ANOTHER ADVANCE IN FLOUR IS DUE

OFFICE OF PITTSBURG DISPATCH, SATURDAY, April 19, 1890.

Country Produce-Jobbing Prices. The batter market is overstocked and prices are in favor of the buyer. There is a good demand for choice old cheese at old prices. Ecgs are moving freely at quotations, and stock in the hands of jobbers is lighter than for some weeks past. The day is past when it is neces-sary to push trade in this line. New cabbage is scarce and firm. Potatoes of good quality are very firm at quotations and prospects are for higher prices. In tropical fruit bananas are scarce and higher. Oranges of choice grade are also looking upward. The week's volume of trade shows a decided improvement over last week, and would have been much larger but for

the scarcity of green stuff at commission houses. Improved weather proves a great help BUTTER—Creamery, Elgin, 21@22c; Ohio do, 19@20c; country rolls, 15@16c.

THE WEEK IN STOCKS.

Dull and Featureless All Through, With Few Important Price Changes. Plenty of figures were made at the stock call Saturday, but without much in the way of business to show for them. The feeling was

buoyant, and the bidding covered almost all

the specialties on the list. Sales were 150 shares, only 50 of which were regular. There were no important price changes Bridgewater Gas was fractionally strouger, while Philadelphia, Chartiers and Wheeling about held their own Citizens' Traction improved a trifle, but Pittsburg and Central submitted to small concessions. Pleasant Valley was steady; Westinghouse Electric was a shade

was steady; Westinghouse Electric was a shade better; Luster lost ground; bank and insurance shares were in demand at full prices.

The main feature of the market throughout the week was dulness. Prices, as compared with the previous week, show few material changes. The only positive gains were in Citizens' Traction and Bridgewater Gas. The decimes were unimportant, Luster being the chief sufferer. The steadness of the market in spite of the extreme duliness is encouraging, if nothing more.

FOOD FOR PESSIMISTS. Figures Showing a Large and Steady Ex-

pansion of Business. Manager Chaplin, of the Clearing House, was happy Saturday. His report showed that the exchanges for the week were the largest of the year, and nearly \$9,000,000 better than for the corresponding time last year. This shows that while the railroad imbroglio may have caused some uneasiness, it had no effect upon business except to increase it. This may sound like a paradox, but the fact remains all the same. The report reads:

Yesterday's exchanges..... . \$ 2,602,297 04 eck's exchanges ... Exchanges to date, 1890.... Exchanges to date, 1889.... Gain, 1830 over 1839, to date.

PRONOUNCED ADVANCES.

A Whirl in Railroad Shares, With Many Strong Features-Bulls Force Shorts to Cover-Bank Statement Favorpble-Best Prices Last.

NEW YORK, April 19.-The stock market today was more active and displayed a stronger tone than any Saturday's market for a long than on any previous day this week. The ceneral expectation of a favorable bank statement rendered the professional element, which morendered the professional element, which mo-nopolized the greater portion of the business done, rather bullish, and the bulls took hold with considerable vim, compelling the cover-ing of many short contracts.

As usual of late Sugar Refineries and Lackawans were the most conspicuous features of the market, especially in the matter of activity; both were strong and made material gains, though they were measured at the close by fractions only. The sales during the first hour were very large, but after that time it became cherries, unpitted, 5@6c; raspberries, evapo-rated, 294630c; blackberries, 76734c; huckel-Lackawanna and Louisville and Nashville, which became the leaders of a decided upward

scarcity of stuff. Recoipts are very light. Oats are very firm at quotations. Wheat and flour show an upward drift. Hay and millifeed show weakening tendencies. There was but onesale on call at the Grain Exchange, viz: a car of sample oats at 33½c. Receipts as bulletined it cars. By Fittsburg, Ft. Wayne and Chieago. I car of feed, 2 of hay, 3 of cats, 2 of flour. By Pittsburg Cincinnati and St. Louis, I car of corn. Winter wheat is unusually scarce in the market, It is about as certain as anything future can be, that flour must go up higher at an early day. MARKETS BY WIRE.

Bad Crop News Made a Pretext for Bull-

ing Wheat-Corn and Onta Firmer-Pork Getting Into a Rut. CHICAGO-A strong feeling was developed in wheat to-day, and prices were all around higher. July is now taking the lead, and the interest centered principally in this future. Outside business was fair. It was claimed that a prominent local operator sold quite freely both for May and June delivery, and at the same time credited with buying freely for July, the impression being that the selling of the former was done to hold the market in check some to enable the buying of July. The market opened 1/2 higher for May, and 1/2/1/2/2 higher for July than the closing on 'change yesterday. May declined 11/4c, recovered some and closed about 1/20 higher than yesterday.

July further advanced 10 above opening figures, then declined 1%c, fluctuated and closed 1%c higher than yesterday. Bad crop news,

Nature should be assisted when the system is changing from the full habit of the winter months to the lighter diet of the warm season. Nothing does this as well as S. S. S. It stimulates the sluggish blood and rids the system of heaviness and the feeling of languor. If there is poison in the blood, it generally shows itself in the spring, and this is the season to help nature to drive it out and be cured.
