OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, May 21, 1890.

The offerings of cattle for local trade on Monday were 60 carloads against 55 loads the previous Monday. With the increased supply there was not enough to meet the needs of our local trade by about ten cars, The quality of offerings was decidedly above the late average. Markets opened up very

The quality of offerings was decidedly above the late average. Markets opened up very active on Monday morning, and all were promptly sold at an early hour ai 10 to 15 better prices than were obtained a week ago. Buyers were on hand in larger force than usual, and a dosen more loads than were offered would have found ready customers at the advance. These advance. These advances. These advances. There has been no surplus of stockers and feeders in Chicago market of late. BETTER FRICES FOR FRISH COWS. BETTER PRICES FOR FRESH COWS.

There was a better quality of fresh cows offered at East Liberty yards this week than for some time past. One of our leading dealers in this line said to-day: "I succeeded in getting a better price for a fine Durham cow to-day than I have been able to get for many weeks past. The price at which I sold was \$32, and for a number of weeks past the outside price for such as I had for sale was \$10 to \$15 below this

figure. The supply of calves was scarcely up to last week, and the range o' prices was \$4 75 to \$4 85 per hundred, with a few small bunches of very choice at \$5. There were about 18 car loads of sheep and lambs offered on Monday, all clipped, and market sharted up alow, with prices a shade lower than the previous Monday. On Tuesday about 15 car loads more were received, and this morning 3 loads, making a total for the

week of about 36 cars. Markets closed a shade stronger to-day than the opening on Monday, and prices of last week are fairly well maintained. There have been no Western sheep offered this week. All were from Ohio and Washington county. Wethers weighing 90 pounds brought Dige, and yearlings ranged from 5%e to 6%e per pound.

A DULL HOG MARKET. The hog market has been very dull all the week. The run was large on Monday, amounting to 35 carloads. The range of prices has been \$4 15 to \$4 30 with vey few, if any, reaching the latter figure. The de-mand from butchers is steadily declining, and packers bere look to Chicago for their sumplies. In general the cattle market shows a de-cided improvement this week over last. To be sure, cost was greater at Chicago, but the advance here more than covered the in-creased cost. SENATOR PALMER IN CHURCH.

Be Tore a Two-Dollar Bill in Two so as to Give His Customary Dollar.

New York Press.i

Senator Palmer always put a single dollar on the plate at church. One Sunday recently he didn't have the dollar; neither did bis secretary.

"Oh, well, I can fix it," he said.

"You wouldn't make change off the plate, would you?" asked the secretary, horrified at the thought.

"Never mind how I will do it," replied the Senator, "you will see it done."

When the plate came around the Senator gravely took out his two-dollar bill, tore it in two pieces in the middle and laid one piece on the plate. After the services were over he walked torward where the steward were counting the collection money and asked the one who had come down his aisle if a mutilated two-dollar bill had been found on the plate.

"Yes, and we don't know what to do with

it," was the man's reply. "Well," said the Senator, "here's the other half, and you can have it for a dollar. That will make your half worth a dollar to you, and a dollar is all I ever give." He got the dollar. eaching.

There was very little disposition among the stock brokers to do business vestorday, and the day was frittered away with scarcely anything accomplished. Sales at the three calls were something over 1,000 shares, but as nearly all were La Noria they didn't count for much. There were some price changes, but they were so small as to possess but little significance. Talk among the brokers indicated confidence

in higher values in sympathy with the general trend of speculation, but the upward move-MINNEAPOLIS-Receipts of wheat for the MINNEAPOLIS-Receipts of wheat for the day were 157 cars; shipments, 22 cars. There was a good demand for No. 1 Northern wheat to-day. No. 1 bard was moving some better, Low grades did not keep up with grade wheat, and were generally slow. Offerings were mod-erate. Elevators were the largest buyers, Local millors and buyers for outside account bought rather sparingly. They want to dispose of what they have before buying more. This being generally known, and the opinion being entertained that these people will be forced to realize, buyers are holding of and of the way, the market will be in shape for a new deal, with more activity and better prices.

Good Producer Near Claveville-Wells Completed and Drilling.

PETECIAL TELEGRAM TO THE DISPATON. CLAYSVILLE, May 21,-The Claysville Oil Company's No. 7 on the Gourley lease tapped the sand on Tuesday and made several good flows. The first flow it put ten inches in the tank. It is good for 150 barrels a day. This makes the sixth producing well on the Gour-ley farm, and they all together make a daily production of over 800 barrels.

The Washington Oil Company's William Noble well will be due in about five days. The Laird wildcat southwest of town on Tues

day lost their tools, and a fishing job is now in progress. They were about 1,500 feet doep. The Lindley No. 1 will be due in the sand Friday. The Brownles well, north of town, which was

They Make a Successful Raid on Railroad Shares-Losses All Round and a Decidedly Wenk Close-Long Brack Damped. NEW YORK, May 2L-The stock market was again very active and feverish to-day

with a general downward tendency, though it was not until the last few minutes of business when a determined raid was made upon the few vulnerable points in the list that any material impression was made upon values. There were many influences which had a bearing upon the course of prices, and while the gen-eral list suffered from the realizations of long stock, the deals in Richmond and West Point, Reveland, Cincinnati, Chicago and St. Louis and Atchison made those properties prominent in the dealings, and the decision which throws the sugar case out of court was a factor in the early rise in the Sugar Rofineries.

The very threatening letter of President Manvel, of the Atchison, to Mr. Gould, pub-CALL. THIED Manyel, of the Atchison, to Mr. Gould, pub-lished this morning, however, had the effect of frightening many weak holders who fear that the letter will be the signal for a more ex-tended struggle than those now in course. The reports of further cuts in rates in the West also had some effect in causing realizations. The money market started out with S per cent rates, but finally closed at 4, and there was no scarcity of money during the day at ruling rates. 98% 110 179% 181

rates. The plan of the Richmond and West Point makes the rights on the stock worth about 1% per cent, and the deal caused lively trading in the stock, the dealings running up to over 100. 000 shares, which has not been done in a long 000 shares, which has not been done in a long 503 time in any stock. London was again a seller this morning, and with the early figures from London generally lower, there was a weak and feverish opening to the market which after that time changed in tone, but the general course of prices was downward, and the best prices were 2656 68 36 generally made at the opening except in the few stocks which were influenced by particular means, and the lowest were almost invariably

Those of the close. The advances in Sugar and Richmond and West Point during the early dealings were marked, but Atchison was weak from the outmarked, but Atchinon was weak from the out-set, notwithstanding the fact that the pending consumation of its acquisition of the St. Louis and San Francisco and the final aban-donment of the votug trust were regarded in a very favorable light. The threatened war with the Missouri Pacific overshadowed all favorable factors, and the stock dragged down the Grangers, although Northwestern was a noted exception. The progress made in the downward direction was small, howover, until the last few minutes of business, when a most vigorous raid ratiled prices off rapidit, especial-ir in Sugar and some other prominent stocks. : "The market closed very active and decidedly

Dr. S. Weir Mitchell, of Philadelphia, the celebrated specialist on nervous dis-eases, and to consult whom patients come from all over the world, appears to be of the opinion, after careful examination, that a rattlesnake's bite is incurable. He is borne out in this by a large number of Southern people, who see more rattlesnakes than those living in the North.
It might here be remarked that there are two kinds of rattlesnakes, one of which is study of rattlesnakes, and had taken occa-sion to inquire into cases where people were bitten, told the writer during a discussion of the matter, that the bits of the large rat-tlesnake had never been recovered from that he knew of, inside the State of Georgia, at least, and that no amount of whisky would counteract it.
The bits of the small rattler, however, he bits of the small rattler.

"By the way," said he, nudging his neighbor in the ribs, "can you repeat the names of the 12 Apostles?" names of the 12 Apostles?" "Certainly," came the digafied response. "Try it, please," pleaded the first speaker. He did try, but his memory failed him. This little byplay attracted the attention of all the distinguished gentlemen at the table.

The upshot was that not a man present was able to give the names of the 12 Apostles.

counteract it. The bite of the small rattler, however, he thought could be prevented from being fatal by the use of alcohol, if taken soon enough. Alcohol, if taken in large quantities passes directly into the blood, and being a poison counteracts the snake's venom unless the latter be too powerful, as that of the large rattler as said to be.
