Constitutional sticklers are much worried over this unusual state of things, maintaining that the sovereign, the heir apparent, the heir presumptive and the premier oucht not to be absent from England at the same time, but the Governmental machinery manages to run smoothly enough without ornamental adjuncts. Queen Victoria has gone to Aix les Bains in the hope of curing her rheumatic troubles, and to-day she commenced a course of sulphur baths.

He says the month

will open with a summer tempera-ture and vernal storms will occur on the 1st and 2d, especially on the 2d. The 6th, 7th, 8th and 9th are designated as danger days, when there will be heavy storms of lightning, wind and hail with snow in northern sections. About the 13th it will be cold with much frost. Active and violent storms will again occur on the 19th, 20th and 21st, moving from the West to the East. From this on there will be the usual April showers, and the month will go out with a high thermometer. The dates of greatest earthquake probabilities are given as the 5th, 19th, 20th and 21st.

Prof. George Root, of Canton, Mo., an-other successful weather prognosticator, predicts a tornado period from the 20th to the 25th of April, and says it will be the worst storm period of the year. THE RIVER IS FALLING.

The river here fell one-tenth of a foot today, and is now a foot below the high water mark reached March 13. The levee in the meanwhile has been raised 2 feet and can easily stand 21/2 feet more, but it is not thought by experts that it will reach the high water mark again this season. Above the levees have been somewhat weakened by the wind storms of the last two days, but otherwise the situation is favorable and all the tributaries are falling. It is feared that the crevasses that have oc-curred will keep the high water up longer than expected. They will increase the danger for the levees around Vicksburg, where the Yazoo is swollen with waters from the various breaks pouring into the

Mississippi. Some fear was felt for Morganza, the most important levee in Louisiana, and toward the defeuse of which the Mississippi River Commission has contributed liberal-ly, but it is reported all right to-day. It is not probable that any of the breaks in the levee can be closed before the river talls. Altogether five parishes in Louisiana and five counties in Mississippi are more or and hve counties in alississippi are more or less flooded by water from these breaks. Captain Dave Penny, of the City of Owensboro, of the Louisville and Evansville LOUISVILLE, March 29 .- The cloud accompanying the cyclone was observed along almost its entire course by Dr. Lyon, who Mail Line, which arrived in port last night resides at the Falls. He says the cloud approached up the gap in the Knobs through which the Ohio flows. It was balloon shaped, twisting an attenuated tail toward the earth. It emitted a constant fusillade of lightning, and seemed to be composed of a and led his flock safely to the parsonage, where all remained until danger was over. The church is damaged \$500.

AWAITING THE OWNERS.

Men's Hats and Wraps Piled Up in the Temporary Morgae.

LOUISVILLE, March 29 .- The morgue temporarily secured at Links barber shop, 1113 West Market street presents a fearful scene. Being directly across from the Falls City Hall, all the bodies from that building

were first taken there and afterward removed to the undertaker's. In one corner of the room, for the chairs had early been removed, was a pile of lads and gentlemen's hats, canes, shoes, wraps, They had been found upon so etc. the bodies taken from the ruins, and it is

not known whether or not the owners were killed. THIRTY FUNERALS FOR TO-DAY.

Disnater. LOUISVILLE, March 29.-The undertakers have more than they can attend to for tomorrow. In all there will be at least 30 funerals. Of this number Dougherty & Keenan will have 14. Their shop is located just below the ill-tated Falls City Hall. As a consequence

carriages, hacks, etc., had to be secured, and when the owners here began charging \$10 an hour for their vehicles, the firm was forced to go to New Albany and Jeffersonville for supplies.

A LIFE CONVICT'S DONATION. He Sends \$20 for the Relief of the Louis-

ville Sufferers. LOUISVILLE, March 29 .- The generous donation of Melville Butler, a convict in the Kentucky penitentiary at Frankfort, was much commented on to-day. Butler was sent to the penitentiary for a long term for killing a man named McCoy on Jackson and Gray streets several years ago. A letter was received from Butler yester-

day by Mayor Jacob containing four crisp \$5 bills, which the donor directed to be used in the relief of tornado sufferers.

SOME UNFOUNDED CHARGES.

Which it is Claimed Will Result in Heavy Legal Charges.

Humane Agent O'Brien yesterday received letter from Dr. J. A. Loar, of Mt. Pleasant, who is accused by F. M. Null, Jr., of Ruffsdale, with having preferred unfounded charges against Lawrence B. Null, a nephew of the complainant's, and Loar's ward, and by that means accomplishing the boy's commitment to Morganza. Dr. Loar writes that he courts investigation since the matter has come before the public, and expresses his willingness to as-

sist the Humane Agent in the inquiry.

A Speciacular Arrest.

Samuel Fisher and John Brown were arrested yesterday while trying to pawn a pair of gold spectacles in an oxydized silver case, with the initials "M. C. B." engraved on the case. The owner is requested to call at the Inspector's office in the interest of justice and herself.

the election at the polls of the victorious

The time for the holding of the Republican primaries for the election of State delegates has not yet been fixed for this city, but it is given out that a conference of the ward eaders will shortly be held for the purpose of fixing a date which will be satisfactory to all elements. None of the city leaders, with the exception of Mayor Fitler, who has declared for General Hastings, have given any expression as to their preference for Gov-ernor, but it is believed that the ward leaders as a rule will have themselves elected as delegates on account of the importance of the nominating convention.

The statement that Senator Delamater has already secured the election of more than a sufficient number of delegates to bring about his nomination has tended to rob the local contest of the interest which would other wise attach to it, but the local bosses who seem ready for the swim will be on hand at the State convention to assist in making th nomination.

THE DEMOCRATIC SITUATION.

The Democrats appear to be at sea regard The Democrats appear to be at sea regard-ing the nomination of their candidate for Governor. Prior to Senator Wallace's de-parture for Europe it was generally be-lieved that he would be named as the canfor Governor, but just before and didate since his return there has set in an under-River at 5:20 r. M., 10.8 feet, a rise of 1.3 feet in 24 hours. current of opposition which threatens to cause him considerable trouble in the event of his making a fight for the nomination. Messrs. Scott, Coxe, Hensel and other prominent Democrats are credited with be-ing opposed to Wallace's nomination, and been given out that the main reason the Bellevue conference was held was for the purpose of forming the opposition to Wallace, and to present it to his friends in order that Senator Wallace might be made aware of the fact that what is known as the Cleveland element of the party were not sat-isfied to have him chosen as the party's candidate for Governor. The story has been quietly circulated in quarters intended to have effect that Wallace, if allowed to as-sume the leadership of the party, which would naturally come to him as its candi-date for Governor, that he would quietly arrange a sinte of delegates to the National Convention in the interest of the nomination for President of Governor Hill, of New York, instead of favoring Cleveland's renomination, which the masses of the party throughout the State are declared to favor. AN ANNOYING SILENCE. What is causing the anti-Wallace men

the greatest concern is the persistent silence maintained by the Clearfield statesman and his refusal to discuss even with the leaders themselves any other political question but that of the present condition of the party organization, and the effect of the last two Philadelphia electious upon the minds of the people of the State. Wallace's anxiety regarding the organization is accepted to mean that he has aiready made up his mind lespite the opposition to become the candidate for Governor, and his friends unhesitatingly declare that it such be his intention

he can easily secure the nomination The interviews with Captain Skinner, Fulton county, and Captain Clay, of Elk

county, in which both declare in favor of Wallace's nomination, is pointed to as an evidence that the Democratic soldier ele-ment of the State will rally round the banner of the Clearfield leader, because of his acknowledged qualities as an organizer and fighter. Captain Skinner says: "With Wallace as our leader we would have at our head a fighter who knows how to fight, and

Grave Fears of Further Breaks in the Levee in That Section.

ISPECIAL TELEGRAM TO THE DISPATCH.1 MEMPHIS, TENN., March 29 .- No cheer ing news comes from the flooded district. On the contrary, the outlook becomes more gloomy. The only ray of hope is that the breaks in the levees at Toppington Loop, Offuts, Skipwith, Easton and Hunting-don will have a tendency to relieve the pressure below, and already a slight decline has set in which can only be attributed to this course. To-night Greenville is re-ported to be in imminent peril. It is pro-tected by the river levee in front and behind the city runs a protection levee which has hitnerto kept out the backwater. Last night the backwater, which has come across country from the breaks at Easton and Huntingdon, is rising at the rate of two inches an hour, besides which the rapid cur-rent in the river is threatening the main levees, and it is predicted that the levees cannot live through the night.

In that event the entire town will be flooded. The breaks are still increasing in width. To-night the Offuts crevasse is 700 weather, westerly feet wide, Skipwith's 750 feet, Easton's 900 and Huntingdon 600 feet. The Skipwith and Easton levees are rapidly crumbling away. It is conceded by the most conservative now that the entire country from Lake Bolivar to Warren Hills will be flooded, something weather, westerly that is without a parallel.
