LETTER ON-THE WAY.

A Friend of Shiras Writes to John Wanamaker, P. M. G.

COLONEL BAYNE AT HOME.

He Addresses a Lively Meeting in Union Rink.

MONTOUTH'S FRIENDS WORKING

The weather yesterday was no botter than the political temperature in Allegheny. Colonel Thomas M. Bayne arrived from Washington early in the morning. The Colonel immediately opened headquarters at the Hotel Central, on North Diamond street, where there was, during all the remainder of the day, a constant crowd of friends and workers. George Shiras III. spent the day at his office in Pittsburg, but his friends also were very active and alert in Allegheny, and frequent visits were made to the aw office on Diamond street.

ing letter, written by a prominent citizen of chase of the Monongahela Company's locks, and his connection with other and larger Allegheny, who does not wish his name to be known at present, was forwarded to the Postmaster General:

A LETTER IN A LETTER. To Hon, John Wanamaker, Postmaster General

Washington, D. C., DEAR SIE: On April 25 you issued an order,

containing the following:
"Officeholders . . . should also constantly
remember that their party friends from whom they have received preferment have not invested them with the power of arbitrarily managing their political affairs. They have no right, as officeholders, to dictate the political action of their party associates or to throttle freedom of action within party lines by methods and practices which prevent every useful and justifiable purpose of party organization. The influence of the Federal office-holders should not be felt in the manipulation of political primary meetings and nominating conventions. The use by these officials of their positions to compass their selection as dele-gates to political conventions is indecent and unfair, and proper regard for the proprieties prevent their assuming the active conduct of political campaigns."

In view of this recent order directing all postmasters and postal employes to refrain from an active participation in the selection respectfully and earnestly call your attention to the present state of affairs in the Twenty-third Congressional district of this State.

THE LOCAL SITUATION. On May SI primaries will be held by the Republican voters of this district for the purpose of choosing their nominee for Congress. The Postmaster of the city of Allegheny, the Assistant Postmaster, the subordinates already appointed and those assured of position, are standing as primary delegates for the present Congressional incumbent. In every borough and township the postmasters are either delegates or have expressly and openly stated that they are responsible for the election of delegates favorable to the renomination of the incumbent. So bitter has the feeling become, as the time for the primary election approaches, that the party is in serious stanger of discuption, simply and solely by reason of Federal dictation. Personal friends of Mr. Shiras, as they daily witness the aggressive and offensive activity of Postmaster Gilleland and his subordinates, are overcome with distrust in reaard to the safety and wisdom of using the postoffice for even the most ordinary purposes. With the incumbent using the postoffice as his private headquarters, the mistrust of this so-called public institution is not exactly without reason. sistant Postmaster, the subordinates already

UNITED ON ONE POINT.

Whatever may be the opinion of the average Republican voter on the propriety of Federal officeholders taking an active hand in defeatthe selection of their party nominees. Such a course is absolutely ruinous to party supremacy, and caused the loss of New York State by 200,000 majority, even though the nominee, Judge Folger, was personally a most unexcep-tionable e-articles. ionable candidate.

A mompt and emphatic order from your de-

partment can alone restore confidence and as-sore the voters of the fact that the coming nomination is to be made by fair and lawful means. Public opinion demands it and party welfare depends upon it. Yours respectfully. Mr. Shiras himself said vesterday:

am not given to predictions, although I feel confident of success. I will earry a large majority of the election districts in the city. The contest is a severe one, because I have the immense power of the Federal machinery against me."

SOME WHO ARE CANDIDATES. Postmaster Gilleland and Assistant Postmaster Clark are both candidates for Bayne delegates in the Fifth ward, in which Mr. Shiras lives. In Shiras' own district a Bayne delegate is running, and, as he de clined to draw out, a Shiras delegate was put up in Bayne's home district, in Bellevue. George T. Eudolph, Deputy Collector of Internal Revenue, is another Bayne delegate in the Fi th ward, William J. Mc-Donald, up for delegate in the Second ward, is said by the Shiras people to have been promised the position of Assistant United States District Attorney. W. A. Scandrett, recently appointed under Surveyor of Customs Dravo, is a Bayne candidate in the

Colonel Bayne was so busy yesterday that he had scarcely time to talk to an interviewer. He said he had been receiving favorable reports all day, and considered his campaign in excellent condition. He had no doubt that he would carry the convention. His arrival and personal direction of the contest has certainly given his adher-ents great confidence. The Bayne people say that the Butchers' Association will aid materially to de eat Shiras, claiming that they had an issue with him when the Chicago dressed beef bill was before the last Legislature.

THE ORANGE CONTINGENT. The Orange lodges of the Twenty-third Congressional District are being worked in opposition to Colonel Bayne. There are four lodges of Orangemen in Allegheny, with a membership of about 300. The Protestant Herald, the organ of the order in this city is openly opposing Colonel Bayne. Some of Colonel Bayne's friends claim that the Orange opposition will bring votes to the Congressman. In the Senatorial contest the same influence is being used for Mr.

The Democratic County Committee Sets the Date for its Convention.

A well attended meeting of the Demoeratic County Committee was held in Common Council Chamber at 11:20 o'clock yesterday forenoon. Chairman H. T. Carr, Secretary of the com-mittee, and had appointed John Rourke to fill the vacancy. A unanimous vote of thanks was given to Mr. Carr for his serwices. The following resolution offered by Henry Large, Jr., was adopted:

Resolved, That the primaries to elect delegates to the county and legislative conventions be held on June 21, at the usual time and places. The convention to meet on Thursday, June 28, time and places to be designated by the Chairman of the County Committee. After the adjournment of the County

Committee a meeting was held or the committeemen for that part of Allegheny county which is in the Twenty-fourtn Congressional district. James E. Moran was seo Chairman, and Charles A. Purcival, Secretary. It was resolved to hold the primaries and the convention on the same dates selected for the county primaries, the convention to be held in Salisbury Hall, Southside. There was some inquiry con-cerning the number of conferees to which street, Pittsburg, Pa.

Although not a packed meeting by a large majority, the Thomas M. Bayne rally, which met at Union Rink, Allegheny, last night was attended by more than a few of the friends of Shiras, as evidenced by the fact that whenever Bayne's friends made any demonstrations of enthusiasm in his favor the Shiras crowd showed they could veil nearly as long and as loud as the opposition. Much interest was manifested in the meeting, and some time before order was called a large crowd convened in the street in front of the

building.

The meeting was called to order by Chair-The meeting was called to order by Chairman Thomas M. Jones, and following a speech by Mr. James Bradley, the hero of the evening, Colonel Bayne was introduced amid lond applause. "I wish to speak first of those who have asked what I have done for my district," he said, after some preliminary remarks. "The great bulk of the millions of dollars that has gone into the Deep Lyland days has been environminted. the Davis Island dam has been appropriated since I entered Congress.'

The Speaker also referred to his personal influence in securing the Allegheny public aw office on Diamond street.

Mr. Shiras said yesterday that the followappropriations of national importance. He waxed eloquent on the Chinese emigration question, and amid much applause, stated that he had always voted to exclude foreign pauper labor which came into competition

with the American workingmen.

He made extended mention of the McKinley tariff bill, and spoke of it as the best measure of its kind ever passed in Congress, A hearty cheer was given at the close of the speech, mingled with cries of "Shiras." through Pittsburg and reached his home in Beaver without any of the reporters seeing him. He sent for Postmaster McKean and they spent the afternoon about some important work to be done. Postmaster McKean declined to state what is on the carpet.

One of the schemes of Senator Quay, so it sclaimed, is to start a Republican paper in New York, with Clarkson as chief editor. The money to found the paper will come from the Republican reserve fund, which has been accumulating for the past six months, and now amounts to \$250,000. Frank Willing Leach devotes his time to the work of issuing and collect-ing the famous registered certificates bearing Lincoln's photograph, and which were designed by the National Committee for the purpose of raising funds. Senator Quay also has some new ideas about con-ducting the national conventions that will be discussed at the coming meeting to be held soon. He would like to see the Sergeant at Arms of the committee, for one thing, act in that capacity for the convention.

CAN'T PRODUCE THE PAPERS.

Last Fall's Election. During the Carr-Peffer contest for Council a discovery was made that has made some people unbutton their eyes to the greatest extent. An order on the Prothonotary's office disclosed the fact that the records of the election in the two cities held on November 5 last were not in the Prothonotary's custody. Upon the matter being investigated it was discovered that were in all probability in some junkshop, or perhaps, by this time, ground over and made into paper. It appears that Superintendent Mercer acted on an order from some source and disposed of the records

This discovery has given rise to considerable controversy, some people holding that such records should not be destroyed, not at least until the time is past when they may be needed in an election contest, and the further contend that they should not be de stroved in any event unless on an order from there is some talk of having a decision in the matter.

RAVES OF THE DOUGLASS CRIME.

THE M'KEESPORT MYSTERY DEEPENS

His Arrest is Ordered as a Participant in

the Killing.

Carl Freeman, a peddler who made a desperate attempt to commit suicide at Altoons by cutting his throat at Altoons on the 16th instant, has been arrested for the murder of Miss Margaret Douglass, at Mc-Keesport, the day before. On Thursday last Chief of Police Wier, of Altoona, telegraphed Burgess Tilbrook, of McKeesport, that he had a man whom he thought was implicated in the mysterious assassination. Mr. Wier was notified to hold the man, and vesterday he and Detective Stains visited McKeesport and had an interview with the

Burgess. Chief of Police Wier says that on Friday evening, May 16, Freeman was noticed wandering about Altoona. He seemed to be troubled, and his actions were such that he was shadowed by an officer, and when he cut his throat, while wandering along the street, he had hardly accomplished the deed before the police were at his side.

RAVING OF A CRIME. During the time Freeman has been in the hospital he has continually talked of the Margaret Douglass murder, and among his remarks, repeated often, were these: "Margaret Douglass is dead; take an ax and kill me" "Miss Douglass, of McKoesport, is dead, murdered and out of the way; now kill me and let me die."-

At various times Freeman made desperate efforts to tear the bandages off of the wounds in his throat, so as to die, and would have succeeded but for careful watching. His hands were finally muffled and he is not able to do himself further injury, and is slowly recovering. He has continually talked about the Douglass murder and wanted to die. He would not say why he had tried to commit suicide, but has made admissions, aside from the above, which Detective Stains is confident will be sufficient to show that James Edward Meyers is not the murderer of Margaret

Douglass.
In Freeman's clothing was found a ticket from McKeesport to Pittsburg, dated May 15; one from Pittsburg to Johnstown, and one from Conemaugh to Altoona, all of them punched and showing that he left Mc-Keesport on the evening of the murder, and was either bewildered or did it for a purpose when he got off the cars at points along the road and walked into the destination of the tickets.

CHARGED WITH MURDER.

Burgess Tilbrook, after hearing the statements of the Altoona officials, proceeded to Alderman Field's office and made the folowing information against the peddler: I, Thomas Tilbrook, believe and suspect that Carl Freeman is a party to or is implicated in the murder of Margaret Douglass, which oc-curred at McKeesport on the 15th day of May, 1890

The officers seemed relieved when the information was made. They will send Mr. Tilbrook a photograph of Freeman at once, and will bring him here within a week, a he will have sufficiently recovered to travel, when he will be given a hearing before Alderman Field.

Burgess Tilbrook, in speaking about the case, said yesterday: The Altoona officers have the best of evi-

The Library Committee Returns From the East Full of Suggestions.

Ten leading libraries were visited by the Allegneny committee on its Eastern trip. It returned yesterday, full of suggestions and hints in conducting a public library. From its observations the committee will recommend the best features of all the institutions visited for the use of the Carnegie Library.

The time to select, purchase, shelf-list, entalogue and have ready for the public 10,000 volumes, will take from one to two years. With a large force of expert assistants it will be possible to "open" the library in six months; but Judge Chamberlain, of Boston, advises great deliberation in the choice of books. The reading room can be stocked and opened in a short time. The salaries paid the women assistants in ome of the public libraries are as low as \$20 a month, and rarely higher than \$35. ew of the chief lady librarians in New England receive \$2,000 a year. Expert cataloguers and shell-listers are in demand to get the library ready for use, and soon all will be in readiness for the reading public.

ANOTHER CONVENTION CALLED.

Miners Fail to Secure a Settlement of the Dead Work Scale. The effort to come to an understanding on

a dead work scale between employers and mine workers has failed, the committee being refused a conference. Yesterday a call was issued for another convention, as fol-

PITTSBURG, May 24, 1890. To the Miners, Drivers and Day Laborers of Pitts-burg District No. 5:

Having failed to effect a settlement of your dead work scale with the operators we deem it necessary to call a convention in Pittsburg on Friday, May 30, at K. of L. Hail, 101 Fifth aveone, at 10 A. M., for the purpose of adopting the best method of purting the scale into effect Come instructed as to what you propose to do HUGH MCLAUGHLIN, President.

JAMES BOYD, Secretary.
The call for the convention is due to the failure of the conference committee to reach a settlement on Friday. The committee was in session all afternoon, and adjourned without doing anything. The difficulty seems to hinge on the workmen in Scott's mines, who were working for 78 cents per

The Building Trades Council Has Another

Fight Over Delegates. The regular meeting of the Building Trades Council was held last night. Three delegates were admitted from the Steam Gas Fitters' and Steam Tilers' Helpers' Union No. 23, one from Carpenters' and Joiners' Union No. 185, of Sharpsburg, and one from the Hod Carriers' International Union No. . There was another fight over the admission of delegates and the representatives of the electricians union were refused. The delegates claimed they wired houses and were consequently connected with the build-ing trades, but they were deleated because otor men and engineers are also members of their union.

A GLASS HOUSE CLOSED DOWN.

Not for Want of Orders, but on Account of the Workmen. Abel, Smith & Co.'s glasshouse on the Southside shut down yesterday, and will not resume until September 1. For the past ten days or two weeks there have been from

three to five spare pots in the factory. Yesterday Mr. Smith made a tour of the factory and discovered six spare pots. He ordered the factory to be closed at once.

In speaking of the matter last night, Mr. Smith said: "We had orders enough to keep us running until July, and had intended to run till the general shutdown, June 15, but for several days we have been short of men. Some of our workers have short of men. Some of our workmen have been drinking too much lately, and it was impossible to keep a full force at work. I want the public to know why we closed down, and it was simply because our men were either incompetent or were 'laying down' on us."

GOMPERS IS PLEASED. President of the Federation Satisfied With

the Eight-Hour Movement. President Samuel Gompers, of the American Federation of Labor, passed through the city yesterday on his way to Beaver Falls, where he addressed a meeting of workmen last night. He called at the office of the Amalgamated Association to see Sec-retary Martin, but the latter was absent, being in Philadelphia at a meeting of the Inter-State Revenue Commission. Mr. Gombers said he was very well

pleased with the progress made so far in the effort to secure shorter hours, and he feels the movement is destined to be a success. DETECTIVE AND ATTORNEY.

L. K. Porter, Esq., was the attorney in the speak-easy case against Samuel French before Magistrate Gripp at the Central station yesterday. French's bond was forfeited for non-appearance and another information made against him. Mr. Porter met Detective Coulson on the street, and after a rather lively discussion Porter pulled Coulson's nose, and the latter retaliated by knocking Porter down and arresting him for disorderly conduct. Mr. Porter secured

bail and was released. Mr. Porter entered suit against Detective Coulson for assault and battery, and the latter has brought a cross-suit of a similar character. The Safety Department officials will take no action in the matter, but allow it to be settled in the regular course of law.

IMPOSSIBLE NO MORE.

A Goitre Removed by Local Surgeons From the Neck of a Woman.

THE PATIENT FULLY RECOVERED.

First Operation of the Kind Performed in Western Pennsylvania.

THE NEW ANTISEPTIC METHOD USED

A week ago yesterday nine physicians rathered in the office of Dr. J. B. Dickson. Penn avenue, to assist in and witness an operation which, if successful, would revolutionize one branch of surgery in this section and would carry hope to the hearts of many afflicted beings. The operation was that of removing a goitre. Nearly everyone has a friend or has seen

persons who were afflicted with these unsightly excrescenses, which could not be hid, and though not of necessity fatal or painful, are like crosses to carry around. They are an enlargement of the thyroid gland of the neck, constantly increasing in size, until they often grow to weigh as much as eight pounds, and by their growth sap the system of the person until life is misery No one is exempt from these ugly growths,

but women, for some cause unknown to scientists, are most subject to them. Again, they are most common in Switzerland and some parts of Italy, and on people who are natives of these countries.

Up to a short time ago it was considered impossible to remove goiters, and the books on surgery have denounced an attempt as unsafe and out of the power of the surgeon

o accomplish. FIRST IN THIS VICINITY. Within the past few years the operation has been successfully performed in the East and in London, but never tried in Western Pennsylvania, but the surgeons of Pittsburg, ever known to be on the afert for new truths in their profession, were not to be left be-hind, and proposed demonstrating that one more supposed impossibility in surgery

could be sately accomplished.

Mrs. E. J. Pritchett, living at the head of South Twenty-second street, was the sub-ject. She bad been afflicted with a goifre since she was 14 years old, now being about 50. She had tried in every way to remove it, and spent hundreds of dollars, and at last submitted to the operation, without fear. Dr. Alan F. Gentry took charge of he operation, and Drs. Hartmeyer, of Allegheny, and Buchanan, of this city, assisted him. Dr. Dickson had hurt his thumb and would not take part. The other doctors stood by and watched the operation.

Mrs. Prichett was first put under the in-

fluence of anæsthetics. An incision was length of the goitre, and the excrescence was removed. It weighed 2½ pounds, and was hard and about the consistency of liver. In the operation 40 arteries and veins were tied, antiseptic methods being used, and the same course followed as outlined by those who had before peformed the feat.

The operation lasted one hour and 35 minutes, and at the end of that time Mrs. Pritchett was taken home. THANKFUL FOR RELIEF. Last night it had been just a week since she was freed from the enlarged gland. She was found by a DISPATCH reporter, sitting

in a chair and feeling very well. All can-ger has passed. She does not court pub-licity, but nevertheless felt so thankful to be relieved of her "cross" that, when questioned, she could not refrain from giving the information desired. Her neck was again its normal size, and, since the operation, her temperature has not been over 10034, or her pulse over 100. She feels very well, and with no evil effects except the will not leave a bad scar.

Mrs. Pritchett said she had been able to

They Fight and Enter Cross Suits for Assault | cover the goitre pretty | well, but of late it had affected her nerves and was supping her system of its proper nourishment, and if allowed to remain would have grown larger constantly. She had no thoughts of dying from the operation, and says her strong will kept her up.

The whole success of the operation is due

largely to the new antiseptic methods of surgery and the ligaturing of all vessels be-fore being cut. Not over three ounces of blood were lost by the patient,
