OFFICE OF PITTSBURG DISPATCH MONDAY, April 7, 1890.

At Herr's Island to-day the offerings of eattle were slightly below the late average in number. The quality was a fair aver-

age. There was, however, a shortage of prime heavy beeves; demand was excellent, and prices of last week were fully maintained. Prime heavy Chicagos weighing 1,500 to

1,600 fbs sold at \$5 25@5 50; medium weights, 1,200 to 1,450 fbs, \$4 75@5 15; prime light weights and butcher selections, 900 to 1,100 lbs, of which the supply in the main consisted \$4 25@4 65; common and fair, three steers, \$3 50@4 00. There were only two fresh cows on sale and prices ob-tained were \$35 00@38 00. They were rated tained were \$35 00(038 00. They were rated choice milkers. Calves were in large sup-ply, the total being 314 head, and markets were lower and dull at 465- per h. A few head of dry cows brought 3@33/c per h. Receipts from Chicago, 1. Zeigler, 104 head; L. Gerson, 104; A. Thomas, 69; E. Wolf, 18; L. Rothschild, 51; Winter & Delleubach, 20, From Obio, J. Langdon, 6. From Pennsylv nia, J. Wright, 2; total 374; last week, 305; previous week, 405.

Sheep and Lambs.

Supply was light and demand was not as sharp as it has been of late. All offerings, however, were sold at the following range of bowever, were sold at the following range of prices: Best heavy Western and native weth-ers, §5 75 to 6 25; medium weights, §5 25 to \$5 50; light weights, §4 45 to \$5 00; common and mixed ewes and wethers, §3 75 to \$4 25; lambs, 5c to 7c per 1b. There were no spring lambs on the market and there were none called for. Receipts from Chicago, I. Zeigier, 201 head. From Pennsilvania, J. Wright, 27. From Ohio, J. Langdon, 12; total 240; last week, 393; pre-vious week, 382. The hex market was very active on light sup-

The hog market was very active on light supplies, and prices were higher than last Monday, in sympathy with the advance at Chicago. Best Chicagos and Ohios sold at \$4 60 to \$4 75. ere were no country hogs on the market. Receipts from Chicago, L. Zeigler, 118 head. om Ohio, Needy & Smith, 294; J. Langdon, Total, 481; last week, 578: previous week,

A Diamond market butcher who gets his supplies from Herr's Island thus puts the situ-tion of the markets there: "The quality of the cattle offered to-day was a slight improvement for the receipts. The highest price paid was \$5.25, and the lowest \$4.36 for steers. The range for sheep was 5c to 6.4c, and for lambs, 7c to 7.4c. Hors were higher than a week ago, the outside price being \$4.75."

Over in Allegheny.

At the Allegheny stock yards the offerings

were 227 head against 178 head last Monday. ere were 191 head from Chicago and 36 from Ohio. The quality of receipts in the cattle line was better than it has been for six months past was better than it has been for six months past but in spite of this markets were not so active as they were a week ago. The highest price obtained was \$5.35 for some prime beeves weighing from 1.500 to 1,600 pounds. A bunch of seven, weighing a little over 10,000 pounds, was sold at \$5.25. The range for the Ohio cattle was \$4.00 to \$5.00 per hundred. There were 150 head of hogs on the market and all were promptly sold at \$4.45 as the outside figure. There were no sheep offered. Lambs to the pumber of 485 brought from 65.47 per L. East Luberty Markets.

East Liberty Markets. The offerings of cattle at these yards this morning were 75 loads, against 70 loads last onday. Of those on "he market to-day 52 Jonday. Of those on the market to-day is loads were from Chicago and the balance from Ohio and Indiana. There were very few stock-ers and feeders on the market and demand cor-responded. The quality of the cattle offerings was a fair average. There were practically no prime beeves for sale. The best offered could not in the largest charity be called more than fair. Buyers were not plenty and markets fair. Buyers were not plenty and markets started out rather slow at last week's prices for

Ingures Saturday. Aside from the natural condition of the mar-ket the firmness and advance of to-day was assisted some by the unfavorable tenor of crop reports received, many of which were accom-panied with buying orders. From points in Indiana advices were received claiming not more than haif a crop. The Illinois report was unfavorable, and advices from St. Louis tell of damage to the winter whoat. Corn-There was a very good business trans-acted, the market most of the session ruling fairly acity, within 14,60% crange. The feeling prevailing was nervous and unsettled, though the undertone appeared to be firm, the market sympathizing with wheat some. The unfavor-able weather also had a stimulating effect on values. The speculative market opened 1/60%, ruled easy and closed a shade lower than saturday. Oats were active, stronger and higher. The feature of the trading was the strength and ad-vance in July, which sold up 3/c from opening figures. The strength was attributable to the advance in wheat and corn, the sharp demand from shorts and the report of a good many bur-ing orders. Offerings were not large except at the advance in decade fair recessions, but hast sales were at 1/6% c above the last sales on Saturday. last sales were at 1/60% c above the last sales on

last sales were at 1460% c above the last sales on Saturday. Mess Pork-Only a 'moderate trade was re-ported and the feeling was stronger. A promi-nent local operator purchased moderately, while the offerings were rather light. Prices were advanced 567% con the whole range. At the improvement there was a little more incli-nation to sell, but the demand was light, and prices settled back 25665c and closed compara-tively steady. There was very little trading during the latter part of the session. Lard-A very quiet feeling prevailed and the mass of humanity. They are unable to real-ize a good thing when they see it. There had been no connections made, and the well was shut in. It opens considerable territory. The Vandegrift well, near Groveston, is meeting expectations, and is certainly a big thing. Sunday, with the valve but half open, it filled two 250-barrel tanks in a few hours, through a 2-inch pipe. Good judges, who have watched the gusher, say it will produce 100 harrels an hour when further connections are made, which are now under way. IT'S A RECORD BREAKER.

The Groveton Gusher Grows and Monopoly Wants Production Curtailed.

The big Vandergrift gusher on the A. B. Young farm, Forest Grove, is a genuine startler. It is something like the Johnstown dis-aster, in the fact that it has been growing instead of decreasing since it was struck. There are people, and among them such old vets as A few fortunate individuals have the gift of foresight, but this great advantage is denied to Dan Gould, who went through Petroleum Center excitement a quarter of a century since, who insist that the Forest Grove wonder makes 100 barrels an hour.

He told the story substantially in these words: "I have made considerable money, but have The scalper was abroad in that section yesterday and he was as numerous and as lively as a day and he was as numerous and as lively as a colony of fleas in a pig yard, and there is a deal of monkeying going on also, the intent being to shut in territory. The Standard is known to be at it, as some of its emissaries have been spotted. It is more than monkeying, it is gorillaing. One intelligent German in Robinson township, who, though intelligent, is rather too trustful, was badly taken in. He cannot read English, and the party who leased his farm read the lease to him, and as it as read was satisfactory, it was signed at once. Subsequently whon operations were not begun lost a great deal more by not striking when the iron was hot. One day in 1878 or 1879 a promi-nent real estate agent came to me and asked me to invest about \$3,000, along with several "Real estate at that time was regarded with read was satisfactory, it was signed at once. Subsequently when operations were not begun according to promise, the German bethought him of stirring the monkeys up, and found that he was tied in a series of legal knots-his farm effectually shut in and his lawyer had assented to it. The matter was laid before another lawyer, who pronounced the case hope-less, although the German had witnesses to prove that the lease had been read to him in an entirely different manner. The complica-tion consists in his having signed on the advice of his lawyer, who, the victim thinks, was in the game. Thousands of producers were as thoroughly taken in when they voluntarily some suspicion. Rapid transit was unknown, and settlement was slow. Drygoods.

• Drygoods. NEW YORK, April 7.-Trade in drygoods opened fairly well. There was no change in the character of the business, except the au-vance in demand for fall goods, such as dress goods, blankets, hosiery and cotton flanneis, which have not yet reached active proportions. The tone of the cotton goods market was steady, and prime cloths were finmer, advanc-ing I per cent. Prints were in better request in consequence of the better tone of the print cloth market. oth market.

HARD CASH.

The Local Money Market Presents Several

Encournging Features. The features of the local money market yesterday were heavy checking and depositing, an abundance of large bills and a scarcity of

small ones. The exchanges, representing Sat-urday's business, were \$3,373,547 20 and the bal-ances \$549 405 84-large amounts considering

ances \$549 405 84-large amounts considering nothing unusual was going on and the apathy of speculators. In solid business Pittsburg is more than holding her own. Most of the banks were liberal lenders to regular customers. Acceptable paper was taken at 667 per cent-giltedged at 6. Money was in good supply and working toward greater ease. This tendency, it is expected, will re-ceive a check when the spring trade gets fairly under way.

The demand for cash wheat of the better grades, was fairly active, with local millers the chief buyers, though considerable was taken for outs ide mills. Low grades were called slow and hard to move. Some samples that did not meet buyers' tiews, or that they thought were held too bigh, clung on to the last, but on the whole the tables were pretty well cleaned up. Bank Statement Check Speculation -A Late Spart and Longen Partly Recovered.

NEW YORK. April 7 .- The unfavorable showing of the bank statement on Saturday with rumors of Missouri Pacific in the matter of the formation of a new association to take the place of the inte-rState Association, caused pause in the feeling of confidence which was so prominent during last week, and put an end to the buying which resulted from it, and to-nay's market felt the effects of the encouragement given to the bears. The pressure to-day was felt most severely in Reading, Union Pacific NEW YORK-Clearings, \$70,830,791; balances, PHILADELPHIA-Clearings, \$12,815,852; baland Missouri Pacific, and it was boldly given ances, \$1,494,033. The decline of 1 per cent which followed was entirely the result of this pressure. Readin was also vigorously attacked, and it steadily sagged away from 41% to 40, but in Missouri sagged away from 41% to 40, but in Missouri Pacific the success was very indifferent. The decline in Rio Grande was accompanied by re-ports of a loss of profits, and that special efforts were to be made by the management to cut down expenses, while the action of Lacka-wanna was again used against the Coal stocks
