It is an open question whether it was the work of an enemy who wished to injure, or murder the Inspector, or whether it was a bit of "skylarking." The Inspector is of the latter opinion, but other police officials think otherwise, and point to the fact that a heavy torpedo was exploded by a street car on which he was riding a short time ago.

THE PUBLIC During the past two years have read the many testimonials from patients who have been cured by the physicians of the Catarrh and Dyspepsia Institute at No. 323 Penn avenue. Please remember that these patients were not those who had some simple catarrh of the head-which, with a few local treatments and 'IT is true economy to buy the best. For snuff medicines at the hands of the doctor seem to be cured-but were patients suffering from catarro in its most aggravated, chronic form, and which, in some cases, had developed into consumption. Notwithstanding the fact that numerous traveling doctors and so-called specialists have located in Pittsburg, the patronage of this medical institution has steadily increased. The testimonials published, and which always contain the name as signed by the patient, together with the crowds of people who daily call on these specialists, prove their success in the treatment of catarrh. Also lease remember that this is the only institut in Pittsburg where only catarrh, dysnepsia and liseases of women are received for treatment preferring to treat these diseases successfully

Mr. Fred Hahn, Another well-known resident of Sharpsburg has been a victim of catarrh and dyspepsia His stomach gave him an endless amount of trouble. He had belching of gas from his stomach after eating, sour taste, and often felt like vomiting his food. His appetite was poor, and as his liver was much enlarged it gave him great pain. In fact, he would often be taken with such sharp cramps and pain across his stomach and bowels it seemed as if he could not live. He had palpitation of the heart, dizziness, weakness and pain across the small of his back, and a numb, lifeless feeling in his limbs. He could get but little sleep, and as every change of weather gave him a cold, he took on a lingering cough. His breath became smort and he feit pain and soreness in his lungs and under his shoulder blades. Night sweats weakened him very fast, and he gradually grew worse until he lost 30 pounds of flesh. Having a wife and two small children whom he dearly loved, depending on him for a living, and having spent all his money in doctoring to no avail, not being able to work, he became discouraged and disheartened, and often became so melancholy that he would feel tempted to jump into the river and thus end his suffering. One day he noticed in the paper an account of a patient who had been cured by the catarrh specialists at 323 Penn arenue of conditions that seemed similar to his own. He resolved to call on these specialists. He did so, and was told he could yet be cured. Although he had but little faith, he resolved to try once more, and after taking a course of treatment became cured. He says: "The above history of my disease and cure is true in every respect. I had received treatment from 20 physicians, yet gradually grew worse, and for one year before beginning treatment with these physicians I was scarcely able to do any work. I have now worked hard for the past two months, feel well and strong, and words do not express the joy I feel that my life has been spared and health restored. I hereby sign my name. FRED HAHN."

Have you awakened from a disturbed sleep with all the horrible sensations of an assassin clutching your throat and pressing the life-breath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the head with pains and strange noises. How difficult it is to rid the nasal passages, throat and lungs of this poisonous mucus all can testify who are afflicted with catarrh. How difficult to protect the system against its further progress towards the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and cure.
