GENERAL GROCERIES ARE UNCHANGED

OFFICE OF PITTSBURG DISPATCH, MONDAY, May 19, 1890.

Monday's market is always quiet in this de-partment, and to-day is no exception to the

to continuous rains. Heavy supplies are on the way from Maryland, and markets will be well furnished for the balance of the week. Beans and peas are poor stock, the drift of prices being downward. The stock of potatoes is fairly well cleaned up, and markets are steady for New potatoes from the South are coming in

freely. Eggs are scarce and firm at our quotations One dealer said this morning: I expected not less than 100 cases to-day, and received 15 in all. Fine grades of creamery butter are active at the late decline. Supply of new choice cheese hardly keeps pace with demand.

Choice oranges are scarce and very firm.
Lemons are dull, and only hot weather will bring the hoped-for improvement.

Bananas are good stock at a range of \$1 50 to

A SENSATIONAL WILL CONTEST.

Charges That a Document Disposing of \$150,000 Was Forged.

CHICAGO, May 19.—A charge that the will of the late Mrs. Louisa A. Jerome, disposing of \$150,000 is a forged and fictitious one, was guardedly made in the Probate Court. Her Case promises to become very sensational before it is concluded. Mrs. Jerome was the widow of the late Milton Jerome, who died two years ago. He left a \$800,000 estate to his widow. Neither had any children, Mrs. Jerome died December 27. Iast. About three weeks ago, Lawyer Lawyer in the late of the standard Shoe Company, of Boston. The will ampeared to have been made by first Annual Annual Control of the Standard Shoe Company, of Boston. The will ampeared to have been made by Mrs. Jerome December 17, 1889, and purporting to be Mrs. Jerome's will, to the Probate Court. He said it was delivered to this will ampeared to have been made by Mrs. Jerome December 17, 1889, and purporting to be Mrs. Jerome's will, to the Stone of the Standard Shoe Company, of Boston. The will ampeared to have been made by Mrs. Jerome December 17, 1889, and purporting John Henry and William Edw Cosgrove, "children of my esteemed friend, John C. Cosgrove," of Chicago, each \$15,-000, and a number of other bequests to local charitable institutions.

The relatives are contesting the will, which is signed by Mr. Cosgrove and J. R. McElligott, as witnesses. The attorney for the contestants said that they repudiated the will as forged and fraudulent.

among the Western roads, but the officials talk more hopefully of an early settlement of existing troubles. The condition of crops has improved considerably during the past week under more favorable weather, and railroad earnings now coming to hand for the second week of May show material gains over last year. The advocates of a reaction in prices for stocks this morning used the argument of higher prices for money, but the supply of loanable funds was equal to requirements.

Permanently Cured in Four Weeks. Mr. McClelland Myers, of Cornopolis, Pa., had a pain across the small of his back, which

at times was dull, and at other times it would be very sharp and cutting, and when he would stoop his back would pain him terribly. He felt much tenderness over his kidneys, and often felt pain extending along his spine up into his head. His urine was DR. SHAFER,

high colored, the de sire to void it frequent and attended with pain. He slept poorly, had headache all the time, and as the diseased condition of his kidneys, from which diseased condition of his kidneys, from which he suffered, grew worse, his appetite became poor, bowels costive, and he had sour cructations of gas from his stomach after eating. He had a constant tired, wornout feeling. It was while in this cendition that he consulted Dr. Shafer, of the Polypathic Institute. Mr. Myers says: "I had been sick for four months and constantly grew worse. I was compelled to give up my business. My family physician finally advised me to consult Dr. Shafer, the kidney specialist at 420 Penn avenue. I consulted the dector, who made at thorough analysis of my urine, and being convinced that he understood my case, I began treatment. I noticed an improvement from the beginning, and in four weeks every symptom had disappeared. I have been following my regular business for some time, and no trace of my disease has returned. I never felt better than I now do, and I most cheerfully recommend Dr. Shafer to all suffering from symptoms as I was.

All forms of kidney and arinary diseases, chronic diseases and surgery successfully treated.

SHEEP AND SWINE WEAK AND LOWER

OFFICE OF PITTSBURG DISPATCH, ? MONDAY, May 19, 1890. At Herr's Island the supply of cattle and quality were a fair average this week. Demand, however, was much better than last Monday, and offerings moved freely at better prices. The cost at Chicago was greater

than a week ago, and the advance here about covered the increase and no more. Good to choice heavy Chicago beeves weighing 1,500 to 1,600 ths, sold at \$5 25@ 5 40; medium weights, 1,350 to 1,450 lbs. \$4 75@5 00; do,, 1,200 to 1,400 lbs, \$4 50@ 4 70; nice smooth butchers' selections and prime light weights, 900 to 1,100 lbs, \$4 25 @4 60; common to fair, thin and rough stock, \$3 25@4 00: fresh cows were held at \$25 00@ 45 00 per bead, with sales reported, \$27 00@ 85 00; calves ranged from 33€ to 43€c per B.

I. Rothschild, an old-time Herr's Island drover, said to-day: "I sold out my cattle at better prices than I have done for years, and am sorry for two things—first, that I did not order more: and, second, that I sold out too early in the day. I sold 5 head of cattle, weighing about I,400 hs, to Gallagher Brothers, of Allegheny, for \$5.40, which was far the best price I have received for a year or two back. After I had sold all but 8 head there came a strong demand from East Liberty, and I sold these at 20c per cwt, above what I would have taken in the morning early." morning early.

CHICAGO—There was a fair business, and the wheat market was weaker to-day, with prices averaging lower. The opening was about ic lower for July and the deformed deliveries, but good buying started prices on the up grade, and an advance of 1@1% was established. This advance was followed by a decline again, and an advance of 1@15/c was established. This advance was followed by a decline again, July receding 13/@15/c from top figures, ruled irregular, and closed 3/c lower than Saturday. August closed 3/c lower, and September 3/c higher than Saturday. The weather and crop reports are the principal factors in the market. Corn was quite active the greater part of the session. The feeling prevailing was considerably weaker, and a decline on all futures was recorded. The market opened 3/@3/c lower than Saturday, firmed up slightly, but soon ruled weak, and sold off 3/c cruded steady, and closed 3/c cover than Saturday.

Outs were fairly active and unsettled, and, although showing a steady feeling at the opening, soon became weak and declined 3/c July showed considerable animation within a range of 3/c.

Trading in pork was moderate; prices rallied slightly, but outside figures were not maintained.

A dull and weak feeling prevailed in lard. Prices declined 23/c/c, and the market closed quiet at medium figures.

The short rib market attracted very little attention. Prices ruled 23/c/c lower, and the market closed steady at medium figures.

The leading futures tanged as follows:

River Intelligence for Bontman and the Traveling Public. It was dull down the rivers yesterday, but the duliness was accompanied by rain instead of last week's agreeable sunshine. The river was falling rapidly all day, and it had sunk to eight feet about 5 P. M. It was splendid weather for the thriving rat nurseries along the wharves and under the bridges. As few rivermen as possible being abroad, the rodents had a real good time, and there was quite a big fete held under the Smithfield street bridge.

natural to the community, which would feel lost without it. There are fluctuations, of course, but they are on the right side, in the line of expansion, showing steady gains in the volume of business. Fears have been expressed by some of a reaction. There is no danger of such a turn of affairs. Pittsburg's advantages for manufacturing and distributing are so many, so varied and so important as to keep her constantly crowded with business. Even summer lulis are becoming a rarity, and those who find it necessary to take vacations have to tear themselves away from their desks and work double turn when they get back.

A BOOM IN OIL.

An Active Market With a Jump of Nearly Six Cents. There was quite a flurry in the oil market yesterday, and the excitement at times bore a ghost of a resemblance to that of ye olden

time. There were no lambs to shear, but the professionals did what they could to make things lively.

The market opened strong at 88%, and it soon became apparent that the bullish feeling which had for a week or more been a prominent to the strong at the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bullish feeling which had for a week or more been a prominent to the bull to bu had for a week or more been a prominent factor in the dealings could no longer be suppressed. As soon as the shorts started in to cover the price began to move up, and kept adcover the price began to move up, and kept advancing with a fractional relapse now and then, until it reached 94%, 5% cents better than the opening—at which the market closed, with rosy expectations of another bulge to-day, which will carry it to the dollar line. The range was: Opening and lowest, 88%; highest and closing, 94%.

The upward movement was materially assisted by Oil City, which changed base and was a good buyer. Pittsburg and New York were also bullish. Bradford was the principal seller. Trading was lively, but the quantity of stuff handled was small in the aggregate, not exceeding 400,000 barrels.

The conditions of the market, all of them, seem to favor the bull side. The export trade is active, and production falls to fill the vacuum caused by consumption. It is not at all singular, therefore, that with a steady drain on stocks the price should advance.

Perferred Stronger-Faverable Western Reports. NEW YORK, May 19 .- The stock market to day was loss active, especially after the first half hour, than on any day for a week past, and while there was something of a boom in the early dealings, a slowly sagging market followed, until the last hour, when a rally oc-curred, which, however, left prices as a rule curred, which, however, left prices as a rule fractionally lower than they were on Saturday. The strength in the market shown during the past week seemed to have been left over for to-day at the opening. London figures not only coming higher before the opening, but for eigners sent again liberal orders to buy, which were supplemented by large purchases by commission houses.

The business done in the first half hour was equal to anything seen during the present rise, but the early demand was soon satisfied, and at the higher prices realizations again became very large, and the bears, taking advantage of this, naminered the list in spois and succeeded in bringing about material declines in some stocks. They used the fact that a higher rate for money is now prevalent, but that fact, while true, was balanced by the fact that there was no scarcity of money at ruling rates. There were some specially streng spots in the list,
