THE BOSCOBEL

Chicago Employers to be Prosecuted for Importing Canadian Labor.

THE STRIKE OF THE CARPENTERS

May be Followed by a Great Battle in the U. S. Courts.

THE TREASURY DEPARTMENT AT WORK

IMPECIAL TELEGRAM TO THE DISPATCE. CHICAGO, June 6 .- The strike of the Chicago carpenters has brought up an interesting question under the alien contract labor law. The Builders' Exchange, an incorporated organization of contractors and builders, including all the leading firms of the city at the opening of the strike, sent an order to the Toronto Globe to insert and 500 carpenters at from 30 cents to 40 cents per hour. The Globe did so and as a result the Canadians came in large numbers to this city and were put to work by members of the "old bosses" association" who were straining every nerve to fulfill their building contracts without complying with the demand of the strikers for an eight-hour day

at 40 cents per hour. The matter was brought to the attention of Secretary of the Treasury Windom, who about five weeks ago detailed Mr. Andrew J. Lester, a young member of the Illinois Legislature, to investigate the case and report whether there was sufficient evidence to warrant bringing the matter into court. There was no difficulty in establishing the facts above outlined, but the officials of the Builders' Exchange, admitting the advertisement, claimed that they were not liable, because no contracts had been made with the Canadian workmen until their arrival in

MR. WINDOM'S OPINION.

Mr. Lester submitted this question to the Secretary of the Treasury a lew days ago, and received a reply from Mr. Windom, part of which has been already published. But from the interest taken in the subject, it is worth while to give the letter entire.

"The department duly received your letter of the 16th inst., asking instructions in relation to the enforcement of the alien contract labor laws with respect to aliens coming in from Canada.

"The act prohibiting the importation of any manner whatsoever, to prepay the transportation, or in any way assist or encourage the importation of any alien into the United States under contract or agreement, parol or special, express or implied, made previous to the importation of such alien to perform labor or service of any kind in the United

"This applies to all persons, all aliens, and all countries to perform labor (save a few person named in a proviso). The manner of his coming, or the means of transpor-tation used by the immigrant in reaching our jurisdiction, does not in any manner affect the acts prohibited. If prohibited from coming he is no less prohibited whether he comes by vessel, by cars, or by any other means of transit.

"You call my attention to the following advertisement clipped from a Canadian paper: 'Five hundred carpenters wanted; good, competent men will be given steady work, at from 30 cents to 40 cents per hour, Apply at Builders' Exchange, 159 La Salle street, Chicago.

IT MAKES A CONTRACT.

"I assume, from your letter, that this advertisement was inserted by the Builders' Exchange—an association or corporation doing business on 'Change. It contains a proposition to pay a good, competent carnter from 30 to 40 cents per hour and give him steady employment, on the condition of his accepting the offer, coming to the Unite States and engaging in labor for the Builders' Exchange. If an alien does accept that proposition, does come to the United States to engage in labor for the Builders' Ex-change, he complies with his part of all that is involved in the proposition. The minds of the offerer and the acceptor meet and thus form one of the prohibited contracts of the statute.

"In my judgment, if the above conditions and facts could be proven in a court, it would be held that the Builders' Exchange was liable to the penalties denounced by the

"I have no doubt of the right of the officers appointed by the Secretary to make the proper investigation necessary to determine whether the incoming alien is here in viola- are sold here at \$4 60. English diagonal cers appointed by the Secretary to make the whether the incoming alien is here in violation of the law without reference to the place where the investigation, from the nature of the case, be required to be made."

Mr. Lester is now preparing a detailed statement of the evidence, which will be sent to Washington. If the evidence is considered sufficient United States District Attorney Ewing will be instructed to begin criminal proceedings in the Circuit Court for the Northern district of Illinois against the Builders' Exchange and all of its memthe Builders' Exchange and all of its mem-

bers who can be convicted under the evidence. The penalty is a fine of \$1,000 for each alien brought in in violation of the law, and as a very large number have been imported, the aggregate of the fines that may be imposed on the Exchange is very large. A pect iar feature of the case is that the vast majority of the carpenters who belong to the Ex-change have already acceded to the strikers'

terms, and are paying 35 cents per hour for an eight-hour day. If the Exchange should be successfully prosecuted and fined these men would be compelled to pay their pro rata share of the

ANOTHER INTERESTING CASE under the alien contract labor law which was reported to the department at Washington by Special Agent R. D. Layton, of Pittsburg, is shortly to be tried in the United States Court in Virginia. The

defendant is the Bertha Zinc Comensed of importing workmen from Belgium. Mr. Lester, who has obtained the evidence in this case, also says that he found that the Bertha Zinc Company had made its contracts with the Belgians at wages considerably below the ruling rate in this country. Its officials admitted that they had imported the workmen under contract, but claimed exemption from the pen-nity of the law under that provise, which makes it lawful to import skilled labor in any industry not at present established in the United States upon skilled labor for that purpose cannot be otherwise obtained.
At Peru and La Salle, in this State, and

at Pittsburg, Kan., abundant evidence was obtained to show that the zine industry is "at present established in the United States easily obtainable without going abroad for it. and that an abundance of skilled labor is

THE SENATE'S SLOWNESS OF SUGAR.

Expecting Lower Figures After July 1 the Jobbers Permitted Their Stocks to Get Too Low-New There is a General Rush for the Granulated Sweetness. INPECIAL TELEGRAM TO THE DISPATCH.

PHILADELPHIA, June 6. - Refined sugars were advanced 60 cents per barrel to-day. The daily output of the three refineries located in Philadelphia is 10,000 barrels, and to-day's advance puts \$6,000 additional profits daily into the pockets of the refiners. Within 10 days prices have been advanced \$2 per barrel. For a fortnight there has been a stir in the trade, but the climax was reached to-day, causing consternation among brokers and astonishment among jobbers. Refined sugars fluctuated by fractions of onesixteenth cent per pound, and as the bulletins of prices are put out announcing an ad-

The average weight of a barrel of sugar is keep standing an advertisement calling for 500 carpenters at from 30 cents to 40 cents pound is equivalent to an increase of 20c per barrel. To-day three bulletins were put out announcing an advance of 1-16c each, or 3-16c in the aggregate. The market is in the hands of the independent refiners, the sugar trust having announced that it would take no more orders. The trust refineries, are busy filling an accumulation of orders.
The local refineries, comprising the Franklin refinery, the E. C. Knight & Co., and
Claus Spreckels' new establishment, are running day and night to keep up with the de-mand. Refined sugars have advanced regularly and rapidly during the past week. Granulated sugar has advanced 7-16c per pound. There has been but a very slight increase in the cost of raw sugar, so that the profit to refiners now is enormous. Claus Spreckels, Jr., attributes the strength of the market to a phenomenal demand.
"I look for an active and strong market,"

said Mr. Spreckels, "for the next 90 days. This is usually our best season of the year, as the demand for sugars for canning and preserving is always great. But this year the demand is augmented by unusual circumstances. When the tariff bill was in the hands of the Committee upon Ways and Means it was expected that it would be promptly adopted as soon as the committee reported and take effect by July 1. That meant a reduction of 2 cents per pound in the price of refined sugars. With the prospect of such a decline hanging over the market the jobbers all let their stocks run too low. They teared to stock up even when refiners put their prices down very low. It has now become apparent that the proposed reduction in the tariff will not take effect The act prohibiting the important or foreigners and aliens under contract or agreement to perform labor in the United the whole jobbing trade seemed to realize at the same time the change of conditions. cedented.

SHOE WORKERS' CONVENTION.

A Fall Board of Officers Chosen by the International Association.

ROCHESTER, N. Y., June 6 .- At this morning's session of the Boot and Shoe Workers' International Association convention the following officers were elected: President, Charles Irish, Hamilton, Ont.; President, Charles Irish, Hamilton, Ont.;

IMPROVING THE HAND. IS THE CAUSE OF A RISE IN THE PRICE | Cutting the Tendens to Assist in Freedom of Pinne Playing. PECIAL TELEGRAM TO THE DISPATCE.

NEW YORK, June 6 .- Music Teacher E. S. Bonnelli, of San Francisco, received an invitation from several piano instructors some time ago to come to New York and exhibit his process of obtaining freedom for the third or ring finger by severing the accessory slips of tendon. Mr. Bonnelli gave an exhibition to-day in Steck Hall to score or more piano teachers. With Mr. Bonnelli was Carrie Bowes, 12 years of age, the first child on whom he has performed the operation. Carrie proved that operation had increased her force and freedom of execution on the piano. Then Mr. Bonelli, in the presence of a committee of teachers, performed the operation on the stage of cutting the accessory ligaments in a boy's hand. The hand was first sprayed with

cocaine, so that the operation was painless.

Then, with a slender, needle-like instrumeat, with a sharp cutting edge, Mr. Bonelli, holding the back of the hand upward, punctured the skin on the left of the third finger, back of the knuckle, and gave a sharp cut downward. The tendon could be heard to snap as the knife severed it. Then the tendon on the other side was severed. The boy was smiling during the operation. Scarcely any blood flowed, and the two wounds looked like pin pricks. Before the operation was performed Mr. Bonelli got the boy to spread out his hand as far as possible on a page in a big album, while he worked around the fingers with a lead pencil to get the outline of the hand. After the operation this performance was repeated, and it was found that the boy could stretch with thumb and little finger considerably more than one inch further than before more than one inch further than before.

Sold for Half a Million. NEWARK, N. J., June 6.-Richardson Brothers' large saw manufactory has been sold out to a syndicate for \$500,000. The company takes one-third of the stock. The syndicate is headed by Henry Disston & Co., of Philadelphia.

Thirty per cent under current price for made-to-measure

NEW ADVERTISEMENTS. Not a Pimple on Baby

Baby one year old. Ead with Eczems. Hair all gone. Scalp covered with eruptions. Cured by Cuticura. Hair splendid and not a pimple on him.

Cured by Cuticura

I cannot say enough in praise of the CUTICURA REMEDISS. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctors said was scall-head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the CUTICURA REMEDIES, and, I am bappy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the CUTICURA REMEDIES to mothers as the most speedy, economical, and sure cure for all skin discusses of infants and children, and feel that every mother who has an afflicted child will thank me for so doing. SUPERFLUOUS HAIR On the Female Face

On the upper lip, chin, cheeks, forehead, beween the eyebrows, on the nose, neck, hands and arms destroyed forever by the ELECTRIC NEEDLE OPERATION

By Dr. J. VAN DYCK, Electro Surgeon, 502 Penn ave., Pittsburg. This is a purely scientific operation and indorsed by all physicians as Mr. M. McLean, a weil-known gentleman of Allegheny, residing at Wood's Run, had suffered from catarrh for many years. The mattery secretion that gathered in his throat was very tenacious and hard to raise, and as some of it dropped down into the bronchial tubes of his lungs he began to cough. He had pain over his eyes, and his head would often feel dizzy. He took cold very easily, and as his disease further advanced he coughed day and night, and worse during the night. In fact, his cough was so severe that he would spit up blood. After receiving a course of treatment from the Catarrh specialists at \$23 Penn avenue, he gave the following statement for publication, with his named signed to it, as positive proof of his complete cure: "My disease was of long standing and continued to grow worse until I became afraid of consumption, I now feel like a new man and am gial to testify to my complete cure by these specialscalp. Office 502 Penn ave.

DAILY CARD OF REASON, KAUFMANNS'

NEW ADVERTISEMENTS.

THIS WILL BE THE BANNER DAY

KAUFMANNS' GREAT \$8.90 SALE!

MEN'S SUITS WORTH \$14, \$15 AND \$16.

These are Suits scooped in by us recently from S. & J. Werner, the famous New York manufacturers. The particulars of this gigantic purchase (4,215 Suits) published by us a few days ago, created a profound sensation, and induced hundreds upon hundreds to come, see and buy. A noteworthy feature of the excitement was the sight of scores of business and professional men (men who have never been known to attend sales of this kind) to elbow their way through the crowds, try on a few of the garments, and invariably wind up by saying: "Here's your \$8 90; wrap it up." We expect the rush and enthusiasm to reach their height to-day.

Some of the best of the 4,215 Men's Sack and Frock Suits, which comprised this great scoop of Fine Clothing, will be trotted out to-day. Don't let the low price (\$8 90) lead you to believe that these Suits are but ordinary goods. Nothing could be further from the truth. The fact is these Suits are made of stylish All-wool Cassimeres, Worsteds, Corkscrews, Cheviots, Flannels and Serges, in light and dark colors, and fit to perfection. The cheapest Suit in the entire line should have been sold at \$14, while the big majority was expected to bring \$15 and \$16. But

who talks about regular prices at this sale? We sell the goods as we bought them-at about 60 cents on the dollar.
