READING'S NEW MOVE

It Makes an Important Connection Which Will Enable it to

BID FOR PITTSBURG BUSINESS.

Dramatic Suicide of an Unfaithful Hus band at Clintonville.

ALL THE NEWS FROM NEARBY TOWNS

SPECIAL TELEGRAN TO THE DISPATOR. READING, May 9 .- The Reading Railroad Company to-day awarded the contract for the large bridge which will be constructed by the company over the Susquehanna at Harrisburg in order to secure a western outlet. The bridge will have 23 spans beside approaches, and will be 4,500 feet long. Coirode & Taylor, of Pottstown, have the contract to construct the bridge, but the Reading Rolling Mill Company, of this city, in which the same firm is largely interested, will do a large part of the work. An extended elevated structure will connect the Lebanon Valley Railroad at Harrisburg with the bridge, and the contract for this was awarded to the Phoenix Iron Company, of Phonixville. The cost of the entire work is over \$100,000. The bridge is to be in

place by the end of this year.

The following is learned here from a high official source: When the Harrisburg Terminal is finished the Reading Railroad will have secured a through connection via the Western Maryland Railroad to Cherry Run, a point on the Baltimore and Ohio about 64 miles east of Camberland.

A WESTERN OUTLET. This is the most important movement the Reading has made for many years. It has been the virtual owner of the Harrisburg and Poto-

mac road, which runs from a point eight miles south of Harrisburg to Shippensburg, a distance of 40 miles from Harrisburg, where it connects with the Western Maryland. The construction of the Harrisburg Terminal, a link of shout nine miles, not only enables the Reading to utilize its Harrisburg and Potomac road, but through its connections would reach the South and West. It is this link of road that has caused

and West. It is this link of road that has caused the strained relations between the Pennsylvania and the Reading roads. By this new line the Reading will have its own connections to the Western Pennsylvania cooke fields and paves the way for the new South Pennsylvania connection with Pittsburg.

A dispatch from Chambersburg says that Chief Engineer Channey Ives, of the Comberland Valley Railroad, with a large engineering corps in charge of Colonel W. W. Stewart, left this morning for Fannettsburg, in Path Valley. They will to morrow begin the survey of a line from Fannettsburg across the mountains to Newville, on the Comberland Valley road, somewhat further north than the incompleted tunnels of the South Penn road. MAY BE A BLUFF.

This new move is supposed to be in the interest of the Pennsylvania Railroad, though the work is being done by the Cumberland Valley engineering corps. It is said that the Penngylvania Company is becoming alarmed at the rapid progress made by the Reading in build-ing its new line through the Cumberland Ing its new line through the Cumberland Valley to tap the main line of the Haltimore and Ohio Railroad at Cherry Run, and it has had the engineering force of the Cumberland Valley road at work for several months making a survey from Fort London, on the Cumberland Valley road to Mount Dallas. The latter place is in Bedford county, on the Bedford division of the Pennsylvania road, which taps the Broadtop coal region. The line which the party will begin to survey to-morrow would be the shortest to that region.

region.
It is claimed by those in opposition to the Pennsylvania road that the movement is simply a bluff to discourage the alliance formed by the Reading, Western Maryland and Baltimore and Ohio roads to make a new trunk line to the West.

GROVE CITY'S BIG BLAZE.

Incendiaries Start a Fire Which Burns \$40,000 Worth of Property.

GROVE CITY, PA., May 9,-This place was visited to-day by the most disastrens config-gration ever known in this section. The fire started about 2 o'clock this morning and in a few hours a score of buildings had been consumed together with the contents. The flames were discovered in the barber shop of W. W. t by Mrs. Horner, who lived next door, She quickly gave the alarm, but before assist-ance arrived the building was all ablaze and had spread to the adjoining property. The citizens worked heroically, but the flames were beyond their control and quickly crept forn building to building until the space between the Grova City Bank building and the Pitts-burg, Slienango and Lake Erie Railroad, was laid waste and was a mass of smoldering ruins.

The principal losses were as follows: M. Rosenfield, \$6,000: W. J. Harshaw, \$4,000; H. W. Koonce, \$6,000; Mrs. D. G. Courtney, Mrs. M. E. Walker, Mrs. R. G. Black and A. G. Stein, \$2,000 each; David Kerr, W. K. Craig, W. Bligh, \$1,500 each, The other losses range from \$250 to \$1,000. The insurance will cover about half the loss. It is not known how the fire originated, but it is supposed to have been the work of incendaries.

Huntingdon Car Works Employes Getting Rendy to Quit Work.

PEPECIAL TELEGRAM TO THE DISPATCH.1 HUNTINGDON, May 2.—There is likely to be trouble at the car works in this place over a reduction ordered by the company, to take effect shortly. The firm has been working on the piece-work plan, and consequently the more expert of the workmen have been making good wages, but the price paid per car has not been more than that of other manufacturers; on the more than that of other manufacturers; on the contrary, it is slightly less.

The expert workmen have been notified that the price to be paid will be at the rate of 25 per cent below that now paid, while the next-able men will suffer a 16 per cent cut. The men threaten to strike if the matter is not satisfactorily adjusted.
