SHORT TALKS CAUGHT ON THE FLY

Governor Beaver arrived in the city yesterday morning to attend the Scotch-Irish Convention, and immediately repaired to the Monongahela House, where he was assigned to room 11. He passed the day pleasantly, chatting with callers who dropped in at all times to pay their respects. The Governor met a number of the Scotch-Irish representatives who had never seen him before, and from their remarks, particularly those from the South and West, the executive of the Keystone State made quite a lavorable impression.

In the forenoon, Governor Beaver made the opening address at the convention, in behall of the State, and after dinner was found by a representative of THE BIS-PATCH in his room reading the history of the Johnstown flood, published in this paper yesterday. The Governor was asked for his opinion in regard to the Gubernatorial outlook. He talked freely about the question, but, with considerable will, managed to evade anything like a direct expression. To the question of who would likely be his successor, Governor Beaver said:

NOT THINKING ABOUT IT.

"I have not given the matter any thought" (with a far-away look in his eyes, as his gaze wandering across the Monongahela river and rested on a speak-easy "joboat") "I have been so busy that I could not form an intelligent opinion. Major Montooth is a strong candidate. Yes, my Adjutant General seems to be doing considerable work, and Mr. Delamater and theothers are likewise out hustling for delegates. Major Montooth is well thought of by the people of this end of the State, and will get the Allegheny county delegation solid, no doubt. Of course, he will have to have a great many outside delegates, but as to expressing an opinion as to how many he will get, I will have to decline. The primaries vill be the means of telling the people about how many votes each candidate may expect. "I do not know anything about the 'original package' business. I am one of e fellows who always believe in living up to the doings of the courts. If the Supreme Court says the business is all right, then I say go ahead with it. Mind you, I do not say that the people who have al-ready engaged in the business are not violating the law. All I know about the mat-ter is what I have learned from the news-

hardly be expected to express an opinion on the subject. What good would it do, any-way? If the courts say it is all right, it's the duty of the people to adopt the decision as handed down, and say nothing about it. AS HE LOOKS AT IT. "The case of Mr. Silverman of Leech burg, to my mind, seems to be a violation of the law. If the matter was reported cor-rectly, he was acting as an agent or retailer of a brewing firm in Ohio. The law save liquors can be shipped from one State into another, and sold in the packages in which they were shipped, but it does not give any one the right to conduct a wholesale busi-

sylvania, without having a license for the 'What do you think of Henry Hall's chances for the Speakership?" was asked.
"Mr. Hall is an excellent fellow, a capable man, and would, no doubt, make a good presiding officer. However, there are several things in his way. He must first be nominated, then elected, and the Legislature must be in his favor to elect him Speaker.

"Yes, we closed up two orphan schools this week, one at White Hall and the other at Mount Joy. If the youngest pupil now in the schools sticks out his time, the schools will be abolished by limitation in ten years. There are over 1,000 children now in the schools, and about 250 will go out this year. At this rate there will be few left in five or BIX Years.

Governor Beaver will leave for Altoons this morning to preside at a memorial meet-ing held by the old soldiers of that place.

NEW WAY TO MAKE ICE.

A Chlenge Man's New Scheme to Artificinily Freeze Water.

Mr. J. O. Perry passing through the Union depot last evening, on route for New York. Mr. Perry carried with him appliances which, when patented, may revolutionize the ice business. He was at first somewhat loth to be interviewed, but flually consented to explain the object of his journey. He is from Chicago, and has discovered a means of glacifying water In his gripsack be carried a number of tin cans, each containing about one pound of a chemical compound, the positively declined to particularize. The contents of these cans says the inventor, when thrown into 12 cubic feet of water, will glacify every particle of the liquid. Pure water is, of course, better fitted for the change, but no matter how impure it may be, it can be frozen by the compound which Mr. Perry has carried to New

pound which Mr. Perry has carried to New York.
"Needless to say," remarked Mr. Perry,
"this little invention will prove a blow to the big loe companies. When I can in an hour or thereabouts, turn 12 feet of water into a con-crete body of ice, where will these companies be?"

bet .

Mr. Perry has for some time been agent for a big Chicago ice machine firm. He has made glacification his study, and the described inresidential files where any and the described in-vention is the result of long years of study. J. C. Culver and O. Lafflin, of New York, to-gether with a number of other well-known metropolitans, are interested in Mr. Perry's scheme, and if their examination of his glacifying compound prove satisfactory, they will form a company to give it to the world.

MARINE BAND'S PROGRAMME.

Railroads Will Make a Dollar Rate and Give the Money to the Hospital.

Mr. Soussa, leader of the Marine Nationa Rand, has notified the committee having in charge the entertainment for the benefit of West Penn Hospital, that he will be here with 46 pieces and five vocalists. Mr. Soussa prom-ises an unexceptionally fine programme, and

ises an unexceptionally one programme, and there is little doubt the capacity of Mechanical Hall will be taxed.

The committee is anxious to have the public thoroughly understand the arrangements made with the railronds. All of the ten roads centering in Pittsburg have agreed to transport all passengers desiring to come to this city at the time within a radius of 50 miles for \$1 for the round true including admission to the military. round trip, including admission to the military drill. The companies agree not only to make this low rate, but in addition to turn the entire receipts from transportation into the hospital fund.

LOST ONE OF HIS LEGS.

The Suit Brought Against the Driver of a West End Car. Alderman Burns yesterday reserved his de cision in a suit for assault and battery, brought by J. H. Tevens against William Fitzgerald, driver of a West End car. Tevens alleged that on January II the defendant threw him off the car, and as a result he fell on the track and his leg was so badly crushed it had to be am-

putated.
In rebuttal of this statement the defendant stated that there were only two persons aboard. The defendant also testified that he had not thrown nor touched the plaintiff while on the car. Another witness testified the same as the defendant. Quite a number of persons were sworn and related the facts pertaining to taking the plantiff from under the car, but none had seen the defendant lay hands on Tevens.

Better Facilities for the Lower Southside and Hilltop Wards

PROMISED BY THE WATER COMPANY

A Twenty-Inch Main Will be Put Down on

the Hills Next Month. THE TANKAGE ALSO TO BE INCREASED

It will be good news to the Southside hill residents to learn that in a very short time the possibility of another water famine, now hanging over them like a specter will be obviated, and they will have plenty of water should a pipe burst, and more than plenty at other times. For some time past the Monongahela Water Company has been working on plans to increase the Southside water supply at all points necessary, and give its general system of pipes an overhauling. The immense growth in population on the hill has prompted it to make its first improvements in that section, and they

will be sweeping. The main that now supplies the hill from the hill pumping station at the head of Twenty-second street is a ten-inch one, which has heretofore served the whole hill. Now the company intends to put down a 20-inch main over the same route, from the pumping station to the reservoir in Allentown. This will give two mains and increase the capacity nearly five-fold. The contract for the pipe has already been let, and the contract for putting it down will soon be given out, and work commenced laying the new main some time

TANKAGE TO BE INCREASED. TANKAGE TO BE INCREASED.

The tankage capacity at Allentown will be proportionately increased, by a series of small tanks, so that should anything happen to one, the others will still be ready to fall back upon. The system will be generally extended through Mt. Washington and Duquesne Heights, and with the increased volume, all possibility of another scarcity in the West End will be remedied.

After the 20-inch main is laid, the company will put down a 30-inch main from its new pumping station to the reservoir at the head of Twenty-second street, which supplies the lower Southside, and from which the water is pumped to the Allentown tanks. This will give an increased capacity for supplying the lower

pumped to the Alientown tanks. This will give an increased capacity for supplying the lower Southside also. The pumping capacity at each station has been increased, and when the im-provements are finished the whole Southside will have as good a supply of water as any sec-tion of the city, if not better.

WILL BE NEEDED SOME TIME. Such a big increase will not be needed for some time, but in putting down the 20-inch main the company is looking out for the future growth on the hill. Should the population in crease as it has in the past two years, the 20inch main will be none too large in a few years.
On the lower Southside the system of pipes On the lower Southside the system of pipes will be gradually extended and increased as fast as the necessity is pointed out, so that every section will be supplied with an abundance of water for ordinary use, and in time of great need all that is wanted. The water in the hill tanks will have plenty of time to settle, and the reservoir at Twenty-second street will be enlarged later, or another added, so as to give the Southside as pure water as possible.

Mr. Hugh Mackin, of Allegheny, and wife, with some others whose names have not yet been ascertained.

Bishop Phelan Intended leaving his Allegheny residence and moving to the Episcopai House, on Grant street, immediately after his return from Europe. He now finds that the business of winding up his parechial affairs at St. Peter's Cathedral is so laborious a task that it will be necessary for him to remain in his old quarters for at least a month after his return. The name of Bishop Phelan's successor as pastor of St. Peter's and consequent Vicar General of the Bishop in the Allegheny portion of the diocese, is a subject for conjecture. Father Wall, of St. Paul's Cathedral, is looked upon as first favorite, but the names of Father Philip Kearney, Father M. M. Sheedy and Father Nolan, of McKeesport, have been also mentioned in connection with St. Peter's. Father Wall is, it is said, desirous of remaining in his present location, and acting as Vicar General both of Pittsburg and Allegheny; while Father Kearney's delicacy may prevent him from accepting the pastorship. Consequently, a few knowing ones believe that Father Bheedy may be asked to cross the river and assume jurisdiction in the City of Parks.

Allegheny folk are very anxious that Father Sheedy should be selected for the position, the wonderful work which the "pastor at the Point" has done and is doing in his present parish making him very desirable. Father Sheedy was not seen himself on the subject, and consequently it was impossible to ascertain whether he would approve of the change.

Mr. Heinrich Gets Into Trouble About One

of His Own Old Cases. Ex-Alderman Herman Heinrich, of Allentown, was given a hearing yesterday be-fore Alderman Beinhauer on a charge of lar-ceny by bailee made by George Litz. The circumstances of the case date back to the magis-tracy of the ex-Alderman, when Litz entered a suit before Heinrich against George Goetler to recover \$1 25 due for work done. Not much recover \$1.20 due for work done. Not much attention was paid to the case, but as it is claimed the Alderman did not pay over the money which Litz claimed, and as he heard a short time ago the money and costs in the case had been paid by Goetier, he made a demand on Heinrich, but was told, he claims, that only the costs had been paid. Later the ex-Alderman denied that he knew the parties to the suit.

Rainey has not the least lears of the strike or the threatened boycott. The tollowing 1s the circular issued to Rainey's employes yesterday:

"CFFICE OF DISTRICT 4 N. T. A. 135, "K. of L. U. M. W. of A., "SCOTTDALE, May 29, 1890. "To the Miners and Coke Workers Employed by W. J. Hainey, Greeting: "To the Miners and Coke Workers Employed by W. J. Rainey, Greeting:

"As almost four months have elapsed since the agreement was made under which all mines and coke works in the Connellsville region are operated, except those operated by W. J. Rainey, and after having repeatedly requested him to sign a similar agreement, said requests being ignored by Mr. Rainey, we feel that further forbearance upon our part not only ceases to be a virtue, but actually becomes a crime. Therefore, under the circumstances, we feel justified in resorting to the most stringent measures allowed by our organization in that the ends of instice may be attained.

"Therefore, we hereby order you to quit work Wednesday evening. June 4, not to resume work until Mr. Rainey signs the agreement.

The men seem determined, and if a strike occurs at Rainey's mines the men in others are likely to strike for the same cause.

FLINT SCALE UNSETTLED.

Final Action Postponed Until After the June Convention.

The flint bottle scale remains unsettled, and final action on it has been postponed until after the coming convention of the American Flint Glass Workers' Union in Baltimore, which takes place there in July. There have been two or three conferences between the mant facturers and the workers' committees, and the various items in the scale have been discussed, and each side has proposed the changes and amendments desired by their respective associations.

It is understood that there are several im-

It is understood that there are several important changes submitted, among others an increase on several points by the workers, which the manufacturers are not willing to concede. The manufacturers want a reduction on several items, which the workers will not allow. In fact the exact position of either side has scarcely been fully defined, for the reason, it seems, that the committees had not been instructed definitely as to the will of their associations. iations.

Mr. Whitman, who has attended 11 of the 15 annual conventions held by the association, was seen last evening. He declined to talk about the scale, but would not deny that the advance is to be asked for. He said the iron and steel industry is in a prosperous condition in the West, and intimated that the manufacturers ought to be able to pay the small advance asked for.

STILL HANGING FIRE. The Fight Between the Musicians and the K. of L. Remnins Unsettled. It is uncertain about the settlement of the Musical Union difficulty. When the Musical Union made the proposition that if all mem-bers in the Knights of Labor who had been suspended from the union should be reinstated and secure withdrawal cards no objections would be raised against them in the future, it was supposed the trouble would come to an end. The matter has been referred to a committee

The matter has been reterred to a committee. That committee accepted the proposition of the Musical Union, and so notified them, requesting at the same time a list of those who had been suspended. Each lady carries a note book, and all incidents of interest are promptly recorded, and on their return home their notes are published in pamphlet form for future references and as souvenirs of the trip. Accounts of previous excursions are very interesting. The notes taken on their Morgantown trip will, with those of a tour taken not long since, be printed soon. Twelve of the party remained until Monday, and the remainder left Thursday and Friday last. It is a sociable and cultured organization, and Morgantown extended to them her usual hospitality.

Below are the names of the members of the party who remained in town until Monday. Mrs. Dr. A. Easton, Mrs. A. M. Watson, Mrs. W. F. Casey, of Allegheny; Mrs. Henry Werner, of Claremont; Mrs. A. A SENSATIONAL SUIT ENDED. After Living Together for Over Twenty Years an Ohio Couple Separate. Youngstown, May 29 .- A sensational suit was recently commenced here by William T. Davis, of the Commercial House, against Ann Auskins, who had been living with him for nearly a quarter of a century as his wife, though they had never been married. The couple had accumulated a large

amount of property which had been placed in her name, and as she refused to divide, he commenced suit.

The case was settled this morning by Mrs. Davis, as she is known, by executing deeds of certain property to their two sons, and signing an agreement to pay him \$30 per month as long as he lived, and the two sons are to pay him \$10 per month. After the settlement Mrs. Davis and W. T. Williams left on a train for Cleveland, the home of

his relatives, stating they would be married to-night. Williams is a merchant here, and has been a widower for a year.

WAR OF MIND AGAINST MATTER.

Result of a Challenge Issued by the Western University.

If ever the sun shone on Allegheny it should do so to-day, for it will witness an event which in the centuries to come will be classed with the classic contests of Greece in her palmy days. This is the date fixed for the tournament of brain and brawn between the under-graduates of Geneva, Westminster, Washington and Jefferson colleges and the Western University. The contest is the result of a challenge issued by the under-graduates of the Western University of Pennsylvania to the under-graduates of all the regularly chartered colleges of

Western Pennsylvania. At 10 o'clock this morning two delegates from each college will meet in the Western University building and form an Inter-Collegiate Oratorical Association. The representatives of the different colleges will then proceed to the Recreation Park, where men of brawn will engage in a game of base

At 1:30 P. M. these stalwart youngsters will repair to Exposition Park, where they will contest for prizes. Each contestant will wear throughout the different events of the day the number preceding his name, which will show which college he belongs to, as follows: Geneva College, Nos. 1 to 3; Westminster College, Nos. 4 to 14; Washington and Jefferson College, Nos 15 to 31: Western University.
