BETTER TONE TO PRODUCE MARKET

Groceries Move Freely---Sugars Weak and Coffee Steady.

THE DEIPT OF CEREALS IS UPWARD

OFFICE OF PITTSBURG DISPATCH, SATURDAY, April 5, 1890. Country Produce-Jobbing Prices.

The supply of eggs is in excess of demand, and holders are forced to concede in order to nake sales. Prospects are good for still lower prices. Cheese is very firm and prospects are that prices will soon be higher. Creamery butter is moving freely, but prices are unchanged. There is a better supply of potatoes than there has been for a number of weeks past, but prices are well maintained. Poultry has eased up within the past few days, but there is no drop in prices. Produce trade for the week has been fairly active, and, though prices have not advanced, volume and tone of trade is an improvement on last week.

Greceries.

The movement in this line is very active. without any change in prices since our last report. Volume of trade was much larger this week than last. The special features of mar-kets for the week have been the weakening tendencies of sugar and the upward drift of have been seesawing all the week under bull and bear manipulations, but prices are practically unchanged. Packages should go higher, to correspond with prices of green coffee.

Healthy Condition of Local Business-Egcouraging Clearing House Figures-Saturday's Closing Quotations

Here and Elsewhere. Pittsburg business men are hard to please, was fickle, with too much rain for out-of-door occupations, and there was a holiday; but against these drawbacks everything held its own, and the volume of transactions was up to the average.

Very few special features were developed during the week. Stock dealing was moderate, with no pronounced price changes. There was a good feeling all through, however, and brokers were honeful. Petroleum was fairly active and weak. Field developments favored the bears. Real estate maintained its customary ac-

tivity, and values were very steady. A large number of transactions were closed up, many of them being important. Sellers are begin-ning to realize that the only way to keep this great interest in full swing is to avoid inflation. Fair prices attract investors.

The stock brokers were in no mood for business Saturday, and consequently did next to nothing, sales being only 21 shares. Electric and Pleasant Valley were the only things in and Pleasant Valley were the only things in which there was any movement.

Bidding was quite lively for a while, and a large number of figures were placed on the board, but it was for small lota—two to ten shares—and failed to bring out the stuff. This indicates a firm undertone, if nothing more.

There were few price changes of importance. Allecheny Heating Company was bid up to 109, and Westinghouse Electric down to 43%. As compared with Thursday's quotations, Central Traction was down a triffe and Philadelphia Gas about steady. Bank shares were strong.

Sales were 6 shares of Electric at 43%, and 15 Pleasant Valley at 27%. Pleasant Valley at 27%.
Sproul & Lawrence sold 100 shares Pleasant Valley at 27%. Rea Bros. & Co. sold 10 shares Westinghouse The total sales of stocks at New York yester-day were 62,228 shares, including Delaware, Lackawanna and Western, 10,915; Louisville and Nashville, 1,550; Missouri Pacific, 1,515; Reading, 3,700; Richmond and West Point, 4,498; St. Paul, 5,197; Union Pacific, 3,800.

There was no special movement in the local money market Saturday, apart from heavy checking and depositing the result of accumu-lations over the holiday. Funds were abundant dried and evaporated fruits. Coffee options and easy. The demand from regular customers

encouraging figures. The week consisted of only five business days, but it scored a gain of nearly a million and a half over the same week last year, which was a full one. This shows that everything is prospering. The report follows:

Shares—A Dull Close.

New York. April 5.—The stock market today was again a very limiteq affair, and outside
of a few specialties, which were affected by influences peculiar to themselves, there was no
movement whatever. The collapse of the suit
against the Chicago Gas Trust furnished a littie life in that stock, and, after opening up ½
at 46%, it reacted a fraction, but afterward rose
to a shade above its opening prices. The shorts
overed rather freely, but there was little demand for the stock in other directions.

Lackawanns sarly loomed into prominence,
and advanced a fraction under the impression
that a squeeze of the shorts might be attempted, but later the scock reacted and closed
at Thursday's price. Richmond and west
point was still influenced by the late acquisition of the Erlanger roads by the East Tennessee, and occupied a prominent position in
the early portion of the session, but became
quiet later, and reacted with the remainder of
the list. Among the specialties the only marked
movement was in Manhattan, which suddenly
spurted up from 10% to 108% on light trading,
and for no apparent reason.

The bank statement was expected to show a

The bank statement was expected to show a decrease in the surplus reserve, but the actual decrease was much beyond the expectations, and the life and strength were taken out of the market by the exhibit. The movements in the general list were confined as a rule to less than ½ per cent, and the dealings presented no features whatever, though a strong tone prevailed in the first hour, giving place to weakness later on. The close was dull and barely steady at about opening prices, which were generally lower than Thursday's figures.

MARKETS BY WIRE.

Spirit of Activity in Whent, With May and July Higher - Corn Follows Suit-Pork and Lard Coming

to the Front. CHICAGO-Trading in wheat was active today, and a strong feeling was developed. The market was governed wholly by local influ-ences, there being a holiday in Europe. A fair outside business was transacted, including some buying of futures for Eastern millers. The market opened about the same as Thursday's closing, ruled firm, May advancing 1½c and July barely 1c, receded some and closed at ½c higher for May and ½c for July.

The leading futures ranged as follows:

MINNEAPOLIS-Receipts of wheat for the Minneapolis—Receipts of wheat for the past two days were 246 cars: shipments, same time, 75 cars. There was a fair early demand from local millers for good milling wheat, but it was limited and soon filled, after which the market dragged along rather slowly until the close. Low grades were dull, and hard to move. There was not much demand from outside points, except a little inquiry for hard West on original waybill, with but little offered. As the elements that give color to the rose are conveyed in the sap that circulates through the capillaries of the shrub on which it grows, so does the blood convey the elements that paint the cheek of beauty with the ruddy glow of health-"The bloom of opening flowers." But in order that this beautifying process of nature may be in the highest degree successful, it is important that the sanguinary fluid be kept in that pure and wholesome condition so surely and so easily attainable through the use of S. S. S.

I take pleasure in submitting the following statement of facts that you may know the great benefit that has resulted from the use of your Specific in the case of my little daughter, now ten years of age. The child, when two years of age, had a severe attack of scarlet fever, which left her with a shattered constitution. Among other evidences of impaired nutrition, was what the doctors called softening of the bones. In her fifth year she happened to a slight accident which resulted in the dislocation of the hip joint, and, from the iritation thus set up, terrible abscesses of the hip ensued. The abcesses, despite the best medical treatment that could be obtained, remained for three years, discharging continuously. At this time, through the influence of friends, I put her on your S. S. S.

When this treatment was commenced the abcess was very large, having six perforations, puss discharging through them all. During this treatment several spiculae of bone came out, and by the time she had finished her fifth bottle the abscess had entirely healed, her appetite and general health had been restored, in short, she was well and happy, and so continues.
