NEW GLASS PROCESS.

Factory Projected at Zanesville, O., to Test the Method.

A NOISY PREACHER IN COURT.

He Applauds a Witness and is at Once Placed Under Arrest.

ALL THE NEWS FROM NEARBY TOWNS.

SPECIAL TELEGRAM TO THE DISPATCH.

ZANESVILLE, O., March 28.—Parties in an Eastern State have written to George Brown, of this city, as to the starting of a plate glass plant here. They are glass-workers and claim to have invented a process which they claim will cheapen the process by one-half. Instead of having the glass full of waves when first rolled out, as with the iron rollers under the old process, the glass is cast perfectly smooth, and almost as polished as the old plate glass after the latter has been polished by special machinery for 14 hours.

The 12 hours' grinding and the wasting of from one-half to two-thirds of the material in order to get a plane level surface, is also avoided.

It is said that the new plate glass company at Washington, Pa., is trying to secure the method for use for the plant which is to be erected there. The parties owning the plant say that a plant covering two acres will have a capacity twice as great as the plant in which the men are now employed, which covers six acres.

UNQUESTIONABLE AUTHORITY.

The State Board of Charities and the Pennsylvania Blind Asylum.

SPECIAL TELEGRAM TO THE DISPATCH.

ERIE, March 28.—Hon. George W. Starr, a member of the State Board of Charities, upon being interviewed to-day as to the report of the committee on the Pennsylvania Blind Asylum, said: "I did not attend the last meeting of the board and knew nothing of the charges against Battles, but I have confidence in the committee, Messrs. Barlow and Morton, and I would accept their report and indorse their recommendations, but I will know more about the report when I attend the next meeting next week. I must certainly take issue with Mr. Battles and his managers as to our right to investigate the institution as it comes under our jurisdiction. Our authority is set forth in the compendium of lunacy laws."

Mr. Starr declined to say whether he thought the State Board of Charities had the right to remove the blind children from the institution or not.

On one occasion he asked one of the girls to kiss him, and when she refused he drew a revolver and compelled her to kiss him. His demands were always accompanied by a threat to shoot if they were not complied with. Ryan was taken to Washington this evening and lodged in jail to await trial.

ALUMINUM AT CORRY.

Is to be Worked by a Company of Chicago Capitalists.

SPECIAL TELEGRAM TO THE DISPATCH.

CORRY, March 28.—Several Chicago capitalists have just completed arrangements for the establishment here of a large aluminum plant. Beds of clay north of the city have been discovered and thoroughly analyzed and pronounced the richest in aluminum of any in the country. The assay of the clay shows nearly enough gold to pay for manufacturing the aluminum.

The company, represented by Colonel Dorrance, formerly of the Texas Pacific Railroad, has entered into bonds in the sum of $10,000 to expend $50,000 the coming season in developing the beds. The works will be run entirely by electricity, which produces a greater heat than gas and is much cheaper. The papers have just been executed before Mayor Bole.

Scaly Skin Diseases

Psoriasis 5 years, covering face, head and entire body with white scabs. Skin red, itchy and bleeding. Hair all gone. Spent hundreds of dollars. Pronounced incurable. Cured by Cuticura Remedies.

Cured by Cuticura

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my eyes, then into my ears, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA REMEDIES, and after using two bottles CUTICURA RESOLVENT, I could see a change; and after I had taken four bottles I was almost cured; and when I had used six bottles of CUTICURA RESOLVENT and one box of CUTICURA, and one cake of CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the CUTICURA REMEDIES cured it without any scars. I cannot express with a pen what I suffered before using the CUTICURA REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. I know of others who have received great benefit from their use. MRS. ROSA KELLY, Rockwell City, Iowa.

NEW ADVERTISEMENTS.

'Tis now that nature's warblers
Pour forth their sweetest lays,
And strain their little throats till sore,
In singing nature's praise.

And other music fills the air,
The organ's cracked refrain,
Imported fresh from Italy
Is once more heard again.

While with the other music
The wheel of business hums,
And with the speed of Mercury
The paper-hanger comes.

The painter, too, gets in his work,
This is his busy day—
Let other folk take notice
And keep out of his way.

The whitewash artist, too's abroad
Who, for a recompense,
Will mix his finest lily white
And polish your back fence.

The baseball crank once more abounds,
Who's ready to bet that
Pittsburg won't get left this year
While Carroll swings the bat.

And gentlemen of leisure, now,
Although they may not sing,
Get ready for their summer jaunts,
For reader, it is Spring!
