AMERICANS NOT BUYING TINPLATE

ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, May 8 -The Iron Age report of the market is as follows: On the whole, taking the entire range of the market, the iron trade in this section remains very dull, and with very few exceptions prices along the line still exhibit a drooping tendency. There are some indications in some lines that buyers are coming into the market with a little concession below the prices quoted. A good many in the trade who were persistently sangulae until lately now avow that they see nothing to justify the ex-pectation of a notable recovery until toward the close of the summer. The majority of sellers now look forward to a dragging market for

some time to come. American pig-Some sellers report a some-what improved demand in moderate lots, but usually bayers expect to do better than sellers usually bayers expect to do better than sellers what improved demand in model that sellers are willing to name, and occasionally they with-draw from the market. Some of the leading Southern companies have advanced their ask-ing prices, having for the present booked suffi-ciently large orders for the future. For No. 1 Southern £16 75@17 00 is now the ruling price, while No. 2 foundry is quotable at \$16 25@16 50; Northern irons range from H8 00@19 00 ior No. 1, and \$17 00@17 59 for No. 2 foundry. Four large Eastern malleable iron works are in the market for about 17,000 tons of charcoal pig, on which sellers quote on the basis of \$20 50 at Buffalo for Lake Superior, for delivery during the season of navigation.

the season of navigation. Steel Rails-Rumors of low prices named are the season of navigation. Steel Rails-Rumors of low prices named are very numerous, reports from good sources stating that \$32 at Eastern mills has been slight-ly shaded in recent transactions. The business is hight, however, and \$32 506(33 00 is freely gnoted, the latter for small lots. At tidewater \$35 has been named, which would be \$32 006 22 25 according to location of mill. Pittsburg mills give sules aggregating about 10,000 tons, and quote from \$326(34. A good deal depends upon the time of delivery, some of the mills East and West being well booked up to July, while others are ready to make deliveries earlier. The Chicago mills are re-parted to have booked very heavily during the past few weeks, and are said to be well sup-

Thus a con-tract for 800 miles of rund was let recently be-tween Sioux City and Ogden, and the Manitoba is contemplating extensions. In the South one large order is expected to appear in the market at an early date. The Canadian roads are re-ported to have placed about 30,000 tons in En-gland, the American milislosing the business. SPRCIAL TELEGRAN TO THE DISPATCH.] SCOTTDALE, May &-No perceptible improve-ment is noted in trade since last report, and it remains in the same old rut. The same general features also characterize it. One or two of the large companies report a further falling off in orders, but notwithstanding there is an air of confidence that indicates that trade will soon take a spurt, though the rather rosy outlook is now threatened by a strike at the Frick works. now threatened by a strike at the Frick works. The car supply was as good last week as usual, while production and shipments were materially reduced, yet it was a fair week's trade. Rainey's works made six days as did the Cambria Iron Company and the Percy Mining Company. The Stewart works would have made six days, but cars did not reach them in time one day. Shipments for last week were 90 cars less than the week before, when the works operated four and five days.

ISPECIAL TELEGRAN TO THE DISPATCH. Pittsburg M. and S. Valleys... NEW YORK, May 8.-The Iron Age to-day publishes the following special cable report of the London metal market: Pig iron warrants have been more active, and while prices are yet irregular, the market shows better form under the influence of continued withdrawals from store and damping of furnaces, owing to comparatively high cost of production. These circum-tances were the principal cause of an advance in prices that took place during the week. Outside speculators have been buying more extensively in a quiet way, and the belief obtains that anything below 16 for Scotch warrants is a safe purchase. The "bear" party has not retired, but show some uncasi-ness, and have made some attempt to cover their over syles, meanwhile manipulating to prevent any considerable advance. South warrants advanced to 46s 3d, and Cleveland to warrants advanced to 46s 3d, and Cleveland to 46s, but reacted to 45s 2d and 44s 6d at the close 1 uesday, with hematites at 54s 6d. To-day there were sales at 4s 5d for Scotch, 48s 6d for Cleveland and 55s 6d for hematites. The Park-side Mining Company, Camberland, have closed their iron ore mines, and will remain idle until labor is cheaper. Receipts as bulletined, 62 cars, of which 55 were received by the Pittsburg, FL Wayne and Chicago, as follows: 16 cars of corn, 16 of eats, 1 of wheat, 9 of hay, 9 of flour, 1 of mait, 2 of bran, 1 of middlings. By Pittsburg, Cinciunati and St. Louis, 3 cars of oats, 1 of corn. By Baltimore and Ohio, 1 car of oats. By Pittsburg and Western, 2 cars of oats. Ear corn is the strong factor of cereal markets. The sale to-day at 47c was a squeeze, as the same grade of shelled corn was slow at 38c. The truth is markets are very bare of shelled corn and holders are making the most of their opportunity. Wheat is still moving upward, and the general opinion of dealers is that the dollar line will soon be reached. Flour is steady at quotations. Millfeed is firm. Choice tumothy hay is in better demand at improved prices.
