-A railway is to be crected to the summit of

son than ever before. Lots in Johnstown are 25 to 50 per cent higher than before the flood. The number of mortgages reported yesterday was 34. The largest was for \$6,500. Six were for purchase money. Charles Somers & Co.: "The present year gives promise of extraordinary activity in building operations and unusual expansion in population. The conditions affecting the pros-

perity of Pittsburg were never more auspicious than now. Every industry is represented in

the general line of activity, and every legitimate enterprise participates in the thrift." Orders have been issued for the resumption of work on full time at all of the Reading

collieries in the Mt. Carmel, Pa., district. A lozen mines are affected by the order.

Movements in Real Estate.

Yesterday was a quiet day in real estate circles, as far as outward appearances were an indication, but it was admitted that a great deal of underground work was going on. Business reported was: Samuel W. Black & Co. sold for Joseph De-

Roy property No. 199 Third avenue, being a three-story brick dwelling of 12 rooms, lot 24x84 feet, for \$13,000 cash. Reed B. Coyle & Co. sold to Mrs. Annie Gibson for T. H. Rose, Nos. 54 and 56 Resaca street, Allegheny, being two frame dwellings, one of

five rooms and one of six rooms, with two lots each 20x110 feet to Franklin alley, for \$7,500 cash.

Black & Baird sold for Henry Reiter to Mrs. Margaret Ohle a two-story frame dwelling. No. 12i Howard street, Allegheny City, with lot 20x74 feet, for \$2,200.

20x74 fect, for \$2,200. Baxter, Thompson & Co. sold for W. C. Heins lot No. 161 Bank of Commerce addition plan, Brushton station, for \$1,060 cash. James W. Drape & Co. sold a large lot on Fifth avenue, 110 feet front by 150 feet deep, at

the rate of \$125 per foot front. ELECTRIC LETS GO. The Decline Even More Sudden Than the Advance-Other Features.

The boom in Electric received a very black eve yesterday, and the stock fell back to about where it stood before the spurt. It sold early at 42%, declined to 42 and 40%, and closed at 40%. There were no supporting orders. The decline was even more sudden than the advance. A good deal of the stock was marketed

reads: It is more fitting that my mother's grave should be remembered by the soldiers on Deco-ration Day than in any other way. I am glad they have always done so from their own wish, but I inclose money that I may unite with them

The letter contained \$3, more than enough to cover with flowers the grave of that noble woman who sleeps in the Allegheny Ceme-tery.

A REAL PROPERTY AND A REAL

SOME LATE OIL NEWS.

Soundings Taken to Find the Direction of the Chartiers Belt.

The Chartlers oil pool is on the verge of some interesting developments at present, in the way of determining the direction of the belt. Much interest is felt at present in the Much interest is feit at present in the outcome of the Kanawha Oli Company's well on the A. P. Cleves property. Some say she is a 25 or 30 barrel well, but the company hopes to make her improve by deeper drilling. The result is awaited with interest, not only as determining the direction of the oil-bearing strata, but on account of the expenditure made in that direction.

determining the direction of the oil-bearing strata, but on account of the expenditure made in that direction. The Ryder-Wylle well is making about 200 barrels a day, and the O'Brien, McKee's Rocks and Bear Creek Companies wells are performing quite satisfactorily, as also is the Lutheran Parsonage well. The liser well above the Beck on the creek, is in the and showing well. For the southwest the promise is good. The Arbuckle No. 5 is in the sand and showing well, and Mr. Stewart states that Arbuckle No. 1 is not only keeping up her 150-barrels-ady record, but has put out 200 barrels mbre this month than she did in Aoril. The boiler been removed at No. 6, preparatory to her been removed at No. 6, preparatory to her being drilled in. At Coraopolis results are mixed. Mr. Jolly states that the Lashell well die ten barrels and will pay to pump under the combination system, and she may flow her output as the Kendail well does, but he hasn't much hope for the well on his own property nor for that in the vale below Alfred MoCabe's farm. Op-come of the well on the Gould property, as it is expected to define the direction the sand-bear ing strata takes. Mr. Jolly shrugged his shoulders somewhat suggressively, but still ex-presses a hope that the Coraopolis trail will be found.

A BISING MARKET.

Trust Certificate Trading Becoming Objectiounble at the Board-Chicago Gas Company Makes a Flurry-Rail-

rond Bonds Stendy. NEW YORK, May 28,-There is in Wall street

a growing feeling against the trusts, or at least against permitting trading at the Board in the certificates of those organizations. It is cercertificates of those organizations. It is cer-tain that from the first the industrial stocks have been an unsettled element in the market, and the prejudice against them is growing rapidly. At present, however, they have not the power to injure the values of good railroad shares that they had three or four years ago, and the events of to-day are an exemplifica-tion of that fact.

ion of that fact. The market to-day showed a firm front with The market to-day showed a firm front with a moderate degree of activity until the an-nouncement toward 1 P. M., that a receiver had been appointed for the Chicago Gas. The stock of the Chicago Gas Company was im-mediarely attacked, and the price ratiled off in the space of a little over an hour 7 per cent, with a close sympathy in Sugar Refineries. Such a drop could not fail to have some de-pressing effect upon the regular list, but it ex-tended only to fractions, and the opportune announcement that all the roads except the St. Paul had agreed to restore rates effected a complete revulsion of temper in the Grauger stocks, and they were immediately advanced to still higher figures than before the break in the trasts.

to still higher figures than before the break in the trusts. The raily in the general list was followed by a recovery in the trusts, but they finally shock themselves loose entirely from the rest of the market, and Chicago Gas again touched the bowest price, while Sugar continued to decline until its loss was equal to that in Chicago Gas. The other industrial stocks sympathized to only a limited extent. The opening was strong and under the influence of good buying by commission houses, together with some orders from London and outside centers the hesi-tating temper of zesterday entirely disappeared and prices moved up steadily, though slowly, during the entire forencon. Pacific Mail was a market exchange, showing a sharp gain of about 1% per cent, and among the specialities Citizens' Gas displayed a like strength. The activity and steady adrance in the vanderbilits was also regarded as indicative of the strong foundation under the market, and Reading. Atchison and Grangers came to the front, while the business done was much more extensive improvements on its picnic grounds for the better accommodation of its patrons. The unusually large number of dates already taken attest the popularity of the place. the stationary engineers of Allegheny county. Special trains on the Pennsylva-nia Railroad will be run for their accomodation on that day.

of the Department of Public Works, spent all of yesterday afternoomin Schenley Park, planning improvements.
