SOME PECULIAR ADMISSIONS. In response to Colonel Cheves' questions as to the disposal of this campaign fund, Mr. Crowell made the following admissions, which the Voice prints in conspicuous type: "Such State leaders as 'Bill' Leeds. Charlie Porter, who is chairman of the City Republican Committee, Cooper and 'Dave'

in the guise of a friend of Johnson, and as

equally anxious to beat prohibition in Ne-

Martin and others, and a lot of Democratic leaders we paid \$500 apiece, and \$200 apiece to local leaders and \$5 apiece to men who worked and manned the polls on the day of elections "

"Did yeu pay Quay any money?"

"Yes, for three years he bled us, and our contributions to him came very near beating us at the poils. It was reported that we contributed money to defeat Cleveland, and the Democrats got hold of it and a plan was on foot to have the Democratic vote cast for the amendment as a punishment to the Republican brewers of the State, and it would have succeeded if I had not 'fixed' the boys, but it cost us a big pile of money to do so.

BOTH MACHINES WERE WORKED.

"We had all the workers on our side and the machines of both old parties were with us. We paid the County Commissioners of us. We paid the County Commissioners of this county to let us have the poll list ex-the price of lead for them, turned State's eviclusively for our use, with the understanding that we were not to return the list until after the election. So the Prohibitionists, with no window books, no money and no organization, had no show whatever against 315."

When asked how he secured the support of so many newspapers Mr. Crowell is represented as saying: "I visited the editors in person, or had some good man to do so, and arranged to pay each paper for its support a certain amount of money. Throughout the State we paid weekly papers from \$50 to \$500 to publish such matter as we might furnish, either news or editorial, but the city daily papers we had to pay from as 20 years. \$1,000 to \$4,000, which latter amount was paid to the Times, of this city. Other papers we could not buy straight out, consequently we had to pay from 30 to 60 cents per line for all matter published for us according to the circulation and ability of the paper. We paid the Ledger 40 cents per line and the Record we paid 60 cents per line, though it did some good work for us for nothing.

### EFFECTIVE ABGUMENTS.

"The most effective matter we could get up in the influencing of votes was that prohibition did not prohibit, and the revenue of taxation, and how prohibition would hurt the farmers. We would have these articles the farmers. If you work the farmers on the tax question you catch them every time."

According to the Foice, Mr. Crowell also told how he "worked" the preachers, whom he denominates cowards, through members of their congregations. His tactics were not to delend saloons, but to argue in favor of high license as better than prohibition to weally restrict their number.

really restrict their number. The liquor dealers were \$50,009 in debt when the campaign closed, Mr. Crowell is the trial before next summer.
