

CARLISLE'S DOCTRINE

The Newly-Fledged Senator Makes a Bold Assault Upon the GOVERNMENT WAREHOUSE SCHEME It Would Greatly Injure Instead of Benefit the Farmers. JUST A HARVEST FOR SPECULATORS

WASHINGTON, May 31.—To B. F. Howard, of Tuskegee, Ala., Senator Carlisle has written a letter in response to Mr. Howard's request for the Senator's views upon the bill providing for a system of Government warehouses for farm products, upon which product bounty rates may be issued. Senator Carlisle says that Mr. Howard's statement that he and those associated with him are in "favor of equal justice to all and special favors to none," embodies sound Democratic doctrine, and if it had been strictly adhered to in Congress in the past 25 years the evils of which farmers and others justly complain would have been averted and the whole country would now be prosperous and contented. The Senator then says: "But the farmers have been taxed so long for the benefit of other classes, and have seen so much legislation for the aggrandizement of corporations and syndicates, that their patience is exhausted, and finding it impossible for the time being, at least, to abolish the system which has oppressed and despoiled the industrial interest of the country, they are now demanding that the very policy which they have heretofore announced as unjust and untenable shall be applied to the benefit of a part of them, for no scheme has yet been suggested that would operate alike to the benefit of farmers. But no evil can be corrected, no wrong can be righted by increasing its magnitude and extending its scope to other classes. There is but one effectual remedy for the evil which unduly exists, and that is to reverse the policy which produced it."

SOME GRAVE OBJECTIONS. The Senator, after rehearsing the features of the proposed sub-treasury plan and noting the facts that the farmers themselves will pay more than their fair share of the cost of erecting the warehouses, and that the officers connected with them will be partisans of the administration in power, says: "There are more than 2500 counties in the United States, but not more than one-third of them, it is estimated, produce and sell annually more than \$500,000 worth of wheat, corn, oats, cotton and tobacco, and therefore not more than one-third of them could possibly benefit by the plan if it were adopted, for the bill provides that a county, in order to secure a warehouse, must produce and sell annually farm products valued at \$500,000. It will be seen, therefore, that at the very outset it is a plan to counsel the Government to issue and distribute money for the benefit of the people living in the rich and productive counties at the expense of the people living in the poorer and less productive ones. Moreover, it is a plan to enable unscrupulous speculators to take advantage of the farmers' pecuniary necessities and extort exorbitant prices for their share of the proceeds of the labor and expense of transporting their products to the public warehouses and of all the other charges which they must pay for storage, for handling and for taking care of them while there, when he has bars and granaries at home, unless he is in debt and absolutely needs the money which the Government is to advance, and if he is in that unfortunate condition, from what source is he to acquire the means to redeem the products by returning the money and interest and paying the warehouse charges?"

A BUGGY STRUCK BY LIGHTNING. A Young Lady and Gentleman Have a Close Call. CONNELLVILLE, May 31.—A buggy containing Charles Demuth and Miss Flora Myers of this place, who were returning from Uniontown last night, was struck by lightning. The vehicle was demolished and Demuth and the young lady were quite seriously hurt. They remained unconscious for over an hour, but will recover.

Ugly Remors Afloat. CONNELLVILLE, May 31.—The friends of W. S. Barrows, an insurance agent and manager of the Connellville Baseball Club, are inquiring for him to-night, as there are ugly rumors on the street in reference to his actions which cannot be confirmed.

A STRIKING POINT. In a great majority of cases he will never be able to redeem them, but will be forced to lose the remaining 20 per cent of the value of his products or sell his warehouse receipts for whatever he can get for them, which will be very little, for it must be remembered that

after he gets his warehouse receipts he has a remaining interest of only 20 per cent, less charges for interest, storage, etc., and this all he can dispose of. He will find the time rapidly approaching when he must have money to redeem his products or sell his small remaining interest in them, or allow the Government to public auction by the Government, and this will be the golden opportunity of the speculators, whose agents will appear all over the country, ready to take the warehouse receipts from the embarrassed owners for a merely nominal sum. The receipt is simply a privilege of redemption, like a pawnbroker's ticket, and the farmer, being himself unable to redeem, will be forced ultimately to dispose of it at any price offered. Do not think that any considerable number of intelligent people in this country will unite in asking the Government to establish a system which will compel them, in a large number of cases, to sacrifice the products of their labor. Senator Carlisle argues at some length to show that the plan proposed would produce an annual expansion and contraction of the currency which would result in absolutely destroying the market upon which the farmer must depend for the sale of his crops, and that the cotton farmers, who are supporting the scheme, would be sufferers because the plan in the writer's estimation would close every cotton factory in the country. He adds:

FOR SPECULATIVE PURPOSES. No such factor as this project will afford for controlling the markets for purely speculative purposes has ever existed in this or any other country, and no more perfect system for the oppression of the poor could be devised. The exact quantities of products on deposit in the several public warehouses will be known in every commercial and financial center, and the combinations to purchase and hold the receipts could be easily made, especially when they can be procured by the payment of a small per centum of the value of the deposit. I have thus given you as briefly as the nature of the subject would permit, some of the reasons why I think the proposed plan for the relief of the farmers would be injurious instead of beneficial, not only to them, but to all other people of the country. But it would be uncharitable not to say to you before closing this communication that even if it could be conclusively shown that the similar scheme would be peculiarly beneficial to any particular class of people, I would still be unalterably opposed to its adoption, because, in my opinion, it would be but another wide and dangerous departure from the principle upon which our political institutions are founded. It would be in fact the longest step yet taken in time of peace toward the consolidation of power in the hands of the Federal Government, and the subjection of the private citizen to the arbitrary power, supervision and control of a central and irresponsible authority. You and I are Democrats, and as such we believe that the Government should scrupulously abstain from all unnecessary interference with the personal and domestic concerns of its citizens and confine itself strictly to the administration of purely public affairs. It is a cardinal principle of our political faith that the people are best governed when they are least governed, and that they are most prosperous and contented when left to the free exercise of their own judgment in the management of their own business, subject only to such reasonable regulations as may be necessary to preserve the peace and good order of the community. These propositions are fundamental and we cannot abandon them without repudiating all the traditions of our party and all the distinctions between constitutional government and paternal despotism.

REALLY BLEW HIS HEAD OFF. A Suicide's Body Found Near Sedgley Guard House in the Park. PHILADELPHIA, May 31.—Lying in a clump of bushes near the Grant Log Cabin, on the northern slope of Lemon Hill, in Fairmount Park, yesterday morning was found the body of a suicide. The discovery was made by William Meiers and Alfred Uf, barbers, 922 North Twenty-ninth street, who were strolling through the park. Word was sent Captain Chastean, of the Park Guard, at Sedgley, which is but a short distance northeast of the point where the body was found. The stranger had discharged a large dragon pistol into his mouth, blowing off the top of his head and all of the face above the jaw. Captain Chastean found an eye, the nose and a portion of one cheek some distance from the body lay. There was nothing in the possession of the suicide to disclose his identity. It was impossible to form any idea of his age, but he is 5 feet 6 inches in height, weighs 130 pounds, apparently of dark complexion, and wore a brown plaid suit of clothing and a black Derby hat. It is thought strange that the report of the revolver, which must have been very loud, judging by the size of the weapon, was not heard at Sedgley Guardhouse.

TOO BUSY TO GET IT READY. The June Jail Calendar Not in Shape to be Published. Owing to a press of business at the jail office during the past week, it was found impossible to get the jail calendar for the June term of court ready for publication today. Warden Berlin stated last night that there are 170 court cases. Among them are a number of murder cases. The calendar will be ready for to-morrow's issue.

The Revolver Was Loaded. WHEELING, May 31.—About 4 o'clock this afternoon, while Eddie Leach, aged 8, was fooling with his father's revolver, the weapon was discharged. The ball passed through his right lung. He is in a very critical condition.

NEW ADVERTISEMENTS. 150 CASES OF CATARRH Successfully Treated by the Catarrh Specialists at 323 Penn Avenue During the Past Week. That the public have come to fully realize that the Catarrh and Dyspepsia Institute is the only institution in Pittsburgh where Catarrh is permanently cured is proven by the rapidly increasing patronage which it is receiving. From early in the day until late at night the parlors are filled with patients. The hundreds of testimonials that have been published in the daily papers are from patients who have suffered from Catarrh in its most aggravated chronic form, and which, in some cases, had developed into consumption. A very satisfactory coincidence is that a large proportion of patients who apply for treatment were recommended by their friends who had been permanently cured at this medical institution. Mr. Fred Hahn, a resident of Sharpsburg, and well known throughout Allegheny county and Western Pennsylvania, has for years been a victim of Catarrh and dyspepsia. His stomach gave him an endless amount of trouble. He had belching of gas from his stomach after eating, sour taste, and often felt like vomiting his food. His appetite was poor, and as his liver was much enlarged it gave him great pain. In fact, he would often be taken with such sharp cramps across his stomach and bowels it seemed as if he could not live. He had palpitation of the heart, dizziness, weakness and pain across the small of his back, and a numb, lifeless feeling in his legs. He could get but little rest, and every change of weather gave him a cold, he took on a lingering cough. His breath became short and he felt pain and soreness in his lungs and under his shoulder blades. Night sweats washed him, and he gradually grew worse until he lost 30 pounds of flesh.

NEW ADVERTISEMENTS. W.M. GRABOWSKY, Fashionable Hat and Bonnet Hoacher and Gaiter Feather Dyer. Having a wife and two small children whom he dearly loved, depending on him for a living, and having spent all his money in doctoring to no avail, not being able to work, he became discouraged and disheartened, and often became so melancholy that he would feel tempted to jump into the river and thus end his suffering. One day he noticed in the paper an account of a patient who had been cured by the catarrh specialists at 323 Penn Avenue. He had but little faith, he resolved to try once more, and after taking a course of treatment became cured. He says: "The above history of my disease and cure is true in every respect. I had received treatment from physicians, yet gradually grew worse, and for one year before beginning treatment with these physicians I was scarcely able to do any work. I have now worked hard for the past two months, feel well and strong, and would do but little more if I had not my life has been spared and health restored. I hereby sign my name, FRED HAHN."

But the mere knowledge of the price conveys nothing. To form an idea of the true cheapness of these Suits you must see them. Their cut and style is fashion itself, while the materials are of the very kind the careful dresser, the sensible business man, the economical mechanic most desire. If you can't attend this sale personally, send your order by mail, telegraph, telephone or messenger. State your size and about the kind of goods you desire, and we shall try our best to please you. GREATEST SUIT SALE ON RECORD! KAUFMANN'S \$8.90. Enclosed we hand you invoice for the balance of our Spring and Summer stock, consisting of 4,215 Men's Suits, closed out by Mrs. Isaac Kaufmann, while in New York last week. Very truly Yours S. J. Werner

KAUFMANN'S \$8.90. Have frequently had the pleasure to surprise their patrons with great and wonderful offers, but the present instance fairly overtops and overthrows all former events. Beyond our SPOT CASH offer, Messrs. S. & J. Werner mention no cause for their "anxiety to effect this transaction." But neither the public nor ourselves care about that. We have chiefly to do with the EFFECT. At any rate, this great purchase places us in a position to offer you CHOICE FROM 1,940 MEN'S FINE ALL-WOOL FROCK SUITS, Manufactured to retail at \$14, \$15 and \$16, FOR \$8.90. Blarney Tweeds, Bannockburn Cheviots, English Serges, extra fine Domestic and Imported Cassimeres and Worsteds are some of the materials these Suits are made of. Our competitors who bought these Suits at the start of the season, and at regular prices, actually paid \$3 to \$4 more per Suit than we offer them to you now. This fact demonstrates the utter impossibility of other dealers to even approach—let alone match our prices. But why compare? Where facts and figures are so plain, where letters and logic are so clear, comparison is out of the question.
