## IN THE NICK OF TIME

Twenty Million Dollars Invested in Oil-Boring Makes Much Work.

MANY FARM MORTGAGES LIFTED.

And the Day Postponed When the Native Farmer Must Vamoose.

GENERAL PROSPERITY IS PROMOTED

The story being current that ex-Mayor Shannon, of Brandock, George Barnsdall and others had organized a company with \$8,000,000 to drill for petroleum in this county, a call was made on Mr. Shannon, yesterday, at his office on Fourth avenue, for particulars. Mr. Shannon stated that he knew of none, and was confident there was none, but in conversation with him an idea of the immensity of the oil business contiguous to this city was gained, and though on a little reflection, one who keeps trace of the development will not be surprised to be told that there is a large amount of capital invested, yet few, perhaps, have an idea of the extent of it. Mr. Shannon states that there is in the neighborhood of \$20,000,000 invested in ter-

ritory lying within the district of which this city is the center. This capital is largely diverted from other sections. It must no be confounded with money tossed back and forth in speculation. That has its uses, to a certain extent, in facilitating the movement of commodities, but it does not create wealth, while petroleum development does. A DEFENSE OF FUTURES. People who propose to make others

righteous by act of Congress rather overrighteous by act of Congress rather oversboot the mark when they propose to prewent dealing in futures, and some of them evidently do not understand what they are about.
No large manufacturing firm can do business
without purchasing for future delivery. Unless it can can make contracts to run for 3, 6,9
or 12 months, it cannot be assured of its
ability to employ labor, and in order
to make those contracts it must
contract supplies at a stipulated
price, to be delivered as they are needed in the
future. Here an element of chance enters that

future. Here an element of chance enters that cannot be eliminated. Take, for instance, a flour-ing mill that makes 2,000 barrels of flour a day. It must carry a stock of 130,000 bushels of wheat must carry a stock of 130,000 bushels of wheat in order to supply its monthly events. Now, it it absurb to suppose that it could afford to carry 12 times that amount in order to insure a year's work at a profit. Buying for future delivery in such cases is not gambling in the offensive definition of the word. It is no more chance than the larmer takes when he puts his seed into the ground—not so much.

But the oil development in Allegheny, Butler, Beaver and Washington counties during the past three or four years has been more beneficial, perhaps, than the outlay of any other similar amount of capital. It has not

beneficial, perhaps, than the outlay of any other similar amount of capital. It has not only furnished a vast amount of labor to tool makers, drillers, tool dressers, carpenters and teamsters, but has enabled many impecunious farmers to lift mortgages which their slovenly methods of farming would never accomplish. It would astonish many people to know how many Allegheny county farms, whose owners inherited them from their parents, have been mortgaged during the last decade, and mortgaged, not to make improvements, but for monely to live upon. The boys don't care about staying with the old man so long as they can secure \$40-amonth clerkships, or a chance to become brakemen or railways, or to drive street cars, brakemen on railways, or to drive street cars and though there are thousands of tramp wandering to and fro in the land, it is difficulfor a farmer to get a hand at \$26 a month and

HARD TO MAKE IT PAY. Some are now hunting for help and cannot get it at that price, and the manner in which the majority farm in this county will not support help at the price named. The German manages to make it win, but the average native farmer either mortgages his farm or sells it off piecemeal, and partly sub-

farm or sells it off piecemeal, and partly subsists on the proceeds.

If the reader will drive 12 miles in any direction from the city, these days, he will find
plowmen turning up the soil from four to six
inches—soil that has been uniformly plowed
that depth for the last 50 or
75 years. If you ask one why
he doesn't plow deeper and make more soil and
provide a depth that will stand either dry or
wet weather, he will reply that it would spoil
the ground to turn up the clay. Suggest that
the addition of manure would prevent that, and lition of manure would prevent that, and at the same time create more soil, and the sloven will answer that he hasn't any manure

and yet these cities are yearly wasting mor fertilizer than would equal all the guano in The oil development has given these farmers a new lease, and those who cannot get a bonus, or on whose land no grease is secured, find employment for their teams. Were they to study the sciences, they might extract the aluminum from their farms and make some mores than from their farms, and make some money this way, but they will not do it so long as the petroleom operator delves for the amber-col-ored fluid that is in the Hundred-Foot.

For ladies' misses' and children. The People's Store carry the largest stock and their prices are right; 100 kinds of newly imported Berlin wraps just received.

We Make Mattresses! And lots of them. Leave your orders at our curtain department.

WASHBURN'S BILL PREFERRED.

A Mensure Wanted That Applies to Other Cities Than New York. Postmaster McKean and Superintendent Collins are studying the text of two bills affect ing the salaries of postoffice employes—one introduced by Congressman Ketcham, of New York, and the other by Senator Washburn, of Minnesota. The first measure is entirely in the interest of the New York postoffice, definitely

interest of the New York postoffice, definitely fixing the salaries paid there, while the employes in the other offices throughout the country are left to the mercy of the Salary and Allowance Clerk of the Department at Washington, subject to a minimum rate, which is about the same as that now in force.

Senator Washburn's measure is based on civil service rules, and grades salaries according to length of service, ranging from one to three years, thus preventing the removal of one man and the substitution of another at the salaries of the employees, and gives an average increase of 10 per cent. This bill will receive the indorsement of all the postoffice employes outside of New York city.

Colored Velvet Ribbons .- Full assortments of every shade to match dress goods, Nos. 4 to 16, in both satin-back and linen-back goods. These goods are very searce, but we have them and at special BOGGS & BUHL.

DROPOSALS

-FOR-Bridge Superstructure -AND-

MASONRY. OFFICE OF COUNTY CONTROLLER, PITTSBURG, PA., April 15, 1890. {
Sealed proposals will be received until 3 o'clock P. M., WEDNESDAY, April 23, 1890, at this office for the superstructure and masonry of two wrought-iron, pin-connected truss and four plate-girder highway bridges, and for superstructure only of one wrought-iron, pin-connected truss bridge; also for the construction of two stone-arch bridges, located as follows: PITTSBURG, PA., April 15, 1890.

tion of two stone-and shaped lows:

No. 1. Over Montour run, Shaffers.

Through plate-girder bridge, 46% feet clear span, 50 feet extreme length; depin of girder, 60 inches: live load, 1.700 pounds per lineal foot; static load, 650 pounds per lineal foot. To have 3 intermediate floor beams.

No. 2. Over Toms run, at Dixmont.

Stone-arch bridge, 20 feet span, semi-circular arch.

arch.

No. 3. Over Poketos creek, Dougherty's Mill (skew bridge); low truss bridge, 60 feet center to center of end pins; two trusses, each 7 feet high and divided into six panels; to have verticle end posts; live load, 1.700 pounds per lineal foot; static load, 650 pounds per lineal foot.

No. 4. Over Big Sewickley creek, Bradford's farm (skew bridge). And (skew bridge).

Low truss bridge, 77 feet center to center of end pins, 2 trusses each 8 feet high and divided into 7 panels; truss to have vertical end posts; live load, 1,700 pounds per lineal foot; static load, 600 pounds per lineal foot.

No. 5. Over Montour run, Beaver road crossing (skew bridge).

No. 5. Over Montour run, Beaver road crossing (skew bridge).

Through plate-girder bridge, 57 feet clear span, 60½ feet extreme length; depth of girder, 60 inches: live load, 1,700 pounds per lineal foot; static load, 660 pounds per lineal foot; static load, 660 pounds per lineal foot; bridge to have 5 intermediate floor beams, No. 6. Over Robinsons run, Willow Grove s tation. (Bridge on grade).

Plate-girder bridge, 32 feet clear span, 35 feet extreme length; depth of girder, 28 liches; live load, 1,700 pounds per lineal foot; static load, 630 pounds per lineal foot; static load, 630 pounds per lineal foot; static load, 660 pounds per lineal foot. This bridge to have 5 intermediate floor beams, No. 8. Over Burns run, Gumbert's.

Stone-arch bridge, 16 feet span, semi-circular arch.

stone-arch bridge, which can be arch.

No. 9. Superstructure of bridge over Back channel, Ohio river, at Neville Island. High truss bridge of three spans, each 194 feet center to center of end pins; height of truss 28 feet, and divided into 14 panels. Clear width of roadway, 20 feet. Live load, 2,400 pounds per lineal foot; static load, 1,500 pounds per lineal foot. (Also for repairs to masonry of bridge No. 1 yer Watson run). Clear width of all bridges, unless otherwise

Clear width of all bridges, unless otherwise designated, will be 17 feet.
Bridge contractors should examine the sites for themselves to ascertain their peculiarities, the extent of false work required and facilities for transportation, etc., before bidding.

MASONRY. MASONRY.

The approximate quantity of masonry is about 2,600 cubic yards and must be of good quality and conform to specifications.
Bids to be by the cubic yard in place, price to include excavation, pumping, shoring, coffer-Contractors must visit the sites of proposed bridges before submitting a bid.

The county will furnish the cement loaded on cars at any railroad depot in the cities of Pittsburg or Allegheny, the contractor to pay the freezy.

the freight.

All bids must be addressed to the County
Commissioners, and indorsed, "Proposals for
Bridge Superstructure," or "Bridge Masonry," Commissioners, and indorsed, "Proposals for Bridge Superstructure," or "Bridge Masonry," as the case may be, each proposal to be accompanied by a budder's bond, with two sufficient sureties, in the sum of not less than 50 per cent of the whole amount of the bid. Bidders must bid for each bridge separately, and may, in addition, bid for the lot as a whole.

Bids for bridge No. 3 must be addressed in separate envelopes to the Commissioners of Westmoreland and Allegheny counties, and for bridge No. 4 to the Commissioners of Beaver and Allegheny counties.

The right to reject any or all bids is reserved. The party to whom the contract is awarded shall give bond, with two sufficient sureties, in double the amount of the contract, for the faithful performance of the said contract.

Plans may be seen and specifications and forms of bond ebtained at the office of Charles Davis, County Engineer, after Thursday, April 17, 1880.

Spi55-D County Controller. SEALED PROPOSALS ARE INVITED UP to MAY 3, at noon, for the erection of a school building, on the corner of Osceola and Cypress streets, Twentieth ward, for the Liberty School sub-district of Pittsburg, Pa.

Plans and specifications can be seen at the office of T. D. Evans, Architect, rooms 814 and 815 Lewis building.

The right is reserved to reject any and all bids.

A bond will be required for the execution of the work, to the full amount of the contract.

Bids shall be addressed to Dr. Henry A. Page, 6012 Penn ave. E. E.

HENRY A. PAGE, Secretary.

PITTSBURG, PA., April 22, 1890. ap22-29

OFFICIAL-PITTSBURG.

PROPOSALS.

OFFICIAL—PITTSBURG.

CEALED PROPOSALS WILL BE RECEIVED at the office of the City Controller until SATURDAY, April 26, 1890, at 2 P. M., for altering, repairing and remodeling engine houses Nos. 1, 3 and 6.
