He will take Mike Lucie East with him as his sparring companion, and ex-pects to remain away about six weeks.

GREAT DISSATISFACTION. There is great dissatisfaction here among sporting men regarding La Blanche's action. Many good authorities are of opinion that he does not want to fight any good man again There is plenty of money here to back Young Mitchell against him, but La Blanche wants what people call a "sure thing" as far as

money is concerned. There is at least \$20,000 for the Marine if he will stay here and defeat Dempsey, but he persistently declines every offer made in behalf of Demosey.

WANT ANOTHER FIGHT.

The latter's friends are anxious to secure another fight for him against the Marine However, it is thought that La Blanche will be induced to accept fair terms and meet young Mitchell. THINKS WELL OF FLAMBEAU.

Jockey Donohue Talks About the Far Western Racing Cracks.

Billy Donobue, the well-known Eastern jockey, stopped in Chicago on Tuesday while on his way home from California, whither he has been on a pleasure trip. While on the Pa-cific coast be took a look at some of the crack thoroughbreds. He saw the colts Flambeau and Racine, and the former he thinks one of the grandest horses he has seen in many a day, and says that both are too valuable to remain

and says that both are too valuable to remain on the coast, where there are no rich stakes. Flambeau stands about 15.3, and closely resembles Springbok at the same age. Racine is also a grand looking colt. Rice was a colt that much pleased the jockey's fancy. At Baldwin's ranch be saw Los Angeles, and says she has improved and filled out to such an extent that her iriends will hardly know her.

He saw the Emperor of Norfolk work a mile at a good strong pace without showing the least symptoms of lameness, but on examining his bowed tendon after coming in he thinks it doubtful whether it will stand the winging up necessary for a grand effort. He was not favorably impressed with the appearance of Baldwin's 2-year-olds as a lot, although one colt and a filly struck him as quite promising. The Baldwin stable will be shipped direct to Brooklyn from Califorhia.—Horseman.

DEAR SIM-I return a number of papers left by you, bills, etc., to none of which can I, at this late day, give any consideration. Of course I have nothing to do with the State, and as some of the claims are for State work, I cannot say positively that they will not be paid, but I think it very likely that a bill presented in March for work done last June, without anything but the oath of the claimants, would stand but a very small chance before the auditor, particularly as the Commissioners had regular foremen, pay rolls, etc., and those parties were not thereon.

A. DETERMINED SUICIDE. She Throws Over an Embankment the Man

Who Tried to Dissuade Her. SPECIAL TELEGRAM TO THE DISPATCH. ERIE, April 4.-The drowning of Mrs. Anna Foley last night at midnight, was a tragic event. Mrs. Foley's first husband was blown to atoms by nitro-glycerine, in the oil country 17 years ago. She married Benjamin Foley in Pittsburg, ten years ago. She and her husband had a misunderstanding last evening, which seemed to drive the woman to distraction. She started for the lake, telling some one she was hunting for help for a sick child.

A boarder, John W. Fuhrman, followed and overtook the suicide, When he seized her and tried to persuade her to abandon her purpose, she turned on him with the fury of a tigress, and threw him over a steep embankment, imperiling his life, and then flew for the lake. When Fuhrman escaped from his dimemma the woman was in the water, but although he succeeded in pulling her into a boat, she died in his arms from exposure while he was trying to resuscitate her. Mrs. Foley was educated at a ladies' seminary, near London, England, and was a very talented woman. had a misunderstanding last evening, which

Formidable Charges Made Against the New York Police Force. NEW YORK, April 4 .- The Senate Comoffice will to-morrow be called upon by members of the Central Labor Union. They will present the investigators with a formid-

able document, which alleges that the police department is a "menace and dis-grace to the city." The force, as a body, is characterized as "dishonest, brutal, even criminal." It is charged with having reduced the art of blackmailing to a science, maintained a system of terrorism over certain classes of the community, exerted itself in the interests of certain candidates, and established a system of espionage over respectable citizens for no other purpose than to persecute them should

they offend the powers that be. The presentment further charges that men pay a large bonus for positi us on the force, so profitable has the business become, and that a man must buy his grade from rounds man up to Superintendent, "It is a matter of common notoriety," continues the docu-ment, "that police officials regularly levy tribute on every den in the city; that salo keepers are compelled to pay for police pro tection, and that every gambling den in the city pays for the privilege of existence."

Ex-Mayor Couch, of Oklahoma, Shot While Contesting a Cinim. OKLAHOMA CITY, April 4 .- Captain W. T. Couch, the leader of the Oklahoma comers and ex-Mayor, was shot this afternoon by J. C. Adams. The bullet entered the left leg just below the knee and came

out in front. Both bones in front were

broken, and though amputation of the limb may not be necessary, the Captain is crippled Captain Couch was a contestant for a valuable claim adjoining the city on the west, on which Adams has the filing. This after-noon he and his son began to set posts for a fence, and while at work were approached by Adams, who ordered them to desist. A quarrel ensued, and the shooting followed There are two or three versions of the shoot ing, but the one that seems to have the color of truth is that Couch took hold of Adams disarmed him of his pistol and discharged at him the entire load of the revolver Adams returned to his house, procured his Winchester rifle and, advancing to within 200 yards of Couch, fired at him. Adams then swore out a warrant for the arrest of Couch and son, while on behalf of the latter warrant was sworn out for Adams' arrest. He gave bail in the sum of \$1,000, and to morrow was set for the preliminary hearing.

A PHYSICIAN'S LICENSE REVOKED

The effect of the chloroform was passing off when the patient

struck at one of the physicians and Dr. Theodore hit him in the eye, permanently injuring his sight. The case was brought before the board in rence, which was stated as above by the complainant to the board to-day. On the other hand both doctors and their servant say that Toensing inflicted the injury on himself, and the doctors claim that the case is one of malicious persecution, and is instigated b cine. The doctors have both been in high standing and have had a large practice in this city for many years. This decision de-bars Dr. Theodore DeDolph forever from practicing in this State,

LOUISVILLE, April 4 .- At Harlan Court House, where Judge Boyd is holding court with a company of soldiers to prevent intimidation of juries, Hi Hal has been convicted of murder and sentenced to 21 years' imprisonment. A venire from an adjoining county has been summoned for a jury to try Will Jennings, a leader of the Howard fac tion. Jennings will first be tried for the murder of William Bailey.
County Judge Wilson Lewis, who led the

The Struggles of Life. From the cradle to the grave life is full of struggles. Some struggle for riches, some for pleasure, some for honor, and others struggle to regain that greatest of all blessings—health; and in their efforts they often resort to means which place it farther out of their reach. They take drastic compounds, which shock the system, or violent minerals which poison by degrees, thus the vital energies are weakened and the fountains of life polluted. Nature provides remedies, and it is from the vegetable kingdom that Dr. Tutt's Liver Pills derive their ingredients, and there is the happy certainty that if they do no good they do no harm. But of their efficacy thousands who have been cured of diseased liver, kidneys, spleen, stomach and howels live to-day to testify.
