TO START THE PARK.

Chief Bigelow Will Turn Loose on Mrs. Schenley's Gift To-Day.

IT WILL BE IN GOOD SHAPE BY JULY

A General Spring Cleaning to be Given the City's Streets,

AND PAVE EAST END THOROUGHFARES

The park business will commence to-day. Chief Bigelow will put a large number of men to work this morning on the Schenley Park grounds to study dentistry. Their professional experience will commence with the practice of extracting roots. The park's progress will be marked by the disappearance of stones, leaves and other material says, greet the eye of the resthetic Pittsburger within six months.

the labyrinth, suggested by THE DIS-PATCH, possibly a zoological garden, and drives, rustic bridges, grottoes, ponds, natural and artificial, and other attractions, calculated to make Central Park, New

auce, but of course it will take years to make it a model place of recreation, the left lung of Pittsburg nearest to the heart of

the Department of Public Works.

The attention of the department is no less directed to the cleanliness of the lower part of the city. On Tuesday night two street sweeping machines made the rounds on Liberty, Fifth avenue and Smithfield street, making the gravel and dirt fly. Last night the spring cleaning was added to by two more sweeping machines. The machines are navigated by accomplished engineers, who threw the mud and gravel upon the sidewalks with the utmost pro-fusion. Chief Bigelow said yesterday that all that was needed was a little education in the matter, and he was sure that before long the drivers would be able to pile the dirt in symmetrical heaps at just sufficient distances to leave the cross-ings clear and keep the gutters from being clogged. He said that a short time ago while in Boston he watched the cultivated bean-nourished drivers plow through thick mushy mud, and although the machines were guarded by canvas hangings, some holes in the sides of the hangings poured out streams of liquid mud upon the just and the unjust, those who were just near enough to catch them and those who were too near to escape.

STREETS WILL BE KEPT CLEAN. He said that to-night there would be six sweepers at work if necessary, as he was determined that the streets of Pittsburg should be kept clean. The sweeping machines are made of rattan, the brush being set diagregulated to the proper degree of pressure by a toot lever.

Chief Bigelow also said yesterday that or two for the paving of all the streets in the Shadyside district for which ordinances have been passed, and all other improvements that have been authorized will be taken up as rapidly as possible and completed as quickly as the weather will permit. The repaying of Etlsworth avenue will be begun within a very short time, and it is thought the whole length of the street will be repayed. The appropriation for this pur-pose only contemplated the paying of about one-half the street, but the Duquesne Traction Company having agreed to frive bein consideration of the privilege of laving a double track on this street, has made it possible for the city to pave the entire length

The arrangements already completed and those in contemplation place the university in the front rank of our collegiate and technical institutions. with all the appliances necessary to illus-trate and give to each student actual practice in the studies he is pursuing. During the term closing April 3 the mechanical engineering classes have been engaged six hours each week in carpentry, and will continue the same work during the term commencing April 14. Wood and metal turning, filing, chipping, planing, casting, forging, testing, etc., will be nort of the students' work as soon as the trustees can get in place, for which there is abundan room and power in the new buildings, the necessary machinery. Four men broke into the office and rifled about 50 or 60 letters. While they were still in the building they were discovered by Dr. Wheeler, of Nicholson, who summoned

help. The robbers seeing they were dis-covered ran from the building and made for the railroad. They were chased, but fired on their pursuers and escaped by jumping onta coal train going toward Scranton.

We can mention no failure more disastrous than that of physical enercy. It involves the partial suspension of the digestive and assimilative processes, and entails the retirement from business of the liver and kidneys. Only through the good offices of Hostetter's Stomach Bitters can the restoration of its former vigorous status be hoped for. When this aid has been secured, a resumption of activity in the stomach, liver and bowels may be relied upon. The Bitters conquers malaria and kidney troubles.

Very Much Afflicted. PITTSBURG, February 16, 1890. For the benefit of the afflicted people I desire to make known what Danner's Essences for Health has done for me. For over two years my left leg from the knee to the ankle was sore and very much inflamed and swollen, causing a continuous suffering. I received no relief until I commenced a treatment of the valuable Essence of Health. Since using it all pain, inflam-mation and soreness has left me, and I truthfully say it is a complete cure; any-one who doubts this can get further information by calling and addressing me.
