# A CITY'S GODCHILD.

Cruiser No. 6, Now Being Constructed, to be Named

THE CITY OF PITTSBURG.

It Will be a Credit to Us and a Terror to Our Country's Foes.

COUNCILS TO ACT ON IT MONDAY

Ever since the act of Congress was approves authorizing the construction of new cruisers and other war vessels for the navy, there has been a movement on foot among the prominent men of the city to have one of them named the City of Pittsburg. Under the ruling of the Navy Department the vessels of the first class are to be named after States of the Union, and those of the second class after cities. Chicago, Boston, Baltimore and Atlanta have been thus honored and it now remains for the name of Pittsburg to float from the streamer of one of the ships of the navy now being built. That such will be the case those baving the matter in hand feel very confident.

Of nine of the vessels authorized by Congress, eight have been contracted for and are now building; the ninth, the largest of Lodge of the I. O. O. F. was occupied by

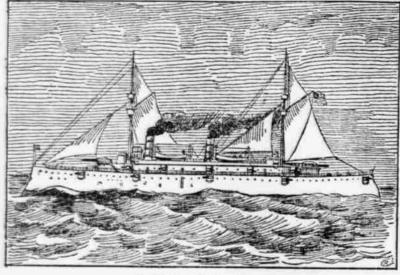

the main battery and for efficient action ngainst boat attacks. The torpedo outfit consists of six launching tubes for Howell

having a Government boat named after ber and that was when the Hercules was taken South during the war and did efficient work at the siege of Nashville. She was named "Pittsburg." In fact "Pittsburg" was the terror of the Mississippi at that time and sunk a number of the largest boats that came against her. She was not the only boat that did good work during the war and the citizens think that the reputations they then gained show that the city is worthy to be honored by a namesake among the pets of the new navy.

THE CITY OF PITTSBURG.

Bids have been asked for it and will be opened at the Navy Department June 10. THE CRUISER SELECTED.

Until named all the ships are designated by figures, and this last one is No. 6, and is the one which Secretary Tracy has been asked to name the City of Pittsburg.

Last Saturday the following letter was sent to Secretary Tracy, of the Navy Department, by Alderman D. J. McGarey, of the Twenty-sixth ward, acting upon the request and solicitation of a number of the citizens of both sides of the river, who wished to see the ball set rolling and something definite done toward securing the coveted honor:

To Hon. Benjamin F. Tracy, Secretary of Navy, Washington, D. C.:

ber. A movement was started some time ago to change this feature and allow each longe an equal number of representatives or wotes irrespective of numerical strength. The question was made the order of special business. The doors were closed, and by order of the grant strides our city has made secially, politically and financially. The get in, for fear of outside lobbying. city of Pittsburg is the representative city of the United States as regards iron, glass, coal and steel industries. She is the center of and steel industries. She is the center of the natural gas and petroleum districts of

America.

By honoring our city as prayed for, crusier
No. 6 will be named after all that American
energy, progress and push can accomplish, viz.

The City of Pittsburg. Respectfully.
D. J. McGarry.

Alderman Twenty-sixth ward, Pittsburg. AN OFFICIAL ANSWER.

Last Tuesday Alderman McGarey re-ecived a reply from the department. The Past Grand Sire James B. Nicholson. following is a copy:

WASHINGTON, May 19, 1890. To Hon. D. J. McGarey, Pittsburg, Pa.: Siz-I have to acknowledge the receipt of your letter of the 17th instant, asking that cruiser No. 6 now being constructed for the Government be named the City of Pittsburg. The department thanks you for your suggestion, and will give due consideration to your

The department thanks to you tion, and will give due consideration to you wishes. Very respectfully.

Acting Secretary of the Navy. Following up the preliminary request and answer given, a joint resolution will be presented in Councils Monday directing that a petition be drawn up and sent to Secretary Tracy, embodying that already given The machinery of the Chamber of Con will also work for the end desired. Other forces will also be brought to bear on the subject, and it is thought to be a pretty sure

ing that Pittsburg will be able to christe the new pride of the navy. THIS IS A CLINCHER,

A very strong argument advanced is the fact that Pittsburg furnishes most of the steel armor for the navy and also a good deal of the other parts made of steel and iron. Pittsburg could alone fit out a snip complete from her own resources. And that this fact should be acknowledged by the

honor asked is thought no more than fair. Cruiser No. 6 will be a beauty as well as one of the most efficient cruisers in the navy. It will be 15 feet longer than the Chicago or Baltimore. It was designed in the Navy Department by Chief Constructor Wilson and his assistant, Constructor Philip Hichborn, United States Navy. The ma chinery was planned by Chief Engineer Melville. The aim of the designers has been speed, coal endurance, concentration and rapidily of fire, a defense against high explosives and the maximum of safety against accidents by means of a large num of water-tight compartments.

dition to the "cavalry of the seas." No. 6 is termed a protected cruiser, be-cause a rounded steel deck extends the whole length of the ship, ranging in thickness from 4% inches on the slopes over the machinery space to 2 inches on the flat deck torward and aft, and intended to deflect an

#### A MONARCH OF THE SEA.

It will be 330 feet in length, 53 feet in breadth, 5,500 tons displacement and have 1,300 horse-power. It will have a speed of 20 knots an hour, which can be increased to 24 knots when pushed. With a full coal supply (1,300 tons), at 2014 knots speed and under forced draught, this vessel would travel 2,191.86 knots in nearly four and onehalf days. At a 10-knot speed under nat-ural draft and full coal supply, it would steam nearly 13,000 knots with an endur ance of 55 days.

The heavier guns are mounted on the center line in barbette turrets, four inches thick, the guns revolving in the tur-rets, instead of the turrets turning, as in vessels like the monitors. The turrets will be placed, one forward and one at the after d of the superstructure, and train from directly ahead or astern to 50 degrees on each side abait or before the beam. The niche knot guns are protected by shields

The fire of all the forward and aft guns respectively can be concentrated upon an object the length of the vessel directly ahead or astern. The secondary battery consists of eight six-pounders, six three-pounders and 16 machine guns, mounted to be clear of

A SMALL ARMY ABOARD.

When in commission she will carry 441 men, 25 officers. She will be fitted up as a flagship, with Admiral's cabin, etc. Electric lights, improved drainage and ventilat-ing apparatus and all the conveniences that can be desired will be added. Secretary Tracy has made the plans a special study and thinks them complete. The authority

and thinks them complete. The authority for her construction was given in an act of Congress September 7, 1888.

When the Chicago was named the city placed a magnificent library aboard and fitted up the officers' cabins in elegant style. The other cities have done the same and Pittsburg, it is assured, will not be left behind should the name be chosen.

The site has not been selected, but it will be located within five miles of Pittsburg or Allegheny.

## SEVERED THE JUGULAR.

Mr. Swindell Attempts Suicide Under the Influence of Melancholin-His Death is but a Matter of a Few Hours.

Yesterday morning Mr. Henry Swindell, a wealthy and well-known Alleghenian, attempted to commit suicide by cutting his throat with a razor.

Mr. Swindell has been under the influence of melancholia for some weeks, and it has been found necessary to keep him under the closest surveillance. About 9 A. M. yesterday Mr. Swindell's daughter left his room for a few moments, and on her return found the door locked. She caused the door to be burst open, and on entering the room found her unfortunate father lying in an easy chair with his throat cut almost from ear to ear. Dr. Hazzard, of Montgomery avenue, was summoned in hot haste. The physician saw that nothing but a miracle could save Mr. Swindell's life, but he did all in his power to prolong vitality. A silver tube was inserted into the windpipe and the hideous wound sewn up. An hour after this operation Mr. Swindell was breathing with comparative ease, and had recovered his consciousness. He tried to speak but was forbidden to do so by Dr. Hazzard. Up to midnight he was still alive but the physician thinks the case a hopeless one. Yet the

Mr. Swindell's wife and mother died on Monday, and only a little while ago he lost a grown-up son. These afflictions, no doubt, brought on his melancholia. He is the head of the Swindell Construction Company, which has its offices in the Lewis block and is well known all over the United States. Messre. James and William Swindell, of Allegheny, are brothers of the unfortunate gentleman. The latter represents the Third ward of Allegheny in Common Council. Mr. Swindell's son, Henry Swin-dell, Jr., manages the Swindell wallpaper store, on Federal street, and the family has long been a foremost one in Allegheny.

-Tube Work Officials Make a Significant Announcement.

THEIR PLANS UPSET

PROSPECTS FOR A LONG STRIKE.

Glass Manufacturers to Discuss the Early Shut-Down To-Day.

The employes of the National Tube Works Company, at McKeesport, who are on a strike, were thrown into a state of excitement yesterday by the receipt of a letter from General Manager Converse, containing a proposition the strikers did not expect. The letter upset all the strikers' plans, and put the Conference Committee into a bewildering condition. It was expected that the strike would be settled satisfactorily yesterday, but the new move of General Manager Converse makes many of the men believe there will be a long and protracted struggle between the firm and their employes.

A general meeting of the strikers was held yesterday in White's Opera House and the finishing touches put to the new scale to be presented to the firm. A numher of slight alterations were made in the scale and the Conference Committee waited upon General Manager Converse. The latter received them cordially, but when the scale was shown him, he objected to several of the demands. Among the demands in the new scale were clauses affecting the grinders and guagers, and the threaders.

ADVANCED THREE WEERS AGO. The wages of the former were advanced three weeks ago and the general manager claims nearly all the threaders are now at work. In view of this he does not believe that the threaders want an advance, or they would all be out with the strikers. The axle department was also objected to.

When the committee waited upon Gen-eral Manager Converse the members stated that they had been instructed to say that the scale was their ultimatum, and there could be no more changes made. It was also decided at the meeting not to have any more general meetings until after the demands were granted. General Manager Converse had expected many more changes made in the scale, and as the latter was entirely different from what he had entirely different from what he had counted upon, he filed the paper and decided to make a new proposition. He informed the committee that it would hear from him, and after the members had retired Mr. Converse dictated the following letter. It was sent to the Conference Committee, and the latter called another general meeting, to be held in the Opera House today. The proposition will then be placed before the men for action. The following is

MANAGER CONVERSE'S LETTER. To James Rohan, Thomas McGinley and Other Employes of the National Tube Works Com-

gany:

GENTLEMEN—On May 5 you demanded of us on behalf of all employes in pipe departments a horizontal advance (share and share alike) of 10 per contum. On May 10 we met your committee, and, after fully explaining the company's position, filed our written answer refusing the demand as made. At that interview we notified you that your demand included men and departments of men who were perfectly satisfied with their wages and desired to be left undisturbed. For more than one week you maintained your original position. The attendance at your meetings was not confined to our employes, and certain of our men were not admitted.

On Monday, May 19, your committee ac-

admitted.
On Monday, May 19, your committee acknowledged the error of the demand as made, but claimed lack of authority and the necessity of action by the meeting before certain unjust features of the demand could be climinated. On Tuesday, May 20, the committee (this time by due authority) filed a written acknowledgment (by the withdrawal of a large number of departments) of the unreasonable and unwarranted nature of the demand. A and unwarranted nature of the demand. A new and much modified demand was then made upon us, and again we told the commit-tee that men and departments of men were intee that men and departments of men were included who had no grievance and wanted to be let alone. On May 21 (to-day) the same scene was acted over again, and once more the same answer, for the same reason, is hereby given. You have now come face to face with the condition of affairs fully and carefully explained in our original written answer on the 10th instant. We have not altered or receded from the position then taken. We stood then, and stand to-day, ready to rectify even the slightest inequality, or difference, between our rates and those paid at other fails.

TOO MUCH SENTIMENT. Your present demand is largely one of senti ment and reward for those who have suffered idleness to accommodate a few. We do not believe it has been your intention to demand from us what was unreasonable and impossible. You have done so, but through error, not inent. Our works must either be run on a basis tent. Our works must either be run on a basis of wages to enable us to meet competition, or not at all. We have again analyzed this whole question with the greatest of care, only to arrive at the result explained to you in our original answer. You cannot expect, justly demand, or hope to receive any line of wages which is prohibitory to the successful operation of these works. In order to prove the correctness of our position, as originally explained, we

ness of our position, as originally explained, we offer the following proposition for a settlement of this question:

First—You to promptly rectify the wrong you did this company in striking because we refused a demand which you have since admitted

it was impossible for us to grant—to wit, by re-turning to work forthwith without prejudice to individuals.

Second—A committee of five persons to be appointed, such committee to consist of em-ployes, two of whom shall be chosen by you, two by us, and the fifth by the four so chosen.

The qualifications of a committee man to be a record of not less than three years service in good standing.

record of not less than three years service in good standing.

Third—The committee to take such time as it may find necessary, according to its own judgment, to thoroughly investigate the wages paid in those mills against which we have to compete in the disposal of our pipe and tubes.

Fourth—We, on our part, agreeing, as we stated in our original answer, to rectify any inequality or difference between the wages paid by us and those paid by any of our competitors when shown; we further agreeing that we will not lower the wages of the workmen to whom we are now paying wages higher men to whom we are now paying wages higher

than at other mills.

Fifth—You, on your part, to agree to cheerfully accept the present wages, or such as may be changed under the conditions named in Article Fourth, upon the return and report of the committee.

Sixth—Any readjustment made in accordance with article fourth, to take effect from the date work is resumed.

Seventh—We to pay all expenses of the committee including wares.

Seventh—we to pay committee, including wages. Yours respectfully, E. C. CONVERSE, General Manager. ASKING FOR TIME. In the first clause of his proposition Mr. Converse asks the men to return to work pending the settlement of the matter. A vote will be taken upon this at to-day's meeting and the result is doubtful. Altorether there are between 3,700 and 3,800 emfourths of them are the enthusiastic element who will not want to entertain a proposition for arbitration. The conservative men will

favor meeting the company, but if the others rule the meeting, trouble may be expected as the outcome of the strike.

In regard to the matter, General Manager Converse said to THE DISPATCH corre-"The demands are unjust, and we cannot afford to pay the increased rate. We claim

and can prove that we pay higher wages than any other pipe mill in the country. We pay common laborers \$1 40 per day. In the Ohio mills they only pay \$1 25. In the East the rate is still lower than this. Carnegies only pay common labor \$1 32 2-10, and why should we be asked to pay \$1 50? We can go into the coke country and get all the common labor we want for \$1 20 per day. Many of our laborers, who are a little better than the ordinary laborer, earn \$1 45 and \$1 50 per day. We do not object so much to paying laborers \$1 50 per day if we could get the right kind of able-bodied man but we certainly object to paying 25 en, but we certainly object to paying 25 cents more than any other concern and not getting any better results.

THINKS IT INCONSISTENT. "The girders and gaugers want to be advanced according to the new scale. Their those elegant buggles so cheap at Harrison's wages were increased about three weeks ago. Toy Store, 123 Federal st., Allegheny,

and the action is a little inconsistent. The threaders are also mentioned in the new scale, but as nearly all of them are now at work it certainly looks a little out of the way for the men who are out to demand an increase for them. I hope the men will act upon the new proposition in the right spirit, and go 10 work pending the arbitration."

In the new scale no advance was asked for boiler makers. The committee wanted to change the demand of the riggers from 10 to 71 to 21 to 21 to 22 10 to 7½ per cent, but the latter objected. The riggers are now being paid \$1 60 to \$1 65. In the coupling and tap department

the contractors refused to grant the demands of the sub-contractors.

Thomas McGinley, chairman of the Con-ference Committee, is lying ill at his home. He had a sudden attack caused by over-NO CONCESSIONS TO THE TINNERS work, and his friends hope for his speed recovery.

The company, it is said, yesterday decided to board the men now working in the mill. There are between 150 and 200 men out of the 4,000 employes at work and many of them have expressed a desire to eat in the mill. It is said some of them went out on Tuesday, and before they got back they were "collared" by the strikers. A hotel called by the strikers "the National House" John Cunningham, Superintendent of the Oil City Tube Works, is in McKees-port, it is said, looking for men. It was freely rumored last night that the other tube mills throughout the country are doing all they can to have a long strike at Mc-Keesport. The object, it is said, is to scoop some of the National Company's business

#### GLASSHOUSES MAY NOT CLOSE.

Sanufacturers Will Meet To-Day to Consider the Matter-It All Depends on the Trade-A Talk With Ex-President Catlin.

A meeting of the window glass manufact urers of Pittsburg and the West will be held to-day at the Hotel Anderson. The purpose of the meeting is to hear the report of the committee appointed at the recent Chicago meeting on the proposition to close the glasshouses June 15. The committee had been instructed to secure from the manufacturers an expression as to the conditon of the trade and whether or not it is in such shape as to justify keeping the houses in operation until July 1 as previously.

It was said after the meeting in Chicago that the majority of manufacturers were anxious to close down earlier, and, in fact, some of them would be compelled to clos for want of orders. It was agreed that if 75 per cent of the men in all parts of the country would sign an agreement to close the thut-down would come June 15.

The workmen regarded the matter as

bluff, and said this report was simply being sent out to keep them from making demand tor more wages this summer. It was argued further that the manufacturers had contracted with their men to give them ten months' work in the year and that they could not close down before July 1 and live up to their agreement. Charles Loeffler, who was secretary of the

Chicago meeting, said yesterday that there was no such agreement made between the manufacturers and their men. manufacturers and their men.

"To-morrow's meeting will decide whether to close or not," said he. "There is no bluff about it. If 75 per cent of the men desire to close, we will close. I cannot tell anything about the condition of trade. It has been dull, and I think there is a feeling in

favor of an early closing."

Thomas D. Catlin, the former Presiden of the Window Glass Manufacturers' Asso-ciation, arrived yesterday to attend the meeting at the Anderson to-day. Mr. Cat-lin said every maker was now paddling his own cannee, and he rather thought it was a good plan. By getting at each other's rates a kind of uniform price is be maintained. He declared the question of prices might be

disgussed, but no change would be made, for it wouldn't have any binding effect. He says the demand is good and fair.

Mr. Catlin hadn't much to say about closing down for the summer. He rather intimated that the time would be nearer July 1 than June 1. The manufacturers, he said, usually commenced to quit work about June 1. It doesn't pay to produce glass in the summer, and by July 1 generally all the factories are closed. No attempt will be made, he thought, to reorganize the old association.

A number of buyers from Eastern and Western cities are on hand to attend the meeting.

THREE GLASS MEETINGS. Pinte, Flint and Green Bottle Men Fall to

Accomplish Very Much. Three glass meetings were held at the Anderson yesterday. The flintmakers met in the morning and the green bottle men in the afternoon, while the plate glass manufacturers held a conference with some New York jobbers about prices Mr. J. T. Gorsuch, of Zanesville, who be longs to both the flint and green bottle associations, said that nothing was done out-side of discussing the condition of trade. In both cases prices were not touched. It was stated that the supply of fruit jars was low and the demand great, and that in all probability prices would be increased, but Mr. Gorsuch says he fails to see where the strong demand exists. There is a good stock on hand, and the trade couldn't stand the last advance of 10 per cent that was made. It was therefore never enforced.

The plate glass conterence is rather difficult to understand, for the reason that those who attended were not very profuse in their explanations. Colonel Conger said that the bbers were anxious to know if the maker could not give them the glass at certain prices, but no basis or agreement was reached. He denied that the New York jobbers desired to form a pool to control the Eastern market. The plate glass men are not organized, and no system of uniform prices exists. Colonel Conger insisted that nothing definite was done. Many of the plate glass makers also manufacture window glass, and came here more for the purpose of attending the meeting at the Anderson to-day.

## TINNERS' STRIKE UNSETTLED.

Both Sides Are Firm and Have Made N Concessions.

The tinners' strike still remains unsettled and from the present outlook will remain so for some time, unless either side makes concessions. At the conference held between the master tinners and journeymen ne conclusion was arrived at. The delegates from the journeymen had no demands to make, they only went to see what the committee from the association had to offer them, and as the committee had received no instructions from their respective assemblies the conference ended without doing anything in the way of a settlement of the differences. President Rasner, one of the committee made a suggestion that the journeymen accept the minimum demand, which was \$2 50 per day, provided that this would receive

the sauction of the respective associations of master tinners. The committee reported back that the associations would not concede anything, and they are still at it hammer and claws. NO SETTLEMENT IN SIGHT.

Both Sides in the Plumbers' Struggle Still The determined position taken by the naster plumbers would seem to indicate that the men were going to lose the strike. The latter are very firm, however, and are keeping a close watch on their men to see that none go to work, without authority from the union. There were no new developments yes

lay and no settlement is in sight. KRAUSE'S HEADACHE CAPSULES more pleasant and convenient to take than powders, waters, elixirs, etc. If Baby Cries

A RED-HOT DISTRICT. FORAKER'S A FIGHTER THE NORTHSIDE IS A SEETHING POLITI-CAL CAULDRON. That is Why He Was Selected to

Colonel Bayne to Assumo Personal Charge of His Canvass To-Day-Ramors About the Defense Association, Mr. Shiras and Colonel Stone.

The "American Defense Association" held another fruitless meeting in Allegheny last Tuesday evening, it making the third meeting at which no positive action was taken, except to declare vigorously for George Shiras III for Congress. The inaction of last Tuesday evening was due to the adoption of a rule that all new members must put up a dollar and subscribe without reservation to all that had been done. There were a couple of dozen new would-be members who did not feel shy on the dollar ques-

call of the Chair.

Bayne's friends claim that the bottom has Some curiosity has been expressed on various sides for the reasons why the called meetdropped out of the patriotic order move-ment in Shiras' behalf, and as evidence ings of the National Republican Executive ment in Shiras' behaif, and as evidence show a list of members who have pulled out. A countermove has been put into good shape by Colonel Bayne's lieutenants. Allegheny and the whole Congressional district will be flooded with flaming circulars Committee had been postponed, and a rumor had become current that considerable dissatisfaction existed between the members. Senator Quay was accused, so the story this morning which will contain a call for a huge mass meeting in Union Rink, on Beech street, Allegheny, next Saturday evening, at which Colonel Bayne will make the eagle went, of trenching too much on the department mapped out for the Congressional Committee, and the latter didn't like it. When Colonel Conger was asked about these things he promptly denied them. Said scream on the anti-immigration question. The several patriotic orders hereabouts are designated by name and invited to attend the meeting. There will be no "vice presi-dents," but a number of Colonel Bayne's very warm friends are going to hustle things into shape, and several short speeches are to be made commending his candidacy. "One of the meetings of the National Executive Committee was postponed at my request, and the other was put off when Mr. Clarkson's father died. You see, most of

Colonel Bayne will arrive here to-day and do the Roderick Dhu act in great shape. us on that committee are business men, and it is a difficult matter to select a date that will suit everybody. As for any dissatis-faction with Senator Quay and his methods, I assure you that only har-mony prevails. Every man on the committee is satisfied with Quay and the Senator has not interfered It is not disguised that the tremendous hustling done by Mr. Shiras, and the way the youngsters are flocking to his support have caused serious uneasiness among Colonel Bayne's friends. It is actually said in many quarters that the incumbent would have placed his seat in the next Congress in peril if his practiced hand was kept off the with the work of the Congressional Committee. During the campaign we met every week to discuss the situation. The workings of the committee were more like a joint reins a few days longer. There will be a lively time in the next few days on the stock company or the proceedings of a board of directors. Each member had his own Northside, and many itching palms expect to have their pangs appeared. The Bayne hustlers were out with a bran new history of the inside of the Shiras canpeculiar line of work to look after. Of course we didn't always agree as to details, but there never was a serious difference. Senator Quay displayed wonderful execu-

didacy yesterday. It has the merit of nov-elty, at least. The story goes that Mr. Shiras came out as a candidate simply in or-der to extort from Colonel Bayne a promise that after receiving this nomination he would never do it again. The decks being thus cleared for action two years hence Colonel William A. Stone, ex-United States District Attorney, was to step forward as collateral heir to Colonel Bayne's reversion, Mr. Shiras getting a reward for his un-selfishness later on. It was supposed that Mr. Shiras would answer to Cardinal Rich-elieu's characterization of the fiery De meets about this time after a Presidental election, and the meeting is not so much to look after the election of Congressmen as "Yes I was at the meeting of the Repub-lican State Committee in Ohio yesterday. Mauprat: "De Mauprat is a patient man

and he can wait." The combination worked like a charm until within 48 hours, when Mr. Shiras suddenly conceived the idea that he could really win, and redoubled his efforts to make the riffle. Whether or not this is in narmony with the alleged original combination has become a burning question, and it is hoped by Colonel Bayne's friends that Mr. Shiras' promescuous activity may turn a tide in favor of the man that's in.

CHAIRMAN ANDREWS IN TOWN The Hend Bustler Reports Peace in Mo-

Kenn County and Admires Crops. Chairman William H. Andrews, of the "It is true that unless the McComas bill State Republican Committee, dropped into s passed that we may lose a few Congressmen in the State. But we will take care of town yesterday to have a conference with the McKinley. He will be sent back to the local political leaders whom he met septown vesterday to have a conference with the House as usual."
Colonel Conger expressed surprise when arately and together.

Among those whom he conversed with were Hon. Walter Lyon, Collector S. D. Warmenstle, Dr. George Gladden, W. M. A GREAT PURCHASE.

Several days ago our buyers got wind of a big clothing deal which was to take place. It was no more nor less than the immediate sale for cash of \$500,000 worth of fine clothing. Of course they took advantage of it and bought most of the men's fine suits offered, at about 3314 cents on the dollar, The goods are now marked and placed for sale at our big store, and we are offering the railway cars running from Pittsburg to all most unheard of bargains. Men's fine suits, the adjoining suburbs within a radius of 25 | which cost \$25 to make, will be sold for miles," said a Tarentum man last evening. \$8 50; Prince Albert coats and vests, worth \$35, at \$12; boys' suits, sizes 14 to 19, worth \$10, marked to sell for \$5; men's fine the proposed traction passenger railway that diagonal cutaway suits at \$10, and many more bargains we have not the space to "Since the Legislature granted the com-pany a charter, outsiders are beginning to wake up to the possibilities of building

Preparations for the Scotch-Irish Congres Being Pushed Rapidly-President Harrison, Governors Campbell and Beaver and Secretary Blaine Coming.

of that portion of the people known as the

Scotch-Irish in this city next week. The Citizens' Committee is beginning to get down to work, and extensive preparations are being made for the occasion. It is estimated that thousands of visitors will be in the city, including the prominent guests from abroad, and the congress is expected to be of great benefit to the manufacturing. commercial and social interests of the city. The General Citizens' Committee held an enthusiastic meeting in Common Couneil chamber yesterday afternoon with Mr. S. Hamilton in the chair. Reports from those who have been collecting finances showed that about \$3,500 has been raised, but at tion, but had no desire to be gagged on the other proposition. There was a lively time, and the meeting adjourned to convene at the least that much more is needed, and, as the time is growing short, the committee realized the necessity of getting down to work and impressing upon the business people the importance of bringing the congress here and entertaining it in a creditable here and entertaining it in a creditable manner. Accordingly, committees were appointed to call upon the banks, hotels, iron and glass manufacturers and the various other lines of business for the purpose of collecting funds. Rev. David McAllister, Rev. Nevin Woodside and Rev. E. R. Donehoo were appointed to look after the members of the various congregations.

Colonel James Andrews and William McCreery left for the East lass night to personally visit President Harrison, Secretary Blaine, Secretary Windom and Senators

Blaine, Secretary Windom and Senators Stanford, Quny and Cameron, who have been invited and are expected to be present. In fact, it is understood that the President has already canceled an engagement in order to be present. He will be in Cleveland on Decoration Day, and come from there here the Mayor Gourley sent letters yesterday to
President Harrison and Secretary Blaine
extending an invitation to them on behalf
of the city to attend the congress. In the letters he says: "Governor Campbell and staff will also be here and will come from Cleveland during the afternoon of Decoration Day. Should you accept our invitation a special train will be run from Cleveland on the same afternoon, or at such

time as you suggest, for the accommodation of yourself and party. If you should come that afternoon you could spend the evening and the next day as the guest of our city and visit the congress."

The Citizens' Committee will meet again on Saturday at 3 P. M., and it is the desire that those having books will make an effort to collect as much money as possible by that
