Complete Reports as to the Production and Prospects in the

GOLD AND SILVER TERRITORY.

Most Mining Companies are Receiving Satisfactory Returns.

INVESTMENT OF ENGLISH CAPITAL

ISPECIAL TELEGRAM TO THE DISPATOR. NEW YORK, June 8 .- The following reports have been received from the leading

mining centers of the West: PHENIX-The low grade ore mine the Phoenix Mining Company, located about 30 miles north of this place, has been taken hold of by the managers of the reorganized company with the view of being worked all it is worth. The ore is easily worked with pick, bar and shovel, and little blasting is required. The claim is really a hill of low grade gold ore, into which shatts have been run several bundred feet from the west and bouth at different levels, and with the result of establishing the uniformity of theore. A large number of assays show an average yield of \$6 per ton. Exceptional deposits, yielding \$30 to \$40 per ton, have been found, but they contain lead as well, and in the absence of concentrators that ore cannot be worked to advantage. The claim has never been properly worked. It was leased for a time, but entirely for the benefit of the lessee. The new management, under the direction of President A. G. Bradstreet, of New York, a practical mining engineer, is working the 20 stamp mill to its full capacity, and is putting up ten new stamps. The number should be doubled, as the success of the mine simply depends upon the amount of ore that can be crushed. The ore is in sight, and the more of it that is run through the mill the better for the owners. The present mill is driven by steam, but a comparatively small expenditure would enable the company to run 50 to 100 stamps by water for at least eight months in the year, by diverting the water of Cane creek, which russ by the claim, over a wheel. The capacity of the present mill is 30 tons a day which will be increased one-third by the ten new stamps. The mine is not an expensive one to work. Eight men supply the present mill with ore and do the necessary dead work. Wood costs \$1 per stamp per day, and water is readily obtained from Cane creek. Local interest in the claim is strong, because it is believed its develop-

SOME OFFICIAL FIGURES, Tucson-John F. Blandy, Territorial Geniogist, made his report from 1889 last week to the Governor, showing the product particularly of Pims county. The report timates the product of the territory as follows: Mojave county, \$644,981; Yavapai, \$624,467; Yuma, \$118,900; Maricopa, \$43,-680; Pima, \$671,953; Pinal, \$187,370; Bochise, \$232,881; Graham, \$3,554; Gilas, \$16,-720. This gives a total of \$2,564,215. The production of copper was 30,446,900 pounds. Lead has been shipped to the several smelters throughout the country and no record can be made of it. The C. O. D., Copal, Prince, George, Infallible, Night-hawk and Rip Van Winkle in Mojave county are recommended as especially worthy of development. They are well defined veins in a gneiss-syenite formation, with every indication of permanency, and all are carrying high grade silver ore. Yavapai county the Congress has been the largest producer during the year, the ore being a pure iron sulpheret carrying from 7 to 9 ounces per ton. The output in Mari-copa county has been considerably decreased by the shutting down of the Vulture mine during the last year.

ment will benefit this whole region.

The opening of the Harqua Halla mining district has been the most noted event in Yuman county. The product in Pima county is: St. Patrick, \$84,600; Harshaw, \$86,211; Mammoth, \$14,000; Owl Head, \$25,838; Nogales, \$28,589; Crittenden, \$147,-000; Tueson, \$137,712 Pantano, \$155,808; Nonpareil, \$4,990; Express Company, \$5,-649, and from other sources, \$67,641; making a total of \$671,958 for this county, making her the banner producer of the Territory. The Owl Head mines, in this county, are fast coming to the front as a bullion producer. Mr. Ellmore, the owner, will soon have all the work done preparatory to mak-

ENGLISH CAPITAL.

SAN ANTONIO-The Dolores group of silver mines, east of Chihunhua, Mexico, have just been sold to an English syndi-cate, Messrs. Smith & Friend retaining a portion of the stock. The price paid was \$750,000. The report of the expert, Herbert Strickland, sent out by the English com-pany, was entirely favorable. Prof. Strickland has taken charge of the mines as their superintendent, representing the purchasers. The work of erecting a ten-stamp mill has been rapidly pushed forward, and it will soon be in operation. The Pinos Altos, near the Dolores group, is turning out \$40,000 to \$60,000 of silver bullion such mouth. A dayman has just bullion such mouth. lion each month. A dynamo has just been put in to separate the gold from the silver. The Jesus Maria mines, also in Mexico, are doing finely. All the English companies working in the Sierra Madras are said to b making money. Two representatives of the Philadelphia Smelting and Refining Com-pany have been at Eagle Pass, Texas, for the past few days. They have been investi-gating the advantages offered at Piedras Negras, just across the Rio Grande river from Eagle Pass, for the establishment of smelters, which the company has determined to build in Mexico. San Louis Potosi, Monterey, Sabinas and Piedras Negras all offer inducements, but the choice lies between Sabinas and Piedras Negras. It is asserted by these representatives that their company, in combination with other syndicates having a total capital of \$6,000,000, would locate the propose smelters in Eagle Pass, Texas, but for the McKinley bill.

THE SITUATION IN ORIO. IDAHO CITY-S. C. Bowen, General Manager and Superintendent of the Elkhorn Mining Company, strived from Boston on last Monday. He says he will begin work as soon as seams can take supplies to the mine and baul timber. The snow is so nearly gone that teams can be taken over ds in the course of a week or ten days. Mr. Bowen says a new sawmill will be here in a few weeks, when he will commence cutting timbers and make other preparations for the erection of 25 addi-tional stamps. The mill that has been used heretolore is only five stamps, but is capable of crushing from 12 to 15 tons of ore per day. Superintendent Whitney, of the Middy group of mines, also owned by a Boston company, is purchasing logging teams, so that he will be ready to commence sawing as soon as the mill arrives from Ohio. The 20-stamp gold mill will be shipped as soon as it is built, and it is Mr. Whitney's object to have the timbers for it cut as soon as possible, so that no time will be lost in getting it ready for running. The Muddy mines are in a rich dis-trict, where there has not been a mill, and Mr. Whitney's operations will undoubtedly cause others to follow and invest in some of the properties there. It is understood that the owners of the Ohio, also Boston capitalwill erect a 20-stamp mill this year. Taken altogether, the prospects for Boise county were never before as bright as now. SOME VERY RICH ORE.

SILVER CITY-A shipment of about thirty tons of ore from the Dos Cabesas mine, in Mexico, is at Deming awaiting shipment.
The ore will probably average over \$1,600
per ton, and was shipped from the mine
several weeks ago. James Keck, of the
firm of Keck & Harper, owners of the Dos
Cabesas mine, was murdered near the Carretas ranch two weeks ago, as he was coming over the trail from the mine to Deming to attend to shipping the ore. Previous shipments from this mine have returned as high as \$1,000 to

the ton, and the lot new in Deming assays over \$1,600. The Dos Cabesas mine is one of the best yet opened by Americans in the Sierra Madre Mountains. It is said that the Mexican Government will impose an export duty on all ores exported from that country to the United States after July 1. There will be no export duty on bullion. There will be no export duty on bullton.
This action will put an end to the ore
traffic between Mexico and the United
States which was of considerable importance until it was partially destroyed by this
Government. The Graphic mine at Cook's Peak now ranks well up among the big mines of this part of the territory. The net monthly operating expenses, cost of transportation and reduction are not given, but will swell the total value of the monthly output of this mine to about \$30,000. Withoutput of this mine to about \$30,000. Within the past year this mine has brought
Cook's Peak from a comparatively insigncant camp to rank among the important
camps of Grant county, and its output for this year will probably be exceeded only by Georgetown and Pinos Altos. It is reported from Hachita that a rich strike has been made there by a tenderfoot. He started in to work where no miner would ever have thought of putting in a shot, and struck a blind lead which is said to be very rich. The richest mine now operated in that camp was struck by accident, but has now been producing for a year. Miners in that camp will probably do some wildcat prospecting on the strength of these

EXCEPTIONALLY FORTUNATE

In Being Found Guilty of No Greater Crime Than Manslanghter.

ISPECIAL TELEGRAM TO THE DISPATCH. BELLAIRE, June 8 .- Judge Driggs yes terday afternoon sentenced Wm. Robinson to the penitentiary for six years for the killing of Christian Ashoff during a quarrel about sprinkling ashes on the sidewalk in this city last February. In passing sen-tence on Robinson the Judge said the jury had shown excessive ciemency in finding him guilty of manslaughter, and that his offense was a greater crime according to the

His son, Dexter Robinson, who participated in the quarrel, was given six months and \$200 fine for assault and battery.

SOME RICH IRON ORE BEDS Discovered While Drilling for Oll in a West

Virginia Town. PEPECIAL TELEGRAM TO THE DISPATOR. FAIRMONT, W. VA., June 8 .- White drilling for oil at the Colfax well the drill, at a depth of but 18 feet, struck a ledge of iron ore five feet thick and very rich in quality. A few feet deeper a second vein, three feet thick was struck. Landowners and the people generally are greatly excited over the find.

SAXTON HAS STOPPED SHORT,

Probably Never to Go Again Till Operated by a New Company.

SPECIAL TELEGRAM TO THE DISPATCH. EVERETT, June 8 .- The Saxton Furnace has been closed down indefinitely, and it is not likely that it will be put in operation again until it is sold and a new company or-

There are \$1,000,000 of mortgages and bonned debt against it and the ore right and real estate belonging to the property. A large number of the employes have obtained work at the Everett Furnace.

Newfoundland People Are Beginning to Talk

ST. JOHNS, N. F., June 8 .- Several of the leading citizens of this place, in interviews regarding the fisheries trouble, say the next step will probably be the organization of a volunteer force and the erection of fortifications. The people of Newfoundland are showing a steady determination to maintain their rights.

The newspapers are more outspoken on the subject than are the delegates. The the subject than are the delegates. The Herald says that England must fight France or abandon her British-American possessions. The Colonist, commenting on the foreible removal of herring nets by a force from a French warship at Bay St. George, says the British tar must have deteriorated very much in quality when he stood by and saw British property injured and British subjects ruined by a handful of Frenchmen.

The British naval officer on this station. The British naval officer on this station, the paper says, should be clad with petticoats instead of breeches and adorned with a lawn tennis racquet. The ships are in Newfoundland waters ostensibly for fishery protection but in reality to bolster up the French claims and play lawn tennis.

A SECOND DEVASTATION.

The Capon Valley in West Virginia Visited by Destructive Floods.
[SPECIAL TELEGRAM TO THE DISPATCH.]

ROMNEY, W. VA., June 8 .- News from the Valley of the Capon, in the eastern part of this (Hampton) county says the country has been inundated by a storm which has washed away much of the soil of the vailey farms, destroyed crops and a great amount of property.

This vailey was devastated one year ago,

and the loss of two crops in success result in destruction to many.

A Word About Catarrh.

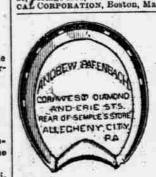

"It is the mucous membrane, that wonderful semi-fluid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established, it eats into the very vitals, and renders life but a long-drawn breath of misery and disease, dulling the sense of hearing, trainmeling the power of speech, destroying the faculty of smell, taint-ing the breath and killing the refined pleasures of taste. Insidiously, by creeping on from a simple cold in the head, it assaults the membraneous lining and envelops the bones cating through the delicate coars and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient, and all alleviatives are simply procrastinated sufferings, leading to a fatal termination. SANFORD'S RADICAL CURE, by Inhalation and by Internal administration, has never failed; even when the disease has made frightful inroads on delicate constitutions, learing, smell and taste have been recovered, and the disease thoroughly driven out."

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE consists of one bottle of the RADICAL CURE, one box CATARBHAL SOLVENT, and one IMPROVED INHALER, neatly wrapped in one backage, with full directions; price, \$1. braneous lining and envelops the bones cat-

COUGHED DAY AND NIGHT Permanent Cures Made by the Catarrh Specialists at 323

Penn Avenue Continues.

Mr. M. McLean, a well-known gentleman of Allegheny, residing at Wood's Run, had suffered from catarrh for many years. The mattery secretion that gathered in his throat was very tenacious and hard to raise, and as some of it dropped down into the bronchial tubes of his lungs he began to cough. He had pain over his eyes, and his head would often feel dizzy. He took cold very easily, and as his disease further advanced he coughed day and night, and worse during the night. In fact, his cough was so severe that he would spit up blood. After receiving a course of treatment from the Catarrh specialists at 223 Penn avenue, he gave the following statement for publication, with his named signed to it, as positive proof of his complete cure: "My disease was of long standing and continued to grow worse until I became afraid of consumption. I now feel like a new man and am glad to testify to my complete cure by these specialists."

M. McLean.

Please bear in mind that THESE SPECIALISTS HAVE BUT ONE OFFICE, and which is PERMANENTLY LOCATED at 233 Penn avenue.

Also please remember that this is the only

is PERMANENTLY LOCATED at 323 Penn avenue.

Also please remember that this is the only institution in Pittsburg where only Catarrh, Dyspepeia and Diseases of Women are received for treatment, preferring to treat these diseases successfully rather than attempt to cure all diseases.

Office hours, 10 A. M. to 4 P. M., and 6 to 8 P. M. Sundays, 12 to 4 P. M.

Consultation free to all. Patients treated successfully at home by correspondence. Send two 2-cent stamps for question blank and address all letters to the Catarrh and Dyspepsia Institute, 323 Penn avenue, Pittsburg.
