amendments to the Paddock bill as we thought necessary. Upon examination, we found it im-possible to amend the bill, and we summoned a meeting in New York of some of the heaviest interests affected, where a statement of the case was made. The committee was then au-thorized to frame a new bill as a substitute to the Paddock bill, and correspondence with Senator Paddock resulted in a day being set for the presentation of the substitute. The newspapers would be seriously affected by the destroying of the proprietary medicine business, to which the passage of the Paddock bill would be equivalent. The heavy taxation proposed, the creation of a big piece of politi-cal machinery, and the burdens placed upon transportation companies, must result in such a pressure being brought to bear as to render the passage of the bill impossible. Several Senators have avowed their hostility to the Paddock bill and the prospects are en-couraging to those who are opposing the meas-ure. THE DIAMOND STREET WIDENING

At the meeting of Select Councils yesterday, Mr. Andrew Carnegie's letter to Chairman Lambie, of the Library Committee, was read. It was immediately referred back to the committee with instructions to report at the next meeting. The committee will amend the original ordinance to suit Mr. Carnegie's views, and the amendment will

probably go through without opposition. The following is a copy of the letter: PITTSBURG, May 6, 1890.

Mr. John S. Lamble, Chairman ;

DEAR SIR-Three citizen members of the Library Commission having resigned, nine only remain. As the city has nine official representatives upon the commission, equality of representation will be secured by leaving un-filled the places of the three resigning members, and this will be done. As the successors of the official representa-

tives of the city are created without participation upon the part of the citizen members, equality will be obtained in this matter also by providing that the citizen members should themselves elect their successors.

Hoping that Councils will approve this view and pass an amended ordinance in accordance therewith; and thanking yourself and collearnes for the courtesy shown me during today's conference, 1 am always Very sincerely yours,

An amendment to the charter ordinance changing the First ward from the First to the Second Police Magistrate's district was passed. Ordinances creating the position of fire director at \$3,000 per year and court officer at \$1,500 per year were

passed. When the report of the Board of Viewers

When the report of the Board of Viewers on the widening of Diamond street was taken up for approval Mr. Lambie called attention to several remonstrances, which he asked to have read. The first remonstrance was signed by United States District Court Judge M. W. Acheson and the Citizens' Na-tional Bank, and gave the following reasons why Councils should set aside the report:

First, that the ordinance was not in accord

with the enabling act which authorizes Councils to open, widen or extend any street, but not a part thereof, as in this case. Second, that the properties of the subscribers front

votes to pass, and Mr. O'Donnell raised the point that as this referred to money a two-thirds vote was required. The Chair ruled that a majority vote only was required and read the rule sustaining his position. The ordinance changing the First ward from the First to the Second police district, passed in Select Council, was taken up and passed. The ordinance grant-ing additional privileges to the St. Clair Street. Bridge Company was passed. The scion of the Select branch on a number of unimportant res-olutions was concurred in, and Council ad-journed. BOOMING THE MAJOR Preparations Made for a Montooth Meeting of Business Men. Invita-tions to participate will be sent to the various Republican clubs of the county. The only fear on the part of the promoters of the affair is that the Select Council Chamber will be too small to accommodate those who desire to at-tend.

One thing which will be taken up at the meet-ing of Saturday evening will be the selection of a working delegation to go to the Harrisburg convention in the interest of Major Montooth, to represent the sentiment of Allegheny county. This delegation will be a strong one. It was announced last evening that it was reasonably certain that Major Montooth's name would be presented to the State Convention, on June 25, by that eloquent orator, Congressman John H. Daizell. A letter from him may be read at the meeting on Saturday evening. At that meeting there will be brief speeches from good talkers representing the classes of people good talkers representing the classes of people who are interested in the Gubernatorial can-didacy of Major Montooth. There are about 1,100 salesmen in the city, but less than half of them are members of the assem-bly. The members have been able, however, to carry things their own way. Some time ago, they demanded that the agy's work begin at 7:30 in the morning instead of 7 o'clock, and their demands were granted. In addition to the demands mentioned the men will ask for half of all legal holidays in the year. It is expected that to morrow even-ing's meeting will be largely attended. In 1878 Mr. Stevenson went abroad and studied modern languages at Leipzig and Paris. In 1870 he returned to America and was elected to the Chair of Latin and Greek in the Pittsburg High School. After four years of arduous work he resigned to study law and in 1885, was admitted to the Allegheny county bar. During the past year he visited the British Museum, the National Library in Paris, the Paris Exposition, the National Gallery of Art in Madrid, and various other points of kindred interest, including the fract centers of European art. In the objections it is stated that the city of Pittsburg does not possess among its expressed corporate powers the right of emi-nent domain. If it does either expressly or im-pliedly its Councils have no right to exercise it, without first declaring the purpose of its ex-ercise to be for the benefit of the public, and that the city is unable to agree with the owner as to the compensation to be paid therefor. Mr. Lambie moved the matter be referred to the City Attorney for an opinion as to the constitutionality of the act of 1889, as applied to Diamond street widening. Mr. O'Donnell said that Stanton avenue was payed under the Penn avenue act at a cost of 515 per foot front. Bonds to the amount of \$355,000 were floated and are yet unpaid, nor is the interest paid. The property owners took advantage of the Supreme Court decision and refused to pay, except the Schenley estate and the Allegheny Cemetery. A peculiar death occurred at the old Centen-nial Hotel building, No. 407 Ferry street, last night. A young woman named Mary Bergy, alias Mollie Smith, met a gentleman friend on the street, and he accompanied her home to the hotel. The gentleman registered at the hotel as John Warmsley. He went upstairs, and as the night was warm, threw himself on the bed. He had no sooner done so than he gare a gasp, and in a few minutes he was dead. His female friend became frightened, and notified Mrs. Kennedy, the proprietress of the hotel. Dr T. P. Mullin, of Liberty street, was sent for. When the physician arrived the man was dead, and it is supposed apoplexy was the cause. The Coroner was notified, and the girl, with her white poodle, was placed under arrest. The man was about 42 years of age and heavily built.
