Little Profit to Drovers at Woods' Run and Herr's Island.

### SHEEP AND SWINE FAIRLY STEADY

· OFFICE OF PITTSBURG DISPATCH ) The supply of butchering stock for today's market at Herr's Island was not up to the average in quality. Receipts were almost entirely from Chicago. There was an unusual scarcity of near-by stock on the market. The reason given is that freight rates have been recently advanced on the Pittsburg and Western Railroad. Drovers from adjoining counties are talking of driving stock to market, as in the good old days of yore, unless the Pittsburg and Western

company comes down on freight rates. Cattle markets started out rather slow. Buyers were scarce, but it looked at noon as though the offerings would be disposed of a slight reduction from Saturday's closing fig. before markets closed. Fair to good medium weights sold at \$4 75@5 00; prime light weights, 900 to 1,100 hs, \$4 30@4 60; common to fair thin and rough stock, \$3 25@ 4 25. There were no strictly prime cattle offered.

Fresh cows were very slow. The bulk of those offered were left over from last week. No sales were reported. The range at which they were offered was \$25 00@40 00 a head. Calves were in large supply, the total being 277 head, and were dull at 31/6041/c per fb. Receipts-From Chicago, L. Zeigler, 115 head; L. Gerson, 115; E. Wolf, 18; A. Fromm, 69; L. Rothschild, 54. Pennsylvania and Ohio contributed the bulk of the hogs offered, and supply was large. Market was, however, active and firm, at \$4 60@4 89 for Chicagos and Ohios, and \$4 55@4 65 for Pennsylvanias. Situation: "Last week's markets were unusually active and all cattle offered were promptly sold. There were some very fine cattle then on the market, and a few were sold as high as 5½ per pound. Oats—Spot steady and quiet; options steady and quiet. Hay steady and quiet to point of the drover this week. So far as my deals were concerned I will be satisfied to come out even this week. ON ANDOFF THE BELT.

A Lettery That is More Fascinating Than the One in Louisiann—Two Deep Shafts Suggested as One Way to Determine It.

It is rather amusing to see the efforts of oil producers to stand on the line. The line, or belt, is showing itself to be one of the most unreitable things ever known in this section. The men who trace it know about as much about it as Wiggins and the rest of the prophets do about the weather. If you hit it you are congitable things ever known in this section. The they felt tolerably certain you were on the belt. If you don't hit you are sneeringly asked what you expected by getting off the belt. Keep on and get a well within a few feet of your duster and then you will be told this is treacherous territory, and it's a game of hazard and they will talk of faults and fissures, if etc. A strike or a miss in the Hundred-Foot can always be explained by the wiseacres, who, for tell the truth, know about as much about it as you do. #### CITY FINANCES.

A Grent Deal Going on and Bankers Corre spondingly Elated.

Business was brisk in local banking circles yesterday, but there was nothing new in the way of features. Money was easy, and there was a good borrowing demand. The rates were 6@7 per cent, gilt-edged commercial paper being readily taken at the inside figure, which will probably hold throughout the season, as will probably hold throughout the season, as bankers and capitalists show a disposition to resist a reduction. Checking and depositing were heavy. Saturday was a red-letter day in trade circles, as the bank clearings show. They were \$3,006.359 64; the balances were \$414.945 64. It is the subject of general remark among financiers and business men of all classes and degrees that they have never hear a time in the degrees that there has never been a time in the history of the city where its great and manifold industries were in a healthier condition or rested, on a more satisfactory basis than they do to-day. The fact that Pittsburg left Baltimore far behind last week goes to show that this view of the situation is not exaggerated.

### ACTIVE AND STRONG.

Heavy Realizations Fail to Check the Upward Movement in Wall Street-Good Bank Statement and Higher Prices in London.

NEW YORK, April 23.-The stock market to day was very active and the strength of the upward movement was seen in the fact than not withstanding heavier realizations that have been seen at any time since the rise began, to the influence of which was added some of the trading element who believe that a reaction is due, to get prices off, the offerings were all absorbed at but slight concessions in the active stocks, while, when the pressure was removed-full recovery was had and the great majority of the list is fractionally higher to-night with some material gains.

The good bank statement of Saturday had its

influence, and enthusiasm among operators in the street was still undiminished this morning. But probably the most potent influence to-day was the magnitude of buying for foreign account, as London prices were materially higher this morning, and many commission houses had received orders to open the market up, the opening was extremely strong, and the bull movement of Saturday was seen to have force still. The day's market showed that outsiders still. The day's market showed that outsider are a growing factor in the market, and Lon ws a strong disposition to invest in

O'BRIEN SUES THE POLES.

The Guardian of the Helpless Making a Child-Benter Dance - A Young Lad Beaten With a Knotted Rope-An Offer

Humane Agent O'Brien turned up a case

to Sell Him for \$200.

Humane Agent O'Brien turned up a case yesterday that he says is more cruel than any he ever heard of, and certainly the worst in his experience. He was notified that a 9-year-old boy, living at Chartiers, had been nearly killed on Saturday night by his father, who had beaten him with a rope. He repaired to the place at once, and began an investigation.

A Polish woman named Margaret Lib-kofsky has two children, aged 4 and 9 years respectively. She keeps four boarders, one of whom is named Paul Worasky. This man assumed the duties of a husband to her since her rightful lord died seven months ago. He has also taken on himself the offices of a father to the children, but his affection for them is exceeded considerably by the chastisement he subjects them to. The older boy is named Willie, and after being beaten by this man he has a habit of running off and staying out a night to brood over his sorrows. Last Friday he absented himself all night, but on returning home on Saturday night Worasky took him in hand and administered a sound thrashing. The man bout the body to such an extent that there were cuts on him from the toes all the way up to his face. Every stroke of the rope left not a mark, but a cut, the loop of the lash making a clearly defined mark like that of a horsebloe. His legs and thighs suffered the worst, but his arms and back were also badly cut, and one stroke cut him across the check. The little fellow must were heard by all the neighbors. Agent him was suffered great pain, as his screams were heard by all the neighbors. Agent him was unforted great pain, as his screams were heard by all the neighbors. Agent him had done assisting the main in chastising her child. Worasky works in Lockhart's mill at Charters, 90 photos him had been assisting the main in chastising her child. Orange were at once made against Worasky and Mrs. Libkofsky, as well, as she acknowledged assisting the main in chastising her child. Orange were at once made against Worasky and Mrs. Libkofsky, as well, assisting the man in chastising her child. Worasky works in Lockhart's mill at Chartiers. He was arrested. At the hearing he and the woman were fined \$10 and costs each, which Worasky paid, much to Agent O'Brien's disgust, as he wanted the man sent to the workhouse. He then made another charge against Worasky for assault and battery, on which he will be given a hearing on Saturday. When Agent O'Brien said he was going to take the boy away from her, the woman said he could have him for \$200, and he could also have the other child. He did not pay her the amount, however, but he did take the child, who is now comfortably housed in the Tannehill orphan THE DANGEROUS BOOKS
