142,687,417 427,863 58 67,291 62 51,759,880 185,281 31, 29,634 19 26,824,012 80,477 92 11,741 51 53,290,150 159,900 00 19,637 65 The recapitulation of the poor taxes were follows: Boroughs, \$20,185 88; townships,

\$40,063 21; total, \$60,249 09. The report shows the total valuation of the real, personal and mixed property in the county, and the amount of tax to be collected by the County Trensurer. The assessed valuation is \$3,666,369 less than in 1889, when it was \$268,227,828. The decrease is not owing to a depreciation in value, but last year many charitable institutions, etc., were assessed, and as the courts have since decided the tax could not be collected, they were exonerated and this year were not assessed. Bu tor this 1890 would show an increase over 1889. The county tax levy to 1889 was 5. 90, largely due to the decrease of 1 mill in the tax. The State tax last year was \$120,890 20, and this year is increased to 27,704 97. The poor tax for last this year is \$60,249 00. The total tax county has to pay is \$1,561,486 96.

A. Northrop & Co.'s New Circular-All
About Paneled Iron Cellings, If you are building, send stamp for this

If you are repairing a building, send for If you have any rooms with old broken

plastered ceilings, or old, decayed and open-jointed wood ceilings, send for it. Our patent paneled iron ceilings have been before the public for the last eight or ten years, and now there are thousands in use, scattered all over the Union, in stores, banking offices and hotels, while its superior nanusing offices and notes, white its operation acoustic properties has brought it into extensive demand for churches, halls and operations. Its low cost and cleanliness introduces it into schools and asylums. And now the increasing demand for something to take the place of plaster for residence collings secretains that would gratify the ceilings, something that would gratify the artistic taste of our most cultivated housewives, and still be permanent and endurwives, and still be permanent and endur-ing, and thus save them the constant annoy-ance and expense of re-plastering and re-papering; something that could be applied over the old broken plastered ceilings with-out being compelled to take down and re-move the dirt and dust-covering stuff, has prompted us to bring out these beautiful designs of embossed metal plates. These embossed plates are adapted to side walls as well as ceilings, working up beautifully into wainscoting, frieze and field. As all figures and designs are in relief, really very little broad designs are in relief, really very little broad designs are in relief. little brush decoration is needed. They are, however, susceptible of any desired degree of ornamental decoration from simple, quiet tinting to the most elaborate and ornate display of coloring, gilding and bronz-ing, giving abundant scope for display of taste and talent to our most gifted decorative artists. Address A. NORTHROP & Co.,
