Drygoods.

NEW YORK, April 8.-The drygoods mar-ket presented few features of special interest. There was, however, a fair volume of goods in motion on account of previous transactions, which keeps stocks from accomulating to any unreasonable extent, and a better tone to low grade cotton goods results from the improve-ment in the prices of print cloths.

Unlisted Shares Prevent Total Stagnation in Wall Street-A Few Good Fea-

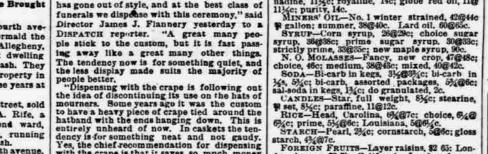

tures and Many Bad Ones-No Important Changes.

NEW YORK, April &-The stock market today was intensely dull in the regular list but showed some animation in the unlisted department, with a few wide changes in the specialties to save the dealings from utter stagnation. Not one of the usually active stocks fluctuated over a range of more than ½ per cent, and while Union Pacific, Atchison, Lackawanna, Chicago Gas and St. Paul were more active than the rest of the list, there was no interest

in either of them. The news of the day, especially that from the West, was rather discouraging, and the gen-eral disposition was to awalt further develop-18 45% ments in regard to the Western railroad situa tion. to cause any weakness in the market anywhere. The bears were afraid to hammer the list after their experience with Union Pacific, Missouri Pacific and Reading yesterday, and the last stock was very active to day. The unlisted department was unusually prominent to day, and some buying of Sugar by the traders upon the discovery that there were more buying orders than selling orders in the market a material rise was brought about in the stock. The buying in of a moderate amount of Cohorn silver mining stock for the account of the Sistares served to increase the total details, but had no effect upon the mar-ket. At the morning call 40 shares of Pipeage sold at 17, and 50 East End Electric at 60. The afternoon sales were 300 shares of Pleas-ant Valley at 27%, 10 s. o. 60. 27, and 10 regular 27, 20 Wheeling Gas at 20, 10 Philadelphia Gas at 31% and 10 Charliers Gas at 47. 27, 20 Wheeling Gas at 20, 10 Philadelphia Gas at 83% and 10 Chartiers Gas at 47. E. P. Long sold 50 shares Philadelphia Gas at 82%, 100 shares Pleasant Valley at 27%, 20 shares Westimehouse Electric at 45 and 35 shares Union Switch and Signal Company at 13%. The total sales of stocks at New York vester-day were 83,247 sharcs, including Atchison, 4,-245; Delaware, Lackawanna and Western, 6,520; Oregon Transcontinental, 2,70; Union Pacific, 5,070.

The great feature of the day was the unusual activity and strength in Manhattan, which not only had the advantage of large earnings of late, but also reports of the advantageous set-tlement of a large number of damage suits

people better. "Dispensing with the crape is following out the idea of discontinuing its use on the bats of mourners. Some years ago it was the custom to have a heavy piece of crape tied around the hatband with the ends hanging down. This is entirely unheard of now. In caskets the ten-dency is for something neat and not gaudy. Yes, the chief recommendation for dispensing with the crape is that it saves so much money to the afflicted family."

R. exita s bais, soc. 10 days, F. R. R.; 1 car of low grade four in sacks, \$1 80, 5 days, P. R. R. Receipts as bulletined, 34 cars. By Pittsburg, Ft. Wayne and Chicago, 7 cars of hay, 1 of rye, 2 of flour, 2 of oats. By the Pittsburg. Cincinnati and St. Louis, 1 car of rye, 3 of hay, 5 of oats, 1 of wheat, 1 of middlings, 3 of corn, 1 of bran. By Pittsburg and Lake Erie, 1 car af hay, 1 of oats, 5 of flour. Corn, choice hay, oats and millfeed are all very scarce, and mar-kets continue very firm at the advance. A bull movement has been inaugurated and specula-lative influences are beginning to appear, a thing unknown for some time past in cereal markets. The greatest advance has been in corn, which rates from 4@5c per bushel higher than last week. Better weather and roads will probably check the upward movement by en-abiling farmers to bring their stuff to markets. This they have not been able to do for a month or two past. Loose timothy hay has been par-ticularly scarce, for the good reason that it has been impossible to haul it over the roads lead-ing into the city. Prices below are for carload lots on track: WHEAT-New No. 2 red, \$5@85c; No. 3, \$200 88c. CORN-No. 2 yellow, ear. 44%@45c; high

HE DISCOVERY OF AMERICA By Christopher Columbus, in 1492, opened the way for many wonderful developments, but to none of greater importance to suffering humanity than Swift's Specific, the world-renowned remedy for Blood Poison,

"About three years ago I was troubled with poison in my blood, very irritating and painful boils breaking out all over my body. For two years I suffered with them, trying all sorts of rem-

edies and doctors' prescriptions without avail. Becoming disgusted with doctors, and medicines

I had used up to this time, I concluded to try S. S. S., and the result was far beyond my expecta-

tions. A few bottles left me in better health than I had been since childhood. I consider S. S. S.

BE SURE TO GET THE GENUINE Like every other good thing, S. S. S. is

ple, who prey on the credulity of suffering humanity. Do not be imposed on

by any of these imitations. Many of them contain poisons, and are dangerous,

There is only one S. S. S., and there is nothing like it. Send your address for a copy of our Treatise on Blood and Skin Diseases, which we will mail free.
