CURING HURTS OF BODY AND OF SOUL

SPECIAL TELEGRAM TO THE DISPATCH.1 BROOKLYN, April 20.-The audiences Dr. Talmage has had on Sunday evenings, since the burning of his Tabernacle drove his congregation to the shelter of the Academy of Music, have been something phenomenal. This evening the spacious building was filled in every part. The population of healing. His discoursed on the profession of healing. His text was Matthew xi:5. "The blind receive an aurist, or ear doctor. Was there ever such another oculist? That He was particularly another oculist? I take from the fact are cleansed, and the deaf hear." He said: "Doctor," I said to a distinguished surgeon, The youn not get work of a unique problem of the count of the count of the number of blind people mentioned who are serviced of the list is overcome by my joy in curring them." less, and I have got worse and worse, and I can neither move hand or foot or head. Oh, if I could only be free from this pain of 85 years!" Christ, the Surgeon, could not stand that, Bending over the man on the mattress, and in a voice tender with all sympathy, but strong with all omnipotence, He savs, "Rise!" And the invalid instantly scrambles to his knees, and then puts out his right foot, then his left foot, and then stood upright as though he had never been prostrated. Oh, what a Surgeon for chronic cases then, and for chronic cases now! now, free of charge. "Without money, and without price," you may spiritually have your blind eyes opened, and your deaf ears un-barred, and your dumb tongues loosened, and your wounds healed, and your soul saved. "If Christian people get hurt of body, mind or soul, let them remember that surgery is apt to hurt but it cures, and you can afford present pain for future glory. Besides that, there are powerful anæsthetics in the divine promises that soothe and alleriate. No ether or chloro-form or cocaine ever made one so superior to distress as a few drops of that magnificent anodyne: "All things work together for good to those who love God;" "Weening may endure for a night, but joy cometh in the morning." WHAT A GRAND THING This is not applicable so much to those who

This is not applicable so much to those who are only a little hurt of sin, and only for a short time, but to those prostrated of sin 12 years, 18 years, 38 years. Here's a Surgeon able to give immortal health. "Oh," you say, "I am so com, pletely overthrown and trampled down of sin that I cannot rise." Are you flatter down than this patient at the mineral baths? No. Then rise. In the name of Jesus of Nazareth, the Lurgeon who offers you His right hand of help, I bid thee rise. Not cases of acute sin, but of chronic sin-those who have not prayed for 38 years, those who have been gamblers, or lib-ertines, or they or outlaws, or blasphemers, or infidels, or a theists, or all these together, for 38 years. A Christ for exigencies! A Christ for a dead-lift! A Surgeon who never loses a case! WHAT A GRAND THING for our poor human race when this Surgeon shall have completed the treatment of all the world's wounds! The day will come when there will be no more hospitals, for there will be no more sick, and no more eye and ear infirmaries, for there will be no more blind or deaf, and no more deserts, for the round earth shall be brought under arboriculture, and no more blizzards or sunstrokes, for the atmosphere will be expurgated of scorch and chill, and no more war for the swords shall come out of the foundry bent into pruning hooks. While in the heavenly country we shall see those who were the victims of accident or malformation, or heredutary ills on earth, become the athletes in Elysian fields. Who is that man with such brilliant eyes close before the throne? Why, that is the man who, near Jericho, was blind, and our Surgeon cured his ophthalmin! Who is that erect and graceful and queenly woman before the throne? That was the one whom our Surgeon found bent almost double, and could in no wise lift up herself, and He made her straight. Who is that listening with such rapture to the music of heaven, solo melt-ing into chorus, cymbal responding to tranpet, and then himself joining in the anthem ? Why, that is the ufan whom our Surgeon found deaf and dumb on the beach of Galileee, and by two touches opened ear-gate and mouth-gate. Who is that around whom the crowds are gathering with admiring look and thanksgiving, and cries of "Oh, what He did for me? Oh, what He did for my family ? Oh, what He did for the world?" That is the Surgeon of all the centuries, the Occulist, the Aurist, the Emanci-pator, the Saviour. No pay He took on earth, Come, now, and let all hearen pay Him with worship that shall never end, and a love that shall never die. On His head be all the crowns! In His hands be all the sceptres! and at His feet be all the worlds! Valvular Disease of Heart. will be expurgated of scorch and chill, and no

PITTSBURG DISPATCH, MONDAY, APRIL 21, 1890. THE THE LIFE IN A GLASS. Does Not Seem to be Very Much but It ANOTHER GREAT SUFFERER

is Often Enough to be the Beginning of Death. Cured by the Catarrh Special-Did you ever hold a glass of drinking water up to the light and notice how completely filled it was with little particles of matter? It looked it was with fittle barricles of matter? It looked perfectly clear and pure when you poured it out, but yet it was reeking with animal or vege-table matter. Do you imagine it can be healthy? Do you wonder why, in a little while, your mouth tastes bad, your appetite is poor and you feel a general disgust with the world?

But if water is so impure, what shall we do? Boil it? No, that may kill the germs, but does not remove them. A far better way is to use pure whiskey with it. The best physicians in America, unhesitatingly declare this now, butand bear this most carefully in mind-it must be pure whiskey, for impure whiskey is worse than impure water. Doctors, chemists, scientists and professors

are now fully agreed that no whiskey used in America to-day is so chemically pure or free from fusel oil, as Duffy's Pure Malt. It has successfully withstood the enmity of all other whiskies, the prejudice of weak-minded and the bigotry of narrow-minded people. Why? Be-cause it has produced results, restored health,

cause it has produced results, restored health, prolonged life, awakened the lagging faculties and counteracted the evil effects of poisonous water. Indeed it is a pure, medicinal whiskey. Do not, however, allow any unscrupulous dealer to impose upon you by declaring he has some concection of his own that is "just as good," or some bottled whiskey that is "much better." It is the very popularity of Duffy's Pure Malt that has caused these unworthy de-coccions to come into the market. The above is a portrait of Mrs. Elizabeth Bratt, who lives at Verner Station. The catarrhal secretion that formed in her head and dropped down into her throat, caused a severe ulceration to set in. Her mouth, throat and tongue became so sore, that she could not chew her food, and was compelled to eat only soft

foods. She would often have sharp pains in her face, and a drink of cold water would cause the Idee, and a drink of cold water would cause the most intense pain. As some of the catarrhal poison extended to her lungs, she coughed badly, her breath bhame short and she felt much pain and soreness in her lungs. She had a constant weak, tired feeling, and she often felt so nervous that her whole body would be in a tremble. The food she at would sour on her trembeh and she felt full distanced for her stomach, and she felt a full, distressed feel-ing after eating. Her heart would often palpi-tate as if it would jump out of her body. She had much pain across the small of her back had much pain across the small of her back and lower part of her body. Exposure to cold air would cause her to take cold, and often for a mouth at a time she would not dare to step outside the door. Although doctoring all of the time she gradually grew worse. She lost much flesh, until she only weighed 98 pounds. It was while in this condition that she began treatment with the physicians of the Catarrh and Dyspepsia Institute, at 323 Penn avenue, and became cured. She says: "My disease was of 12 years' standing, and my condition was much worse than has been described. I now feet well and strong, as I did when I was a girl. I have regained my flesh and am very glad to testify to my cure, as above stated by these specialists. Signed with my own hand, "MRS. ELIZABETH BRATT." Please bear in mind that THESE SPECIAL-ISTS HAVE BUT ONE OFFICE, and which is PERMANENTLY LOCATED at 323 Penn avenue.

ical skill of the world, with what tenacity the old diseases hang on to the human race, and most of them are thousands of years old, and most of them are thousands of years old, and in our Bibles we read of them; the carbuncles of Job and Hezeliah; the palpitation of the heart spoken of in Deuteronomy; the sun-stroke of a child carried from the fields of Shunem, crying, "My head!" King Asa's disease of the feet, which was nothing but gout; defection of teeth, that called for dental surgery, the skill of which, quite equal to any-thing modera, is still seen in the filed molars; of the unrolled Egyptan mummies; the oph-thalmia caused by the juice of the newly ripe fig, leaving the people bind at the roadside; thing modern, is still seen in the filled molars of the unrolled Egyptian mummies; the oph-fig, leaving the people blind at the roadside; epilepsy, as in the case of the young man fill-ing into the fire, and oft into the water; hypo-chondria, as of Nebuchancezzar, who imagined himself an ox, and going out to the fields to pasture; the withered hand, which in Bible main artery, or from paralysis of the chief nerve; the wounds of the man whom the thieves left for dead on the road to Jericho, and wnom the good Samaritan nursed, pouring in oil and wine-wine to cleanse the wound, and oil on suffering! Envite the main and cure of human suffering!

The suffering? The state world wanted a surgery without pain. But the world wanted a surgery without pain. Doctors Parre and Elekman and Simpson and Warner and Jackson, with their amazing results, came on, and with their amazing results accentuation. But yet he was numbed the patient with nareotics and ethers as the ancients did with hasheesh and man-drake, and quieted him for a while, but at the return of conneclourness distress returned. The world has never seen but one surgeon when the une, or any pain after, and that surgeon was Jesus Christ, the mightiest, grandets, gentlest and most sympathetic surgeon the heaven. "The blind receive the first sight, and that surgeon the ame walk; the leptrs are cleansed, and the deaf hear." CHEONIC CASES CURED. I notice that this Surgeon had a fondness for heaven. "The blind receive the first sight, and the lame walk; the leptrs are cleansed, and the and between the tongen sud protes and spectro-sion. He not only heard but he talked. One part. Why is it that while other surgeons used knives and forceps and protes and spectro-sions the auchents did with the message 7 You bring him to me after all power of recuperation iffering! chronic cases. Many a surgeon, when he has had a patient brought to him, has said: "Why was not this attended to five years ago? You bring him to me after all power of recuperation is gone. You have waited until there is a combring nim to me alter all power of recuperation isgone. You have watted until there is a com-plete contraction of the muscles, and false ligh-tures are formed, and ossification has taken place. It ought to have been attended to long ago." But Christ the Surgeon seemed to preter inveterate cases. One was a hemorrhage of 12 years, and he stopped it. Another was a curvature of 18 years, and he straightened it. Another was a crippie of 38 years, and he walked out well. The B-year-old patient was a curvature of 18 years, and he straightened it. Another was a cripple of 38 years, and he walked out well. The 18-year-old patient was a

roman bent almost double. If you could call a convention of all the surgeous of all the centuries, their combined skill could not cure that body so drawn out of shape. Perhaps they may stop it from getting any worse, terhaps they might contrive braces by which she might be made more comfortable, but it is, humanly speaking, incurable. Yet this divine Surreon put both His hands on her, and from that doubled-up post-ure she began to rise, and the empurpled face began to take on a healthier inte, and tho muscles began to relax from their rigidity, and the spinal column began to adjust itself, and the cords of the neck began to be more supple, and the eyes, that could see only the ground before, now looked into the face of Christ with grafitude, and up toward heaven in transport. ould not cure that body so drawn out of shape

before, now looked into the face of Christ with gratitude, and up toward heaven in transport. Straight! After 18 weary and exhaustive years, straight! The poise, the gracefulness, the beauty of healthy womanhood reinstated. The 38 years' case was a man who lay on a matress near the mineral baths at Jerusalem. There were five apartments where lame people were brought, so that they could get the advantage of these mineral baths. The stone hadrof the bath is still visible, although the waters have disappeared, probably through some convalsion of mature, the bath, 120 feet long, 40 feet wide and 8 feet deep.

A SUEGEON WHO ALWAYS HEALS. Ah, poor man; if you have been lame and helpless 38 years, that mineral bath cannot re-store you. Why, 38 years is more than the store you. Why, to plane how but the grave will cure you. But Christ the Surgeon walks along these baths, and I have no doubt passes by some patients who have been only size months disordered, or a year, or five years, and comes to the mattress of the man who had been nearly four decades helpless, and to this been nearly four decades helpless, and to this 88 years' invalid said: "Wilt thou be made whole?" "Oh, yes," says the man; "that is what I came to these mineral baths for; I have tried everything. All the surgeons have failed, and all the prescriptions have proved value-

the two tunnels of sound wore clear for all sweet voices of music and friendship. For the first time in his life he heard the dash of tho waves of Galilee. Through the desert of pain-ful silence had been built a king's highway of resonance and acclaination. But yet he was dumb. No word had ever leaped over his lip. Speech was chained under his tongue. Vocal-ization and accentuation were to him an im-possibility. He could express neither love nor indignation nor worship. They would have paid Him large fees if he had demanded them, and there were hundreds of wealthy people in Jerusalem, and among the merchant castles along Lake Tiberias, who would have given this Surgeon houses and lands and all they had for such cures as He could effect. For critical cases in our time great surgeons have received a \$1,000, \$5,000, and, in one case 1 know of, \$50,000, but the Surgeon of whom I speak received not a shekel, not a penny, not a farthing. In His whole earthly life, we know of His having had but 62% cents. When His taxes were due, by His omniscience He knew of a fish in the sea which had swallowed a piece of silver money, as fish are apt to swallow anything bright, and He sent Peter with a hook which brought up that fish, and from its mouth was extracted a Roman stater, or 62% cents, the only money He ever had; and that He paid out for taxes. This greatest Surgeon of all the centuries gave all His services then, and offers all His services of wealthy people in Jerusalem, and among the

It is an absolute fact that many suffer, and indeed too many are daily hoodwinked by pat-eut medicine and quack treatment, and they give way to foolish advice and leave a regular schooled and reputable physician to resort to all kinds of patent nostrums in vain to find health and strength, when they could really be assured that there is more nodrishment in one bottle of Klein's Silver Age than in a carload of the stuff they call "invigorators." It is, too, a fact not to be passed by, the indersement of well-known physicians, who cheerfully indorse this excellent and pure stimulant. Hospital superintendents, who are regularly using these goods, say, "It is the best stimulant we can cet, and has its desired effect." All druggists keep it. Each bottle contains a full standard quart, and issold at \$15 ceach. Send for complete catalogue and price list of all kinds of lign-rs to MAX KLEIN, ap7-MWF \$2 Federal street, Allegheny, Pa.
