It will cost nothing to secure Decker's release. "I think Hecker pliched a very good game. He couldn't plich last year. He was in the box in 15 games, and won three. Hecker can't play first base as well as Hines, though the former badly wants to play the position." Contrary to Handl's statement. Hecker pliched If games last season, and won five in succession. He also won more than the lave. Plicher Schmitt was out with Eandall Monday night, and says Kandall told him that, unless Heaker won his same, he would be released. Randall denied this to Thir Disrarcy, but Schmitt has always been considered truthfu. Bandell also told another man that his business in Plitsbourg is to purchase the franchise from the present owners, and to run the tam here for an Eastern stock compary. However, no matter what his business here may be, he has caused a great deal of bad feeling among the players, some of whom think he is watching them. It will do the team no good if he is watching the boys, and may do harm. Hecker may he will not allow Randall to talk to the men as he has been as it is sure to cause trouble. Eandall has been far from complimentary toward Hecker, and the latter, of course. does not enjoy it. The business men's neeting at the Walnut Street Theater was a most pronounced and decided success, not alone in point of numbers, but in enthusinsm.

Before 4 o'clock, the hour set for the meeting to be called to order, every seat within the building was taken, as was every inch of available standing ground. Fully 100 chairs were placed upon the stage for the accommodation of the speakers and distinguished visitors, PROMINENT CITIZENS THERE.

Each chair had an occupant long before Editor William M. Singerly called the meeting to order, and the entrances to the stage, between the standing parts of the stage decorations, were filled with prominent men, who vied with each other in their efforts to see and hear the orators of the occasion.

The front row of chairs upon the stage were filled by the speakers and officers of the meeting. In the center chairs sat William M. Singerly, A. K. McClure, Congressman

McAdoo, of New Jersey; William M. Ayres, the President of the Tariff Reform League, of this city; Congressman W. C. P. Breckinridge, of Kentucky; CongressmanWilliam M. Springer, of Illinois, and Congressman William D. Bynum, of Indiana.

The Vice Presidents of the meeting who occupied chairs in the rear of the front row upon the stage were all well known in business circles. Upon the stage were also gathered a number of the leading business men of this city, whose lines of trade will be affected should the McKinley bill become a law. The band of music had scarce ceased playing the last notes of a familiar air when Editor William M. Singerly advanced to the front of the stage and said: 'Gentlemen, this is a business men's meet-

With a strong voice and graceful gestures, he at once captured the assemblage by his impressive manner. He made an eloquent speech re-garding the tariff on wool, and was followed by Messrs. The distinguishing feature of the evening meeting was the great gathering of working-men. They were addressed by Congressmen

YESTERDAY'S ATTENDANCE.

Hard luck had a great deal to do with the

loss of the game by the local National League

team yesterday. In the last inning La Roque dropped a fly hall that should have been easy

for the average fielder, and the winning run

was scored by Chicago. Heeker started in to pitch the game, and for

seven innings held the visitors down easily, but his lame knee went back on him, and he was

compelled to give way to Sowders in the eighth after three hits and two runs were made.

Sowners fared only a shade better, and in the last inning the Chicagos batted out two runs

However, Hecker was in the box long enough

to show that his pitching arm is all right, and from now on he will take his place regularly in

the position. The Chicagos could do nothing with him for four innings, but the strain on his lame knee began to tell on him, and he was at last com-pelled to give up. He will soon be in good condi-tion, however, and will then work regularly.

THE RUN GETTING.

Pittsburg opened by getting a run in the first. La Roque secured a base on balls, went to second on a hit, and was forced to third and home on

on a hit, and was forced to third and home on called balls. They were blanked in the second, but in the third they added another run on a base on balls, a stolen base, a sacrifice, and a throw to second on Hecker's bluff at stealing the base. In the fourth a run was made by Grane on a hit, a stolen base, a sacrifice and Sunday's single. The sitch was opened up by two men going out at first. Then Hecker was hit by a pitched ball, went to second on Hoat's single, and scored on Berger's double, which also sent Roat home. Berger second on Anson's drop of Crane's high fy Hemp flew out. The home team scored their last run in the eighth. Miller got a two-bagger, went to third on La Roque's sacrifice, and scored on Hecker's double.

A special from Greensburg announces that the coke works of the late J. M. Cochrane, have been purchased by Mr. J. D. Boyle, the well-known Pittsburg operator. The works are situated in Mount Pleasant township. They are perhaps the oldest ovens in West-moreland county. The site measures about 25 acres and there are 160 ovens in biast. It is generally supposed that the Cochrane works have been bought in the interest of one of the large companies, and it is said the McClure Coke Company will become the eventual owner. "the people of Louisiana are watching with keen interest to see whether the famous lot-tery company will secure a charter or not. The Louisiana and Mexican companies have offered \$1,000,000 per year apiece to the State for a charter covering 25 years. The temptation is a strong one, and at this particular time with heavy losses from the recent floods is doubly attractive. To grant the charters it will be nec-essary to change the new Constitution of the State, which forbids lotteries to exist after 1882. At the present time the anti-lottery peo-ple have a majority of seven of the members of the Legislature pledged against calling a con-vention for the purpose of modifying the Con-stitution. "The lottery is the blight on Louisiana. There are daily drawings besides the monthly ones. The distribution of prizes is fair enough, but the outlay of money is not in propor-tion to the income, which is \$25,000,000 per year. This is where the harm comes in. The lottery people are very generous and scatter their money around freely, even giving it to the churches. During the late floods the Louisiana lottery gave \$100,000 to help the poor and repair the levees, but all this charity is for a purpose. Back of it is a bribe. Of course, those who are helped by them can't help but feel a little grateful. The lottery may now is that they may bribe enough of the legislators to have the convention called. "The negro in Louisiana gives us some trouble. What to do with him is the problem.

Third—For the purpose of overcoming that majority and capturing the permanent organization in the interest of Mr. Neeb, the Temporary Chairman made several un-tair and dishonest rulings, of which the tol-lowing will serve as an illustration: A. W. Jackson was elected as a delegate for Senator Rutan from the Second district of the Eighth ward and his election was not contested, and he received his credentials duly signed by all the election officers of that district. Jackson being unable to attend the convention, duly transferred his credentials to Louis Haas, who presented them in the convention. The Temporary Chairman, without any testimony, boldly stated that the signature of Jackson was a forgery and instructed the Secretary to omit Haas' name from the rolls. This and similar rulings of the Chair were challenged by the friends of Senator Rutan, but the Chair, persisting in

JOSEPH MAX, WM. T. LINDSAY. ALLEGHENY, June 3, 1890.

The idea in inventing the Æolian was to make an instrument that a person could play without the years of practice made necessary by the piano and organ and at the same time to have it in no way mechan-ical, but capable of the most delicate shadings of tempo and expression entirely at will of the performer. The drudgery of learning to play is the incessant practice necessary to enable a person to manipulate and the tempo and expression left under his control, the desired result would be achieved.

tice, a person with no musical education whatever can become a really fine per-former. The great feature of the instrument is the high class of music it performs. The catalogue embraces nearly 5,000 pieces, including the symphonies, operas and over-tures of all the great masters. The rendition of these pieces is wonderfully accurate, and serves to make the Æolian a wonder ul educator for both old and young. The many thousands having musical taste and innate ability, but who are unable to give the years of practice necessary to enable them to perform with the accuracy de-manded by their correct ear and cultivated taste, are with the Æolian able to gratify their love of music and play for themselves any and all classes of music. One of the most remarkable things about the Æolian is its peculiarly beautiful tone. It is not like the piano or organ, but resembles more than anything else a small orchestra with

nonnee the McKinley bill as a dangerous measure, nor too earnestly to protest against its passage by the United States Senate, and that we hereby give notice that we will not be satisfied with anything short of free raw ma-terials and such a corresponding reduction of general tariff rates as will make the living cheaper and give us a chance to enter foreign markets with our products, as well as to keep and control our own, knowing full well that only by these means can the toilers secure steady work and good wages.

Are Higher Than Agreed to-They Demand a More Equal Rate-Good Time to Make a Fight. LETTER FROM GROVER.

The following letter was read from ex-President Grover Cleveland:

President Grover Cleveland: I desire to thank the Republican Club, for-form Association, for the courtsous invitation I have received to attend a mass meeting on the evening of the 3d of June. The terms in which the invitation is expressed convinces me that the question of tariff reform is receiving the attention it deserves from those most vitally interested in its just and fair solution. I know that with the feeling now abroad in our land, and with the intense activity of such clubs as yours, the claim presumptuously made that the people at the last election finally passed upon the subject of tariff adjustment will be emphatically denied, and that our work-ingmen and our farmers will continue to agi-tate this and all other questions involving their welfare with increased zeal and in the light of increased knowledge and experience until they are determined finally, and in accordance with the American sentiment of fair play. I use no idle form of words when I say that I regret that my engagements and professional orguntions will not permit me to meet the members of your club on the occasion of their mass meeting. Hoping that those who are fortunate enough to participate will find it to their profit, and that the meeting will in all respects be a great success, I am yours, very truly.
