ESTABLISHED IN AMERICA IN 1806.

THE Phoenix Assurance Company of London, purely a fire office, commenced business January 17, 1722, at a time when such a thing as Limited Liability was unknown. The "Phoenix" started on its great career, and soon met with such distinguished approbation throughout the Old World as to cause frequent application to be made to it, for insurance, in America; whereby it was induced to enlarge its sphere by coming to the United States. It was thus able to promote the happiness of many

NEW TAX SYSTEMS

Proposed by Different Members of the State Commission.

NO AGREEMENT ON THE SUBJECT.

Big Iron Works at Youngstown to be Sold to Satisfy Claims.

NEWSY NOTES FROM TOWNS AROUND

[SPECIAL TELEGRAM TO THE DISPATCH.] HARRISBURG, May 27 .- The new Revenue Commission created under a resolution offered by Senator Delamater at the close of the last session of the Legislature, is almost as remote from an agreement as it was when first organized. The propositions submitted for incorporation into a revenue law to take the place of that under which taxes are now collected are so radically different that the members of the commission entertain very little hope of the formulation of a satisfactory bill. If any conclusion is reached by the commission it will probably be through compromise between the grangers and the County

The grangers have for years claimed that the real estate owners are subjected to exorbitant and unjust taxation, as compared with corporations and have pressed legislation to tax the latter for local purposes so as to lessen the burden borne by real estate owners.

PROPOSED TAX MEASURES.

The Revenue Commission has had such a bill before it, as well as two propositions from Victor E. Piollet-one for the taxation of visible personal property and the other to tax railroad corporations sufficiently to cover the expenses of the public schools and the State government. Mr. Wright, of Philadelphia, a member of the commission, originally favored the adoption the commission, originally favored the adoption of a bill to raise the revenues of the State by imposing a tax on the incomes of people, graded according to the amount received anunally. This proposition met with very little favor, and Mr. Wright has removed one of the obstacles in the path of the commission by abandoning it. It is also a settled fact that the arguments in favor of the single tax theory have made no impression on the commission and will not be considered in the effort to frame a new revenue law.

Any.

Mr. Price, of Eric. who represents the County Commissioners of the State on the commission, endeavored to have a revenue system established taxing almost everything for State purposes, but he has since mediated his proposition by confining the operation of the suggested tax to local purposes. This change is said to have resuited on a combination between the grangers and County Commissioners' interests in favor of such a measure.

THE AUDITOR GENERAL'S BILL. Auditor General McCamant, President of the Commission, has also tried his band in preparing a bill which he estimates would put \$4,500,-000 additional each year in the county treasuries and enable a reduction of a tax on real estate to be made to that extent. This bill proposes few changes in the method of State taxation. It provides for the abolition of the taxation. It provides for the abolition of the tax on net earnings of private brokers and hankers and unincorporated banks and savings institutions, and the substitution of a tax of 1 per cent on cross earnings, which the Auditor General thinks would lead to increased revenues. The bill also imposes a tax of 2 mills for county purposes on the same class of property that is taxed 3 mill under the revenue act of 1889. This would make the total tax on of 1889. This would make the total tax on moneys on interest, etc., 5 mills on the dollar. Other items provide a tax of 8 mills on capital Other items provide a tax of 8 mills on capital employed in mercantile or commercial pursuits in excess of \$1,000 a year and a similar tax on the sales of butchers, drovers, and other dealers in live stock. Another item taxes the shares of uniucorporated banks, State or national, 2 mills on the market value of the stock in all cases where the 6 mills imposed by existing legislation is not naid. A tax of 1 per cent is imposed on all profits realized from business investments provided they are not otherwise taxed.
