I am clearly of the opinion that it is only by the city maintaining its public libraries, as it maintains its public schools, that every citizen can be made to feel that he is a joint proprietor of them, and that the public library is for the public as a whole and not for any portion there-or, and I am equally clear that unless a commu-nity is willing to maintain public libraries at the public cost, that very little good can be ob-tained from them. Not to save me further expenditure therefor, but for the best interests of the city, I make it a condition that they shall be properly maintained by the city. quare for one insertion. issue were at fever heat, Mr. McDonald re-ceived a telegram just as Council was about convening, asking him to meet a party at some hotel in this city. At first he thought of taking a train and coming to the city, but holding the telegram to his nostrils for a moment, he thought he detected on it the arma of a rodent. Accordingly, he tele-graphed the sender to await him, and he would come on a late train. He did so, and then found for certain that the telegram was a decoy to keep him from the Council meeting.

THE DODGE WORKS WELL.

At a subsequent meeting the same dodge was tried, and again without effect. Since then the no-quorum dodge has been played effectively. Another bone of contention is the fact

The Carr-Pfeiffer Election Contest Still Uninsuched-Another Whirl that Was Almost a Failure-One of the Causes of

an action on a contract, is on trial before Judge Stowe. Dolay. The hearing in the Carr-Pfeiffer election THE suit of D. P. Corwin, trustee, and Jane

contest before Commissioner John S. Robb, Jr., vesterday, came near being a failure again. Mr. Robb was on hand and so was Judge Fetterman for Pfeiffer, but there was Single. a long wait for Mr. Brennen. As he was known to have gone to Tarentum, or to some other town up that way, it was feared he might have fallen a victim to the fumes emitted by that stack at the Pennsylvania Salt Works. After waiting until near 2 o'clock Mr. Carr agreed that the ballot boxes might be identified and this part of the work began. No sooner had both sides cleared for action than there was another hitch. Arthur Evans, Judge of Election, identified a box as the one that had been used in the Third district. He said it had not been out of his ession since the February election. Another box was then put in evidence, with the expectation that Alderman Hartman would identify it, but he said that, though t had been in his office since that time, he knew not for certain whence it came, or whether it was the box wanted, and he didn't appear to care whether it was or was not the box. He said he did not see it brought in. After some time spent pow-wowing it was mutually agreed that there could be no issue regarding the state of the weather and the meeting being held upstairs, the intervals between drinks were necessarily too ong to make investigation a success and an adjournment was taken. Henry Pfeiffer, Republican, got the seat, and P. M. Carr, Democrat, contests, hold-ing that there were irregularities and that Carr had the majority of the votes cast.

N ORDINANCE - PROVIDING FOR

A the acceptance from Andrew Carnegie of free libraries, WHEREAS, Andrew Carnegie has generous-ly offered to the city of Pittsburg a gift of free libraries, as set forth in the following commu-nications:

nications: PITTSBURG, PA., February 6, 1890.

PITTSBURG, PA., February 6, 1890. PITTSBURG, PA., February 6, 1890. To the Mayor and Councils of Pittsburg: GENTLEMEN-Some years ago I had the pleasure of offering to expend upon a free library for the city of Pittsburg the sum of two hundred and fifty thousand dollars. The finances of the city were not then in condition to permit of its acceptance. Having expended more than that sum in our sister city of Alle-gheny, I subsequently intimated that I was prepared to expend not less than half a million for Pittsburg; such, however, has been the re-cent growth of the city, such are its prospects for the future, that careful consideration has led me to the conclusion that, in order to pro-vide such libraries as Pittsburg should have, will require even a larger sum. I think that Pittaburg requires a central building containing a reference and circulat-ing library; also suitable accommodations for works of art, which I believe its citizens would soon provide; that there should also be added

ing library; also suitable accommodations for works of art, which I believe its clitzens would soon provide; that there should also be added rooms for the meeting of the various learned societies of the city. The experience of New York, Baltimore and other large clites has proved that a central library should be supple-mented by branch libraries. The Free Circu-lating Library, of New York, has now four of these; the city of Baltimore has five. They are not extensive structures, but each contains a small supply of the books most in demand and a reading room, and is operated in connection with the central library. Such branches, I think, should be established in the various dis-tricts of the dity, probably one in Birmingham, another in Temperanceville, another in East Liberty, a fourth in Lawrenceville, perhaps a fifth in the older part of the city. All of these should be thoroughly fire proof, monumental in character and creditable to the city. To provide these buildings with suitable books, etc., I offer to expend not less than one million of dollars. I propose that their lo-cation, crection and management shall be en-trusted to a board of trustees, composed ex-officio of the Mayor, the President of the Central Board of Education, and a hibrary committee of five appointed by the councils, such as you have done me the honor to appoint to confer with me. To these I would add the names of 12 well-known citizens of Allegheny county, who should have the power as a body to provide for the re-election of its members at stated times, and also to fill vacancies in their number.

stated times, and also to fill vacancies in their number. The state of the purposes specified. The city to agree to receive and support same at its own or oper cost, under the management of the custers, as above provided. The city of Billimore purpose, 530,000 por annum for the support of its public hibraries, estab-tion the support of its public hibraries, estab-for the support of its public hibraries, estab-for the purpose, but I believe that \$40,000 per annum would be sufficient to maintain those of Pittaburg; and not less than this sum per an-num I require the city of Pittaburg to agree to
