OLD MINES REVIVED.

Money Made in Working the Claims Long Since Abandoned

WITH THE IMPROVED METHODS.

Other Valuable Ore Beside Silver and Gold Now Discovered.

PROJECTS OF ENGLISH SYNDICATES

SEPECIAL TELEGRAM TO THE DISPATOR. NEW YORK, June 1 .- The following re ports have been received from the leading

mining centers of the West : SAN FRANCISCO-Many of the abandoned quartz lodes in Sierra and Nevada counties are being reopened and prospected below the old workings, and with modern methods and improved systems of mining and milling, some of them are again becoming paying properties. In Nevada county are a half dozen lodes that produced from \$250,000 to \$500,000 from near the surface, but as soon as a poor streak was encountered work was stopped and the mines have been idle for years. Deep mining was not considered necessary or profitable in early days, and with one or two exceptions, none of the gold quarts mines was sunk more than 500 feet. The Gold Tunnel mine, for example, has been idle for ten years, but is now being reopened and sworked on tribute. Thirty-six tons of ore recently taken out from below the old levels yielded \$1,515, or over \$42 per

The Alaska mine in Sierra county ought to have paid, but it was badly managed, got into debt and was sold by the Sheriff two years ago to satisfy liens for labor. One hundred of the employes bought it in for \$50,000, but having no working capital they could not operate the mine. The heavy snows of last winter crushed the buildings, the mine is full of water, three-fourths of the miners have left the camp and a mine that could be made to pay with good management is now a wreck. A large body of \$50 ore has been struck in the Pacific mine at Plymonth, Amador county, and other mines in the vicinity are showing improve-ment that promises prosperity in the dis-

NOT GETTING RICH.

The development work is completed on the Mayflower mine. Placer county pay the Mayflower mine. Placer county pay gravel has been struck again, and the mill will start up in a few weeks. During the last 13 years the Mayflower Company has expended \$1,256,000 and produced \$600,000 worth of bullion. The sale to a syndicate of London capitalists of mining claims covering nearly two miles on Feather river, near Oroville, is to be followed at once by the establishment there of the largest mining operations in California. The bed of the river at this point was proved to be fabu-lously rich in gold over 20 years ago, and un-told wealth is believed to have been deposited there during the ages in which the waters which make up this stream have been sluicing the mountain sides. The location is right in the midst of the richest of

gravel deposits in this State.

The entire river is to be diverted about a mile and a half by means of a dam and canal. The remaining water will be pumped out, and the bed of the river aluiced. Connected with these mining operations are to be large irrigating works extending over several hundred thousand acres. The purchase includes the Old Cape, Union Cape and Creek mining claims, which end about a quarter of a mile shove Oroville. In 1857 extensive works were erected on these claims, and in 40 days \$1,000,000 were taken out of Old Cape, and \$250,000 out of Union Cape. Then a flood destroyed these works, and active operations

DISCOVERY OF ANTIMONY.

VIRGINIA CITY-A valuable antimony mine has been located in the Toiyabe Mountains, Lander county, 15 miles from the Nevada Central Railroad. The vein is of great width and carries 60 per cent of metal. The owner found the mine 27 years ago, and thought he had struck silver, but when he learned that the metal was not silver he dropped the location in disgust. Antimony being in great demand now, the ore is worth about \$60 a ton, loaded upon cars, and the owner is glad to take up his locat on again. Some beautiful specimens of ore, showing d plainly, are daily selected from k taken from the Reeser tunnel Rocky Bar, which is pushing into the mountain energetically by Richan & Cronin. At Rocky Bar, Pearson, Alexon & Adams have been pushing devel opment work all winter in the Queen of the West. They have in their lower tunnel followed the ledge a little over 300 feet into the hill, and the race of the tunnel, which is 110 feet below the surface, is now in a body of ore six feet in width, that prospects remarkably well in gold. From 18 to 24 inches is very rich and has yielded by working process over \$40 per ton. It is asserted that the vein that fed the noted Alder Gulch, in Montana, has been discovered Over \$60,000,000 has been taken from the placers of that gulch.

AN IMPORTANT STRIKE.

SILVER CITY-A strike has been made in the Emporia mine at Crafton, in the northern part of Sierra county, which may make it an important gold camp. The vein is about 20 feet wide, but the pay streaks, of which there are several, are narrow. The rich, and not unlike that found last summe on the Cuchillo, in Sierra county, which for a time caused a great deal of excitement. These ore streaks, however, proved to be too narrow to work profitably, but in the Emporia, where several are found in the same vein, they will undoubtedly prove remunerative. The northern part of Sierra county has been steadily coming to the front as a mining region for three or four years, but very rapid strides have been made there within the past six months.

DENVER.—Workmen in the Early Bird at White Pine, on last Saturday struck a body of low grade manganese ore. The old find near Red Cliff seems to be similar to the Farnsenet Hill find. Placer yields show that the gold released from the local veins has not traveled, nor has it been much wash worn. There is more activity in San Juan county and Bed Mountain than for a num-ber of years, and the output of ore is the largest ever known at this season of the year. The output for the year promises to be double that of former years. The daily output is mearly 100 tons. Nearly all the hig producers in Ute Creek, near Idaho Springs, have been compelled to curtail their output owing to the prevalence of a large quantity of water caused by melting snow. A similar state of things exists in a number of other prominent camps, and it will require sevdone away with. A telegram received here from Granite announces the discovery of a foot vein of silver ore in the Creole. The new mining developments going on in the heart of Leadville are proving a great success. The New Discovery is now down 115 feet and is in fine ore. The management of the Elk met fine ore. The management of the Eik met lime on Monday after sinking a distance of 235 feet. A fine body of ore has been encountered in the Big Six which will prove most remunerative for the lessees. The Excelsior, Myrtle and Juno claims, which are known under the title of the Excelsion group, it is expected, will shortly be celsior group, it is expected, will shortly be purchased by

A LONDON SYNDICATE for a half million. Negotiations are now pending. Over 200 tons of argentiferous iron ore has been shipped out of the Big Pittsburg so far this month. TUCSON—Mr. H. D. Jenkins has just re-

turned from England and comes back as the manager for a wealthy syndicate. His company intend investing large amounts of capital in American industries and will a: once establish an office in San Francisco.

This company have in view as their first venture a valuable piece of mineral land in Mexico. The Barrance Company's mines of Santa Clara, Sonora, have been bended for six mouths for \$200,000. The men who have the bond will construct a railroad from Guaymas to Coal fields. They expect to begin work fields. They expect to begin work on the road within six months. The road will pass through a country rich in gold and silver and capable of being opened up on a large scale. The work on the Mammoth mine is going ahead smoothly, and the greatest depth was reached last week when they reached the 500-foot level. On making a cross cut at the 300-foot level, On making a cross cut at the 300-foot level they met a vein 33 feet wide and of remarkable richness. Every new point demonstrates the fact that the mine is a mass of veins of the

> FOR NERVOUS DISEASES. Use Horsford's Acid Phosphate.

Dr. F. G. Kelly, Alderton, W. T., says: "I have prescribed it in a large number of cases of restlessness at night, and nervous diseases generally, and also in cases of indigestion caused by lack of sufficient gastric juice of the stomach, with marked success, and consider it one of the best remedies known to the professional world."

BEWARE OF IMITATIONS

THE WORLD'S FAIR AND RELIGION. An Immense Tabernacle Suggested for Con-

certs and Religious Exercises. CHICAGO, June 1 .- The Rev. David Utter has a proposition for the World's Fair. He says: "There should be on the fair grounds a great tabernacle, wherein say 20,000 people might assemble, which could be used week days as a concert hall, but Sunday it should be used as a great temple for the religiously-inclined of all faiths.

"The services might go on all day, say, at 9 o'clock Sunday morning a representative Scandinavian minister might preach and the hymns, prayers and all be in that language. Then at 11 o'clock might be an English preaches of English preacher of a particular denomination. At 2 o'clock there could be a French service; at 4 o'clock a German service and so on all through the day, the different de-nominations having their turn and the different languages a regular hour. I doubt if the Roman Catholics would be willing to enter into such a com-pact, but it would undoubtedly be a great treat to hear some of their famous pulpit orators if it could be arranged so that they could assist at a celebration of the mass acrite or any of the rarely seen rites of the Eastern Catholics in the Roman obedi-

MILITARY COMPETITIVE DRILL.

Over 2,000 Soldiers Expected at the Kansas Inter-State Contest. KANSAS CITY, June 1 .- The inter-State military and competitive drill begins here to-morrow. The numerous prizes have attracted many of the crack companies all

tracted many of the crack companies all over the country, and preparations have been made for an attendance of 2,000 men. The camp was established to-day on the grounds of the Kansas City Trotting Association, and was named Camp Holmes.

The visitors will be housed in 500 tents loaned by the State of Kansas, and Adjutant General Robbins, of Kansas, will be the en-campment commander. A parade ground has been prepared directly in front of the grand stand.

Electric Storm in Ohio.

SANDUSKY, June 1 .- A thunder storm passed over this place yesterday morning and the telegraph switch-board in the Western Union was destroyed and the building damaged. James Truesdale's barn at East Monroeville was also struck and burned by lightning.

Dr. Flint's Remedy wards off death from those who have developed a "smoker's heart" through the use of tobacco, rendering that organ liable to rupture at any time. Descriptive treatise with each bottle. At all druggists, or address Mack Drug Co., N. Y.

In the Spring

Nearly everybody needs a good medicine. Th impurities which have accumulated in the blood during the cold months must be ex-pelled, or when the mild days come, and the effect of bracing air is lost, the body is liable to be overcome by debility or some serious disease. The remarkable success achieved by Hood's Sarsaparilla, and the many words of praise it has received, make it worthy you confidence. It is the "ideal Spring Medicine. "Last spring I was completely fagged out able all the time, so that I could hardly attend to my business. Hood's Sarsaparilla cured me, There is nothing like it." R. C. BEGOLE, Ed-

THE CENSUS-TAKER.

Are You Prepared to Intelligently and Correctly Answer Him About Yourself When He Calls?

rectly Answer Him About Yourself When
He Calls?

The census-taker will make his calls to-day. He will ask you many questions, among others, if you have property that is mortgared, and whether you are suffering from any acute or chronic disease. Do you intend to answer him, and if so, what will you say? Few people know their own condition and whether they are sick or well. Of course, they know whether they suffer from headaches, loss of appetite, sleep-lessness, etc.: whether they are in pain or free from pain, but whether this means disease or the coming on of disease they cannot answer. To all such let us say right here that these things do mean the coming on of disease. They are the indications of maiara in the system, which, unless driven out, will shorten the life and make it miserable. They are nature's protest and cannot be neglected with safety.

But the trouble with many people is that when these symptoms appear they do not understand what they mean, and so neglect them. They do not need any powerfall medicine, but they do require prompt assistance. How then can they best be assisted? By gentle stimulation. All the leading physicians of the day agree in this. A pure stimulant—whiskey preterably—taken in moderation, will tone up the system so that it can throw off the virus of coming disease. But just here is a most important point. The good effects of the stimulant employed depend absolutely on its purity. If it is not pure it poisons the system instead of assisting it, and here is where too many people make their great mistake; they do not discriminate. If you would know what to do under these circumstances, take the word of the highest authorities in the land. Prof. Henry A. Mott, Prof. William T. Cutter, Dr. Hutchinson and many other eminent men agree that for the qualities of purity and worth, nothing has ever equaled Duffy's Pure Malt Whiskey. These qualities are what render it so far superior to any and all otherso-called whiskey. They are the secret of its power. Under its influence the system ca

years of popular favor have proven and confirmed.

The question of what answer shall be given
the census enumerator is of less importance to
men and women than the question they should
ask themselves, namely: "In what condition
am I to-day? Am I perfectly sound and well in
body and in mino? Am I strong and vigorous,
and is life a constant pleasure to me? If so, I
am indeed happy, but if not, and I feel weary,
despondent, unhappy, I need—must have—
assistance." That the assistance required
should be pure, gentle and health-giving there
can be no doubt, and that the remedy above
named possesses these qualities has been proven
beyond a doubt.

JABBERWOCKY

(For Further Information see "Alice in the Looking-Glass.")

JABBERWOCKY is the title of one of the most nonsensical rhymes ever written. We have here used the whimsical word to catch your eye and direct your attention to some practical good sense.

WHERE TO BUY SHOES.

Never has Pittsburg been better supplied with Shoe houses. Ever since we started in our enterprising way to benefit the public, they have sprung up like mushrooms. It is one thing to lead and another to imitate. If the imitation is palpable the bright sense of the public will see through it very quickly.

Take a look into our Retail Stores and tell us what is your impression of our style of doing business. Do you see anything lacking, either in stock or means for doing a big trade? Or do you find any prices more satisfactory? As we bring the most Shoes into Pittsburg and dispose of them, too, it stands

to reason that we have ascertained the public wants. As we sell closer than others, we have gauged the public purse. As we cater to them in good style, Such a summer stock as we carry never entered the realms of leather, and we

have the confidence to know that the prices are popular-judging from the patronage increasing at all points. Before making all your preparations for the summer jaunt come and be

shod in a proper manner and at proper prices. It won't cost you snything to make a tour of observation at our stores.

150 CASES OF CATARRH GARPETS. Successfully Treated by the Catarrh Specialists at 323 Penn Avenue During the Past

Week.

That the public have come to fully realize that the Catarrh and Dyspepsia Institute is the only institution in Pittsburg where Catarrh is permanently cured is proven by the rapidly increasing patronage which it is receiving. From early in the day until late at night the parlors are filled with patients. The hundreds of testimonials that have been published in the daily papers are from patients who have suffered from Catarrh in its most aggravated chronic form, and which, in some cases, had developed into consumption. A very satisfactory coincidence is, that a large proportion of patients who apply for treatment were recommended by their friends who had been permanently cured at this medical institution.

Mr. Fred Hahn, a resident of Sharpsburg, and well known throughout Allegheny county and Western Pennsylvania, has for years been a victim of catarrh and dyspepsia. His stomach gave him an eadless amount of trouble. He had belehing of gas from his stomach after eating, sour taste, and often felt like vomiting his food. His appetite was poor, and as his liver was much enlarged it gave him great pain. In fact, he would often be taken with such sharp cramps and pain across his stomach and bowels it seemed as if he could not live. He had a palpitation of the heart, dizziness, weakness and pain across the small of his back, and a numb, lifeless feeling in his limbs. He could get but little sleep, and as every change of weather gave him a cold, he took on a lingering cough. His breath became short and he felt pain and soreness in his lungs and under his shoulder blades. Night sweats weakened him very fast, and he gradually grew worse until he lost 30 pounds of flesh. ANCHOR LINE

Mr. Fred Hahn,

Having a wife and two small children whom he dearly loved, depending on him for a living, and having spent all his money in doctoring to no avail, not being able to work, he became discouraged and disheartened, and often became so melancholy that he would feel tempted to jump into the river and thus end his suffering. One day he noticed in the paper an account of a patient who had been cured by the catarrh specialists at 323 Penn arenue of conditions that seemed similar to his own. He resolved to call on these specialists. He did so, and was told he could yet be cured. Although he had but little faith, he resolved to try once more, and after taking a course of treatment became cured. He says: "The above history of my disease and cure is true in every respect. I had received treatment from 20 physicians, yet gradually grew worse, and for one year before beginning treatment with these physicians I was scarcely able to do any work. I have now worked hard for the past two months, feel well and strong, and words do not express the joy I feel that my life has been spared and health restored. I hereby sign my name, FRED HAHN."

Please bear in mind that THESE SPECIALISTS HAVE BUT ONE OFFICE, and which is PERMANENTLY LOCATED at 323 Penn avenue.

TRADE IS FLOURISHING

KEECH'S!

Why should it not? Why should the people not buy their Carpets and Furniture there, where they can get the best goods for the least money, and the most liberal terms of squaring up accounts? Verily, Keech's big trade runs on as naturally

as does the Ohio River. To buy here once means to buy always.

KEECHS CASH AND CREDIT HOUSE.

ANOTHER FEATHER IN OUR CAP.

THIS LETTER EXPLAINS ITSELF.

apow will prake a prespy and

UMITTIN ITOTICT! IN MITTO CIMV

Would have had the grit and courage to buy thus late in the season 4,215 Suits at one time, and, what is more, no other house would have had the necessary cash and outlet to even think of engaging in such a gigantic

Well, the Goods Are Now Here

But, if Messrs. S. & J. Werner think that we intend to make a profitable disposition of these goods, they greatly mistake our method of doing business. The fact is, we have marked the goods at an advance on the price we paid for them that will barely cover our expenses of this transaction. But, then, our only object in making this big purchase was to create a big excitement, and thus give our Men's Clothing Department the most thorough and effective advertisement it could possibly get. With this end in view, we will

Commence This Morning to Give Choice :: For ::

4,215 Men's Fine Allwool Sack and Frock

Business and Dress Suits.

Without the slightest fear of successful contradiction. we here state that the other Pittsburg Clothiers who bought these at the start of the season at regular prices paid from \$3 to \$4 more per Suit than what we now offer them. This fact, then, makes competition impossible-comparison useless. As for the cut patterns and materials of these Suits, they are the very best and latest.

This, as a rule, means first-class make, good trimmings and a per-

Taken in all, this certainly is the greatest Suit Sale of modern times. Another opportunity of this nature will probably not again present itself
