Identified by the Chief of Police of Braddock.

WHO EXCHANGED SHOTS WITH HIM.

The colored man, supposed to be Joe An derson alias "New York Shine," who made such a gallant fight for liberty and a hammered cranium, was not feeling well yesterday. His first statement was to the effect that he could account for every day he spent both on and after December 23, the day of the Rudert murder at Tarentum. He even professed ignorance of any murder having occurred, and wound up by saying he was in Indiana when it happened.

He kept this strain up for a greater part of the day, but refused to give any reason for his fierce fight to escape from Detective Fitzgerald in East Liverpool, and ended by acknowledging that he was the man who was wanted, admitting his penitentiary record and several other pleasant events in his life, but still stoutly disclaiming any knowledge of Mrs. Rudert's murder.

He came to this trame of mind after having been identified by John Donavin, Chief of the Braddock police, who gave the three men chase the morning after the murder, and fired several shots after them.

WANTED AT LATROBE.

Anderson's next visitor was a constable from Latrobe, who had read of his capture in yesterday's DISPATCH, and came with a warrant for him for larcenv. It ap pears Anderson had been working at a La-trobe hotel, and stole some clothing belonging to the guests, two weeks ago. The con-stable had a photograph and complete description of Anderson and fully identified him as the man wanted as "New York

Several other important witnesses will be brought in to-day for the purpose of identifying the prisoner, among them the boy at Brushton, from whom he got breakfast the morning of the murder, and a number of Tarentum people.

The prisoner began to lose heart toward evening as he realized the webs of evidence that were being netted around him, but still persisted he knew pothing of the murder. He accounted for dates perfectly as to his whereabouts, except for about a week around the date of the murder, and from the 18th to the 38th of December last he made a number of contradictory statements.

HIS MEMORY CLEARS UP.

After that time he again becomes clear in his memory, and can fix time and place for almost every day up to that of his arrest. It was discovered after Detective Gilkin-

son left, that the visitor who accompanied him was a Braddock man, who had been with Chief Donavin in the chase after Griffin, Conroy and Anderson the morning after the murder, at Braddock. It was also stated last night that Chief Donavin had been down himself and identified Anderson as

H. George presided and the Rev. J. H. French, of Cincinnati, acted as Secretary. Dr. George said the prayer of our Saviour toward the close of His life, that His people all might be one, has found a response in many an earnest heart. It caused a longing desire to see the day when partition walls shall be broken down, loving hands shall clasp and loving hearts shall flow together

in nearer and closer fellowship and reason. The design of the convention was to have the brethern talk together about union, to pray together about it and to seek the Holy pirit to show what is right. He asked if they could not untite to consecrate their lives and all to the salvation of this fallen world. If they could not agree to merge the branches into one ecclesiastical unity, let them agree to come closer together in Christian effort Rev. Dr. McAilister said the church is distracted and not in its normal condition. It is disorganized and never will be in a

settled state until all the churches are one. It has against it all evil formed with a compactness that makes it one, and every Christian church in the world must unite in an organic body with a united front against all evil. In this union there must be the securing of the rights of conscience without compromising truth. The unwor-thy have the right to dissent and bring up the matter again. These differences, how-ever, should not keep asunder those who

are one in God. The Rev. J. T. McCrory said it was not necessary to conform to each other in small matters of doctrine and church government, matters of doctrine and church government, but they could have a church union and all retain their own doctrines. They must pre-sent a solid front in political work and tend to give it a higher moral phase. It was im-portant that they should unite also, as this generation will determine the political, so-cial and religious institutions of the world for performs a thousand was to for perhaps a thousand years to come. A Committee on Resolutions was appointed to report at the meeting to-day.

NEW HUMANE SOCIETY AGENTS.

All the Larger Towns Being Rupidly Supplied With Them.

General Agent O'Brien, of the Humane Society, went to Coraopolis yesterday to appoint an agent for the society in that place, under instructions from the Board of Directors. It is the intention of the board to have a competent agent in every large town and county seat in Western Pennsylvania, and Agent O'Brien has been vested with authority to make the selections, subject to its approval.

The appointments already made and ac-cepted are: Levi Cline, Greensburg; W. T. Dart, McKeesport; John R. Duff, Free-port; J. W. Thompson, Indiana; Plummer F. Collins, Mansfield; John McGarvey, Oil

City; J. J. Finnerty, Tarentum; J. A. Mahaffey, West Elizabeth; William W. Decker, Johnstown; Frank Howard, Sharon; Larimer Mitchell, Verona; George M. Permar, New Castle. The others will be selected as fast as possible.

TO BUY OUT DUQUESNE TRANSIT.

Rumors That the Pittsburg Traction Wants to Do the Octopus Act Discredited.

ELECTRICITY TO REPLACE HORSEPOWER

Sundry Pittsburgers will acquire by purchase to-day the Cream City Passenger Railway, of Milwaukee, by virtue of paying therefor the sum of \$900,000. The purchase includes everything possessed by the corporation.

The Pittsburg gentlemen who are in the syndicate are the following well-known moneyed men: John W. Chalfant, A. M. Byers, A. W. Mellon, W. L. Van Kirk, John Moorhead and others. Just who the "others" are cannot be learned, but the above names are secured from an authoritative source. Representatives of Mr. Chaltant and the other interested parties have been passing back and forth between the Cream City and Pittsburg for two or three weeks. The deal will be closed this afternoon by three gentlemen who boarded the limited last night at Union depot, bound for Chicago, whence they will go to Milwaukee. One of the party carried \$900,000 in his inside pocket. It was in the shape of certified checks and bills of hair-raising size. The papers will pass by 5 o'clock this afternoon.

VALUE OF THE PURCHASE.

The Cream City Passenger railway is 23 miles in length, and the most com-prehensive system in Milwaukee. It traverses the principal streets of the buffcolored city, and connects the various depots and hotels. The road is esteemed dirt cheap, and would easily bring twice as much if handled in the manner the Philadelphia syndicates employs. Just how the Pitts-burg syndicate managed to secure it so cheaply is not known, but it is rumored that the adroit negotiations of Mr. Arthur Kennedy were no small factor in the completion of the deal. As compared with other

recent sales and the usual amounts of capialization per mile, as well as the record of passenger traffic, the road would be held at between two and three million dollars. Milwaukeeans will be given rapid transit

on the Sprague electric system plan just as soon as the change can be made. The road has an indifferent equipment of horses and antediluvian cars. The new cars will be built for the company by Pullman, and the contract will be let without delay. The Sprague Electric Company has a man en route to Milwaukee, and he will immediately commence making an estimate. A large power house will displace each of the wo sets of horse stables.

TO BE HURRIED UP.

An effort will be made to rush the change from horses to electricity, in order to catch the immense summer traffic to the Lake Shore resorts. It is confidently expected to double the receipts of the company by the change in motive power. A gentleman who is onto the deal states that there is some leaning toward the

Thomson-Houston storage battery motor, but that as compared with the Sprague sys-tem, the latter was the favorite on account of the practical demonstration afforded by the Pleasant Valley line. The Sprague people are now showing an extra inducement in the shape of an improvement upon the iron pole which sustains the overhead wires. The new pole is neatly cased with wood for a distance of 10 feet from the ground, thus providing a safe and cheap insulation. Further information about the Milwaukee

deal will be afforded when the Pittsburgers return, within a day or two.

He said: "Mr. Ross failed to live up to his proposition in regard to arbitrating the matter. I asked him if he would abide by the decision of the board if they decided the Great Western Band was non-union. He Great western Band was non-union. He answered in the negative. This proves that he did not wish the matter amicably settled. It will be remembered that the Great Western Band was engaged last year by Horace Phillips. The engagement was can-celled, and at the benefit for Mr. Phillips last fall the Grand Army Band volunteered its services and did all in its power to make the benefit a success.'

TO CONDEMN A PIKE. A Movement to Secure a Sixty-Foot Street Out to Perrysville, PETITIONS NOW IN CIRCULATION. The Pleasant Valley Road Wishes to Double now brewing among certain elements. Hugh O'Donnell, the well-known execu-tive of the Amalgamated Association of Iron and Steel Workers, denies the charges Track That Branch.

WARD ALL READY FOR ANNEXATION

A petition is being circulated in the hill wards of Allegheny asking the City Councils to condemn the Perrysvlle Pike road for street purposes, inasmuch as it is entirely within the city limits, and far too narrow and circumscribed for the needs of the community.

This action arises from the universal denand that the Perrysville branch of the Pleasant Valley line be double tracked instead of running upon the switch system. The Pleasant Valley Company has been anxious to double track the road ever since the Federal street and Perrysville road became a part of its system, but as the width of the pike is only 34 feet at many points it

is impossible to operate two tracks and maintain the roadway. A vigorous effort will be made to enlist the sid of Councils. The concession is made that the building of the line has trebled the value of real estate in that section of the city.

TOLL GATES IN THE CITY.

When the railway was first laid the turnpike company received \$15,000 for an ease-ment of their right of way, thus letting in the railway. The last gate of the Perrys-ville Pike Company and the major portion of its roadway are within the city limits, and the residents of the hill display the same hostility to the toll system as Hon. A. C. Robertson evinces toward the Point bridge. There is a pronounced feeling in favor of the abolition of the turnpike, and Councils are expected to take decided action

in the matter. The general view seems to be that a 60-foot street clear to the city limits would be about what is wanted. Should such action be taken, it is certain that the Pleasant Valley will build a double track the whole extent of its present line. As at present operated, the cars have to tarry at the switches more often and for longer periods than suit the Perrysvillians.

AN EXPENSIVE JOB.

Nearly the entire road would have to be widened from the inner side, as nothing short of bridge building would do much on but said she did so under the impression that it was her own. the cliff side, where an abrupt declivity of 100 to 400 feet, almost sheer descent, presents practically insurmountable engineer ing difficulties. Retaining walls would have to be constructed on the inner side, and the job is likely to prove a costly one. The sharp turn at the old power house would also present difficulties.

The Pleasant Valley Company cannot run enough cars at certain hours of the day to ccommodate patrons, and on a day like last Sunday it was said to be an actual fact that 8,000 people walked up the hill, unable to secure transportation. It is said by some that the Perrysville or

any other pike road cannot be maintained when wholly within the limits of a city. There is some doubt upon the point, and legal advice will be had. The population beyond the city limits is

anxious for annexation as the Fourteenth ward.

Abbott, of the open-hearth department, as being inimical to the interests of the company. The three men, it is said, organized an anti-Catholic society, and thereby secured the ill-will of Catholics working in the mill, Mr. J. A. Potter, manager of the mill, also denies that Mr. O'Donnell complained to him about the three men. The trouble dates back to the mission held in Rev. Father Bullion's church some months ago. It was currently reported that the Catholics had been warned not to affiliate with Protestants. This is denied by the Catholics. There are about 3,000 Catholics in the town, out of a population of 7,000 residents. The Catholics say Mr. O'Donnell is straightforward, and would not stoop to the trick of trying to have Protestants discharged. PASTURE FOR CITY HORSES. Corener McDowell was asked last night whether he thought the right bird was caught, and he said that if the colored man who was in the Central station was Nev York Shine" Anderson, there was no doubt in his mind that he is the man who sat in the boat the night of the murder and robbery and had a share of the booty, which he buried after rowing Griffin and Conroy across the river, and then struck across the country with them. NO NEWS OF MISS PENMAN.

If She Joined Her Lover at Wheeling, No One Yet Knows It.

Nothing has yet been heard of Miss Jennie Penman, who left her Southside home on Thursday, April 10, in order to join her lover, Arthur Gray, at Wheeling. Her present whereabouts have not been discovered by her parents and friends. Mrs. Penman, the fair eloper's mother, was yesterday searching among her daughter's acquaintances to learn if they had received any message from the missing girl. A family friend, Miss Cecilia Ackermann, stated last night that Miss Penman had promised to notify her immediately on arriving at Wheeling, but she had heard nothing from her. Miss Ackermann said that THE DISPATCH was correct in denying that Gray sent Miss Penman money to join him

at Wheeling. The police have taken the matter in hand. and have telegraphed to Wheeling for news of Miss Penman. Miss Ackermann believed a marriage had taken place between Gray and Miss Penman; but G. W. Evans, of South Tenth street, a close friend of Gray's, is positive Arthur left town before any nuptial ceremony took place.

An S-Year-Old Tot Turns a Big Hungarian Over to the Police.

A very funny scene was enacted in the Allegheny Mayor's office, last evening, when a little bit of an 8-year-old boy came in leading by the hand a great big ungainly looking fellow, who the boy said was lost. It transpired that the lost boy, who was nearly six feet high and about 21 years old, was a Hungarian who works somewhere in Allegheny, but got lost and couldn't find his way home.

The lost boy was given quarters until memone appears to claim him.
