

the State law defining public nuisances and An attempt was made to seize the coal forbidding the sale of liquor to minors and and sell it for taxes while it was still in its habisual drinkers, the County Attorney original state of shipment. In its decision the court held the coal had become of the general mass of property in the State the moment it arrived at its destination and caused the arrest of six original package housekeepers on Thursday, and Judge Guthrie sent them to jail and ordered the thus subject to taxation. establishments closed.

The attorneys for the prisoners went before Judge Foster, of the United States Court, who immed ately issued writs of habeas corpus, which were served at once on the Sheriff. This officer, acting under the advice of the County Attorney, took advantage of the law giving a Sheriff three days in which to make his return on the writ. ALL RELEASED ON BAIL.

corpse was found floating in the river near Rising Sun, Ind. On the body was a watch and ring both bearing the initials R. The prisoners were therefore obliged to remain in jail from Thursday until this afternoon, when they were taken before Judge Foster, who released them under bond of \$300 each to appear in court. The Judge announced his intention of looking into the merits of the original package badiy decomposed the features could hardly be recognized. It was supposed a murder had been committed, the presumption being that young Edwards' body had been found decision and the relation it bears to the State enactments, and will render a decision after sufficient examination has been made. In the meantime the county officials say they will continue making arrests under the State law and imprisoning offenders until the business of liquor selling is made

"The original package dealers are not here because there is not any possible law permitting them. It is only because of the absence of any law on the subject. The constitution says the States must not interfere with inter-State commerce, but it does not say liquor must be sold. These liquor stores nre public nuisances. The people have a right to protect their own homes and families, and in the absence of any statute law on the subject they have a natural right to use force." Complaint was filed to-day against Charles Jackbeck, a package dealer who was not included in the list of arrests ou Thursday. Jackbeck opened business this week with a stock of over 2,000 original packages of various sizes and descriptions. He is the agent of the M. Chandler Bottling Company, of Kansas City, and he has one brand of whisky put up in pasteboard boxes fastened with a cotton string, which, in the half-piut size, is the smallest packages yet introduced in Topeka.

sults of their work will be known.

The eleventh census of the United States will show marvelous growth in Pittsburg

and Allegheny, and in the county. In 1880 the population of Pittsburg was 156,389. The estimates made by men who give atten-

tion to public matters and improvements vary from 230,000 to 260,000 for this year. A population of 240,000 will be an increase of

tated the question of reforms in the land, school and religious system In 1880 the real estate valuation of Pittsburg was \$93,728,000. In 1890 it is fixed by

CROWDED WITH CUSTOMERS.

Jackbeck's place was so crowded with customers at the time the papers were served on him that the Sheriff had difficulty in squeezing through. Sales are still being made at other places in the city, where sufficient evidence has not accumulated to warrant an arrest. The dealers have formed a combination to find their rights and carry the cases to the highest courts.

The Prohibitionists are determined to enforce the State law until some new law is provided by Congress, and are very indignant over the presence of the Kapsas City agents in defiance of the public sentiment of the community. The Daily Capital, the temperance party's organ, has a double-leaded editorial urging the local officers to prosecute offenders regardless of the Supreme Court decision. It says: "These agents come to Kansas to break down the good work of years and to build a defense for the open saloon which their Kansas supporters, the Resubmissionists are trying to make possible. The saloon knows

NO LAW, HUMAN OR DIVINE.

except force. It obeys no mandate of man or court that does not menace it with the county jail. The man who sells liquor over a counter, whether under the guise of an original package agent, a barkeeper or the sneaking proprietor of a subterranean joint, is an enemy to the good order of every community. Don't An Ithaca Young Man Severely Intered on make any mistake and resort to mob law, but put these scoundrels on the wheel of the law and break their backs with continual prosecution. Stand by your County Attorneys, your Sheriffs and your Judges. Go into the contest to remain in it until no agent will dare to open a house for the sale of liquor in any size package. The people of Kansas have no war to make upon the United States Supreme Court. Congress will take care of that. Your business is to take care of our own affairs here in the State, and to enforce the statute laws we have that will reach these agents, their proprietors or the men who rent them buildings. The temperance people of Kansas should stoud shoulder to shoulder and drive they rder ruffians

NO EXTRA SESSION

The Call for the Nebraska Legislature Nullivestibule of a car, and both of whom in the shock had been hurled against the brass fled by the Governor.

lattice dividing the ante chamber of the car, the Southern man having been hadly hurt about the knee, said warmly: LINCOLN June 1 .- The proclamation of Governor Thaver revoking his call for an extra session of the Legislature was made "My daughter, who is an invalid, had in-tended to take this trip with me, and it is public to-day. public to-day. The reason assigned for this action is that the legality of the acts of the Legislature convened under his recent call would be questioned and might be entirely nullified

B'NAI BRITH CONVENTION.

The United States, Germany and Reama Represented.

RICHMOND, June 1 .- The guinquennial onvention of the Independent Order of B'nai Brith assembled here to-day, the States of the Union and Germany and Roumania being represented by some 80 delegates. Senator William Lovinstein, of Rich-mond, was chosen permanent chairman.

very large increase in the glass manufactur in the city, but outside of the city, in the county, the plate glass industry has been created since 1880 with at least \$5,000,000 in-vested in real estate and machinery.

In comparing the school statistics there is a remarkable discrepancy between the estimated percentage of increase in population and the estimated increase in percentage of enrollments in the public schools. In 1880 there were 24,325 school children enrolled. In 1890 there are 30,000. The increase in ten years is only 23 per cent. It is estimated that there are now at least 4,000 children in the Roman Catholic Church schools who do not attend the public schools.

COMPARATIVE SCHOOL FIGURES.

The following comparative school figures re from the reports for 1880 and 1890:

1890. 1880. Number of school houses. 68 613
 Number of teachers
 467

 Number of pupils
 24,325

 Value of school property
 52,600,600

 Annual cost of schools
 425,000
30,000 \$2,239,000 675,000

The following are comparative figures on the municipal finances, given in round numpers, from the Controller's reports:

\$200.000.000 4,000,000 3,650,000 18,200,000 1,876,000 In 1880 there were 113 miles of water pipe in the city. There are now 200 miles of pipe. Ten years ago the daily consumption or water was 16,000,000 gallons. Now it is 39,000,000 gations daily, an increase of 144 per cent. This exceeds largely the ratio of highest possible increase in population. It means that manufacturing establishments use more water, that the number of eleva-tors run by water has largely increased pro-

portionately, and that a great amount of water is used on the numerous paved streets. parks and lawns which have come into existence during the decude. There are 176 ele-vators, using 275,000,000 gallons of water a

THE GROWTH OF ALLEGHENY.

In 1880 the population of Allegheny City was 78,682. Now it is estimated at from 115,000 to 126,000.

One of the most notable lines of improve-ment is in the traction roads of the city. Ten years ago there were no cable or electric roads in the city. Now there are three cable and two electric lines in successful operation, with more soon to follow.

In 1880 there were 24,289 dwellings in Pittsburg. Now the annual increase in the number of dwelling houses is over 2,500. showing that the city is gaining in dwellings at the rate of as many in ten years as there were altogether in 1880. During 1889 3,265 buildings of all kinds were erected in Pittsburg, of which 1,212 were brick, 23 stone, 49 iron-clad and 4 iron. The total value of the building operations last year was \$6,845,000. During the year there were put up 14 churches, 9 foundries, 6 banks and 20 warehouses.

FIGURES OF A STATISTICIAN.

MR. GEORGE H. THURSTON GUESSES 525,000 FOR THE COUNTY.

He Says Accurate Returns on Business Will be Hard to Secure-What He Has Observed for Three Decades-Arguments for Consolidation. Mr. George H. Thurston, a well-posted

gentleman, when asked his views on the

subject of Pittsburg's growth in the past

ten years, said: "It is difficult to give any

estimate of the population of Pittsburg in

1890. The facilities for local transit have so

increased in the past decade that the growth

of population has overflown into the suburbs,

while the city has not enlarged its bound-

aries. I would rather give a guess as to the

population of the county. By the census

there was in 1870 a population of 199,000

in the two cities and the borough so imme-

diately adjoining that only a surveyor's line indicates where the city
