I assert on my honor that Mr. Cleveland was correctly reported in the interview in question. He was not misrepresented in any particular. I did not write out all that Mr. Cleveland said, but what I did write was a faithful and accurate report of his conversation. Much of what was omitted was simply unprintable in any respectable journal.

#### How He Got the Interview.

The circumstances attending the interview were as follows: Wednesday afternoon, April 16, I received an assignment from the city editor of the World, Mr. James F. Graham, to go and interview Mr. Cleveland regarding a story published in the Sun of that day, to the effect that the ex-President was under a special treatment invented by Dr. Schweninger, of Germany, for reducing fiesh. Mr. Cleveland was represented in the article as gaining in weight at the rate of 25 pounds a month, and it was said that both he and his friends were seriously alarmed at his condition.

I arrived at Mr. Cleveland's office, at 45 William street, a little after 2 o'clock. I inquired if Mr. Cleveland was in, and receiving an affirmative answer from one of his clerks, sent my card to him as the representative of the World. There could have been no misapprehension as to the nature of my visit. It was in no sense a social or personal call.

#### Talked Freely and Emphatically.

In a few minutes the clerk brought back word that Mr. Cleveland would see me, and I was ushered into his private office. We were alone together for nearly three-quarters of an hour, and Mr. Cleveland talked very freely and emphatically. Mr. Cleveland spoke in his usual deliberate manner and appeared to be in a perfectly normal

I began by informing him of the object of my call and fold him that the World would be glad to publish any statement he cared to make. He said he had not seen the Sun article (he never read the paper, he said, and would not touch it with a pair of tongs), and I gave him verbally the gist of Mr. Cleveland straightened himself up and made use of a profane expression reflecting on Mr. Dana's mother. (This was omitted from the published interview.)

#### Dana Vigorously Denounced.

Mr. Cleveland then launched out into a vigorous denunciation of the editor of the Sun. He said he was a blackguard, vagabond and dastardly scoundrel. He also characterized him as 'a senile old liar and thief,' with the addition of a profane prefix. Several other proface words figured in Mr. Cleveland's remarks, but none of them, of course, were published.

After the conversation had gone on for 15 or 20 minutes, Mr. Cleveland asked me what I was going to publish, and I told him the substance of what he had said. He drew a pencil from his pocket, and picking up a pad, said: 'I will write out something to guide you.' He then wrote the following, which is the first paragraph of the published

interview: "I have not," said Mr. Cleveland, "seen th article you refer to, and, if it appears nowhere else but in the Sun, there is not the least chance of my seeing it. Of course, the entire thing is a lie, without the least pretext to excuse it. I udge from what you say that the venerable

in the grave, his senile ravings would at-tract more attention. The public was disposed to look with some leniency upon a man who had paresis. That was all that saved Dana from being held to a strict ac-countability for his atrocious conduct.

Political Views Expressed.

The above is practically all that Mr. Cleveland said regarding the editor of the Sun. The interview did not end there, however. I asked him what he thought o the recent elections throughout the country, and especially in Rhode Island, and how he

regarded the practical working of the bal-lot reform law. What he said on that head

regarded the practical working of the bal-lot reform law. What he said on that head is contained in the following: Changing the subject, Mr. Cleveland spoke of the recent elections, and said they were most gratifying to the Democrats. The result in Rhode Island, at the by-elections held in the city of Providence, was especially significant and encouraging. It was a strong rindication of the ballot reform law. "From all I have heard," Mr. Cleveland added, "the Republicans made a tremendous effort to carry the by-elections in Providence. The conditions were favorable to the Republicans and they spent a great deal of money. The Republican manu-facturers, who have been in the habit of in-timidating their workmen, could not doit under the new law in Providence. Every friend of ballot reform will hall the result in Rhode Island as most encouraging. "Looking at if from the highest and lowest standpoints it seems to me that the Democrats will be the gainers by the adoption of ballor re-form all over the country. We believe that we have principles and ideas that appeal to the people, and upon a fair and free discussion of the issues the majority will vote one way. But, to take a low view of the situation, if both par-ties go into the business of vote buying the Re-publicans have \$20 to spend where we have \$1. f capital stock.

We should have a bal-lot reform law in every State in the interest of good politics and honest governm Grover on Pennsylvania Politics.

In answer to a further question Mr. Cleveland spoke of the situation in Pennsylvania, the World's exposure of Quay, and the manifest revolt in the Republican ranks against the dictation of Quay:

the dictation of Quay: "I think the Republican bolt in Pennsylva-nia is serious," he said, "and if Mr. Delamater is nominated the Democrats will stand a good chance of carrying the State. It is a singular thing in the history of Pennsylvania politics that the Democrats have been able, from time to time, to carry the State in spite of the tremendous Republican majority. I think you will find that the Democrats of Pennsylvania have at some time during the last 15 years elected each one of the State officers. It shows that there is an independent spirit among the Pennsylvania people if it can be only aroused." Allusion was made to ex-Senator Jones. Allusion was made to ex-Senator Jones, of Florida, who had been residing in De-troit for several years, and Mr. Cleveland said he had no doubt Mr. Jones was mentally unbalanced. Nothing was said by Mr. Cleveland to the effect that he regarded

any part of the interview as private, and I left with the direct understanding in my mind that I could use my discretion in writing out the conversation for publication. I submit that I could have had no possible I submit that I could have had no possible motive for misrepresenting the ex-President. I have had several years' experience as a newspaper writer and interviewer, and this is the first time I believe one of my inter-views have dimented views has been disputed.
