The procession to the Monongahela House was led by the police squad. Then followed the Great Western Baud and Company G. The President and Mayor Gourley followed by Company A. Then came Score-tary Windom and Postmaster General Wanamaker in one open carriage, Secretary Rusk and Mr. Halford in another. The members of the local committee occupied covered carriages. At the hotel breakfast was served in a private dining room.

Governor Campbell and party were neglected, and, hiring their own carriages, drove to the hotel. The party consisted of Lieutenant Governor Marquis, Major General Hawkins and wife, Adjutant General George T. Groesbeck, Colonel Spangler and wife, Colonel Brealer and wife, Colonel Herman, Colonel Huffman and Colonel Denver

At 8:45 the party proceeded to Mechanical Hall in the same order as that observed in mov-ing from the depot. The route was by Smithfield street, Fifth avenue, Liberty avenue and Duquesne way. A good many people were on the streets. The postoffice windows were crowded and many people waved handkerchiels from other windows. President Harrison often litted his silk hat.

THE IRISH BLOOD MIXED.

Speaking of the Irish people proper he said that he did not think there were any pure Irish. The Spanish, English, Norwe-gians, Danes, etc., had mingled with the people at different times. The Irish, how-ever, are kind, gentle and painstaking and the Scotch-Irish should give them credit for the influences, directly and indirectly, they have had on those who lived so long among them. England has put much upon them

and has been paying for it ever since. Returning to the Ulster people, he said they have made a gratifying progress, and it has been due to the difficulties they had to contend with that aroused their natures. They had sterile soil, oppressive landlords,

difficulties in education, etc., but have sur-mounted all. As to the good things this Congress will do, he said it would make a wider circle of friends, who would know, understand and trust one another. Mis-taken impressions would be corrected, new and good impressions would be made, and the character and good of the Scotch-Irish would be understood. RESULT OF THE CONGRESS.

## COMING OF THE CAMPBELLS.

A HEARTY OVATION TENDERED THE GOV-ERNOR OF OHIO.

He Addresses a Large Audience at the Morning Session of the Congress-His Notes on the Scotch-Irish of Ohlo-A Paper by Dr. White,

After the President left Mechanical Hall the congress was called to order by President Bonner. Prayer was said by Rev. Dr. Ferguson, President of Westminster College. Mr. Bonner then introduced Governor James E. Campbell, of Ohio. The Governor is above medium height and trim in figure. He was neatly dressed in dark gray, his coat being a cutaway. He is bald, and the top of his head was very red. His eyes are keen and flash with humor. His mustache is small and growing gray. His voice is not very strong, but is pleasant and clear.

Governor Campbell was given a long ap-plause by hand-clapping. Many people hammered on the floor with their beels and a few cheered. He explained that at Cleveland, on Friday, he had been on horseback, and was so often compelled to raise his hat to the beautiful women along the line of procession that the sun blistered the top of his head.

## GOVERNOR CAMPBELL'S REMARKS.

He read from type-written manuscript, his subject being "The Scotch-Irish in Ohio and the Northwest Territory." He noted that the race had never received credit in history for what it had done in Ohio, though other nationalities who settled that State had copious records. He then referred to the accomplishments in Ohio and the Northwest of Captain James Rogers Clark, the Scotch-Irish explorer, whom some historian had called "The Hannibal of the Northwest." The Scotch-Irish entered Ohio by two lines, one by Pennsylvania and New York and the other from Virginia and the Carolinas. Arthur St. Clair, a Scotch-Irishman, was made the first Governor of Ohio under President He said the Scotch-Irish Washington. Governors of Ohlo were in the mojority. The race gave 17 Justices to the Supreme Court and many Congressmen, from William McMillen to William McKinley. He said: "No Presidental Cabinet has been complete without a Scotch-Irish member from Ohio." The Governor then seferred to the Ulster theologians, artists, journalists, scientists and soldiers of the Buckeye State, and concluded:

### COULDN'T LEAVE ANY OUT.

"I know that to those of the audience who are not Ohioans, all these details are neces-sarily a little tedious. But I also know the Ohio Scotch-Irish, and if I omit any of them grandfathers or great-grandfathers, I can't go back across the Ohio river, according to programme

ocas until evening.

Rev. Dr. Henry Alexander White, Professor of History in the Washington and Lee University of Virginia, read a paper on the history of that institution, and the work of the Scotch-Irish in the Old Dominion. He said it was at Bethel Church, Va., in 1785, that the Presbyterians uttered a protest against the support of religion by civil taxation, which led to the separation of Church and State in this country. To that protest 10,000 names were signed, and it was presented to the General Assembly. The bill for taxation to support the Church was defeated, and a few months later the General Assembly enacted religious free-dom. After this paper the society took a re-
