being in Louisville. New Albany and Chicago, which opened at 45½, against 44 last evening, but again closed at 44 to night.

The market opened with a strong tone, and slight gains were made in the early dealings, but later the apathy of operators told on prices, and a slow sagging took the place of the firm tone displayed during the past few days. Late in the day the influence of the approaching April settlemant was felt and money worked a little closer, rates on call going as high as 5 per cent, which induced a little seiling for the short account by the local scalpers, and in the last hour a more decided heavy tone was developed. The close, however, was dull and steady at insignificant changes for the day. In no case was there a marked difference between last night's price and this evening's, though the declines are more numerous.

was there a marked difference between last night's price and this evening's, though the declines are more numerous.

Dealings in bonds were comparatively active to-day, the sales of all issues reaching \$1.210,000. The trading was marked by no feature as in stocks, and the final changes of importance to-night are even less in number than usual of late. Ohio, Indiana and Western seconds rose 2½ to 55; Kansas City and Omaha firsts 2 to 82. The Post says: For the first three months of its last fiscal year, three months to February 28, 1889, the net earnings of Reading Railroad were \$1,592,691; from which was to be deducted the loss of \$252,126 of the Coal and Iron Company nelow its operating expenses, leaving net earnings of only \$867,575 for the three months. If it be assumed as correct that the two companies are "\$500,000 better off than at this time last year," and that, therefore, the net earning for the three months are say \$1,367,575, it would still leave a deficit of \$676,418 below the three months. The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for The Disparch by Whitney & Stephenson, edges I Fourth avenue:

is Improving.

OFFICE OF PITTSBURG DISPATCH, ? THIRDSCAY March 27, 1890. Country Produce-Jobbing Prices. Advices from Elgin are that butter is a shade weaker at that center of the creamery butter trade. New York cheese is higher, and though the Chio article is very firm, there has been no advance. The reason for this is that stocks of the latter have been unusually large. Stocks are gradually running down, and an advance in prices cannot be far in the future. Already there has been an advance in the West of Ic per pound. Eggs are scarce and higher. Sweet potatoes are good stock at quotations, as are also good cabbage. Cranberries are growing scarce and prices are firm, with an upward tendency. There is no let-up to the firmness of good potatoes or onions. Poultry, too, continues scarce and firm as ever. BUTTER-Creamery, Elgin, 28@29c; Ohio do, 26@27c; fresh dairy packed, 20@21c; country

Money Working a Little Closer.

New York, March 27.—The stock market differed from those of the past few days only in its utter lack of feature, while the fluctuations, which have been so narrow, were confined to even a smaller range than usual. There were few stocks in which the range of prices was traded in within a range of 1/4. The only movement of importance during the day was a sudden rise in Reading, accompanied by a corresponding increase in its activity. The buying was entirely by brokers identified with the Philadelphia pool, but no explanation was given for the movement, and the advantage obtained was not retained.

SPICES—(whole) —Cloves, 17@18c; allspice 10c; cassia 8c; pepper, 17c; nutmeg, 70@80c.

MARKETS BY WIRE.

Advances All Along the Line - Wheat Bulged on Reports of Dumnge to Crops - Corn and Onts

Better-Pork Steady. CHICAGO-Wheat-A moderate business was transacted to-day, and but specially new features were presented. A prominent local trader bought fairly and became quite bullish. Trading seems to be shifting more into July. The market opened at about the closing figures of yesterday, eased off 1/10 and later advanced 1/4c, the market closing quiet and 1/4c higher than yesterday. July sold at 1/4@1/4c discount

below May prices.

Cable advices were again of an unfavorable character to holders, but the duliness abroad dld not have any effect upon the market here except in a general way, which was governed mainly by home influences. Crop advices continue to come in bad, and operators are evidently placing more reliance upon various reports received. At least they were a little more timid about selling.

That there has been damage done by the

severe freezing weather some few weeks ago

there is no doubt, but to what extent the plant has been damaged or winter killed is yet a question. There was also some report of new business at the seaboard which acted as a stimulant to the market and helped to carry prices to the top notch.

Corn—A moderate business was reported within 1/2c range, and the feeling prevailing was, on the whole, steady. The steady tone was due largely to the threatening weather and storm in Kansas. Operations were in the main local, and a prominent trader who bount May yastering at 29% cold tong at 29% 29%. The speculative market opened at yesterday's closing prices, was very steady, advancing 1/2c, ruled firm, and closed 1/20% better than yesterdaf. stimulant to the market and helped to carry

Oats were traded in fairly and a weaker feel-Oats were traded in fairly and a weaker feeling existed in May at the start, sales being at a slight decline from yesterday's close. The demand from leading operators was good, and offerings not being especially large a stronger feeling set in and the market advanced %c, which was fairly maintained until the close. Pork—Quite a good business was transacted and the market ruled comparatively steady. Opening sales were made at 24@5c advance, but later in the day the feeling was easy and the improvement was lost. he improvement was lost.

Lard-Only a fair business was transacted

-Confirmed. The favorable impression produced on the first appearance of the agreeable liquid fruit remedy Syrup of Figs a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufacturers the California Fig Syrup Company. BUSINESS NOTES.

THE New York Stock Exchange will be closed April 4, Good Friday. According to custom, Pittsburg will suspend also, STOCK brokers are discussing the advisability of making a 1 o'clock call. Those in favor of it think it will help business. THE Reading Railroad report for February

shows an increase, net, of \$46.818. For three months it shows a net increase of \$142,377. A BUSINESS man who has an office on Fourth avenue started for Mr. Washington vesterday in a buggy. The vehicle stuck to the mud and finally broke down, and be had to walk home. IT is likely that there will be a great deal of loose money in Pittsburg after the April settle ments, and it would surprise no one if considerable of it would be invested in local securities. Brokers are talking that way.
