# PITTSBURG A CENTER.

Fixing the Figures for Iron All Over the United States.

THE EAST SURELY CROWDED OUT.

Prices in the New York Market Are Practically Unchanged.

#### NO NEW FEATURES ACROSS THE OCEAN

PEPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, June 5 .- The Iron Age in its issue of to-day gives the following: The happenings of the past few months have emphasized more strikingly than ever before how the leadership in the markets, which the East once possessed, has been resigned to the leading cities west of the Allegheny Mountains. Every important impulse has come from Pittsburg Cincinnati or Chicago in the lines in which they are respectively the leading markets. It is useless to disguise the fact that the East has finally and completely lost its

American Pig-The New York market is very quiet. Transactions, with few exceptions, are on a moderate scale with prices practically unchanged. The buoyant reports from other centers are reflected by a more hopeful feeling, which has not, however, found expression in a larger volume of business or higher figures. The action of the Thomas Iron Company in marking the price of No. 1 foundry down to \$18 is without any significance whatever, the market having been at that figure for a long time. It merely means that those who are under contract will have their iron billed at a lower figure. Some of the Southern furnaces have practically withdrawn from this market. The Eastern Malleable iron works are in the market now for about 13,000 tons of charcoal iron and about 6,000 tons of charcoal iron are included in the tenders just issued by the Grand Trunk Railroad. An equal quantity of other grades of pix iron is required, but will probably be taken by English makers. We quote Northern No. 1 foundry, \$18,000(18.56); No. 2, \$17,000(17.50). Southern No. 1, \$18,750(17.25), and No. 2, \$18,000(18.50). ters are reflected by a more hopeful feeling

Spiegeleisen and Ferro-manganese - The only transaction of any magnitude closed dur-ing the week was the sale of a 2 000-ton lot of Ing the week was the sale of a 2000-ton fot of 20 per cent spiegeleisen, special brand, for future delivery to a Pittsburg rall mill at pri-vate terms. We quote \$31 500252 for tidewater delivery. There have been some sales of ferra, prices ranging between \$76678 for future de-livery. The order of 600 tons for a Pittsburg ery. The order of 600 tons for a ritisour, ill was taken by the producer in that locality private terms, but reported to be equal to e current selling price of foreign at tide

ets. The movement has been light in the

water.

Billets—The movement has been light in the East, the few sellers awaiting developments in the West. For a block of 5,000 tons \$30 at mill, was refused. In slabs extended inquiry by a mail mill for a round lot for delivery during the second half of this year brought out only one offer of \$31 25 at seller's mill.

Wire Rods—Reports are conflicting, but it is apparent that with those who take a very hopeful view the wish is father to the thought. Sales have been on a larger scale, Eastern mills taking in the aggregate about 25,000 to 30,000 tons, the bulk therefore for Southern roads. The total includes one large block which was reported closed months since, but has apparently been finally arranged for now. Among the sales is one in territory us ally considered tributary to Pittsburg. Some of the Eastern mills are eager to secure orders, and, taking it as a whole, excepting possibly the two Pittsburg works, the mills are competing sharply for what orders come into the market, East, South or West, Occasionally one or the other, having put the order how into heter share hy very West. Occasionally one or the other, having put the order book into better shape by very active competition, quotes higher prices, but others seem ready to step in to bid for their share at close figures. During the current year there has been some selling, with a guarantee to the purchaser against a decline, the price being that current at the time of the delivery of the nearly recognition of the current. the monthly proportion of the cut rate. quote: \$30 50@31 50 at Eastern mill.

the monthly proportion of the cut rate. We quote: \$39 500031 50 at Eastern mill.

Structural Material—Quite a number of large buildings are coming into the market, among them a brewery and a large hotel. We quote: \$2.1502.20c for plates; \$2.1502.20c for angles; \$2.607 to tees, and \$3.1c for beams and channels. Fastenings—We quote: Spikes, \$2.02 10c angles bars, 1.7501.80c, and bolts and nuis, 2.8002.0c.

Old Rails—There is a widespread inquiry and with the simultaneous appearance of a considerable number of buyers East and West the market has stiffened. Sales aggregate about 1,500 tons here, and at least one order for a lot of 1,000 tons of foreign rails for shipment has gone abroad. As much as \$21 and even \$24 50. has been offered for rails in quantity up to 5,000 tons. The supply of flange rails in this smarket is estimated at \$2.500 tons, while the stock of double heads is a little over 4,000 tons. of double heads is a little over 4,000 tons, all held in strong hands.

# NO NEW FEATURES ABROAD.

#### Even Speculation in Connection With the Pig Iron Market is Unimportant,

SPECIAL TELEGRAM TO THE DISPATOR. NEW YORK, June 5.—The Iron Age in its lake, June, \$15.55. Lead steady: domestic, issue to-day printed the following cablegram \$4.30. Tin steady: Straits, \$21.25. from London: The market for pig iron is with-out new feature of any description, and speculation is unimportant. Cleveland shipments are a shade better, but warrants have gone still lower, selling down to £39 1056s Tuesday, and at the same figures to-day. Scotch shipping brands are still receding, and warrants are weak, with business at £43 9s vesterday weak, with business at £43 % yesterday and £43 10s to-day. Hematite warrants have dropped with the rest and were down this week to £51 %, but reacted to £32 % to-day. Steel ship plates are off to £6 17s % at Barrow. Rails, blooms and slabs are about 5s lower, and quetations on billets and wire rods are reduced £2 %, with business moderate in all departments. The sold up to £36 7s % apol, under the influence of American demand, and alarge business was done on the raise. On a a large business was done on the raise. On a cessation of demand prices afterward relapsed to the previous level. Owing to small direct shipments it is believed that the American market is chiefly dependent upon London to

market is chiefly dependent upon London to supplying its wants.

In copper there is a fair business doing at about £54 10s for merchant bars. The position fully warrants the inference that consumption is outpacing the projection, and higher prices are therefore considered as very probable. French stocks have been further largely re-duced. Furnace material has continued activeduced. Furnace material has continued active, and prices show a further advance, with Ana-conda matte up to £11 6s on actual sale. Large conda matte up to fill 6s on actual sale. Large quantities have been sold for delivery during the balance of this year and into the first half of 1891. All the Anaconda matte lying in Liverpnol has been purchased for American account. The amount of stock involved in these transactions cannot be learned. Other sales include 300 tons Anaconda matte at fil 8s; 200 tons ditto at fill 6s, and 800 tons Anaconda argentiferous on private terms.

For tin plates, inquiries are still numerous and fairly large business is doing. Buyers for large parcels are making offers. Some accepted but price not stated, The syndicate of London and American capitalists, which acquired the Forest & Worcester works, at Swansea, is being transferred to a limited liability company. The capital necessary is about £400,000. Efforts are being made to retain Mr. Williams as managing director at a salary of £5,000 per year.

American Manufacturer's Cable Quotations, 1 Scotch Pigs-Warrants have gone lower, selling down to 43s. Bd., and the market for makers' iron continues weak, also with no perceptible

Bessemer Pig-Hematite warrants have de-clined to 51s. 3d., or about 2s, during the week, and makers' prices are unsettled, with business moderate. West Coast brands Nos. 1, 2, 3 at

and makers' prices are unsettled, with business moderate. West Coast brands Nos. 1, 2, 3 at 55s. f. o. b. shipping point.

Middlesbrough Pig.—Shipments are rather free, but the market continues weak. Warrants sold below 40s and makers' now quote 40s. 3d. for No. 3, free on board.

Spiegeleisen.—There is still a fair demand for this article, and prices are firmly held. English 20 per cent quoted at 97s. 6d. f. o. b. at works. Steel Wire Rods.—Holders have made a further shading of 2s. 6d. on price, but no improvement in prices has taken place. Mild steel, No. 6, quoted at £8 10s. f. o. b. shipping port.

STEEL BAILS DULL.

Steel Rails-The demand is not as good as it was last week, and competition has forced prices lower. Heavy sections quoted at £4 l5s. f. c. b. shipping point.

Steel Blooms—For these there is little demand and makers offer at lower prices. Besse-mer 7x7 quoted at £4 lbs. 0d. f. o. b. shipping

point.

Steel Billets—The demand is for small quantities and mederate business is being done. Prices continue weak. Bessemer (size 2½223) quoted £5 f. o. h. shipping point.

Steel Slabs—Very little business doing and prices still in buyers favor. Ordinary sizes quoted at £5 25 6d. f. o.h. shipping point.

Crop Ends—The market very quiet and prices unchanged. Bun of the mill quoted at £217s. 6d. £5 d. b. shipping point.

Old fron Rails—Inquiries are moderate and bolders ask previous prices. Tees quoted at

13@23 2x 6d. and double heads at £3 5x.@£3 7x. 6d. f. o. b.
Scrap Iron—The market is wholly unchanged, demand being light. Heavy wrought quoted at £2 15z. f. o. b. shipping points.
Manufactured Iron—In this department the undertone is weak. Lower prices are quoted on some varieties without stimulating the demand.

TIN, COPPER AND LEAD. Pig Tin—A heavy business was done at 5s. 67s. 6d. advance. Demand afterward fell off and prices receded, but there is again more doing. prices receded, but there is again more doing. Straits quoted at £94 for spot; futures (3 months), £94 12a. 6d.

Copper—Prices have declined slightly, but there is yet a good business and a firm under-current to the market. Chili bars quoted £54 10a. for spot, £55 for future delivery. Best selected English, £61.

Lead—Prices about the same as last week, and business fairly active. Soft Spanish quoted at £13.

Spelter—Sales noted at lower prices and the

and Districts fairly active. Soit Spanish quoted at £13.

Spelter—Sales noted at lower prices and the market is slow... Ordinary Silesian quoted at £22 15s.

Tin Plate—There have been liberal transactions and further inquiries for round, but the market is now rather quietor.

#### A FAVORABLE SHOWING.

Feeling That the Coke Trade Has Been Aroused-A Heavy Increase in Shipments in the Month of May-New Ovens Proposed.

(SPECIAL TELEGRAM TO THE DISPATCH.) SCOTTDALE, June 5 -- It is now thought that the coke trade has been fairly aroused from the coke trade has been fairly aroused from
the lethargic condition which characterized it
during the greater part of last month. There
has been an increase in orders productive of a
corresponding increase in shipments and more
evidence of an upward movement in trade.
The restriction policy was used to the same extent last week as in preceding weeks. The advance in shipments to points West is a notable
feature. They have been increasing almost
svery week. There have been no change in the
prices of coke, and there is not the least evidence that there will be the slightest alterations.

No complaints have been heard from any of No complaints have been heard from any of the consumers as to prices and they are acting wisely. There is no disturbing element to trade at present, but labor officials are endeavoring to work up a strike at Rainey's works. So far their efforts have been rather unsuccessful. In reviewing the trade for the month of May, it is found that while shipments will in no way favorably compare with the previous month's record, yet over 540,000 tons was disposed of. The transportation facilities were splended for the month, but the lack of orders played havoc. Commenting on last month's output an operator said to-day: "You say that over 540,000 tons of coke were assigned to various points last month. Well, that is a fair month's work, and I believe it will be far better this month. It will at least if it retains its present pace throughout."
One coke plant in the coke region has

throughout."
One coke plant in the coke region has Changed hands. That of A. C. Cochran, which was bought yesterday by J. D. Boyle of Pitts-

was bought yesterday by J. D. Boyle of Pittsburg.

E. A. Humphrey, of this place, will shortly begin the test of the land which he recently purchased in Redstone township. Fayette county. New ovens are being erected near Ursina, Somerset county. Work is progresing on the new Davidson ovens.

Shipments last week averaged about 1,046 cara, against 1,034 cars of the week before.

The following is the distribution: To points west of Pittsburg, 3,635 cars; to Pittsburg and river points, 1,500 cars; to points east of Pittsburg. 1,150 cars; total, 6,275 cars. For the preceding week the record is this: To points west of Pittsburg, 3,480 cars; to Pittsburg and river points, 1,540 cars; East, 1,180 cars: total, 6,200.

Prices are without change. They are: Fur-

6,200.

Prices are without change. They are: Furnace coke, \$2 15; foundry, \$2 45; crushed. \$2 65.

Freight rates from the region are as follows:
To Pittsburg. \$0.70

To Mahoning and Shenango Valleys. 1 38

To Cleveland, 0. 1 70

For Buffalo, N. Y. 1 25

To Detroit, Mich. 2 35

# PROSPECTS ARE BRIGHT.

Outlook for Wholesale Clothing Trade Was

Never Better. One of our leading wholesale dealers in clothing said vesterday: "Our trade this spring has been fully up to last spring, when we had an extra trade. As to prices, cheap goods are cheaper than ever, but good goods hold up well to prices of last season. The demand for high-grade ready-made clothing is increasing here every year. The general prosperity of Pituburg and the region of which it is the trade center is having the effect of knocking out shoddy goods. Workingmen are making good wages and are demanding better styles and quality of clothing every year.

"The class of goods we could sell readily a few years ago is no longer wanted here. The bulk of our spring and summer trade is now over, and we are laying in heavily for fall in the faith of an extra business for the rest of the year. Our stock of summer goods is unusually well cleaned up, and in some lines we have not been able to fill orders of late. We are now cutting up stuff for fall and winter trade, and already see signs of great activity when the been fully up to last spring, when we had an ex-

already see signs of great activity wher watering-place business is over."

# RUBBING IT INTO PITTSBURG.

Some Roads at Last Opposed to Discriminnting Against This City.

The conference of the Pittsburg, Youngstown and Buffalo freight committees to consider the question of advancing the lake differentials will be held at Niagara to-day. A number of the local agents left last even-ing. The claim of the all-rail lines that the difference in rates between the rail and lake should be 10 per cent was knocked in the head by Chairman Blanchard, who said that the Central Traffic Association decided that the difference should not be less than 10 per cent, leaving the roads to make it as much greater as they pleased, which they did.

If the lake differentials to the Northwest from this territory are advanced and the seaboard rates remain the same, then is will be another case of discrimination against Pittsburg. For once some of the roads say it is not fair to rub it into this city. The Pennsylvania Company has lines both by rail and water to the Northwest, but their agents favor maintaining present rates. The all rail routes claim that this company ought to be neutral; that in either case it would not lose anything.

When baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castor When she had Children she gave them Castoria

REALTY PICKED

A Deal in Bellfield and Important Movements in the City.

NORTHSIDE RAILWAY COMBINE.

No Breaks Occur in Local Securities and a Sharp Advance in Oil.

THE NEWS AND GOSSIP OF THE TOWN It leaked out yesterday that Mr. J. M. chomaker has purchased, through Messrs. Black & Baird, a business property near

the new postoffice, for \$45,000. The exact location and size of the lot could not be as pertained. It was stated yesterday by a gentleman who has close relations with the buyer, but whose name he refused for publication, that the residence property of young Dr. Old-shue, on Fifth avenue, Bellfield, has just

changed hands for \$14,000. The lot is 50 by 160, with a house of nine rooms thereon. Dr. Oldshue paid \$9,500 for it two years ago. Another deal that was closed up yesterday was that of a lot, 300x120, on Collins avenue, north of Hoeveler atreet, to a prominent business man for \$12,000, being at the rate of \$40 a foot front. This part of the avenue is not improved, but it will soon be opened from

Several other deals, ranging from \$15,000 to Hoeveler street to Bond. \$50,000, were mentioned, but particulars were withheld. A very important transaction, in-volving a fine business property, is hanging fire on a difference of only \$8,000 between seller and buyer.

Northelde Rallway Consolidation. The long-talked-of consolidation of the Pitts-burg, Allegheny and Manchester and the Pleasant Valley street railway systems seems to be more of a reality than many people think. An officer of one of these companies in conversa-tion on the subject yesterday remarked: "I think consolidation will be the outcome of the agitation—not because the companies have any particular love for each other, but as a matter of mutual interest. It would, by practically monopolizing Northside territory, go far to shut out competition. The companies would do as much or more business than if acting separately, and do it cheaper, for they could dispense with a great many costly things—a number of high-priced employes, for instance. One power house would be sufficient for the consolidated system. This would be a great saving."

The informant added that all of these things were being quietly but earnestly discussed by the officials of both roads, with the evident purpose of merging the rival interests. He did not think this could be brought about immediately, but was satisfied it would be effected at no very distant day,

Business News and Goselp. A prominent real estate broker has been captured by Cupid. The services of a preacher

will be required about the middle of next week.
John D. Bailey sold 200 shares of Allegheny

generally ahead of time.

George B. Hill & Co. sold for Eastern account 100 shares of Pittsburg Traction at 37.

Andrew Caster sold \$15,000 St. Louis, Vandalia and Terre Haute Railroad second mort-gage unguaranteed 7 per cent bonds on a 6 per

cent basis.

The prospect is that the Standard Underground Cable Company will pay a dividend this month. Its earnings from December 1 to May 1 are said to have been \$113,000.

The Westinghouse people deny that they are buying up land in the vicinity of Parnassus to boom that pleasant village by establishing A. B. McGrew quotes: Puts, 86%@86%; calls, large industrial works in conjunction with the Pullmans. They admit, however, that they are taking leases on gas property.

tion of 24 new houses. B. F. Reynolds took on permits for 16 two-story frame dwellings, nine to be erected on Oliver street and seven o Point View street, all in the Twenty-first ward.

#### Movements in Real Estate, In addition to those mentioned above, the following transactions in real estate were re-

ported: Samuel W. Black & Co. sold Nos. 37 and 39 Fourth avenue, corner Decatur street, lot 40x 54 feet, with two three-story brick business nouses, for \$20,000.

L. O. Frazier sold for C. Slebert, P. W. Siebert and P. Keil a strip of land on the north side of Harrison street, between Forty-seventh

and Forty-eighth streets, Seventeenth ward, 25x280 feet, having erected thereon five frame dwellings, to the Shiffler Bridge Company for

Ewing & Byers sold for Mrs. M. Weis to a prominent Federal street merchant a vacant lot, 21x79, on Dawson street, Second ward, Allegheny, for \$1,300 cash.

Reed B. Coyle & Co, sold to R. S. Robb for D. J. Thomas, lot No. 3 in Fulton Place plan,

50 feet on Craig street by 142 feet to Chesney alley, for \$3,750. Black & Baird sold to Thomas H. Thorn two lots in James H. Willock's plan in the Twentythird ward, being No. 2 and No. 20, having

frontage of 20 feet each, for \$1,500. J. E. Glass placed a mortgage in McKeesport of \$800 at 6 per cent for three years; also one of \$2,000 at 6 per cent for three years.

Baltensperger & Williams sold for the Cartwright estate to Henry Bradley, a frame house of six rooms, with lot 50x150, situate near

Banksville, Allegheny county.

Alles & Bailey sold to John G. Barbour lot 78, on Wadsworth street, between Fifth avenue and Center, Thirteenth ward, size 20x106 feet. for \$325, on the monthly payment plan of

only \$5. Charles Somers & Co. sold for the Morningside Land and Improvement Company to Joseph J. Siddon four lots in their plan at Morningside station, Allegheny Valley Rail-road, being Nos. 502, 503, 504 and 505, each fronting 24 feet on Butler street, and in depth 110

feet, for \$300 each. Baxter, Thompson & Co. placed a mortgage for \$2,000 for three years at 6 per cent on proporty in the Nineteenth ward.

# DOLLARS AND DIMES.

Local Monetary Matters Moving Along Without the Least Friction. Checking at the local banks was off a little yesterday, but depositing was about up to the mark. Money was easy and in moderate de mand. Most of the loans were at 6 per cent. Outside paper was taxed a little more. One Outside paper was taxed a little more. One reason for the drop in checking was stated to be easy collections and large cash payments, rendering manufacturers and merchants to that extent independent of the lanks. Exchanges were \$2.270,280 58; balances, \$372,897 55. Money on call at New York yesterday was easy, ranging from 4@5½ per cent, last loan 4, closed offered at 35. Frime mercantile paper, \$42,684. Sterling exchange more active and 43/44634

CHICAGO—Clearings, 815,826,000. New York exchange was 25c premium. Money is 5@6 per cent on call and 6@7 per cent on time.

NO BREAKS Pittsburg Traction and Electric Hold Up

Under Adverse Influences. Stock trading yesterday was restricted to two properties—Luster and Electric, sales of which were 202 shares. Electric was slightly weaker, as a result of postponing or abandon-ing the dividend, but the looked-for break did not materialize. Luster was a trifle stronger. Of inactive shares, the gassers showed no material change, with the exception of Manufacturers', which was offered down to 15 with-out buyers. The tractions were steady. Pittsburg stood up bravely under the adverse de-cision of the State Supreme Court. Pittsburg and Western common and Switch and Signal lost ground. Enterprise Savings moved up a fraction. Bids, offers and sales of the three calls, as ap-pended, show the movements of the day:

#### A JUMP IN OIL.

The Bulls Make Themselves Heard and Fe -An Upward Movement,

Oil scored an advance of 1% cents yesterds but without much of it changing hands. A the Exchanges were bullish, but New Yor and Pittsburg furnished most of the strengt The market opened at 86½c and soon move up to 88½c, fell back to 86½c, rallied and closs steady at 88½c. Most of the trading was belo 87c, around which figure the market held f the greater part of the day.

The situation in the field is encouraging the bulls, who are becoming quite numerous and aggressive.

Suspension Bridge stock at 96.

Thirty-two mortgages were recorded yesterday, the largest being for \$6,525. Six were for purchase money.

Several real estate brokers yesterday reported business equal to the best time in March or April.

A good indication of prosperity is the promptness with which bills are paid. Renters are generally ahead of time.

Features of the Oil Market. Corrected daily by John M. Oakley & Co., 45 Sixth street, members of the Pittsburg Petro-leum Exchange:

# JACK'S RUN ON A HIGH.

A 1,000-Barrel Petroleum Gusher Struck on Straw's Lease Yesterday.

A. M. Watson, Esq., stated the other day that a little more punching in the neighbor-hood of Bellevue would show oil and it came yesterday. The well on the Straw lease, on Jack's run, began business at a depth of 1,800 feet and threw grease to the top of the derrick.
The well was shut down as soon as possible,

but not until Jack's run and a large portion of the Ohio river were rainbow-hued. The co-op-erative gas well is in the neighborhood of the Straw well. Mr. Straw is a Bellevue grocer. Another Belmont Gusher. PRPECIAL TELEGRAM TO THE DISPATCH. BELMONT, W. VA., June 5.-The Poor farm

well, No. 3, of Barnsdall & Boyle, is a 350-barrel gusher, THE SILVER BILL.

Prospects of Its Passage in Congress Gives Vitality to Wall Street-A Spurt In Sugar and a Strong Close

-Bonds More Active. NEW YORK, June 5.—The stock market was less animated to-day, but displayed a firm undertone from opening to close, and although there was considerable irregularity almost everything traded in is higher to-night. There was a marked absence of pressure to sell such as has made the dealings of the past week so feverish and weak, and while the demand was moderate it was sufficient even with the dispo-sition of the foreigners to sell their favorites. The discussion of the silver bill in the House of Representatives to-day revived the hopeful feeling and the possibility of early action on the same soon showed in improved prices and

increased animation.
The market outside of Sugar Refineries showed no particular activity, and that stock seemed to have lost its power over the regular list, and when it declined there was no response and its subsequent advance met with no recognition whatever. The money question to-day was not a factor, and while the sub-Treas-

day was not a factor, and while the sub-Treasury continues to draw funds from the banks
the flow from the interior more than makes up
the drain. Funds were easy on call to-day at
from 4 to 5 per cent.

Among the features of the day's trading
Sugar Refineries was the most prominent, and
after opening up 1 per cent at 76% it reacted
to 78%, but later steadily advanced with
moderate fluctuations until near the close,
when its best price was reached. It finally
closed at 80c. There was no news of any kind
with a bearing upon the stock, and the rise
seems to be only a natural reaction from the
late depression. late depression.

In the regular list Rock Island was strong on
the explanation that the company had charged

late depression.

Internation that the company had charged special personal properties of the crimanation that the company had charged special special personal perso

Government bonds have been dull and steady. State bonds have been dull out firm.

The Post says: A partial explanation of the Rock Island unfavorable annual report was telegraphed from Chicago this forenoen, saying that the report would show \$1.013,000 spent for permanent improvements, this amount being equivalent to 2 per cent on the capital. It was upon this that the stock rallied from 1934 in the first half hour to 94% just after 12 o'clock. But it is well known that the terms "permanent improvements" and "betterments" too often mean only the necessary enlargement of facilities to accommodate the existing traffic, though this expenditure may not have any effect to increase the sarnings or profits. A railroad must, in fact, be almost entirely reconstructed every 15 or 20 years. Many experts say 10 or 12 years.

A railroad must, in fact, be almost entirely reconstructed every 15 or 20 years. Many experts say 10 or 12 years.

The arguments, therefore, that the large sums expended for these betterments and permanent improvements are an additional dividend-earning capital are generally received by the public with a great deal of allowance, and in this case the sentiment of the street appears to be in favor of making the allowance because Rock Island at present prices is too high compared with other dividend payers; for instance, with Cleveland, Cincinnati, Chicago and St. Louis common, which pays 4 per cent, and is earning over 5 per cent, though it sells at 78 to 79, while Rock Island paying no more and not earning as much sells at 94.

Many other instances might also be given, as Western Union, Richmond Terminal preferred and some others, of which the managements are at least calculated to inspire as much confidence as that of Rock Island. The Rock Island figures are of the utmost importance because they are to some extent an index of the business of the other granger roads west of Chicago.

# LOCAL LIVE STOCK.

Drovers Report Business Very Dull and Few of Them Are Making Money-The Demand for Dressed and Canned Ments Good.

Drovers report very poor pickings the past few weeks. The live stock dealer who comes out even of late has good reason for self-congratulation. The truth is that the majority are osers. Prices paid at Chicago for this week's cattle at East Liberty were 19c above last week's prices, and here there was a drop of 15c per bundred. On this week's transactions drovers are not estimating profits but losses. There were about 15 loads of cattle at the East Liberty yards, designed for the local trade, sent on East in first hands for want of buyers bere. As markets are dull East as well as here, it is probable that the stock sent on would go farther to fare worse. The loss to our local drovers proves gain to dealers in Chicago dressed beef. In the latter line trade is boom-ing, and the number of beeves handled is not far from 50 per cent larger than at this time a

far from 50 per cent larger than at this time a year ago.

Both dressed beef and canned meats are in very active demand, and cattle dealers in Chicago are on the make at the expense of Pittsburg butchers and drovers. One of our leading pork packers received advices from Chicago to-day that hogs had dropped to \$3.75 for tops, the lowest price of this season. The drop is due to heavy receipts and hot weather.

Following is the report of transactions at the East Liberty Stock Yards for the week past:

Drift is Downward.

SUGAR VERY FIRM AT QUOTATIONS

OFFICE OF PITTSBURG DISPATCH, THURSDAY, June 5, 1890. Country Produce-Jobbing Prices. Elgin creamery butter is firm at last week's prices, when markets were very weak. The lowest point of the season has, no doubt, been reached, and any future changes are apt to be toward higher prices. Country roll butter has scarcely any value. Shippers have been with-holding stock of late. A leading Liberty street commission man said to-day: "I find it impossi-ble of late to sell country rolls at a decent price. One of my customers lately shipped me 1,000 pounds with instructions to sell at what-ever I could get. I had to sell it for grease at 21/2c per pound, and yet it was a rair quality of butter." New Olfio cheese is coming freely, butter." New Olflo cheese is coming and it is only a question of a few days when quotations will be reduced. Eggs are in good quotations will be reduced. Eggs are in good quotations will be reduced. For job supply and prices are a shade lower. For job lots loc per dozen is now the outside price.

firm. New potatoes are tending downward, Good old stock is firm. Cabbage of good quality are scarce and firm. Lemons and oranges are tending upward. Bananas are quiet at quotations, owing to liberal supplies. Poultry is plenty and lower.

BUTTER — Creamery, Elgin, 17c; Ohio do, 16c; fresh dairy packed, 10@12c; country rolls, 7000c.

Strawberries of choice quality are scarce and

Groceries. The upward movement of sugar still con-tinues. There was an advance of 1-16c in Eastern markets to-day, and while our markets have not yet responded to the rise, they are about sure to do so within a day or two. Coffee is steady but unchanged. General groceries are moving actively at old prices.
